

Wei Guang's deep voice kept reverberating through the atmosphere.

Wei Chen's heart turned cold, and his face turned pale. He said in a panic, "But Luo just turned 30 this year..."

"Chen, now is not the time to go soft. Don't forget you are not just a father, but the head of the family as well. If you don't do this, the entire family will perish. By giving up one man, you can save the rest of the clan. I'm sure you know what's at stake here," Wei Guang persuaded his older brother solemnly.

Wei Chen stood where he was for a long time without saying a word. However, it was clear from his face that he was in agony and reluctant.

"It's okay. That was just the worst-case scenario I suggested. Maybe Mr Chu will be touched by our sincerity and spare him right away after we apologize since we haven't done any damage yet. The important thing is to head to Yanjing now. If Luo ends up causing big trouble, then everything will be too late," Wei Guang kept persuading Wei Chen.

Wei Chen finally woke up to the truth.

"Guang, you are right. We still have a chance to change things now."

"Get the car. No, prepare the planes. We are flying straight to Yanjing!" Wei Chen gave the orders.

In an instant, the entire Wei family acted hastily.

The thunderous sound of planes reverberated

throughout their estate.

Since the Wei clan was the most powerful family in Zhonghai, it was normal for them to have a few private jets.

Meanwhile, Wei Luo continued kneeling in the halls of the Xu estate.

The hate on his face intensified with every minute.

None of the people in the estate dared to do anything.

Everyone quietly sat as they waited for things to progress.

The sky was already dark outside, and a pitch-black darkness filled the house.

Xu Lei turned on the lights in the house.

She poured a cup of tea for Ye Fan and said worriedly in a soft tone, "Fan, why don't we leave? You've been running around the whole day, so you should rest first.

She didn't ask Ye Fan to leave because she was worried about him.

Instead, she was afraid that the Wei family would really turn up.

If they came, things would go out of control.

"What? Are you preparing to run now? Didn't you say you

weren't afraid of the Xur family or the Lu family or the entire world? Why are you running off so soon?" Wei Luo started laughing sinisterly.

"Shut up! I'm just worried about Fan," said Xu Lei angrily.

Since she knew how proud he was, she tactfully persuaded Ye Fan to leave.

Now that Wei Luo had said such things to trigger Ye Fan, he probably wouldn't want to leave.

"Stop bullshitting! You are just finding an excuse to run. There is no escape. The moment my men get here, I will hunt you to the ends of the earth! By the time I am done with you, you will be better off dead!" Wei Luo shouted threateningly even though he was kneeling on the ground.

His angry voice reverberated through the hall.

"He's so noisy!" shouted Ye Fan.

A slap landed on Wei Luo's face.

He screamed in agony as bits of his teeth and blood sprayed everywhere.

"Luo! How dare you hit him? You will have nowhere to run when his fighters get here. Xu Lei, you're an ingrate! You colluded with an outsider to bring disaster to your clan. After the Wei family kills this country bumpkin, I will sell you off as a prostitute!"

Xu Mei-Feng ran over heedlessly and helped Wei Luo up as she cursed Xu Lei.

Ye Fan said expressionlessly in a soft tone, "I rarely hit women unless they really deserve to die!"

His cold words sounded murderous.

Ye Fan raised his hand and wanted to hack Xu Mei-Feng.

"Fan, don't do it," shouted Xu Lei anxiously as she hurriedly stopped him.

"Lei, how could you protect someone as vicious as her? No matter how good you are to her, she won't appreciate it," said Ye Fan coldly.

"Fan, I know what you're saying. But she is my uncle's only daughter. All these years, he has treated me well. If she dies, he will be so upset," implored Xu Lei bitterly with her head lowered for him to spare Xu Mei-Feng.

In the end, Xu Lei managed to convince Ye Fan out of it.

He didn't hit Xu Mei-Feng as hard, but she went flying and bled all over her face.

"I will spare your life on account of Lei. If you insult her again, I will cut off your head!"

Ye Fan's cold, threatening voice sent them to the bottom of an ice cellar.

In a matter of seconds, Wei Luo and Xu Mei-Feng had been beaten until they were half dead.

They lay prone on the ground like dead dogs.

"Fan, that's enough for today. Let's go. I'm really scared

that the Wei family will turn up.” Now that Ye Fan had struck them, Xu Lei felt even more worried.

This time, she didn’t conceal her intentions and got right to the point when she told Ye Fan to leave and hide.

“Lei, it’s okay. A tiny Wei family can’t do anything to me. Just sit back and watch as I make them submit! After this storm, no one in the country will dare to bully you ever again,” Ye Fan’s deep voice sounded confident.

“Damn it!”

“Is he an idiot?”

“Make them submit?”

“You are just a nouveau riche from the countryside. What makes you think you are capable of that?”

“Die if you want to, but don’t implicate us.”

The Xu family lost their cool and went into a panic as they kept cursing Ye Fan.

“Xu Lei, look what your man has done!”

“If our family gets implicated, it is all your fault.”

“How will you face your dead parents and our ancestors after you die?”

“It is our biggest misfortune to have progeny like you.”

All the elders from the Xu family scolded her one after another in panic.

In comparison to Ye Fan, the Xu family felt more threatened by the Wei family.

After all, the Wei clan was the most powerful family in Zhonghai. No other family in China besides the Mo family could compare to them.

But now, the Wei family's heir had been beaten to a pulp in the Xu house. This would certainly incite rage in his family.

The Wei family was sure to punish them for it.

It was only natural for everyone to feel terrified and blame Xu Lei for causing this catastrophe.

"You are the sinner of the family!"

"Get out! Get out now!"

"You aren't welcome here!"

"Die elsewhere if you want! Don't implicate us like this!"

In an instant, Ye Fan and Xu Lei were condemned by everyone.

The piercing sound of their scolding could be heard throughout the Xu estate.

Xu Lei lowered her head in shame as everyone cursed her.

But Ye Fan stood proudly in the hall.

He stood with his back straight like an erect spear as he

faced the storm.

Ye Fan seemed unaffected by the Xu family's angry tirade.

It seemed as though he wasn't bothered by them in the slightest.

The Xu and Wei families meant nothing to Ye Fan. Even if the entire world insulted him, it meant nothing to Ye Fan.

Very few in the world were capable of moving Ye Fan.

There was Yu Yun from back then, Qiu Mu-Cheng in Yunzhou, and Xu Lei. Other than them, there was his family and friends.

The rest of the world was nothing but ants to him.

Ye Fan just looked on coldly and was unaffected by this public condemnation.

He even reached his arm out to hug Xu Lei and comforted her gently, "Lei, don't be upset. It's not worth feeling guilty over these old fogeys."

"Okay." Xu Lei leaned against Ye Fan's chest. However, fear and worry remained on her face.

Perhaps she wasn't simply just upset about getting scolded by her family and was concerned about Ye Fan's safety as well.

She had caused this to happen.

If anything happened to Ye Fan, how could she live in peace?

The sound of the Xu family's scolding continued to echo through the halls.

However, a raging wind suddenly swept by and left dust scattering in the air as it made the doors and windows shake.

It felt like a typhoon was passing through.

"Huh?"

"What's happening?"

"What's going on?"

Everyone in the estate went into a commotion and shocked voices filled the air.

Before anyone realized what was happening, a thunderous rumbling reverberated throughout the house.

It was so loud that even the earth trembled.

Someone in the estate shouted in shock as he pointed up ahead, "Heavens! Look at that! What's that?"

Everyone turned to look in the direction he was pointing to see countless dark shadows quietly appearing in the sky.

At first, it was just a small speck. Before long, it became increasingly larger and larger until countless choppers came into their line of sight.

Everyone was instantly shocked and stared with their eyes wide as though they had seen a ghost.

“Look at all those choppers!”

“Does this mean...that the Wei family has arrived?”

Xu Wen-Qing and the others looked on in shock as their faces trembled.

Wei Luo had noticed the commotion as well and turned to look into the sky.

He smiled the moment he saw those choppers.

“My family is here! Ye Fan, you are dead meat! Our fighters are going to cut you to pieces and make you die a terrible death in a minute.” Wei Luo gritted his teeth and stood up as he laughed madly with joy.

He gave a sinister looking smile as he waved to the choppers in the air.

Wei Luo grew up in the Wei family, so he naturally recognized his family's choppers.

However, Wei Luo was surprised to see that the family had sent so many people to come and rescue him.

There were at least a few dozen choppers out there.

How many people did the family send to kill Ye Fan?

“Haha! My father loves me the most. Every fighter in the family has been dispatched. No matter how powerful you are, there is no escape!” said Wei Luo proudly with confidence.

Xu Mei-Feng suddenly felt confident and started

shouting at Ye Fan as well with joy in her eyes, "Haha! Do you see that? That is the difference between a country bumpkin and the heir to an elite family. No matter how powerful you are, you are a lone man while Luo has the backing of his entire clan! Are you able to pit yourself against the weight of an illustrious family? You and this little slut are going to be dead meat soon!"

Xu Mei-Feng ran over to welcome the Wei family with Wei Luo.

It seemed as though Wei Luo was a monarch waiting to be rescued by his courtiers.

"What should we do?"

"Now we are in real trouble."

"From the looks of it, the entire Wei family is here."

The rest of the Xu family were incapable of staying calm and turned to ask Xu Wen-Qing for advice.

Xu Wen-Qing's face was ghastly pale. Since the head of the Xu family wasn't around, he had to help make decisions.

He gritted his teeth and said in a low voice, "Let's go welcome him. Remember that if the Wei family asks about it, we have to push the blame on Xu Lei and Ye Fan. Since Mei-Feng is Wei Luo's woman, the Wei family probably wouldn't make things hard for us if she speaks on our behalf."

Since the Xu family was afraid of getting implicated, the only thing they could do was sever ties with Ye Fan and

Xu Lei.

Before the choppers even landed, the Xu family swarmed out to welcome them.

All of a sudden, only Ye Fan and the others remained in the living room.

Xu Lei was clearly petrified.

She had never witnessed such a sight in her life.

The large fleet of choppers certainly gave a huge visual impact.

“Fan, leave while you can. I will try to hold them back. I am acquainted with the Wei family, so they won’t do anything to me,” urged Xu Lei.

“Yu-Yan, what are you waiting for? Hurry up and get him to leave.”

Xu Lei got Ye Yu-Yan to help persuade Ye Fan again.

This time, even Ye Yu-Yan’s confidence wavered.

The Wei family was capable of sending dozens of choppers straight into the capital, so they had to be incredibly powerful and well connected.

Although Ye Yu-Yan was keenly aware of Ye Fan’s prowess, she knew nothing about the Wei clan.

She was starting to feel worried that the Wei family might be some secret martial arts elite family just like the Mo family and was connected to War God Castle.

Ye Yu-Yan tried to convince Ye Fan to leave out of worry.

“Instructor Chu, Miss Xu is right. Since we don’t know much about the enemy and the odds are against us, we shouldn’t fight them head-on. Let’s retreat and fight another day. Also, War God Castle told you not to make trouble. How are we going to explain things if things go awry?” Ye Yu-Yan tried to advise Ye Fan against going through with this.

However, Ye Fan was unmoved by Xu Lei and Ye Yu-Yan’s nudging.

He stood with his back straight and a cold smile on his face as he looked into the distance with his threatening eyes.

In an instant, his lips parted, and a cold, quiet voice rang in the air. “The Wei family sure thinks highly of me by coming in choppers to take care of me.”

Despite the joke, no one could sense his true emotions.

The choppers landed up ahead, and countless silhouettes disembarked from it.

Wei Chen, the head of the Wei clan, shockingly stood among them.

“Dad, you’re finally here. If you came any later, you would never get to see me again.

The moment Wei Luo saw his father, he clung to his father like a drowning man who had just spotted land.

He ran over and hugged his father’s legs as he told his

father everything with tears and snot streaming down his face.
