

Powerful Papa with Triplet Babies Chapter 191

Chapter 191 Chloe grinned from ear to ear. “Mama, come watch us win Daddy!” Charlie shouted,

“Mama, come!” Chris’ face was flushed from the excitement.

The two did not dare to take their eyes off the screen, so Anne could tell how much they were struggling, on the other hand, Luxcas sat on the couch with his legs crossed and glanced at Anne. “We will be done soon.”

Anne chuckled, “Carry on. I will watch.”

She then took a seat on the couch and watched the intensive boxing contest on the television, while Chloe fed the fruits to her brothers and Lucas.

She fed them one by one, before offering another piece to her mother again.

In the end, Chris and Charlie won, and Lucas managed to make it look as though he did not intentionally lose.

Anne had made some coffee for him and he got up. “Let’s go to the balcony. You kids carry on.”

There were chairs and a table on the balcony, so they sat down and admired the night view of the city.

“I’ve never played video games with them before,” she said with a smile, “do you guys play often?”

“I keep them company whenever I have the time.” Lucas took a sip of his coffee and said, “Boys all like the same thing, so it’s important for a family to have both motherly and fatherly figures.”

“I know...” She muttered.

“I’m not asking you to go to Anthony.” Worried that she would misunderstand, he explained, “anyone who cares for the kids and whom you like would do. After all, I’ve seen a lot of fathers failing at parenting even at school.” “Yeah.” She understood. She thought of something, and hesitated to ask.

“Something you want to say?”. “Is everything with the academy settled now?” She asked. “It ended just as abruptly as it started. I would be a

fool if I didn't notice anything wrong." Lucas looked up from the coffee. "You went to Anthony?" Anne's hands on her laps twitched and Lucas caught on to the motion. He set his mug down and said, "He sure plays dirty." "I am the reason all this happened in the first place. I'm sorry." "What did you do?" She lowered her head. "Nothing much. Just refused to obey..."

Everything happened because she refused to let Anthony touch her and if she was to tell Lucas that, he would naturally know that she obeyed in the end so that Anthony would stop attacking Lucas. Anne would rather remain silent, and luckily, Lucas did not insist on knowing. Behind the door, Charlie took Chris and Chloe's hands and left. When Anne went back into the living room, she saw the triplets discussing something in all seriousness, before breaking apart like nothing had happened, "What were you talking about?" "Nothing!" They chirped in unison. Anne chuckled and let them be. Charlie crawled up Anne's body and asked, "Mama, where does that guy who looks like me work?" Anne's eyes darted away for a moment. "Why do you ask?"
