

“He did it!”

“Ye Fan has done it!”

“Wanyu, take a look! Ye Fan has managed to block it off!”

Just as everyone thought that Ye Fan would not make it this time around, Angie suddenly pointed at the youthful figure in the air and exclaimed excitedly.

Instantly, the crowd looked up.

All eyes fell on Ye Fan.

They saw a slender, golden figure flying across the sky.

At that moment, Ye Fan might not have lost to Cloud Sun Immortal Army yet, but he was still fighting them off.

Both parties were evenly matched, and the battle came to a stalemate.

Everyone was shocked at what they saw.

“What?”

“How is it possible that he can block it off?”

“Oh, my!”

Chapter 1677

“This is totally insane.”

“After the huge fight with Chu Zhengliang, how can he still withstand the Cloud Sun Immortal Army?”

“Perhaps he has an endless amount of elemental force in him?”

Mochizuki Kawa and the rest of them were stunned.

However, the Sword Saint and Aaron remained silent. They simply frowned and stared ahead.

After all, both parties were still at a stalemate. There was no way to predict who the winner might be.

Just when both Ye Fan and the Cloud Sun Immortal Army refused to give up, everyone heard some sounds.

Whoosh! Whoosh! Whoosh!

Suddenly, three dark figures from the Chu family flew up toward them.

The three fighters from the Chu family flew toward Ye Fan at lightning speed.

“Oh, no!”

Chapter 1677

“The Chu family is going to sneak up on him!”

“Dragon Master, watch out!”

When Gaius and the rest of them felt the strong murderous intention of the three figures, they turned pale with fright.

They started yelling and charged forward to help Ye Fan.

Unfortunately, by the time they realized the intention of the Chu family's fighters, it was already too late.

The three of them had joined in the fight, and in a very short amount of time, they were behind Ye Fan.

Together, they struck.

Bam! Bam! Bam!

Three palm prints fell harshly onto Ye Fan's back.

At that moment, he was engrossed in his fight with the Cloud Sun Immortal Army. It was impossible for him to block off the sneak attack even if he had detected their presence.

After all, there was no way Ye Fan could defend himself when he was attacked from all sides.

Chapter 1677

In the end, he had to use his Dragon God Body to withstand the powerful forces of the three fighters.

Even so, the move was not invincible.

After many fights in a row, it had taken a toll on Ye Fan.

Now that he was under attack from the Cloud Sun Immortal Army, there was no doubt his Dragon God Body had also been greatly weakened.

The powerful attack from the three fighters was the last straw for him.

Everyone could see a dent appearing on his back.

The very next instant, they could hear a loud sound.

After that, he began throwing up blood and internal organs.

It was as if a domino effect had been set into motion. The moment Ye Fan suffered the attack on his back, he could no longer fight the Cloud Sun Immortal Army anymore.

In the end, the attacks completely overwhelmed him.

Chapter 1677

Amidst the sea of clouds, they could see the proud young man shuddered, and blood came gushing out of his mouth again.

His body immediately fell to the ground like a kite with a broken string.

The moment Ye Fan collapsed, everyone including Gaius, Owen, and Su Muqiu, were all taken aback.

As for Han, the triumphant joy and exhilaration he had felt earlier on were gone.

The butler had initially thought that they had fulfilled their dream.

Nobody expected the situation would reverse in the blink of an eye.

Han and the others had worked so hard. In the end, they had to witness their dream dashed at Mount Chumen.

“No...”

“Ye Fan!”

“Ye Fan...”

Once Angie had recovered from her shock, tears began streaming down her face.

Chapter 1677

Her pitiful wails resonated within the Chu residence.

She wanted to run to Ye Fan, but she was once again held back by her family.

Still, the young woman kept struggling and crying.

I don't understand. How did things turn out like that?

He did it. Ye Fan has already won.

But why did it still end this way?

“B*stards! The Chu family is a bunch of b*stards! The Dragon Master spared all of you because you're related by blood. All he wanted was for all of you to proceed to China and apologize. But the lot of you went back on your word and used such a despicable manner to defeat him. All of you are animals! I, Gaius, will kill the entire Chu family even it means that I will perish today. I must avenge the Dragon Master!”

After the immense sadness, a fiery rage rose within the hearts of Gaius and the rest of them.

The Dragon Slayers roared angrily and charged at the Chu family.

Chapter 1677

“All Chu Family Protectors, listen up! Stop them!”

Once their sneak attack had been successful, the three elders of the Chu family, including Chu Shen, came back to solid ground.

It was Chu Shen who had led the sneak assault on Ye Fan earlier on. He was the most senior among the three of them.

At their peaks, they had once held the titles of Supreme.

However, as age caught up with them, they could no longer fight long battles.

Nevertheless, the three of them could still summon astonishing power when they combined forces at a crucial moment.

“Yes!”

Following Chu Shen's order, the thirty-six fighters from the family appeared and surrounded Gaius and his group.

They then joined forces to battle the Dragon Slayers.

Although none of the Chu family protectors held the title of Supreme, they had fought together for several years and were well-

Chapter 1677

coordinated.

On top of that, they could hold Gaius and his group off with the secret technique of the Chu family alone without the help of the Cloud Sun Immortal Army.

Looking at what was happening, Chu Shen and the rest snorted, "Just as I thought. The only one who is difficult to handle was you, Chu Tianfan. The rest of them may be powerful, but there is nothing special about them. Hence, we have no reason to fear them!"

After eliminating Ye Fan, the Chu family was calmer and more collected.

After ruling the martial arts world for so many years, the family had a strong foundation.

They were not scared of any fighters. Instead, they were fearful of unexpected changes.

Although Gaius and the others were Supreme Grandmasters, that was within their expectations.

The Chu family could handle mediocre Supreme fighters like them.

However, Ye Fan was a different story.

His capabilities were deep and immeasurable.

Chapter 1677

Even his secret moves were endless. It was impossible for the Chu family to guard against him.

A devil who did not play by the rules terrified them the most.

Thankfully, Ye Fan finally succumbed to the well-coordinated attacks of the Chu family.

It was only a matter of time before they finished the rest of his subordinates.

“Grandpa Shen, is Chu Tianfan really dead? I'm worried that something unexpected might happen.”

Chu Qitian had wanted to check on Ye Fan, but he was scared the latter might be alive.

“Relax! The three of us have hurt the b*stard before the Cloud Sun Immortal Army seriously injured him. We attacked him from all sides. No one will be able to withstand such a barrage of assault and still be alive! If you are worried, take a few men with you to check it out for yourself. If he is still breathing, finish him with a few more stabs. Send him off to hell!” said Chu Shen with absolute confidence.

With the three Supremes attacking him out of the blue and the Cloud Sun Immortal Army assaulting him directly, even someone like Chu

Chapter 1678

“Okay.”

“Grandpa Shen, I will bring my men to check it out now.”

Upon hearing that from Chu Shen, Chu Qitian began to feel relieved.

Without delay, he brought a few men to the debris where Ye Fan had fallen. He intended to inflict more attacks on the latter to make sure the man was definitely dead.

Meanwhile, the battle between the Dragon Slayers and the Chu Family Protectors continued.

The team of thirty-six men managed to hold down Four Supremes with their well-coordinated attacks.

“Old Shen, we should not waste any more time. Let’s finish them quickly! If this conflict continues, the reputation of the Chu family will be ruined completely.”

The three elders of the Chu family had restored their body strength after resting for a while.

They decided to make another move while they still had the advantage.

“Okay!”

Chapter 1678

Chu Shen nodded right away.

The three elders exchanged a look among themselves. Then they stomped their feet on the ground and leaped into the air.

“Heavenly Wolf!”

“Demonic Tiger!”

“Green Celestial Dragon!”

The three elders cast their moves simultaneously to execute the Chu Sect Fatal Moves once again.

After the trio joined the battle, the scale of balance tipped in their favor. Victory was within the clan's sight.

Gaius and the other Dragon Slayers had a hard time holding up against them.

Bang! Bang! Bang!

The Wind God and the Earth God were defeated instantly.

After the three elders of the Chu family successfully landed an attack, they pressed forward against the opponents.

The flurry of strikes was swift like a

Chapter 1678

thunderstorm, targeting Gaius and the rest.

Just then, the thirty-six protectors of the Chu family seized the opportune moment and joined the attacks.

Aggressive waves of Qi shot out like arrows from every direction at Gaius and the rest.

The four Dragon Slayers from the Dragon God Hall were in deep trouble in the blink of an eye.

The power of the Chu family was unleashed in a terrifying display at this moment.

No matter how strong Ye Fan was, the Dragon Master was alone.

If he got defeated, there would be no one else to support him. It would be the end of the Dragon God Hall.

However, the Chu family was totally different.

Even if Chu Zhengliang was defeated, there would still be the elders of the Chu family, the Chu Family Protectors, and the family's defensive formation handed down by their ancestors.

That was indeed the true strength of an ancient clan.

Chapter 1678

Their elites came in a myriad of ways.

Even though the Dragon God Hall had the Dragon Slayers, they paled in comparison with the enemy.

The four men usually went their separate ways and fought as a single entity. Hence, in terms of cooperation and formation, they were no match for the Chu family.

Of course, they were a formidable force to defeat under Ye Fan's leadership.

However, if the man fell, the entire team would shatter.

Without Ye Fan as the pillar of strength, the Dragon Slayers were in a mess.

They lapsed into defeat in a head-on confrontation with the elites from the Chu family.

Han saw with his own eyes that the team he had been training for over ten years collapsed due to organized attacks from the clan.

Nevertheless, the Chu family did not seem to ease after defeating Gaius and the others.

“Chu Family Protectors, follow my order. Kill every single one of them and leave no loose

Chapter 1678

ends!” Chu Shen instructed indifferently.

“Yes, sir!”

The thirty-six guards responded simultaneously as they pulled out their swords from the sheaths.

Dividing into four teams among themselves, they charged mercilessly at the Dragon Slayers.

Zing! Zing! Zing!

One after another, the protectors gathered their qi at the tip of their swords and hurled the invisible arrows at their targets.

Right at that moment, the Dragon Slayers were akin to a candle in the rain.

They had no chance to fight back at all.

They collapsed to the ground, struggling to avoid the rain of attacks.

Yet countless swords covered the entire sky like a net.

Initially, they could still evade the assault. However, as the qi from their swords intensified, the four men had nowhere to hide.

Indeed, a single sword was not enough to break

Chapter 1678

a Supreme's defense.

However, no one could escape from thirty-six swords.

The next moment, the cuts appeared one by one. Every wound was oozing with blood.

“Enough! Bast*rds, stop it. Don't hurt them! Stop right now.”

Han's heart twitched in pain as he witnessed the Dragon Slayers getting tortured by the Chu family.

The color drained from his face, his eyes beaming with tears.

He cried helplessly, wishing he could rescue the Dragon Slayers.

No one could understand the butler's current feeling.

After all, he had poured his blood and sweat into training the four.

They were his biggest achievement in life.

He had never felt such agony before as he watched them suffering at the edge of death.

He could not bear to see them endure any more

Chapter 1678

pain.

“It looks like the dust has settled. The young man from China could not create a miracle after all.” Aaron let out a sigh upon seeing the brutal scene.

“That's right. Chu Tianfan is still too young and naive. There is no way one can defeat an upper echelon like the Chu family by simply eliminating one of them. If he really wants to defeat them, he not only has to defeat Chu Zhengliang but also all the elites from the entire family! That is hardly a one-man job.”

The crowd was left bewildered.

While they were sympathetic of Chu Tianfan's plight, the Chu family's strength also amazed them.

The clan was indeed the top martial arts family in the world. Each warrior of them was more robust than numerous Supreme elites.

“Hahaha! It's finally over! Once all his subordinates die, Chu Tianfan's revenge plan will fail!”

Chu Qitian let out a boisterous laugh upon seeing Gaius and the rest in terrible shape.

Just then, he reached the site where Ye Fan had

Chapter 1678

fallen.

However, before he could instruct his men to dig into the debris, a few rocks suddenly fell before him.

To his bewilderment, a slender figure covered in blood crawled out from the debris.

“This... How could it be possible? Is he a man or a ghost?”

Staggering back in fear, Chu Qitian lost his footing and fell to the ground.

The others were dumbstruck as well.

“Holy cr*p! Is this for real? He's still alive!”

“How can he still stand?”

“Is he made of iron?”

Everyone at the scene froze on the spot after seeing Ye Fan standing in front of them. Alive!

Chu Shen's eyes widened in horror.

He could not believe his eyes.

He got attacked by Cloud Sun Immortal Army and also secretly assaulted by the three of them. How could he still stand?

Chapter 1678

“He's just forcing himself. Even if he could still stand, he couldn't possibly fight anymore!”

Chu Shen sounded like he was trying to reassure himself.

Yet Ye Fan's power exploded again the next moment. Upon seeing that, the Chu family became more terrified.

“Dragon Master!”

“He's back!”

“He's standing up again!”

On the other hand, Gaius and the rest could not suppress their excitement.

It was too surreal, as if a traveler in the dark saw the sunlight he had been waiting for.

The light was so warm that it re-ignited the hope in their hearts.

Chapter 1679

Some people were born to be kings.

They did not need to utter a word, but their charisma could attract the entire world.

Ye Fan was like that. He was merely standing there. Yet everyone was in awe of his presence.

From far away, he looked like a beam of light that had blossomed in the depths of night.

“You bunch of despicable pests. I'm not dead yet.”

After a long silence, Ye Fan's loud voice echoed through the place.

His voice was thunderous, like a gong.

“Hahaha! Brothers, let's rise. It's not over yet! The Dragon Master has not given up yet. Let's not lose hope.”

After hearing Ye Fan's words, it motivated the Dragon Slayers and their eyes lit up.

The decadent gazes from earlier were replaced by optimism and hope.

After Ye Fan stood up, the four Dragon Slayers, who were covered in blood, followed suit.

“That's right! It's far from over. The Dragon

Chapter 1679

Master is still standing. So should we! Hahaha! I feel so energized right now. Come on, brothers. Let's fight together with the Dragon Master. Let's follow into battle."

Under Gaius' lead, Owen, Su Muqiu, and the rest were overwhelmed with fighting spirit.

Ye Fan was alone in the previous battle with the Chu family.

The men couldn't interfere with lending him a helping hand.

They thought the Chu family would hold up to the end of the deal after losing to Ye Fan in one-to-one combat.

However, it turned out they were lying.

It seemed like they would not surrender unless they suffered a thorough defeat.

With that thought planted firmly in their minds, the four Dragon Slayers rushed out and stood by Ye Fan's side.

Even though they were bleeding badly, their power still seemed extraordinarily intimidating.

Not to mention, Ye Fan's gaze was menacing and baleful, which made those around him shudder with fright.

Chapter 1679

“Old Shen, what should we do now? This bast*rd is too hard to beat. I'm afraid if we continue the battle, we will pay a great price even if we manage to win in the end!”

At that instant, everyone in the Chu family started to pale in fright from their opponents' dominating aura.

Even Chu Qitian, who used to be arrogant, started to show hesitation.

It was apparent that he was afraid, too.

After all, Ye Fan had been showing extraordinary power up till now.

The elders of the Chu family could not comprehend how the man could be so strong.

Chu Shen furrowed his brows and pondered for a long while.

In the end, he stood up and glanced at Ye Fan. “Even though I don't know what method you used to survive the Cloud Sun Immortal Army. But since you could escape from death, it means it's your destiny to be alive. We respect that. Hence, I will give you a chance to survive. If you don't wish to die, apologize to us now, along with your men. You'll have to swear that you won't come to the Chu residence forever. Heaven will punish you and you will suffer a

Chapter 1679

fate more horrible than death if you break the oath!”

Chu Shen crossed his arms and spoke rudely.

The arrogance in his tone was palpable.

Upon hearing that, Angie heaved a sigh of relief.

“Ye Fan, please stop fighting, shall we? Just apologize. If we continue to fight, I'm afraid you will get hurt.” She ran over to Ye Fan and started persuading him.

There were still tears beaming in her eyes.

She wasn't the only one. Aaron and the rest of the crowd who were watching felt the same.

“That's right. It's a good chance. Let's make peace with the Chu family! You have defeated the head of their family. Even if you apologize to them, their reputation will be ruined. And you, on the other hand, will gain a lot of fame after going back to China! You will lose nothing if you choose to give in now!”

Aaron the Great Emperor helped Ye Fan to analyze the pros and cons.

“That's right, Ye Fan. It's enough. Stop fighting with the Chu family! They have a long martial

Chapter 1679

arts history, and their elites are unbreakable. You won't be able to defeat them even if you gather the entire country to support your cause. If you don't stop now, I fear you might lose your life! You have the blood of the Chu family in you, too. You should know this better than anyone. So, why throw your life away like this? Since the Chu family is willing to stop the battle now, you should grab the opportunity. You will get a good reputation and fortune while they lose theirs. This point alone is worth it, and you should be satisfied."

Tang Hao became anxious as he stood up to advise Ye Fan, too.

The latter's lips curled into a smile upon hearing all those words.

Suddenly, he let out a self-deprecating laugh.

"Hahaha. Fame and fortune? Do you think those were what I am after? There is only one thing that I want! Before this, I didn't want to make things look bad for Great-grandma's sake. Yet, the Chu family did not keep their word! Since they chose to be merciless, they can't blame me for treating them the same! I will make them perish on this earth!"

Ye Fan's words were firm and harsh.

All his words were enunciated and left everyone

Chapter 1679

on the spot dumbstruck.

The Chu family widened their eyes in bewildered surprise. “Make us perish? What an arrogant punk! How dare you say such a thing! You asked for this. Chu Family Protectors, listen up! Gather the Cloud Sun Immortal Army again! I don't believe he will be able to survive this a second time!” Chu Shen roared wrathfully.

Meanwhile, Ye Fan showed no trace of fear at all.

“Hahaha. I will be glad to respond to that! Today, I will smear the entire Mount Chumen in red with your blood!”

The Chu family's deception and dirty moves pissed ye Fan.

They had crossed his line, and this time, he wouldn't give them an out!

Boom!

Just then, the thirty-six guards of the Chu family had made a move.

They cast a spell and formed a formation in the blink of an eye.

They focused all their might and charged at Ye

Chapter 1679

Fan.

As the crowd was curious how Ye Fan would handle it this time, they were bewildered to see him taking a few steps back.

The next second, the four Dragon Slayers stepped up in front of him.

“Huh? Is he going to sacrifice his subordinates?”

The Sword Saint and the rest could not wrap their heads around it.

Everyone thought it would be suicide to send the Dragon Slayers.

Yet Gaius and the others displayed confident smiles on their faces.

“Guys, let's go!”

Chapter 1680

Gaius let out a low growl.

The next moment, four forces emerged from them and turned into four dragons.

Their overpowering presence ravaged in all directions like rays of blinding light.

Finally, their powers gathered in one place.

It was widely known in the martial arts world that a Grandmaster had the power to rival the dragon while a Supreme Grandmaster its king.

The power of the Four Supremes combined would be beyond anyone's imagination.

A terrifying power drifted around Mount Chumen like sunlight.

"This... Did they master the Comprehensive Array Attack too? How is that possible? What destruction would there be in the wake of their combined powers?"

Everyone's jaw dropped upon witnessing that scene.

Goosebumps broke out over their skin.

The strongest Comprehensive Array Attack known in the martial arts world was the Cloud Sun Immortal Army of the Chu family.

Chapter 1680

After all, the formation was highly complicated and could be used by thirty-six men simultaneously. Not to mention, there were more than ten grandmasters among them.

It was rare to use Comprehensive Array Attack among Grandmasters because of the limited spells.

The martial arts world defined the Cloud Sun Immortal Army as the strongest.

Yet, the fact would change if Gaius and the rest could successfully execute a Comprehensive Array Attack.

It would be a record-breaking day in the martial arts world if it were true.

“Hmph! They are just bluffing. There will never be a Supreme level of Comprehensive Array Attack. They are trying to create a delusion. I bet their Comprehensive Array Attack is even worse than Grandmaster level. What a bunch of idiots! Do they think they can beat the Cloud Sun Immortal Army with any formation?”

Chu Qitian smiled coldly.

There was contempt and disdain in the eyes of the other members of the Chu family, too.

They did not think Gaius and the rest would

Chapter 1680

pose a threat to them.

The disrespect in their eyes was extremely obvious.

Meanwhile, the Dragon Slayers had finished forming the array.

Four intense energy beams shot out from the same place.

A moment later, Gaius, Owen, Su Muqiu and Cecil stomped the ground and shouted simultaneously, “Ice Fire Dragon, show yourself. Now!”

“Now!”

“Now!”

Boom! Boom!

Like a silvery dragon soared through the clouds and shot rays of light in the sky.

After their voices sounded, the initial peaceful sky suddenly became chaotic.

Layers of dark clouds covered the sky, and thunder roared wrathfully.

In the end, a bolt of lightning struck right on the beams of column formed by the four of them.

Chapter 1680

Upon that, a loud and menacing grunt could be heard clearly.

An enormous dragon figure emerged from the light.

It was around a thousand-meter long, covering the entire sky.

The scales on its body were as hard as steel.

Half of its body was bright red, while the other half was icy blue.

It was peculiar that the same creature could possess two opposite forces at the same time.

The fire was as hot as lava, while the ice was as cold as the north pole.

The two forces seemed to be able to reach a balance on the dragon's body.

As the two forces collided, an explosive energy kept being released outward.

Witnessing that deadly force, the Sword Saint, Mochizuki Kawa, and the other spectators were left in awe.

The color drained from the Chu family's elders' faces.

Chapter 1680

“Ice Fire Dragon? What kind of martial arts is this? It can even disrupt the weather and cause bolts of lightning.”

Many among the crowd expressed their amazement.

Chu Shen's eyes widened in disbelief.

A few seconds later, his face paled as he suddenly recalled something. “That's not good. This really could be the Supreme level of Comprehensive Array Attack! Patriarch Chu once said that the Supreme level of Comprehensive Array Attack could do exactly what the Dragon Slayers are doing now. That's right. This must be it! Hurry! Retreat now! Ask the Chu Family Protectors to retreat too!”

As Chu Shen came to the realization, his face turned utterly pale.

His eyes squinted, and rage pulsed through his veins.

Without delay, he ordered the entire family and their protectors to take cover.

However, it was unlikely Gaius and the rest would let them go.

The four Dragon Slayers from the Dragon God Hall used their mind to control the enormous

Chapter 1680

dragon. It charged fiercely into the eye of the Cloud Sun Immortal Army.

Boom!

A loud smack echoed throughout the place.

It felt like the whole planet was trembling.

The attack merely lasted for a few seconds.

Creak...

Just then, it sounded like something was cracking.

The Chu family noticed the array that was supposed to be perfect started shattering down before them.

“What? How is this possible?”

The scene before their eyes was just too shocking.

They expected the Cloud Sun Immortal Army to engage in a tight fight with Ice Fire Dragon before one of them got defeated.

Never in a million years did they think it would come down at such a quick pace.

It was a one-sided defeat.

Chapter 1680

Even after crushing the Comprehensive Array Attack of the Chu family, the Ice Fire Dragon remained at full blast.

It shifted its attention and targeted the thirty-six guards of the family.

“No! D*mn it! Stop!”

Chu Shen and the other members of the Chu family felt as if their hearts had been caught in their throats.

They shouted desperately, unable to accept what was happening.

Not to mention, the Cloud Sun Immortal Army was a formation that could break any formation cast by the Supremes.

Since the Ice Fire Dragon defeated the Cloud Sun Immortal Army, that meant it was above the latter.

Without a doubt, it could also kill any Supreme effortlessly.

Besides, none of the Chu Family Protectors was a Supreme.

The consequences would be dire if the Ice Fire Dragon's attack reached the protectors.

Chapter 1680

Nonetheless, the slayers were oblivious to the Chu family's desperation.

Their expression showed no sympathy at all.

In the end, the Ice Fire Dragon charged upon Chu Family Protectors ruthlessly.

“No...”

“Help me!”

“I don't want to die yet...”

There was hopelessness and fear in the air.

The thirty-six guards of the clan let out their final cries before their lives came to an end.

The next second, the thunderstorm created by the dragon consumed them.

Boom! Boom!

The entire Mount Chumen trembled as the ground split open.

That chaotic situation lasted for a few minutes.

The mess finally faded, and the place returned to peace.

The place where the protectors had been

Chapter 1680

standing became a large ravine.

There were corpses and broken limbs everywhere.

Crimson blood tainted the ground.

Half of the Chu residences became flat because of the forceful impact.

With that, the strongest guards of the Chu family were all dead.

Besides, many of the clan's subordinates were also victims of the Ice Fire Dragon.

The tense silence dragged on for a long while.

Many members of the Chu family sat decadently on the ground; their gazes filled with despair.
