

Chapter 608

Henry punched against Eric's fists. There was a huge amount of Qi gathering between their fists. Before their fists collided, their Qi had already collided, causing a violent collision.

A wave of Qi spread out between the two of them.

Henry and Eric retreated three steps back almost at the same time.

Eric's eyes were full of shock. He looked at Henry. Eric was surprised to see that Henry was only in his twenties, but had such a strength. He had just exerted 70 percent of his strength, and he took the initiative to fight with Henry. And all of that was not enough to defeat Henry. They were equal.

Henry shook his fist and grinned. "Interesting, you are much stonger than the one before."

"Boy, you're too arrogant!" Eric shouted, "Today, I'll take your life!"

"Ha-ha." Henry smiled softly. "I have heard this sentence too many times."

"Go to hell!" Eric no longer talked nonsense. The screams of the Zhao clan kept ringing in the courtyard, which made him feel mad. He mobilized the Qi in his body and rushed to kill Henry.

"Good!" Henry's eyes were full of excitement. He had finally met an opponent with some strength. Just now, Henry only used a half of his strength, but was able to be equal with him.

The two men fought. If it were other people fighting, only the participants would get hurt and suffer some damage. But the battle between Henry and Eric was like a huge meat grinder. Each time the two of them collided, there would be waves of Qi. Those weaker people would not be able to bare the power of those waves. They would be blown out and their internal organs would be

damaged.

In the blink of an eye, the two men had exchanged dozens of moves. The more Eric fought, the more frightened he became. The strength of the young man in front of him had greatly exceeded his expectations. Eric had only used 70% of his strength to test Henry's level. However, gradually, 70% of his strength had increased to 80% and now 90%. Eric felt that it was a little difficult for him to figure out Henry's level.

Compared with Eric's fear, Henry was more and more delighted. The irritation in his heart, which had been suppressed for several days, poured out at this time.

"Brat, I admit that you are very strong, but your understanding of Qi is too shallow!" Eric took a deep breath and didn't plan to hide his strength. He stretched his arms and then formed Crane Fists.

A crane formed out of Qi was held in Eric's hand. It spread its wings and pecked at Henry.

"Boy, the connection between man and Qi is as vast as the sea. It's not something you can understand. I'll let you see what can Qi be transformed into." A proud expression appeared on Eric's face. He had only recently broken through to this realm. But still compared to other clans around China, he could still only be ranked in the middle.

The gap between the Transforming Realm and the Qi-controlling Realm was enormous!

Henry could obviously see the crane formed out of Qi pecking at him.

"Transformation?" Henry captured another important information. "It turns out that this is how Qi could look like. It's called Transformation!"

"Boy, it seems that your elders didn't teach you." The smile on Eric's face became wider and wider, but when his smile reached its peak, he suddenly stopped.

Because Eric clearly saw that on Henry's left hand, there was a fierce tiger. The fierce tiger was also formed out of Qi, but it was more solid and more flexible than the

crane in his hand.

The crane made by Eric was only an illusion, but the tiger in Henry's hand seemed to be tangible.

"It's impossible! It's impossible!" Eric widened his eyes and looked at Henry in disbelief, "Transformation! How can you reach the stage of transformation? And your transformation has even reached such a high level!"

"What's wrong? Is it difficult to do the transformation?" Henry smiled. The fierce tiger in his hand opened its bloody mouth and pounced on the crane in Eric's hand. After encountering the fierce tiger, the crane was completely torn up without any resistance.

The ferocious tiger didn't slow down and rushed towards Eric.

Eric's face finally turned ugly. He used his Qi to resist, but it was impossible to stop the tiger's claws. The Qi was torn apart by the tiger like a piece of thin paper, and the tiger's palm hit Eric.

This tiger paw was as big as the hand of a two-year-old child. When it hit Eric's body, Eric flew backwards like a kite with a broken string. There was an obvious damage on Eric's chests.

Eric spat out a mouthful of blood, and his face turned pale. He was seriously injured just by that move.

"Transformation?" Henry looked at the fierce tiger in his hand and said, "Interesting, this world is getting more and more interesting!"

Henry swung his arm, and the tiger disappeared. He walked to Eric, with his hand in the shape of a knife. At the same time, a sharp knife made out of Qi extended along Henry's arm to the tip of his palm. It was sharper than a sharp knife carefully polished by the blacksmith.

Seeing that Henry could transform the Qi as he wished, Eric was completely desperate. Apart from the countless men in black whose combat experience was much better than that of the Zhao clan, such a young man could easily destroy the Zhao clan just with his strength.

Eric was unwilling to give up. The Zhao clan was about to rise, but was destroyed by such a person on the eve of their rise. He said, "I don't understand who you are. Why did you attack our Zhao clan? We know we have never offended you."

"You want to declare war with my Radiant Island. Isn't that a provocation?" Henry said to Eric in a low voice.

"Radiant Island!" Eric's pupils constricted, and then his eyes darkened as he said, "No wonder, no wonder."

The Zhao clan had already made a plan that once they entered the secular world, they would first take Radiant Island, the Holy Land, as the first base for the Zhao clan to enter the secular world. However, before the Zhao clan entered the secular world, Radiant Island had already come to kill them.

However, Eric couldn't understand how Radiant Island knew that the clan wanted to attack them. The people who took part in the plan were all people with high status in the clan, so no one would leak the plan.

Eric was destined to be unable to figure out this question.

Henry waved his arm, and his Qi knife slid across Eric's neck as smooth as cutting tofu. Eric opened his round eyes wide and did not close his eyes until he died.

"Patriatch!"

Eric's death caused the minds of the entire clan to be thrown into disarray. The three elders, who were still fighting with Future and others, looked at him with eyes filled with grief and indignation.

"It's not a good habit to be distracted during a fight." Alex bared his white teeth and waved the machete in his hand, pointing directly at an elder's heart. They were so experienced in fighting that they would not let go of any small mistakes made by the enemy.

Just as the elder was looking at Eric, Alex's machete accurately stuck into the chest of the old man.

The elder was shocked. He turned around with difficulty and looked at Alex. As soon as he opened his mouth,

Red Hair attacked him from behind. He grabbed his head and lifted it forcefully.
