

The trio from the Ji Family were experienced in the business world and could easily detect the disdain in Jiang Hui's eyes. However, they were uncomparable to Jiang Hui in terms of their status so they obediently followed Miao Bai without any thought of voicing out their displeasure.

After the trio took their seats, the Ji Family bodyguards stood by the door, afraid to even lift their heads. Before arriving at the Cloud Villa, Ji Ding had specially ordered their bodyguards to bury their heads in the sand no matter what problems arose and never to start a conflict with the Tang Family members.

Jiang Hui rested her body against the sofa and gave a sweeping glance

across the three faces in front of her in silence. The atmosphere in the living room instantly turned awkward.

Ji Ding felt jittery in his heart and Li Chengshuang looked pale as her breath shortened. Compared to the two, Ji Mu was slightly more composed although she was only putting up a brave face.

“Has the Xie Family arrived?” Jiang Hui was silent for a long time before a smirk appeared on her face.

Ji Ding felt pins and needles on his scalp as he lowered his head without responding. That made Li Chengshuang feel panicky and force a rather awful smile. “The Xie Family? The engagement is between our families, so what does the Xie Family have to do

with it? Why would they even show up here?”

“I thought you mentioned an engagement with Xie Ansheng from the Xie Family when you were corresponding with the Ji Family earlier,” Jiang Hui cocked her head and said with a smile.

“That’s...” Flustered, Ji Ding rubbed his nose, not knowing what to say.

“That’s a miscommunication between the messengers. We have always planned to have Youyou engaged to Tang Yin!” Li Chengshuang smiled, her expression changing swiftly. “When I first saw Tang Yin in Beijing, I immediately thought that he and Youyou would be a match made in

heaven! In fact, I've actually started discussing their marriage after I brought Youyou back from Wuhan!"

"Oh." Jiang Hui nodded. She took out a pile of documents from below and threw them on the coffee table. "I heard that you wanted Venture Capital Finance."

"No, not at all!" Ji Ding laughed dryly and explained, "We were joking with Tang Yin and did not have other thoughts. It's good that Venture Capital Finance is in his hands. How well the company grows in the future will be proof of Tang Yin's capability!"

"Oh, are you telling me that you don't want it?" Jiang Hui smiled and stared at the trio.

Ji Ding's expression changed as he dryly chuckled. On the other hand, Li Chengshuang was entranced by the contracts on the coffee table.

Since the Ji Family was in a dire situation, they could make a lot of money without any loss if they secured the operations of Venture Capital Finance in Wuhan. She recalled that she had never asked for Venture Capital Finance to be transferred to her even when she first dealt with Tang Wei. At that moment, Li Chengshuang's eyes seemed to sparkle when she looked at the contracts. *Are they really handing the company to me?*

"The contract is here." Jiang Hui rested her back against the sofa again and said with a smile, "If you sign it, Venture

Capital Finance will truly be yours.”

“Really?” Li Chengshuang couldn't help blurting out.

Ji Mu's heart skipped a beat as she could foresee that the short-sighted Li Chengshuang was on the verge of making a dangerous decision, so she chimed in immediately, “Madam Tang, our Ji Family has been doing well in Beijing. There is no need for us to covet the Tang Family's Venture Capital Finance! If the Ji Family is willing to put in the effort, I believe that one day we could stand tall like Venture Capital Finance!”

“Yes, that's right!” Ji Ding forced a smile too.

Li Chengshuang seemed to have finally grasped the situation, and her expression immediately became sullen.

Jiang Hui smiled and reached out again below the coffee table. This time, she took out a double-barreled shotgun.

At the sight of the shotgun, the trio's breathing quickened.

“If that's the case, don't blame me later for not giving you the company! Anyway, even if you don't want Venture Capital Finance, I could help you to mitigate the risk of investing in the Xie Family project! After today, you will get 13 billion, and the Tang Family will get a daughter-in-law. However, Ji Youyou will not have any relationship with your family in the future. Is that okay?” Jiang

Hui opened the gun chamber and loaded two bullets into it again.

The trio's expression became awful, especially that of Li Chengshuang.

Although it was good news for the Ji Family that the Tang Family had offered 13 billion to fill in the investment loss, Li Chengshuang still felt that she had lost something for real.

"I also heard that... you have once worked with Tang Wei to set traps for my son." After Jiang Hui loaded the ammunition, she raised the gun little by little until it was pointing right at Li Chengshuang's head.

Li Chengshuang's expression changed as she pleaded with Jiang Hui, "Madam

Tang, I... I was blinded at that time. I was deceived by Tang Wei!”

“Oh?” Jiang Hui gave a faint smile and pointed the gun toward Ji Mu. “I heard from Yuan Zhian that you imprisoned one of Tang Yin’s friends.”

Ji Mu’s heart skipped. She immediately lowered her head and admitted, “Madam Tang, Wang Lang is still here. It’s true! I have brought him over...”

“Where is he?” Jiang Hui raised an eyebrow.

“I’ll ask someone to bring him out right now!” Ji Mu swallowed hard and turned her gaze toward Chen Dong. The latter hurriedly went out of the living room and brought Wang Lang in.

Jiang Hui looked over toward Wang Lang with a raised brow and she could tell that something was wrong with Wang Lang's body. He seemed to have great difficulty in walking.

"Before this..." Ji Mu flashed an awful smile. "Before this, we had a slight misunderstanding. That's why..."

Jiang Hui flashed a smile. "That's fine. I always experienced misunderstandings too!" Just as she finished her sentence, her eyes gleamed with a murderous look, and her fingers started to curl up in preparation to pull the trigger.

"Madam Tang! Madam Tang!" Ji Mu's knees wobbled in fear and she instantly fell onto her knees as she pleaded in despair, "It was really a

misunderstanding! If you let me go this time, I will follow your lead in the future!”

Even so, Jiang Hui's eyes remained squinted, her gaze still murderous.

“D-Don't kill her!” At that instant, Wang Lang's weak voice rang out as he looked at Jiang Hui with begging eyes.

Jiang Hui raised her eyebrows at his unexpected move and stared at him coldly.

Upon meeting Jiang Hui's glare, Wang Lang fell onto his knees with a plop. “I am begging you, Madam...”

Ji Mu's body trembled and she looked at Wang Lang in astonishment. She had

not expected that Wang Lang would plead for her life. If this incident was reversed, she would have wished for Wang Lang's death instead of pleading for his life.

"Alright then." Jiang Hui stood up straight and took back the contract before turning to walk out. "Miao Bai, give the Ji Family 13 billion now and have them leave this place immediately!"

"Yes, Madam!" Miao Bai nodded without any change in his eyes. He took out a card and placed it on the coffee table. "Here's the 13 billion. From now on, Miss Ji Youyou will have no relations with your family at all..."

Ji Ding's face flushed and he didn't

## Chapter 496 We're Square Now

know what to do at the moment.

“Ji Youyou is my daughter. Are you really barring me from joining her engagement ceremony today?” Finally, Li Chengshuang couldn't stop herself from saying this while looking at Miao Bai in fear.
