

Chapter 1969

At that moment, at the Emei mountain of the World Universe, many

Emei Sect elders and elite disciples stood obediently in the main hall.

No one dared to take a breath.

Megan sat on the main seat wearing a long, purple dress and looked

incredible. Her brows were locked, and she looked unsettled.

Just moments ago, she had received news that Darryl had become the

Emperor of Westrington.

The news struck Megan in her heart like loud thunder. She had

captured Lily, Zhurong, and another person then destroyed the Carter

family in the past. She even forced the members of the Carter family to

consume the Dark Day Pill. She had done all that because she was

con dent.

Megan was the Alliance Master, and her position was supreme. Darryl was only the Elysium Gate Sect Master, and there was nothing for her to fear about him.

However, things would be very different once Darryl became

Westrington Emperor. The World Universe was not the strongest amongst the continents. Even if Megan gathered all the elite warriors from the major sects, they would not be able to defend themselves against the thousands of Westrington soldiers.

At that moment, Megan appeared to be calm, but she was extremely worried in her heart.

'I captured Lily and forced every one of the Carter family to consume the Dark Day Pill. If Darryl was to know about this, he would be

furious, and he might lead the Westrington army to attack Emei Sect.

That will be a huge problem,

' she thought.

Just at that moment, a female Emei sect disciple walked in quickly and

reported,

"Sect Master, we have just received news that someone

spotted Donoghue at the Crouching Tiger Mountain area. There is a

woman with him. It's Debra."

'What?' Hearing that Megan's body trembled as she stood up

immediately. The emotion on her face changed.

'Darryl took over the throne, but Donoghue was not captured? He

managed to return to the World Universe? Debra is Darryl's woman, so

why is she with Donoghue?'

Megan looked around and ordered,

“Send my community order

immediately to the community, ask all major sects to head to the

Crouching Dragon Mountain. No matter what, they must capture

Donoghue and Debra.”

She was certain that Donoghue captured Debra, and the reason

Donoghue captured Debra was for him to fight against Darryl. Despite

her deep hatred for Darryl, she still had feelings for him. ‘In this world,

I am the only one who can threaten and harm Darryl. No one else can

do that.’

As for Debra, she felt that she should be the only one who could capture

Debra to threaten Darryl. No one else was allowed to do that.

The community order was sent quickly. All major sects sent their

warriors to gather around the Crouching Tiger Mountain.

Meanwhile, Donoghue and Debra were walking through the woods

northwest of the Crouching Tiger Mountain.

They traveled a long way from Westrington to World Universe. They

had been walking for more than ten hours. Although they had arrived

in the World Universe, they did not stop.

At that moment, Donoghue was exhausted, but he dared not stop. He

knew that once Darryl found out about the River and Ocean's bodies,

Darryl would be furious and lead the army himself to come after him.

As such, he could not stop. Once he stopped, they might catch up.

Debra was sweating profusely, and she could not stand it anymore. She

said so ly,

“Junior Brother, we have arrived at the World Universe.

Where shall we go next?”

Donoghue rolled his eyes but smiled when he said,

“Senior Sister, hang

in there a little more. We will reach Mid City a er another two hours

journey. We will be able to rest then.”

“Mid City?” Debra was stunned.

Donoghue smiled. “Yes, the Carter family is in Mid City.”

Debra was curious. “Junior Brother, where are the Carter family?”

Debra lost her memories, and hence she had forgotten everything. She

had stayed at the Carter family home for over ten years, and that was a

place she used to call home.

Donoghue took a deep breath, and his handsome face was not showing

any emotion. "The Carter family is Darryl's home. His old nest. Senior

Sister, you may not know what a terrible villain Darryl was previously.

That was all because he had the support of the Carter family. One could

say that the Carter family is the most poisonous evil in the community

of the World Universe!"

Donoghue gave an evil grin. "As long as we destroy the Carter family,

Darryl will not have any support left in the World Universe. I plan to

destroy his roots, the Carter family. Do you want to go together?"

He knew Debra was a fair person that wanted justice. He intentionally

created this story to taint the image of the Carter family.

When she heard those words, Debra did not hesitate. She nodded as she

said,

“Sure! Since the Carter family are evil, they should have been destroyed long ago. Junior Brother, your actions will bring peace to the World Universe community; Of course, I’ll help you.”

Chapter 1970

At that moment. Debra was still not aware that Donoghue had been lying to her.

Donoghue smiled lightly and nodded, feeling delighted. ‘Ha-ha! If

Darryl knew Debra was helping me destroy the Carter family, he would be furious and vomit blood.’

As he thought, he saw a small stream in front of him. Donoghue smiled and said,

“Senior Sister, let’s take a rest here. Drink some water and rest

up before we continue to head to the Carter family.”

Debra agreed.

They could hear the sound of footsteps coming from behind them. The

footsteps were loud and fast-paced. It was obvious there were many of

them.

Donoghue and Debra were stunned. Then, they looked towards the

direction where the sound came from.

Sigh!

Donoghue could not help but took a cold breath when he saw what was

behind him.

He saw a group of people approaching them. All of them had weapons

in their hands, their killing aura intimidating. He saw many familiar

figures among them. Almost all the elite members from all the sects

were gathered there—the Mountain Peak Sect, Beggars Sect, and Flame

Sect, to name a few.

Leading them was a lady in a long, purple dress, looking extremely

elegant, but the aura surrounding her was not to be underestimated.

It was Megan.

Seeing that, Debra's body trembled.

At the same time, everyone saw Donoghue and Debra, and all of them

were on full alert.

"We found them!"

"Donoghue and Debra; that's them!"

Megan waved her gentle hand. "Take them down!"

Megan just wanted to capture Debra!

Bang! Bang! Bang!

Once she spoke, a dozen World Universe elite warriors leaped into the air and charged at Donoghue! They were all elite warriors from the major sects. Their powers were incredible, and, in an instant, the aura exploded from the warriors, twisting the air around them. Their aura was intimidating.

Seeing that, Donoghue was furious. 'How arrogant are these people?

They attack before they even speak.'

Donoghue did not waste any time and called for the Sky Breaking Axe.

He did not panic at all, neither did he waste any time. He swung the ax

hard!

Roar!

A loud dragon roar came from the giant ax. Then, a shiny gold ray sliced

through the sky and earth!

“Die!” Donoghue roared angrily!

“Ah!” in a blink of an eye, dozens of warriors shouted. All of them

started to fall from mid-air and land in a pool of blood.

No matter who saw that, everyone could not help but take a cold breath.

‘Th-this is the power of the grand weapon Sky Breaking Axe?’ Megan

trembled as she looked at Donoghue with amazement.

She witnessed the power of the Sky Breaking Axe ten years ago.

However, Donoghue still did not understand the power of the Sky

Breaking Axe then. Megan could feel now the power that exploded from

the Sky Breaking Axe when Donoghue activated it, was many times

stronger than before.

At that moment, the entire place was in complete silence. It was pin drop silence.

Donoghue killed about ten warriors and did not take action further. He

looked around the entire area arrogantly.

A few seconds later, Donoghue laughed and said casually to Megan,

“Ha-ha! Isn’t this the infamous police officer, Megan? How unexpected.

It’s been a few years since I met you, and now you have become the

Alliance Master of the World Universe. Still alluring as usual.”

Donoghue realized something and continued to say,

“Megan, I heard

for the past few years you were trying to take down Darryl. Darryl is my

enemy too. Why don’t we join forces? Why do we need to kill each

other?”

He looked serious as his eyes showed his arrogance.

With Donoghue's ability, he did not need to fear Megan and the others.

However, due to the long journey back from Westington, he was

exhausted, so he was not in the mood to battle with Megan.

Most importantly, there was no bad blood between Megan and himself.

They had the same enemy—Darryl. There was no point for them to kill

each other.

Megan was too lazy to speak further; her face did not show any change

in emotions as she looked at Donoghue and said coldly,

“Donoghue,

save the rubbish. Leave Debra here, and you can leave. I won't stop you.”

Chapter 1971

'I had Lily, and I also controlled if the Carter family lived or died. If I

capture Debra, Darryl will be completely devastated. I want Darryl to

kneel to me and beg for forgiveness,

' Megan thought, feeling delighted.

The most important thing to Megan was forcing Darryl to surrender to

her. There was no need for her to dwell any longer on Donoghue.

No matter what, Donoghue had the terrifying Sky Breaking Axe in his

hands.

When he heard that, Donoghue was stunned. He locked his brows

tightly. 'This Megan. After all the drama she created, she didn't want to

battle me, but capture Debra?'

At that moment, Debra's body trembled, and she started to worry

immediately.

The next second, Debra pulled Donoghue's sleeves lightly and said

so ly,

“Junior Brother, why do they want me?”

Although her voice was so , everyone there still heard her clearly.

Everyone there looked at Debra in shock.

‘Debra and Donoghue had become Senior Brothers and Sisters?’

‘Did I hear wrongly?’

Ten years ago, Donoghue led the Westrington army to ambush the

Carter family. Darryl defended them with all his might, and Debra was

there too at that time. Debra, being Darryl’s woman, should be against

Donoghue. Since when did they have the same master?

At that moment, everyone there was curious and could not understand

the situation.

Donoghue did not bother about everyone's curious gaze. He smiled

briefly and consoled Debra,

"Don't worry, Senior Sister. I'm here. No

one will take you away."

In the past, Donoghue would not have cared about Debra's safety. He

was an arrogant person and was also famous in Westrington. He was

even the Emperor once. How could he allow someone to misbehave in

front of him?

Most importantly, Debra was like his protective charm. As long as

Debra was around, Darryl would not dare to harm him.

Donoghue looked at Megan and said each word clearly,

"Megan, I'm

sorry I can't do what you asked for earlier. Debra is my Senior Sister.

She defended me with her life against Darryl. I will not be a grateful person if I surrender her to you.”

Though he said that to Megan, his main intention was to say that to Debra.

As expected, Debra was touched by his words. She looked at him with pride and admiration.

‘What?’ Everyone was in an uproar.

Debra was Darryl’s woman, and their relationship had been great all this time. Why did she go against Darryl to help Donoghue attack him?

Megan locked her brows. She was confused, but she could not figure out the reason behind it.

A few seconds later, she gathered her thoughts. She looked closely at

Debra and could not help but asked,

“Debra, what happened between

Darryl and you? Why are you helping Donoghue to fight him?”

Megan looked calm, but she felt extremely conflicted in her heart.

Debra had a great relationship with Darryl. Debra split with Darryl and

helped Donoghue to fight against Darryl out of the blue. Darryl must

have done something wrong that caused her to turn her love into

hatred.

If that was the case, that was God's

curse. ‘Darryl, you have rejected

me and looked down on me. Now, Debra is leaving you. That is the

consequence of you being lewd.’

Megan's hatred was boiling as she thought that. However, she did not

laugh due to her identity. She thought Darryl had done something wrong to Debra, which led her to leave him and get together with Donoghue.

Debra blushed and replied reluctantly,

"I...Darryl and I are not close.

There's nothing between us. I'm helping Donoghue because he is my Junior Brother."

She looked calm, but a fire was burning in her heart. 'What is going on?

Why does everyone I meet link me to Darryl?'

'They're not close?' Megan's brows furrowed as her doubts grew stronger.

Donoghue took a step forward and said calmly,

“Megan, you don’t have

to ask my Senior Sister any more questions. Darryl caused my Senior

Sister to lose her memories. She didn’t want to mention anything about

the past.”

Megan was stunned, but then, she realized what was happening.

No wonder Debra was talking in such a funny manner. She even said

she was not close with Darryl. She had lost her memory.

Chapter 1972

Donoghue smiled and looked at Megan as he said,

“Megan, it’s time for

me to speak. If you insist on taking my Senior Sister away, then don’t

blame me for taking action. Although there are many of you, you may

not have the advantage if we were to fight.”

Although he was not loud, his voice carried an intimidating tone.

The entire place was in an uproar, and all the warriors of the major

sects' gaze locked onto Donoghue. They looked full of mixed emotions.

'How wild was Donoghue? He dared to threaten Alliance Master

Castello in front of everyone,

' the crowd thought.

Megan blushed as her body trembled. She was furious.

Megan was the Emei Sect Sect Master and the Alliance Master.

Everyone respected her, and Donoghue dared to threaten her in front

of everyone. She felt utterly humiliated.

Fanny shouted at Donoghue,

"Ridiculous! You're just a homeless dog;

what makes you think you have the right to negotiate with my Alliance

Master? How dare you threaten our Sect Master. You are asking for

death!”

All the Emei Sect disciples also stared at Donoghue in anger. However,

Donoghue did not panic at all and just ignored Fanny entirely.

In the next second, Donoghue gave a small smile and looked at Megan

as he said,

“Megan, I’ve told you clearly. There’s no point for me to

repeat it again. I will still tell you that our common enemy is Darryl,

and killing each other would only bring harm and no good. Why don’t

we join forces?”

He had thought this through. If he joined forces with Megan to attack

the Carter family and Elysium Gate, it would be a much easier task.

Megan locked her brows and groaned to herself. She was hesitant.

She had never dreamed of forming an alliance with Donoghue. Besides,

Megan had never had a good impression of him either. Earlier,

Donoghue challenged Darryl in a battle of life and death at the Wishing

Star Tower, but he led the army to ambush the Carter family instead.

His technique was sinister, and everyone in the community knew it.

Although she was also a devious person, she thought highly of herself.

She was not willing to be associated with a person like Donoghue.

When he saw Megan was hesitating and did not reply, Donoghue,

smiled and said,

“Megan, you don’t have to consider this any further. I

heard you went to destroy the Elysium Gate and any power related to

Darryl. Your relationship with Darryl is already under re.

“Now that he’s the Westrington Emperor, he definitely won’t let you o€

easily. Even though you are the Alliance Master, are you able to defend

yourself against the Westrington Emperor, even with all your Sects

combined?

“As long as you are willing to work together, I shall help you to defend

against Darryl’s Westrington army. Don’t forget, I’ve been the Prime

Minister for Westrington for many years, and I have deep knowledge

about his army.”

As he nished his speech, Donoghue looked casual and relaxed.

At that moment, the entire place was in complete silence. Everyone’s

gaze was on Megan, waiting for her response.

Finally, a er Megan gave it a thought, she nodded at Donoghue. “Fine!

I'll work with you, but on one condition. After we form an alliance, all our plans need to be approved by me."

Megan did not want to form an alliance with Donoghue, but he was right. Darryl had become the Westrington Emperor; if he used his army to seek revenge against Megan, there was no way she could fight against him.

Besides, Debra had lost her memory, so it would be meaningless for her to capture Debra to threaten Darryl.

However, Megan was a smart person, and she knew Donoghue was not any ordinary person. She needed to state her conditions upfront to prevent him from taking the lead.

"This is fine." Donoghue smiled lightly and nodded his head. "You are

the Alliance Master now and famous in the community. Naturally, you will be the leader if we form an alliance.”

Although he replied calmly on the surface, his eyes shined with coldness. ‘A woman trying to be in charge of me? She’s thinking too highly of herself!’

Donoghue had decided he would pretend to agree with Megan for now.

Once they captured Darryl, he would do whatever he wanted without any fear.

Seeing that, all the warriors of the sects sighed discreetly.

Luckily both parties had decided to be allies. The Sky Breaking Axe

Donoghue had was incredibly terrifying; if Megan ordered an attack on Donoghue, everyone would either get killed or get injured.

However, Fanny was worried. She walked over and said softly to Megan,

“Sect Master Senior Sister, Donoghue is a deceptive person. We need to be exceptionally cautious.”

“I know that.” Megan’s facial emotion was cold, and there was no change in her emotion.

‘No matter how powerful Donoghue is, he is just a human. I am the Alliance Master; I can direct all the major sects. I do not need to be afraid of whatever technique Donoghue has.’

As Donoghue walked over, he smiled pretentiously. “Since we’ve formed an alliance, we are now a family. Have you figured out how to handle Darryl?”

Chapter 1973

Megan smiled briefly but did not answer immediately. Instead, she

asked,

“It seems like you already have a plan.”

Megan only knew that Darryl had become the Westrington Emperor.

She had no idea the exact situation and did not know what was done for

that time being.

Donoghue did not hesitate and looked at her coldly. “My way is simple.

We have so many strong warriors. We shall attack the Carter family and

eliminate Darryl’s family and friends completely.”

When she heard that, Megan laughed as she looked at Donoghue and

said,

“We don’t need to go to the Carter family. I am in full control of

the Carter family. We just need to find out where Darryl is.”

Then, she shared how every one of the Carter family consumed the

Dark Day Pill.

Hearing that, Donoghue could not help but take a deep breath and feel

impressed.

'She really is the Alliance Master. Megan is really powerful, and she

already settled the Carter family much earlier,

' he thought.

Donoghue smiled and nodded as he said,

"Alright, I'll listen to you. Let's

return to gather news about Darryl's whereabouts, and we'll think of a

plan."

Megan agreed and did not speak further. She led Donoghue, Debra, and

all the warriors from various sects to return to Emei.

Meanwhile, Darryl was leading an army to track the location of

Donoghue and Debra. They had arrived in the World Universe, but all

traces of Donoghue and Debra were gone once they arrived.

It was as if Donoghue and Debra had disappeared into thin air.

Darryl was extremely furious.

At that moment, Darryl was standing on top of a hill in the woods a few

hundred miles away from Mid City. His face looked dark as Brad and

the many Black Rider Army Generals stood beside him. All of their

heads were down in silence as they dared not even take a deep breath.

Just at that moment, Brad and the Black Rider Army had extended the

search area, but they still could not locate any trace of Donoghue and

Debra.

'Sh*t.' Darryl slammed the rock beside him, furious.

Two human beings disappeared out of sight just like that. It was too suspicious.

At that moment, Darryl still did not know Donoghue and Debra were already at Emei Sect. Naturally, he could not find any trace of them.

At that moment, Brad walked over and asked cautiously,

“Your Majesty,

what is our next move?”

Sigh!

Darryl took a deep breath. He had a thought and replied,

“Return to the

Carter family.”

He sounded calm, but Darryl’s face was full of worries.

Earlier, on the way back to World Universe, Darryl had anticipated

Donoghue would definitely seek revenge on the Carter family to rile

him up.

They were unable to find Donoghue and Debra, so they needed to rush

back to the Carter family to prevent anything from happening.

When he thought of that, Darryl did not hesitate to lead the army in the

direction of Mid City.

After a few hours on the road, Darryl and his army had arrived in a

suburb of Mid City. However, the soldiers attracted too much

unnecessary attention. To avoid causing unnecessary fear in the

citizens, Darryl let the army set up their camp in a mountain area.

After they settled down, Darryl left on his own to return to the Carter

family.

The sun was shining brightly that day, and the Mid City streets were

busy as usual. However, the Carter residence was extremely quiet.

Darryl could see from afar that there was no one at the main entrance.

Usually, there were disciples taking turns to stand guard.

'What happened?' He squeezed his brows and walked into the garden

quickly.

Once he entered, he saw the nice scenery of the garden in the Carter

residence. Normally, many disciples would be playing around, but at

that moment, not a single person was in sight. The entire residence was

covered in a depressingly dead aura.

"Young Master?"

"Young Master is back!"

Once he arrived at the main hall, some disciples gathered around and were all emotional, but at the same time, their faces were filled with sorrow.

Hearing the commotion, Sara, who was in the main hall, ran over quickly,

“Brother?”

Once she saw Darryl, Sara’s body trembled with emotion. “Brother, you’re back. You are finally back.”

Chapter 1974

Sara fell into Darryl’s arms and cried happy tears. “I thought something bad happened to you in Westington.”

Darryl laughed and patted Sara on her soft shoulders to console her.

“I’m fine now, alright?”

As he spoke, Darryl's heart shivered when he noticed Sara's condition.

He saw how pale her face was. Not only that, her internal energy in her

abdomen was controlled by some unknown power; she was really weak.

"Sara, what happened?" Darryl asked immediately.

Just as Sara was about to speak, Chester, Dax, Yvette, and the others

came into the hall.

Ever since Megan forced them to consume the Dark Day Pill, everyone

had given up hope and been extremely disappointed. They locked

themselves in their rooms and never came out. They just heard about

Darryl's return, and all of them were so excited that they rushed over

quickly.

"All of you...." Darryl was shocked to see everyone's condition.

Darryl could see that Chester and the rest were just like Sara; they

looked miserable, their internal energy was being sealed, and

extremely weak.

Darryl was surprised and furious as he looked at everyone curiously.

“What happened?”

Everyone looked at each other and sighed at the same time. Then,

Chester walked over and shared everything that happened in detail.

When he was done, Chester’s face turned dark. He was furious as he

said,

“Darryl, Megan is a villain. After she captured us, she didn’t kill us

on purpose. She forced all of us to consume the poisonous pill so that

you would come back to find us all dead after being poisoned.”

Chester looked at Darryl, sighed, and said,

“The reason she did this was

to make you angry and destroy your confidence. You must not fall for

her trap.”

Dax added loudly,

“That’s right, Darryl. We can just die; you can seek

revenge for us. Don’t be confused by your anger and act recklessly.”

Yvette and Monica, who were standing to the side, did not speak, but

they nodded silently.

In their eyes, apart from feeling angry, they were also heartbroken

about him leaving.

Yvette, Monica, and Yvonne had been through a lot with Darryl before

they finally got to be together. It seemed like good times were coming,

but they were suddenly poisoned. Anyone in that situation would feel

the same heartache.

Bang!

When he heard that, Darryl's eyes were blood-red. He slammed the

table and clenched his teeth as he roared in anger,

"Megan!"

'Sh*t! This deviant woman again!'

At that time, Darryl's heart was burning with fire.

Earlier, Darryl had thought the person to cause trouble with the Carter

family would be Donoghue. He had taken over Donoghue's throne, and

given Donoghue's vengeful character, he would definitely seek

vengeance from the Carter family.

He did not expect that Megan thought a step ahead and poisoned

everyone with such despicable action.

As his anger continued to burn, Darryl thought of the pill that

everyone consumed, the Dark Day Pill.

'I've never heard of the Dark Day Pill before. It was also not recorded in

the Infinite Elixir Manual, I think.'

For the past few years, Darryl had memorized the entire Infinite Elixir

Manual. He could recite all the pills that were recorded in the manual.

However, he did not give up. He took out the Infinite Elixir Manual and

read each and every page carefully.

After half an hour, Darryl closed the Infinite Elixir Manual; his face

looked depressed.

His memory was correct. The Infinite Elixir Manual really did not

record the Dark Day Pill.

'Sh*t!' Darryl was furious and surprised at the same time.

'I thought Megan did not know elixirs at all? Since when did she learn

to produce elixirs? Besides, the Dark Day Pill is an extremely rare

poison.'

At that moment, Darryl still did not know that Megan learned about

the Dark Day Pill from the Immortal Pure Scripture.

The Immortal Pure Scripture was Zhang Jue's secret technique when he

was conquering the world with his Yellow Turban Rebellion. The

community would not have known it.

Chapter 1975

Suddenly, Darryl's mind blinked, and he thought of something. His

eyes shone brightly at that instant.

'Brother Chester mentioned that the Dark Day Pills that they consumed

had a similar effect to the Heaven Cult Elixir of the Grandmaster

Heaven Cult. The only difference is its power is ten times stronger. I

knew the way to produce the antidote for the Heaven Cult Elixir. I shall

produce the antidote with ten times the dosage, and that will do right?'

Darryl was excited. He ordered the disciples,

"Hurry, prepare these

herbs and medicines for me. Remember every one of them clearly."

Then, Darryl shared the ingredients for the Heaven Cult Elixir antidote,

together with the dosages required.

The disciple dared not delay. Once he memorized everything clearly, he

headed out to prepare the ingredients immediately.

Not too long after that, the disciples returned with a few big bags. The

bags were filled with all the ingredients and herbs Darryl required.

He set up the oven in the main hall and started cultivating the antidote.

Chester, Yvette, and the others did not say a word as they saw Darryl

being busy. They waited in anticipation.

Darryl's talent in elixir production had been famous in the community

for a long time. He definitely could find a way to produce the antidote.

Bang!

In half an hour, the sound of an explosion came from the elixir oven.

Then, smoke surrounded the oven, and a nice scent of elixir filled the

main hall.

'Ha-ha. It's ready!'

Darryl was extremely delighted. He opened the elixir oven immediately

and saw dozens of completed pills inside. All of them were smooth and shiny.

“Ha-ha!” Dax laughed as he walked over, giving two big thumbs up to

Darryl. “Darryl, I always knew you could do it. You produced the

antidote so quickly. Sh*t, I thought I would die for sure; I even le a

death note to my family.”

Dax took out a pill from the oven. “Fresh from the oven. I won’t be shy,

so I’ll take one rst.”

Dax raised his head and swallowed the pill. Everyone was extremely

excited as they gathered around and consumed the pill.

A er consuming the pill, everyone sat down quietly, waiting for the

e€ect.

Darryl was smiling, and his face was filled with anticipation.

After two minutes, Dax, who took the antidote first, suddenly locked

his brows. He pressed his abdomen with both his hands, and he looked

horrible.

Darryl was stunned, and he went over to Dax quickly,

“Dax! How are

you feeling?”

Dax’s face was bitter as he looked at Darryl, speechless,

“Sh*t, Darryl. Is

that antidote or a purging medicine? Oh no, I can’t hold it anymore. I

must get to the toilet immediately.”

As he spoke, everyone around them also started to press on their

abdomen and looked like they were suffering.

'Sh*t!' Darryl felt guilty and upset.

'Megan is such an evil person. She will never do something that she is

not confident about. If the antidote for the Dark Day Pill could be

cultivated so easily, Megan would not have let everyone go. She would

have taken action immediately. In elixir knowledge, the most

important rule is not to consume pills recklessly. How could I commit

such a low-level mistake?'

Luckily, Dax, Chester, and the rest only suffered a stomach ache after

consuming the antidote he produced. They did not suffer any life-threatening danger temporarily.

Darryl's eyes started to calm. 'I have no choice. I have to make a trip to

the Emei Sect and get the antidote from Megan.'

After he had decided, Darryl did not hesitate anymore. He ordered the

disciples to take care of Dax and the rest while he left the Carter

residence immediately.

Of course, Darryl did not forget to gather his 100,000 soldiers who

were waiting in the suburb of Mid City.

Half an hour later, Darryl led his army towards Emei Mountain.

Chapter 1976

At Emei Mountain, many warriors from different sects were gathered

in the main hall. Megan was sitting on the main seat, smiling.

Donoghue and Debra had been arranged to be seated at the VIP seats.

Since Megan and Donoghue had formed an alliance and returned to

Emei Sect, they gathered all the sects to discuss their plans to take

down Darryl.

She was really relaxed. With Donoghue's assistance, there was nothing

to be worried about, even if Darryl led the Westrington army to Emei

Mountain.

Just at that moment, Fanny walked in quickly. She spoke to Megan with

respect,

“Sect Master, D-Darryl is leading an army of 100,000 soldiers

towards the Emei Sect.”

She was stuttering as she was in shock.

Once she spoke, the entire main hall broke into chaos.

“Darryl is here?”

“So fast...”

“Speak of the devil....”

Megan’s body trembled; she could not hide the fear on her face.

'Darryl is here? So fast?' she thought.

However, when she looked at Donoghue by her side, Megan felt brave

again as she started to regain her confidence. She looked around and

ordered,

"Don't panic, everyone. Pass my orders to the disciples at the

bottom of the mountain to be on guard immediately and prepare to

battle."

"Yes, Sect Master!" everyone from all the sects replied simultaneously.

At that time, Megan turned and looked at Donoghue. "Donoghue, you

may want to excuse yourself for a while. It will not be too late for you to

appear after you receive my instructions later."

Megan suspected that the reason Darryl was coming was to obtain the

antidote for the Carter family.

Under such circumstances, Darryl would definitely not act recklessly.

However, that would be different if he saw Donoghue. No matter what,

the vengeance between Darryl and Donoghue was too deep. As such, it

would be best to let Donoghue stay out of that for the moment.

Megan just wanted to let Darryl kneel to her to apologize. She never

thought of killing him for real, so naturally, she did not wish for him to

meet Donoghue.

It would be a life and death situation once the both of them met. That

would disrupt her plan.

“Alright!” Donoghue replied. He then led Debra to the back of the

screen of the main hall.

Although Donoghue looked like he was obeying Megan

s orders, his

eyes shone with an evil aura.

‘Megan, I’ll listen to you for the time being. Once there’s a chance to kill

Darryl, it will not be up to you to decide.’

Then, a handsome and smart figure walked in. It was Darryl!

Darryl did not lead the Westrington army to attack the Emei Sect

directly. He ordered the Westrington army to surround the Emei

mountain instead. He was the only one who went up the mountain.

Darryl wanted to obtain the antidote of the Dark Day Pill without

taking any unnecessary action.

Darryl was stunned the moment he entered and saw the situation in the

main hall.

'So many people?' He thought that with his sudden arrival, the Emei

Sect would be caught by surprise and unprepared.

He never expected that all the major sects would be gathered together.

Wudang, Shaolin, Tianshan, Beggars' Sect, and the other sects were all

there.

Chapter 1977

At the same time, everyone there was stunned too. Everyone thought

Darryl would bring an army and charge right in. Who knew he would

walk in by himself?!

Darryl was the Elysium Sect Sect Master and had such bravery. Nobody

in the world would be as brave as him.

At that moment, Megan stood up slowly and smiled at Darryl as she

spoke,

“Darryl, how brave of you to come to my Emei Sect. I’m a kind person, so as long as you worship me as the Alliance Master and listen to my orders in the future, I won’t take my revenge for the things you’ve done in the past.”

Before, Megan would have panicked when faced with such a situation.

However, things were different then. She controlled whether the Carter family lived or died, so she did not need to worry about Darryl acting recklessly.

The moment she spoke, all the warriors from the major sects locked their eyes on Darryl, staring at him firmly.

Everyone was shocked by Darryl’s aura earlier. However, once they remembered they were at the Emei Sect and Megan was a powerful

person, they were not intimidated by Darryl.

Darryl did not care about everyone's stares; he was not afraid even with

all the major sects gathered together there. He did not think anything

further as he looked closely at Megan, his body trembling. "Megan, let

me ask you. Did you poison the entire Carter family?"

Darryl was feeling emotional as he remembered Chester and the

others' weak condition. He could not help but clench his fists.

"That's right. It was me." Megan laughed and nodded. "The Carter

family disrespected me. I had to teach them a lesson."

She looked at Darryl and continued to speak,

"Honestly, if it weren't

because of you, I would have killed them all at that time. I would not

have let them stay alive until now.”

She was overjoyed when she saw the anger on Darryl’s face.

Darryl could feel the pain in his chest as his eyes became blood-red. He

clenched his teeth and roared,

“Megan, stop pretending. If there is any

vengeance between you and me, come to me! Why do you need to harm

the innocent?”

Megan even poisoned the adorable young Sara, not to mention Chester

and Dax.

That was really deviant!

“Innocent?” Megan lost her smile as she bit her lips. “Earlier at Lu Bu’s

ancient tomb, Dax and Chester were chasing me the entire journey,

wanting to kill me. I would have died a long time ago if I wasn’t lucky.

The Carter family went around spreading rumors about how deviant I am, what a poisonous person I am and destroyed my reputation. And you say they're innocent?"

Darryl was furious when he heard that. "Megan, stop defending yourself. You know what you've done. Whatever they said were facts."

Megan smiled coldly as she said each and every word clearly, "Whatever happened in the past, no matter right or wrong, is no longer important. What's most important now is that the entire Carter family is poisoned and will not survive a few more days."

A smile appeared on Megan's face as she spoke.

When he heard that, Darryl's eyes turned red. Without wasting more time, Darryl said,

“Megan, let’s cut to the chase. Hand over the antidote

now. Otherwise, there will be a big problem between you and me.”

All the warriors from the major sects were in total chaos.

‘Is Darryl crazy? He came alone, and now he’s threatening Alliance

Master?’

‘Even though you’re an Elysium Gate Sect Master as well as

Westrington Emperor, aren’t you acting a little overconfident?’

Megan understood Darryl’s character. She was not angry at all. Instead,

she smiled and smirked. “Fine, I can give you the antidote, but on one

condition.”

“Tell me!” Darryl replied coldly.

Megan’s eyes were shining as she smiled and said,

“You must kneel to

me now to apologize and say that you were wrong before. Be sincere;

maybe I will forgive you and give you the antidote.”

She smiled as she spoke. She looked casual, but her heart was filled

with anticipation.

‘All these years, I’ve been picking fights with Darryl. The ultimate

objective is only to make Darryl feel regret and diminish his dignity to

beg for my forgiveness in front of me.’

Chapter 1978

Darryl furrowed his brows and laughed when he heard Megan asking

him to kneel to her. “Megan, aren’t you ashamed of yourself?”

‘This Megan has done so many terrible things. I have yet to ask her to

repay her sins, but now she’s asking me to kneel to her to apologize?

Doesn't she feel ashamed for what she did?' he thought.

Megan's smiling face changed, and she blushed instantly when she saw

how Darryl reacted. Intense anger was burning in her heart. "You..."

'Darryl has humiliated me multiple times in front of everyone. I can be

forgiving the first time, but if I allow him to do it again the second time,

where is my dignity?'

At that moment, Watson Tucker rushed out from amongst the crowd.

"Darryl, who do you think you are? Alliance Master has given you a

chance, yet you do not respect her. You are so rude to Alliance Master;

you are looking for death!" he scolded Darryl as he pointed at him.

Then, a sword appeared in Watson's hand, and he moved his long

sword to pierce Darryl's chest. He would not dare to do this under

normal circumstances as Darryl was really powerful. However, Darry

came to ask for the antidote, and with Megan watching, Watson had nothing to worry about. He believed that Darryl would not dare to act recklessly before he obtained the antidote.

As he saw Watson charging towards him, Darryl held his fist tightly. As he released his anger, the Heavenly Halberd appeared instantly, and he rushed forward to meet Watson.

Bang!

The next second, the Heavenly Halberd crashed with the long sword creating a loud bang. Watson moaned as his entire body flew a dozen feet away before landing outside of the main hall. He vomited a mouthful of blood, and his face looked extremely pale.

His body was aching terribly as he glared at Darryl, extremely angry.

He thought that Darryl would not fight back and so he would have the chance to show off in front of Megan. He did not expect that everything would not go the way he thought.

“What a clown!” Darryl said coldly. His eyes stayed firmly on Megan as he roared,

“Megan, I am giving you one last chance. Hand over the antidote, or I will destroy Emei Mountain and cover your main hall in blood.”

‘I will destroy Emei Mountain and cover your main hall in blood.’ The loud roar of these words circulated over the entire Emei mountain.

As everyone heard that, the entire main hall went completely silent without a single sound.

All the sects’ warriors looked at each other; their hearts trembled a

listening to Darryl's words.

If it were any other person, they would have laughed out loud, but

Darryl was different. Not only was he the Elysium Gate Sect Master, but

he was also the Westrington Emperor. Most importantly, his 100,000

soldiers were waiting right outside for his order. He was really

powerful!

Megan's face was all red from her anger, and her body was trembling.

The next second, she stood up immediately and pointed at Darryl as she

shouted,

"What are you all still standing there for? Take him down

now!"

Not only did Darryl humiliate her in front of everyone, but he had also

injured her follower. On top of that, he wanted to destroy the Emei

Sect. No one would be able to accept that.

Right after she spoke, all the warriors of the major sects dared not

delay any further. They activated their internal energy and surrounded

Darryl.

None of the warriors wanted to battle with Darryl, but they had no

choice. All of them had consumed the Dark Day Pill as well. Their lives

were in her hands, and no one dared to disobey her orders.

Seeing the warriors surround him, Darryl held the Heavenly Halberd

and went to challenge them as he roared,

“Die! All of you will die.”

At that same time, Darryl whistled loudly towards the sky, giving his

orders to the 100,000 soldiers outside. “Guards, take down everyone at

Emei Mountain. Do not spare a single person.”

As he shouted that, Darryl’s eyes were blood red.

No matter what the price was that he needed to pay that day, he must get the antidote from Megan.

“Kill!”

Chapter 1979

Hearing Darryl’s order, the army let out a thunderous roar that shocked the world. They rushed into Emei Mountain like a strong wave as both parties battled fiercely.

Debra, who was hiding in a corner, could not help but sigh softly at the sight. She was suddenly worried. ‘Darryl is really powerful, and he has a grand army. Will Emei Sect and the other sects be able to defeat him?’

Donoghue sensed Debra

,

s worry. He smiled lightly and consoled her

so ly,

“Don’t worry, Senior Sister. Darryl will not be able to win.”

He peeped at Darryl on the battle eld with a sinister look in his eyes.

The battle got more and more intense.

It had to be mentioned that the power of the Westrington army was

among the top across the nine continents. They had a high reputation.

Westrington had the most powerful army across all nine continents.

They had a good reputation. In less than ten minutes, the di€erent

sects’ warriors were defeated one by one. They looked horrible. Many of

them were injured as blood sprayed everywhere. Almost the entire

oor of the main hall was covered in blood.

As she saw that, Debra started to feel worried. “Junior Brother, should

we help?”

Debra had lost her memory, so she had completely forgotten what kind

of person Megan was. She only knew that Megan had formed an

alliance with her Junior Brother, and that made Megan part of them.

Seeing her alliance in trouble, she wanted to help.

Donoghue shook his head and said so ly. “No need. This is still not the

time even if we wanted to help.”

Donoghue looked calm as he spoke, but his eyes were shining cruelly.

Donoghue had a plan. When the right opportunity came, he would

ambush Darryl secretly and try to injure him seriously with just one

technique.

When she heard that, Debra nodded and said nothing further.

After spending time together over the past few days, Debra trusted

Donoghue deeply. She would listen to everything he said.

Seeing that her situation was getting worse, Megan blushed. Her eyes

were shining in anger, and she was furious.

Finally, Megan roared,

“Darryl, if you want Lily to live, then stop

immediately!”

The moment she spoke, a few Emei Sect disciples brought Lily,

Zhurong, and Divine Farmer out. They entered from the side entrance

of the main hall, tied up.

When they were still talking, Lily and the others had already been

taken out from the prison and were being guarded outside. Megan

thought that Darryl would be worried, so he would not take action. She

never thought he would lose his mind like this.

Megan still did not understand how important the Carter family was to

Darryl. They were like Darryl's family and loved ones. It is only natural

he went crazy when his family was poisoned.

Darryl did not stop when he heard Megan shout, but he looked at her

unconsciously.

He was completely stunned when he saw who was in front of him.

'Lilybud?'

He saw Lily tied up, her face pale and looking weak. She must have been

through something terrible. Beside her stood Divine Farmer and

Zhurong, the two seniors.

'What was going on?' Darryl wondered

Even strong warriors like Zhurong and Divine Farmer, who were all

mightywarriors in the world, were captured by Megan.

At that moment, Darryl was extremely shocked and furious at the same

time.

"Hubby!" Lily could not help but yell in her so voice. She was

delighted to see Darryl.

All those days, Lily was trapped in prison; she did not eat and could not

sleep. She did not even have the energy to speak anymore.

Standing at her side, Zhurong and Divine Farmer felt extremely

ashamed.

A girl like Megan captured great and famous warriors whose names

were known by generations. How humiliating.

“Lilybud, don’t be scared,

” Darryl roared.

At that moment, Megan did not hesitate. She held the long sword and

placed it over Lily’s neck as she said coldly,

“I will kill her if you don’t

stop.”

“Stop! Everyone, stop!” Darryl roared without hesitation as his voice

became hoarse and his eyes blood-red.

Chapter 1980

At that moment, Darryl wanted to kill Megan badly. However, he dared

not behave recklessly.

He saw Megan's long sword was placed tightly against Lily's neck.

Megan just needed to apply some energy and Lilybud would die.

All 100,000 Westrington soldiers and the warriors from the different

sects stopped immediately. Their gaze was locked on Darryl.

Especially the Westrington army. They looked conflicted.

'We are at an advantage, but His Majesty has ordered us to stop. What a

pity.'

Darryl glared at Megan and shouted,

"Megan, let Lily go immediately!"

Megan laughed and teased,

"Ha-ha! Look how worried you are. Don't

worry, as long as you listen to me; I won't harm her."

Her expression darkened, and she said coldly,

“Kneel now and

apologize to me. As long as you are sincere, I will release Lily, and I will

give you the Dark Day Pill antidote so that you can go back to rescue the

Carter family. If you’re still not willing to do what I say, then don’t

blame me for being cruel.”

She bit her lips, and she looked determined when she was done

speaking.

Megan’s love for Darryl had turned to hatred. She became jealous when

she saw how much Darryl cared for Lily.

Darryl did not reply. He just clenched his fist tight, and his eyes were

blood-red.

At the same time, the entire main hall was pin-drop silent as

everyone's gaze was locked on Darryl.

The sect warriors were amazed as their eyes shone with admiration.

'Alliance Master is really incredible. She controlled Darryl with just a

few words.'

'If Darryl agrees to kneel, Alliance Master will be famous across the

nine continents. Everyone knows Darryl is an arrogant person, and

he's never admitted defeat to anyone.

Finally, Darryl took a deep breath and looked tightly at Megan,

"Fine, I

will kneel. I hope you keep your words."

Then, he put away the Heaven Halberd, and just as he was about to

kneel, Brad walked out amongst the Westington army.

"Your Majesty, you can't kneel!" Brad shouted desperately.

As he spoke, many soldiers agreed.

“Yes, Your Majesty. You are supreme; how can you surrender to a woman?”

“Your Majesty, never ever do that.”

The soldiers saw Darryl as their Emperor, and his every action represented Westrington’s image. If Darryl kneeled to Megan, they would become the laughing stock of the nine continents.

“Shut up, all of you,

” Darryl roared. He did not want to explain his actions any further.

As he spoke, Brad and the soldiers shut their mouths.

Bang!

The next second, Darryl's knees bent as he kneeled to Megan and said

each and every word clearly,

"Megan, I wronged you in the past. Please

forgive me. Give me the antidote and release Lily and the others."

As he spoke, Darryl did not show any change in emotions, and he

sounded sincere. He did not want to kneel to a woman like Megan, but

he had no choice. Lily and the Carter family's lives were in Megan's

hands. If anything happened to them, Darryl would lose all his friends

and family. What would be the point in living then?

'Wow!' all the sect warriors were excited.

"Sh*t, he really kneeled?"

"Ha-ha! Alliance Master is really powerful."

As for the Westington army, they felt defeated.

Debra, who was hiding in a corner, was amazed by what happened in front of her eyes. She watched Darryl closely, and she felt mixed feelings.

'People say that Darryl is evil and that he'll do anything to get what he wants. But he is willing to put aside his dignity and his status as the Emperor, to kneel to Megan all for his woman and family. His selflessness and tolerance are really impressive.'

Debra's impression of Darryl was starting to change from that moment on.

Then, Donoghue, who was standing to the side, could not help but laugh.

"Ha-ha! Trapped in relationship problems; Darryl, that's all you can get

in this life,

” he said to himself.

His voice was really so , so apart from Debra, no one could hear him.

“Junior Brother, what did you say?” Debra was stunned as she could not

help but wonder.

Donoghue regained his thoughts as he smiled and explained,

“Oh,

nothing. I was just saying how Darryl’s player ways would eventually

cause him to suffer in the end
