

When His Eyes Opened Chapter 2328

Chapter 2328

These words completely ignited Leland's emotions.

Leland: "F*ck! Avery said that the liar will kill the whole family! She almost said let me die!"

Emilio held back a smile and couldn't hold back any longer: "Mr. Sirois, calm down. Avery is indeed like this. I don't hold back, and my words are particularly irritating. I'm also mad at her. Otherwise, why do you think I dare not touch such a good project? Isn't that offend her? Let's just forget about this project! How much money you invested in, I will return it to you as it is. I know that a lot of money has been invested in this project, and it is all yours."

Leland listened to his words, still angry: "I have so much money, even if I put it away. The bank can eat a lot of interest..."

"Then I will also pay you the interest. You and my father have been friends for so many years, I can't let you suffer." Emilio said generously, "Mr. Sirois, if there are suitable projects in the future, we will cooperate again."

Leland's anger subsided a little.

"Emilio, your attitude is not bad. It's just that you lose a lot of money like this." Leland frowned, "If your father was still alive, he would definitely scold you to death. Your father can't lose a penny."

"You also said that my dad is no longer alive. Now the Jones family is in my hand, and I can do whatever I want." Emilio said calmly, "In fact, even without Avery, I would still do it. I don't dare to make this money. The education I received since I was a child was given by my mother, not by my father."

"Understood. Since you have considered it, then do as you just said." Leland was discouraged, "Then what's your plan next?"

Emilio: "I haven't officially gone to work in the company. I will communicate with the company's senior management when I go to work."

Of course, Emilio couldn't tell Leland everything.

Leland: "Well, you can ask me if you don't understand anything in the future. I have a good relationship with your father."

Emilio: "Thank you Mr. Sirois."

After the meal, Emilio came out of the hotel, picked up his mobile phone, and saw the message from Avery.

Avery: [How's your talk going?]

Emilio: [We're done talking. I will give him back the money he put in. There will be no resurrection technique in the future, even if there is, it doesn't matter to me.]

Avery: [I thought you had water in your head.]

Emilio looked at her message and laughed: [I rejected him, he said he was looking for you to chat, and I asked him to look for you.]

Avery: [You have learned to be smart.]

Emilio: [Leland is so mad at you hahaha!]

Avery: [I don't know him, who asked him to come to me.]

Emilio: [Well, I won't have any interaction with him in the future.]

Avery: [What's going on with Norah?]

Emilio: [I heard that she is collecting evidence that my father is sick. She wanted to use this to justify the irrationality of the will. She has a really good way of thinking.]

Avery: [Was your father really sick before he died?]

Emilio: [My father was in his 70s, how could he not be sick? He was quite sick. Not only physically, but also mentally. Of course this is my guess. My dad was really mentally ill and would never let anyone know about it. I think he's really mentally ill. Every time I'm with him, I get depressed.]

If it is true as Emilio said, then Norah is likely to use this as a breakthrough.

Seeing that Avery didn't reply, Emilio continued to send her a message: [Don't worry, I already have a plan in mind.]

Avery: [What plan?]

Emilio: [Just wait and see.]

Avery: [So mysterious? Don't be foolish.]

Emilio: [Your mouth is so poisonous, how can Elliot stand it?]

Avery: [Is this poisonous? Are you too vulnerable? I used ten times the strength to hit Elliot, and his expression didn't change.]

Emilio: [

]

Avery put down the phone and went to Elliot.

Chapter 2329

Avery: "Husband, what are you doing?"

After the two of them came back from the appraisal center, Avery went to the bedroom to catch up, but she never fell asleep.

Elliot was not sleepy, so he didn't sleep with Avery.

Avery went downstairs and saw Elliot playing with some tools in the living room.

Seemed like... a fishing tool.

"Didn't you let me develop an interest in fishing? I decided to give it a try." Elliot continued to play with his fishing tools.

Avery watched him play with curiosity: "Husband, where are you going to go fishing? How about fishing in the rockery in our yard?"

Elliot: "???"

There was indeed a rockery in his yard. The rockery was in an artificial pond, where many species of fish were raised.

It's just that Avery asked Elliot to fish in the yard, and Elliot felt very funny and absurd.

What's the point of the fish caught like this by?

Why buy fishing tackle?

Elliot could directly take a net bag and went into the water to catch fish.

He Guaranteed to catch a lot of fish.

“Husband, your fishing rod looks so advanced!” Avery picked up his fishing rod and tried it out, “It’s so heavy. I guess I won’t catch the fish and my hand will break first. It’s over.”

Elliot: “You used to take Robert, but your hands are not good? This fishing rod is not as heavy as your son.”

“How can the fishing rod compare to my son?” Avery returned the fishing rod to him, “Let’s go to the yard. If you can catch fish in the yard, then let’s go outside and find a place to fish.”

“Also.” Elliot decided to go to the artificial pool to show his skills now.

If he didn’t show his skills, Avery would definitely not worry about him going out to fish.

The main reason was that the weather was cold and he didn’t have any fishing skills to go out to fish. Wasn’t that freezing in vain?

After a while, Elliot held a fishing rod in one hand and a stool in the other, and came to the artificial pool full of confidence.

Avery carried a large bucket and planned to load up the spoils later.

Avery walked to the pool with the bucket and glanced inside.

“Well, not bad...A lot of fish...” Avery was very satisfied with the fish in the pool, “Husband, there are so many fish, you can definitely catch one if you put the pole down.”

Mrs. Cooper brought a chair to Avery.

After Avery sat down in the chair, Elliot began to adjust the bait.

After watching for a few seconds, Mrs. Cooper felt that it was a bit windy outside, so she went to discuss with the bodyguards and decided to get them a shelter from the wind and rain.

When the bodyguard went to get the canopy, Avery got up from the chair when she saw that the bait was not ready.

“Why don’t you turn on the fountain! It’s been a long time.” Avery looked at the musical fountain pool on the right of the artificial pool and said to Mrs. Cooper.

“Okay. I’ll turn it on now.” Mrs. Cooper excitedly returned to the room and turned on the switch of the fountain pool.

In an instant, the melodious music flew, and the splendid lights began to flicker. At the same time, the water in the pool was sprayed, and the lights complemented each other, forming a beautiful landscape.

Elliot, who adjusted the bait, saw this scene and felt a little drummed in his heart.

Would the sound of this music scare the fish in the pond?

But seeing Avery's high spirits, Elliot didn't feel embarrassed to express his opinion.

Chapter 2330

"Husband, how's it going? The atmosphere will never end!" Avery returned to Elliot and sat down, looking at him with a bright smile.

Elliot replied with a smile: "The atmosphere is absolutely amazing. If I can't catch fish, it's even worse."

"How come you can't catch fish? This pond is full of fish! You can catch a few." Avery didn't believe that he could catch fish with such good equipment, "Have you made a nest? I watched other people's fishing videos before, and it seemed that they were going to make a nest." Avery said, then she grabbed a handful of bait from the bait basin and threw it into the pool.

Elliot: "...These fish are all concentrated in this small pond, so we don't need to make nests, right?"

Avery put her hand away: "Oh yes. Others seem to be fishing in the wild before making nests."

Elliot: "Well. Avery, do you want to stay inside? It's very cold outside."

In fact, Elliot was not afraid of her being cold, because she wore a lot of clothes.

She was watching him fishing, and he was a little nervous.

"I'm not cold! Are you cold? The bodyguard has made a canopy for you." Avery looked at him with a pure smile, "Go fishing! Don't worry about me! I'll give it to you when it floats. You make a video!"

Elliot: "..."

With a heavy and complicated mood, Elliot threw the hook into the pool.

After a while, the float moved!

Avery immediately turned on the phone nervously and recorded a video.

Elliot pulled up the fishing rod, and what caught their eyes was a silver fishhook.

Oh no, it's two.

Neither hook caught a fish.

This was not the most disturbing thing, but the bait on the hook was gone.

Avery's fingers holding the phone trembled slightly.

"Husband, don't be discouraged, it's normal to have an empty pole." Avery saw Elliot's expression a little disappointed, and immediately comforted, "The videos we saw on the Internet, every time someone else caught one, were edited later."

Avery's words, gave Elliot great encouragement.

"Well. My bait may not be tightened." Elliot learned his lesson and tightened the bait this time.

After a moment—

The float moved again!

Avery immediately took out her mobile phone and turned on the video recording function of the mobile phone.

This time, Elliot didn't have an empty pole!

He caught a fish!

Avery was very happy.

She would send the filmed video to her friends group to share Elliot's achievements with everyone.

Soon, everyone would start cheering!

Jun: [Awesome! I didn't expect Brother Elliot to be able to fish! It's so good!]

Tammy: [The last time I went to your house, I saw that the fish in your fish pond are very strong! How did he catch such a small fish? This kind of small fish is not delicious, it is full of thorns, so let it go!]

Mike: [Hahaha! Elliot took such a big fishing rod to catch such a small fish? The fishing rod is about to cry!]

Chad: [Mike, didn't you see that there was not a single fish in the bucket? My boss has just started fishing!]

Mike: [It is also possible that he caught this small fish all morning.

]

Avery couldn't stand it anymore. She quoted Chad's words and replied: [We have just started fishing!]

Chad: [My Boss caught fish as soon as he started fishing. It's amazing!]

Jun: [

]

Tammy: [Although the fish is a little smaller, it is better than not being able to catch anything!]

Mike: [Avery, wait for your husband to catch a big fish and then go to the group to bask in it, otherwise I can't really boast.]

Avery: [

]

After sending the message, Avery put away the phone.
