

Chapter 2101-2150

Levi Garrison smiled, "It's very simple, let my people go and take away all the sun stones at the same time!"

"No!!!" As

soon as this was said, someone immediately refused.

"No way, is it? Then I will kill her!"

Levi Garrison simply and rudely wanted to kill Li Chengmin.

"Promise him!"

Li Chengmin shouted.

"Is the group leader real? This is a once-in-a-lifetime opportunity! Are we going to really let it go?"

"Yes, this opportunity is gone, the next time it will be difficult. And the Gods Lab left immediately. It's hard for us to explain!"

...

Everyone looked embarrassed.

Li Chengmin stared at everyone, "Then you want me to die?"

"Ah? It's not, we..."

Everyone began to struggle.

It's not to let it go, and it's not to keep it going.

"Hurry up, my patience is limited!"

Levi Garrison said.

"Let it go! Let go!"

several senior executives immediately shouted.

"No, I want to watch people leave with my own eyes!"

Levi Garrison took Li Chengmin to the hiding place of Sun Stone.

“Ren and Sun Stone will come out soon, please pay attention to respond!”

Levi Garrison contacted Zhuque and the others to respond.

Finally, Levi Garrison watched Qilin and the others leave with the Sun Stone.

“I don’t have much time for you, so it’s all up to you, don’t shame me!”

Levi Garrison said.

indeed.

He could only use Li Chengmin to threaten him for a short period of time.

Especially after Richard arrived, even if Li Chengmin died, he would do it.

So the time is less than half an hour.

After half an hour, the Sanxing Group will chase it, and Richard and the others will chase it even more.

At that time, they could only rely on themselves.

Regarding the strength of Azure Dragon (Qinglong) Qilin and their strength, he is still at ease.

Not to mention avoiding it permanently, it's okay to avoid it for a while.

“Huh? I want to track it secretly, stop it all! And hand in all your deployment plans! Including personnel and equipment!”

In order to prevent everyone from being tracked, Levi Garrison also made some follow-ups.

These deployment plans were given to Qilin.

Allow them to escape further.

Time passed by every minute and every second.

Qilin and them all withdrew with the Sun Stone, and successfully reunited with Suzaku and them.

In a short period of time, they have disappeared from the sight of Sanxing Group.

“Huh? Obviously we can detect it just now! Why did they disappear suddenly?”

“Where did they go, we clearly stared at it?”

...

Sanxing Group will never let Qilin and the others leave.

There are trackers on the transported ships or devices, even if the Qilin and the others leave, the position is always locked.

But everything disappeared just now.

Qilin these people disappeared out of thin air.

Levi Garrison felt relieved when he heard this.

Sure enough, these guys still have two brushes.

But if this is not possible, his efforts will be wasted.

Then he can come at his own pace.

He still has to procrastinate.

Otherwise, the Lab of the Gods will still be frantically looking.

Azure Dragon (Qinglong) and the others still suffer from Shang Richard.

Don't be afraid of 10,000, just in case.

Levi Garrison can actually go.

But he can't go.

If he leaves.

Richard will definitely send all the power out to find Qilin and them.

When the time comes, the pressure on their side will be too great.

Maybe it will lose everything.

Therefore, he cannot go.

He is going to hold Richard down here.

He hijacked Li Chengmin and looked at Richard with a smile, "Richard, you are a little slow, much later than I thought."

"Huh?"

Richard was taken aback not far away.

He didn't expect the other party to call his name directly.

And listening to this tone, it seemed that it was Levi Garrison.

"Who are you? Why do you pretend to be Levi Garrison?"

Richard said coldly.

"I am Levi Garrison, why should I pretend to be?"

Levi Garrison smiled.

Richard stared at Levi Garrison, "Do you think I will believe it? I already know that you are that power! When I catch you and tear off your disguise, you will know who you are."

"All People are ready to take him down! Never let him go!"

"Mr. Richard don't...The composition is still in his hands! If we are in a hurry, the team leader will be in danger!"

"Mr. Richard, please! Don't..."

...

Li Chengmin's subordinates pleaded.

They don't want the team leader to have an accident.

It's just that Richard has a cold face, and doesn't care about Li Chengmin's life or death.

"Go! Just a mere team leader! Let alone her, even if it is the true head of the Sanxing Group, I will not care about his life or death!"

Richard roared.

In the eyes of the Gods Lab, Sanxing Group is just a dog raised.

He doesn't care about anyone's life or death.

He wouldn't care even if he was at the helm of Sanxing Group.

Not to mention the leader of a security group.

In the Sanxing Group, it is a high position, but in his eyes, it is like an ant.

It's impossible to threaten her.

"Take it! Don't worry about her life or death!"

Richard ordered.

At this time, everyone in the Sanxing Group did not dare to say anything, and could only execute orders.

Li Chengmin was also shocked.

In Richard's eyes, she was not worth mentioning.

"Hahahaha... Did Leader Li see it? You gave people your life, and they don't even care about your life!"

Levi Garrison laughed.

Li Chengmin's face became more and more ugly.

"Fortunately, you have already become my inner ghost! Otherwise you will die in vain."

Levi Garrison said next sentence.

Everyone in the audience was stunned.

Even Li Chengmin himself was taken aback.

The speaker has no intention, the listener has the intention.

Everything tonight looks weird.

Why was Li Chengmin so easily captured by Levi Garrison?

She did not resist at all?

The senior management of Sanxing Group and the Lab of the Gods knew that Li Chengmin was very powerful, especially her control ability.

Can control everything, including human minds and so on.

Even that group of demons can control.

But why not use Levi Garrison?

Let him catch it?

Then cooperate with Levi Garrison to make people and Sun Stone escape.

That's a pure energy body!

Even Richard himself doesn't know how to deal with them?

Fortunately, he controlled their consciousness in advance.

These people are used by them.

Richard once imagined that if his opponent had a pure energy body, how would he deal with it?

How should the Gods' Lab deal with it?

Richard conceived according to everything he knew, and the end result was that he could not deal with pure energy bodies.

There is no way.

Encounter is helpless.

The only thing we know is how Xu Zhengjie died.

But how to restore that environment?

The other party will not let you get rid of it stupidly, and he can't restore the terrible degree of that experiment.

He doesn't have that kind of super particles.

So for a period of time, Richard was melancholy about this matter.

Even if the other party does not have a pure energy body, what if the pure energy body that you experimented with turns back?

How should he deal with it?

He has to figure out his future.

In the end, one of the real seniors in the Lab of the Gods, Richard's immediate boss, told him.

Feel free to experiment and produce pure energy bodies.

The Lab of the Gods has a solution to the pure energy body, but this is confidential.

Since then, Richard has let go.

At the same time, there was a little more fear in the laboratory of the gods.

I thought he had already touched the core of the Gods Laboratory.

Unexpectedly, it still didn't.

Even the pure energy body could be removed, he couldn't imagine.

How strong is the true core of the Lab of the Gods?

How many secrets do they have?

What are they controlling?

Richard vowed to continue to work hard to gain access to the true core of the Lab of the Gods.

He wants to reach the same level as his immediate boss.

...

That's why Richard went to do this experiment frantically.

After all, there are people on the bottom.

The pure energy body joined the battle group, which greatly enhanced the combat power of the Gods Laboratory.

Richard personally led the team to hunt down.

On the one hand, he paid close attention to the news about Sun Stone and Qilin.

It's just that Qilin and the others slipped too fast, and they disappeared without knowing what method

they used.

Although most of the power of the Gods Laboratory was overwhelmed.

But there is really not much gain for a while.

...

Levi Garrison dragged as much as possible to help them disperse their strength.

Others have to look at themselves.

He is now running wildly with Li Chengmin.

Has entered the center of Star City.

This is the advantage of bringing Li Chengmin.

She knows everything and knows where to go and where not to go. "I just notified by the secret line that Richard had almost sent all his power to block the Star Nation. In order to catch you, he did everything at all costs! It is said that he sent two super masters! It is comparable to the existence of the Scepter of God! It is Richard! Germany's biggest killer

!"

"We are in big trouble now."

Li Chengmin looked solemn.

I used to hear that Richard had a lot of hole cards, but he had to add one behind the strongest.

But the two sent out this time turned out to be Richard's strongest killer, none of them.

This is serious.

Levi Garrison's expression also changed after hearing this. After this period of contact, Levi Garrison discovered that Richard, even though he was known to the outside world as the top of the Lab of the Gods.

But he still did not touch the core of the Gods Lab.

The Lab of the Gods has to dig further.

Even the strongest killer is nothing.

So he must touch Richard's strongest killer.

"Huh?"

Seeing Levi Garrison's leisurely appearance, Li Chengmin couldn't help being stunned.

“What do you mean? It’s all this time, I’m not nervous at all?”

Levi Garrison smiled, “What are you nervous about? Now we are grasshoppers on a rope.”

“Who are you? Where are you from? ?”

Li Chengmin sensed something else and couldn’t help but doubt Levi Garrison’s identity.

“I’m Levi Garrison!”

Levi Garrison pulled down his hat and revealed his original face.

“Don’t pretend, you can be easy...”

Li Chengmin just wanted to say Yi Rong, but suddenly he remembered something.

“Aren’t you really Levi Garrison?”

Li Chengmin opened his mouth slightly, surprised.

“It’s me!”

Levi Garrison didn’t need to hide from Li Chengmin.

Li Chengmin's brain is running fast, thinking a lot, and accepting that the person in front of him is Levi Garrison.

"Gosh, how did you survive?"

Li Chengmin looked incredible.

Levi Garrison is too amazing, right?

Just a little bit of her finger just blocked her ability to use.

She wanted to know why Levi Garrison was still alive.

Levi Garrison smiled, "Sometimes what you see may not be true!"

"Fake, everything we see is false?"

Li Chengmin thought he was also the top group of people in the world.

But she couldn't imagine how Levi Garrison could deceive the world.

"Don't worry, you and I will be able to safely escape from the star country!"

Levi Garrison just checked Li Chengmin's information.

This woman is a cruel person.

And the status of Sanxing Group is extremely high.

Once he found out Richard's real hole cards, he had to withdraw.

Relying on his strength and Li Chengmin's whole body to retreat is nothing to say.

...

Richard and the others quickly shrunk the encirclement and guarded the surroundings of Star City.

With the patience of the Gods Laboratory, it is really possible to achieve the level that a fly can't fly out.

“

Look for it!” “Look for it all! Remember that Li Chengmin is very familiar with everything about Star Country, and even knows our deployment! You must look carefully!”

...

Richard ordered.

Each department conducts a carpet search in Star City.

Especially the frantic search for places related to Li Chengmin.

...

Time passed by every minute and every second.

Levi Garrison was even so bored that he lay on the sofa, flipping through some information about Sanxing Group.

There is even Li Chengmin's collection of red wine next to it.

Li Chengmin didn't have any thoughts, on the contrary, she was so busy to death, she kept paying attention to the outside dynamics.

She didn't understand Levi Garrison's intention to stay inactive.

In fact, Levi Garrison was waiting for her Charitable's biggest killer.

"Inquired, Richard's biggestOn the other side, Levi Garrison was as calm as ever.

Li Chengmin was still anxious: "Richards and the others are looking frantically now. Our place will be found

if you insist on one day at most." "Don't you want to think about how to leave?"

Levi Garrison smiled: "Don't worry, it won't take a day. You can find it in an hour! Don't underestimate

Richard!!!”

Richard asked.

Li Chengmin’s cronies are all dumbfounded.

Why would you ask them?

“We don’t know Mr. Richard! Are we looking for it too?”

Everyone wondered.

Richard smiled: “Well, I know you are in touch with her! You are providing her with news and convenience!”

“Boom!”

Everyone’s expressions changed greatly.

Just when they were sophistry, Richard immediately shouted: “I’ll give you a chance! If anyone tells where Li Chengmin is, I will not only spare him not die, but also reward him! I even let him join the Lab of the Gods!”

“Don’t say, kill without mercy!”

Richard gave everyone two ways.

Either die, or speak out and enjoy the glory and wealth.

As soon as they heard joining the Lab of the Gods, some people showed enthusiastic expressions on their faces.

Joining the Lab of the Gods should be the dream of each of them.

Who doesn’t want to?

A dream thing!

“Don’t tell me! Richard will kill you too!”

“Yes, are you still not sure about Richard’s style?”

...

There are a few people who want to be tight-lipped and protect Li Chengmin.

And they knew it was a dead end.

“Kill!”

Richard ordered, directly killing these people who disturbed the military’s morale.

The others were terrified.

“Not to mention that is the end, I said to join the Lab of the Gods! How can I kill you when I use people!”

Richard smiled.

Li Shiji echoed: “Yes, am I just an example?”

“As long as it is valuable and useful! Absolutely reuse!”

Several people looked at each other and finally decided to confess.

Soon according to the address given by several people, Richard's men locked Li Chengmin's position.

"It has been confirmed that Li Chengmin and that person are there!"

Richard's expression changed suddenly: "Okay! Order everyone to surround here! Immediately, immediately, go!"

Several of Li Chengmin's cronies said excitedly: "Richard Mr. De, do you think we can join the Lab of the Gods?"

Richard smiled, smiling like a devil.

The few people seemed to realize something and wanted to run away immediately.

But how could Richard's men let them go?

Soon several people fell in a pool of blood... In

Li Chengmin's secret hideout, Li Chengmin suddenly lost contact with his cronies.

At this time, Levi Garrison was counting down: "3, 2, 1!"

Boom!

Suddenly the house suffered a terrible bombardment!

“They’re here! What should I do?”

Li Chengmin turned pale.

“Kill out!”

Levi Garrison and the two immediately killed out.

The first attack is “Come!”

Levi Garrison got serious.

From the tens of thousands of people in front of him, he has felt two very different existences from the others.

Whether it is a super power or a warrior.

Both are different from these two people.

How do you describe these two people?

Join Telegram Group For Fast update

Correct!

Sun Stone!

These two people are pure energy bodies just like the Sun Stone.

Join Telegram Group For Fast update

There is terrible energy in it.

They can't feel their organs, blood, muscles and veins at all.

Pure energy body?

It seems to be composed entirely of energy.

As expected of Xu Zhengjie!

If this lunatic is alive, it is probably more terrible than Richard!

Fortunately, he died.

Before Levi Garrison could think more, all the masters in the Lab of Gods came up.

Even though there were two pure energy bodies in the battle, Richard was still worried and needed a large number of masters to assist.

Levi Garrison and Li Chengmin joined forces.

I have to say that Li Chengmin has two tricks, especially her control ability, which is simply the nemesis of the superpower.

Always restrain them.

Li Chengmin immediately entangled dozens of masters and shared a lot of pressure for Levi Garrison.

Levi Garrison also fought with a large number of masters.

...

Richard is always paying attention to the situation, and this matter has been fixed immediately, but he still can't ignore it.

But at this moment, he received the news.

People like Sun Stone and Qilin chased and disappeared.

They disappeared completely, no matter what method they used to find them.

"Are those machines?"

Richard asked.

“It’s so strange, it disappeared for no reason! The other party’s method is a bit powerful!”

Richard thought for a while, and said: “Forget it, according to their strength in the previous few times, this we certainly can not find the time! leave some people still look, another part to Star City! there is a person, we must catch! “

track unicorn Sunstone team of people to return, and the pressure up to the side.

It will be difficult for Levi Garrison to leave when that happens.

Unless abruptly to open a bloody path.

...

Levi Garrison had already fought against the pure energy body in the field.

“Boom!”

“Boom!”

... The

two sides fought back and forth.

Although it is a low-profile version of pure energy body, the power is too fast.

Can actually fight Levi Garrison!

Don't let the wind fall in the slightest!

However, the rest of the masters suffered. Levi Garrison slammed it down with a punch, and they couldn't bear it.

Either the body exploded, or a blood hole was blasted...

even though they were also very strong.

But between Levi Garrison and the two pure energy bodies, it still seemed weak.

Not one level.

If you insist on getting involved in this level of battle, there is only one dead end.

What Richard originally wanted was to use the two pure energy bodies as the main combat power, and the other masters to consume and harass.

Now it seems to be of little effect.

It had little effect on Levi Garrison.

The casualties were heavy.

More and more masters fell.

These people can also stalemate with Li Chengmin.

“Boom!”

“Boom!”

.....

Along with Levi Garrison’s horrible two punches, all those who consumed and harassed him were blown away.

Only two pure energy bodies are left.

“Master, no need to send someone “Bang!”

“Bang!”

Levi Garrison was strong enough, as strong as a pure energy body that flew out horizontally under his two punches.

“Kacha!”

“Kacha!”

...

the armor on their bodies burst into pieces.

They backed up hundreds of meters and didn't stop.

A look of hideous pain appeared on his face even more.

This is the first time everyone has seen a pure energy body like this.

Seeing everyone was frightened.

This is too strong, right?

At first, everyone thought that the pure energy body encountered anyone was a unilateral crush and slaughter.

Unexpectedly, this time the opponent is so strong, so that it can suppress the pure energy body.

...After the

pure energy body exited more than 100 meters, it finally stabilized the figure.

But they became weird in the next second.

“Bang bang bang...”

bursts of crackling like firecrackers came from their bodies.

Multiple strengths broke out!

Second strength!

“Bang bang bang...” The

third heavy force!

...

Five-strength!

One heavy force followed by another heavy force completely exploded in the body of the two pure energy bodies.

There were horrible sounds.

And their bodies were blown through thousands of holes, torn apart, and extremely deformed.

This is the second display of Levi Garrison's multiple strengths.

The first time it was to kill the Destroyer, no one knew.

This time it is equivalent to showing it to the world.

Is it amazing to everyone?

There is this kind of exercise?

what is this?

Everyone is unheard of!

Especially the pure energy body can be beaten without the power to fight back!

It's terrible!

Seeing the embarrassed look of the pure energy body, the body is about to explode.

Everyone was dumbfounded.

Could it be that Richard's biggest killer was abused the first time it appeared?

That will become the biggest joke!

Even Li Chengmin was excited.

As expected, Levi Garrison was able to beat Richard's biggest killer.

She became more and more confident about surviving.

No way?

Is the pure energy body going to lose?

Li Shiji looked at Richard.

They are also scared.

If you lose, it would be too shameful.

It's just that Richard had a calm face and said coldly: "Look at it!"

He was surprised only because of the multiple strengths Levi Garrison had just used.

He even appeared in a trance before, what if this person is really Levi Garrison?

But now the doubts are dispelled.

This man used a method he had never seen before.

Exclude Levi Garrison!

...

"Boom!"

Multiple vigors broke out completely.

The bodies of the two have been severely deformed.

Just when Li Chengmin thought he was going to win, Levi Garrison's expression changed: "Not good."

Sure enough, in the next second, the bodies of the two masters deformed and returned to their positions, and the bodily wounds were eliminated one by one.

They are exactly the same as before.

There was no sign of injury at all.

This is the terrible thing about pure energy bodies!

They are energy bodies, not entities.

So the attack is useless.

Only temporarily can suppress them.

“I don’t believe it!”

This time, Levi Garrison took the initiative to attack.

“Boom!”

“Boom!”

... There

are multiple vigors again, this time six vigorous vigors!

The two are still as embarrassed as before, and they will explode when they see their bodies

If it is dragged by the pure energy body, there will be constant danger.

Seeing that Levi Garrison was about to run, the two pure energy bodies tried their best to entangle him.

Richard sent more people to hinder Levi Garrison.

“Go, strengthen manpower, and take Li Chengmin down!”

Richard wanted to see if the person in front of him would leave Li Chengmin and escape alone.

He sent more people to besiege Li Chengmin.

There are also a few wizards among them.

Li Chengmin can control others, so he does the opposite.

Use wizards to control or disturb Li Chengmin.

Soon Li Chengmin fell into a disadvantage.

“Bang!”

She was beaten and flew out.

Even Li Chengmin felt that she was going to be abandoned by Levi Garrison.

After all, she is a burden in this situation.

...

“Mr. Richard and our people will arrive in three minutes!” At

this time, the army that had returned to press over arrived immediately.

That’s all Richard’s power.

Although the two pure energy bodies are immortal.

But the main fighting power depends on these people.

When they came, Levi Garrison couldn’t escape anyway.

Unless everyone is killed.

But that is impossible.

“Two minutes!”

...

time is passing.

Li Chengmin seemed to be controlled.

Levi Garrison returned suddenly and rescued Li Chengmin.

This woman can't die.

Still useful!

“Hahaha... Now it seems that he is not separating us. They are really a group! But now it's fine, none of them can leave!”

In Richard's view, Levi Garrison's act of rescuing Li Chengmin can only be done. Explain that they are in the same group.

But this is a great opportunity for him.

Levi Garrison dragged a burden, absolutely unable to escape.

“Go on! Take him down!” With

a wave of Richard, everyone went crazy and besieged Levi Garrison.

At this moment, Li Chengmin had been seriously injured and was almost useless.

Only slightly better than cumbersome.

...

“One minute! In one minute, our large forces will arrive! They will definitely not be able to escape by then!”

Hearing the voice in his ears, Richard was excited.

Finally able to catch an enemy.

Grasping one can definitely pull out the entire force.

“Boom...”

Richard’s army was about to arrive, and the voice from far away had already been heard.

The aircraft team has arrived.

Form a blockade in the air.

The same advanced weapons were all aimed at Levi Garrison.

...

“They’re here! We will be surrounded in tens of seconds! We can’t go out at that time, unless everyone is killed!”

Levi Garrison said solemnly.

Now he is not as strong as this laboratory of the gods, so he is not sure whether he can kill it once he is surrounded.

Really not sure.

So try to escape before Richard’s army encircles.

The time until the encirclement of the army is about to count down.

Levi Garrison still couldn’t get rid of the pure energy body.

“Hurry up and find a way!”

Levi Garrison shouted at Li Chengmin.

Li Chengmin’s face changed.

In the next second, a group of young people rushed out of the crowd.

To be precise, they are boys and girls aged 13 or 4 years old.

That is, the young people of Sanxing Group who are afraid of fear, they are known as the “devil”.

They suddenly lost control, and even killed the masters of the Gods Lab.

These young people had never had time to show their strength before.

In particular, they only listened to Li Chengmin.

After Li Chengmin was taken away, they remained still.

Of course, no one in Sanxing Group dared to order them.

Don't dare to provoke.

Plus Richard didn't pay attention at all, so they kept hiding in the corner.

But now after hearing Li Chengmin's order, this group of people actually killed the master of the Gods Laboratory.

This group of young girls is simply terrifying.

Some of the super masters in the Lab of the Gods could not stop them at all.

They soon came to Levi Garrison in front of the two.

They separated six people and actually entangled two pure energy bodies.

This is the opportunity.

A chance to get out!

In ten seconds, Levi Garrison took Li Chengmin away.

At this time, before the army of the Gods Lab was encircled, Levi Garrison still found a gap and rushed out.

The two pure energy bodies wanted to catch up, but they were tightly entangled.

These young boys and girls are all powerful and terrifying.

There were a total of 13 people, and the shots together were earth-shattering, and they suppressed the masters of the Gods Laboratory for a while, including the two pure energy bodies.

Of course, everyone did not react.

Attention was all on Levi Garrison.

Suddenly someone came out, so naturally he couldn't take care of it.

"Huh? This is..."

Richard was stunned.

He didn't expect that Sanxing Group would still exist like this?

Li Shiji said immediately: "Mr. Richard seems to be the finished product of the Magic Creation Project developed by Sanxing Group and the laboratory." The

Gods Laboratory created the "God Creation" project thirty years ago.

Together with Sanxing Group, they developed the "Making Devil" plan.

In fact, it is almost the same as the God-making plan.

It's just that the technology is a little more advanced, but Zhu Shen Lab only provides partial technical support, not all of it to Sanxing Group.

The Gods Lab estimated that the murderous weapons created by the Sanxing Group's Devil-making Project were at best a little stronger than the Destroyer.

How do they know that Sanxing Group's own technology is also advanced, although it has not reached the level of the Gods Laboratory, but it is close.

Therefore, the success rate of the Magic Project is very high, with 13 people succeeding.

And much better than Destroyer.

It's just that Sanxing Group has concealed it itself, including data.

So the Lab of the Gods did not pay attention.

Only the insiders of Sanxing Group know what kind of demons this is.

Too strong, too violent and bloody.

After the initial success, no one can control it.

Almost overturned the Sanxing Group.

Fortunately, Li Chengmin can control them.

Therefore, Li Chengmin also became the leader of the security team.

Only then did Li Chengmin understand.

It's not that Levi Garrison can't escape, he doesn't want to escape!

He had escaped long ago if he wanted to.

In fact, he stayed to hold down Richard and part of the power of the Lab of the Gods.

To make it easier for others to escape.

Now his goal has been achieved, so he withdrew directly.

It turned out that Levi Garrison was so calm and leisurely in her safe house. He was delaying time and was waiting for Richard and them.

Richard now understands Levi Garrison's purpose.

Just to delay him.

So he couldn't let Levi Garrison go.

Fortunately, there is Fire Cloud Cthulhu!

...

Levi Garrison took Li Chengmin away and asked: "Unexpectedly, you still kept one hand!"

Li Chengmin understood that Levi Garrison meant that when she was captured, he let him lead by the nose.

But in fact, she can control that group of demons to save her.

But she didn't.

It was not until the end that she showed her hole cards.

"I just want to see what you are doing? I want to know who you are! I want to get rid of everything before Richard comes!"

"But I underestimated you, and underestimated your people! Underestimated My position in Richard's eyes! I didn't expect you to be Levi Garrison! By the time I wanted to control everything, it was too late!"

...

After listening to Li Chengmin's explanation, Levi Garrison understood.

She wants to solve everything by herself.

Unexpectedly, the situation could not be controlled in the end...

but the thirteen young people she controlled were indeed terrifying.

Soon Levi Garrison and the two fled out of Star City.

It's very close to the harbour.

As long as he enters the sea, Levi Garrison can definitely escape.

Along the way, the masters of Zhushen Lab and Sanxing Group have met a lot.

But they couldn't stop Levi Garrison's footsteps.

Unless the collective encirclement.

Otherwise, if you stop him like this, gourd baby saves grandfather and sends them one by one.

But Levi Garrison, who was far away, noticed a powerful breath.

It seems to be waiting for him deliberately.

"I'm in big trouble!"

Levi Garrison said in a deep voice.

Li Chengmin looked puzzled: "Trouble?"

“Maybe even more difficult than a pure energy body!”

Levi Garrison’s expression became serious.

“Are we detouring?”

Li Chengmin asked.

“It’s too late, he’s been staring at us long ago! If you go to other places, you may be surrounded by front and back! You can only rush through from the front, and solve the battle as quickly as possible!”

Levi Garrison’s face was cold.

When the two came to the beach.

I saw a person sitting on a big rock in front of him.

A black robe covered his face.

It’s a bit similar to Levi Garrison’s dress.

“This road

is nowhere !” An old but powerful voice came.

It seemed as if thunder exploded.

Li Chengmin's heart seems to burst...the

strong!

Super strong! Can you recognize him directly?

Only that power!

The Huoyun Cthulhu became more sure of what he was thinking.

The one who pretended to be Levi Garrison to save people must be the evil god!

It is the Bible Organization that has always been against the Lab of the Gods!

However, Huoyun Cthulhu couldn't be sure whether he was the Underworld God!

The feeling it gave him seemed to be stronger than that of Underworld God.

But he didn't know to what extent the strength of the Underworld God in the biblical organization had increased over the years.

Levi Garrison also knew who was helping the Gods Lab.

It turned out that Huoyun Cthulhu took action.

Several times before, Suzaku had noticed that a particularly strong mysterious force had created obstacles.

It looks like the black sun now.

“Fight!”

Levi Garrison said nothing.

Start the fight directly.

New hatred and old hatred, let's fight first.

“Boom!”

Levi Garrison threw out a domineering punch.

This is the most basic exercise taught by Master, and it is also the exercise of Huoyun Cthulhu.

In fact, it is not complicated, it just removes all complicated moves and evolves the simplest and purest fist and foot technique.

To put it bluntly, it is a simple fist, but it is the pursuit of the most extreme speed and the most terrifying power.

It is naturally earth-shaking, cruel and invincible when used.

The Huoyun Cthulhu is dominating an era by virtue of this technique.

So imitating Levi Garrison is in place.

...

“This...”

Seeing Levi Garrison’s limit, he threw a punch.

Huo Yun Cthulhu’s face changed.

Isn’t this the same as yourself?

Is it Levi Garrison?

Do not!

It may also be the god of Underworld, and even he told the Bible organization all this without reservation.

Almost everyone in the biblical organization can.

“Kill!” The

Huoyun Cthulhu groaned, and also blasted out the same punch.

Li Chengmin was shocked.

She has been studying Eastern martial arts and Western supernatural powers.

These exercises are extremely sensitive.

Now it seems that Levi Garrison and Huoyun Cthulhu actually used exactly the same technique.

Surprised.

“Boom!” The

two collided with fists, like sparks hitting the earth.

The heavens and the earth faded, the sun and the moon reversed.

The earth collapsed and shattered, the sea water poured in, and the waves charged hundreds of meters high.

powerful!

too strong!

Huoyun Cthulhu is indeed a super boss!

The two split immediately.

However, the expression of Huo Yun Evil God became weird.

Multiple strengths!

Levi Garrison's punch still implied the Six-Strength Dao!

"Boom!" The

first heavy force broke out, and Huo Yun Cthulhu realized that something was wrong.

Multiple strengths have no effect on pure energy bodies.

But it was a devastating blow to others.

A trace of cruelty flashed in Huoyun Cthulhu's eyes.

He used the exercise technique to force the six hidden strengths to one position-the left shoulder.

“Boom

boom boom boom ...” With a bean-like sound, the Huoyun Cthulhu’s shoulders exploded one after another, and flesh and blood flew across .

Almost his left shoulder was wiped out.

But he resolved Levi Garrison’s multiple strengths.

Levi Garrison was stunned.

Unexpectedly, Huoyun Cthulhu resolved multiple energies in this way.

Force the burst of strength to one place.

Lose the car like this to keep the handsome.

It turned out that when Levi Garrison created this trick, he also thought about a solution. Levi Garrison suffered a loss, and he refused to accept it.

He will come in person.

“Okay, it’s okay to

leave it to you!” Richard is really confident this time.

All his hole cards are here, and it’s confined here.

Huoyun Cthulhu was enraged, and turned into a flash of lightning to kill Levi Garrison.

A domineering punch blasted towards Levi Garrison.

Levi Garrison also responded with a punch.

...

This time Huoyun evil theology is smarter, so he doesn’t come into contact with Levi Garrison’s body, so as not to penetrate the body with multiple energies.

The Fire Cloud Cthulhu wanted to suppress Levi Garrison in all directions.

Don't give him a chance to fight back.

"Boom boom boom..." Huoyun

Cthulhu's fist was like Gatling spraying flames.

The speed of the fist is too fast and too fast.

In an instant, thousands of punches blasted out.

Even the afterimage is gone.

The picture is completely blurred, even shadowed.

But the power of each punch is violent, unmatched.

It is to completely suppress Levi Garrison!

"Fire Cloud Cthulhu!!!"

"He finally appeared! It turns out that he has taken refuge in the Lab of the Gods!"

"He is really strong! Although the two pure energy bodies are immortal and immortal, the coercion given to this person is not That's enough!"

...

Someone recognized the evil god Huoyun.

This era finally saw how powerful the Huoyun Cthulhu was.

But after being suppressed for a period of time, Levi Garrison actually countered the suppression.

Faster speed, more terrifying power.

They are all exactly the same pure moves.

At this time, Levi Garrison didn't need to hide anything.

Even if he made it clear, no one would believe that he was Levi Garrison.

Just open up and do it!

Coupled with the multiple strengths of the Huoyun evil god jealous of Levi Garrison, he was actually suppressed and retreated steadily.

Levi Garrison came to this point.

The only idea is to kill it.

Identity exposure is irrelevant.

If he has reservations, he must stay here.

He is crazy!

Squeeze the Fire Cloud Cthulhu!

Upon seeing this, Li Chengmin pressed a few buttons.

“Boom!”

“Boom!”

...

Several secret bases of the Sanxing Group launched weapons one after another, bombarding the army of the Gods Laboratory.

Li Chengmin is the head of the security team of Sanxing Group.

Most of the weapons of the Sanxing Group are in her hands.

So she used it to bombard the army of the Gods Lab.

Even a few secret teams of the Sanxing Group suddenly turned back and attacked their own people.

They are all Li Chengmin's people.

He directly obeyed Li Chengmin's dispatch.

The scene was all messed up for a while.

What's more terrifying is that all the thirteen people in the demon-making plan were killed.

Who in the Sanxing Group can't stop them at all.

After they arrived, they protected Li Chengmin.

"Take the leader to leave!"

No matter what Levi Garrison did, the thirteen took Li Chengmin away first.

"No!"

"I want to take him along!"

Li Chengmin looked at Levi Garrison.

Although the contact time is not long.

But she must take Levi Garrison away.

Thirteen people looked indifferent.

They are also thoughtful, just ruthless and bloodthirsty.

Their task is to protect Li Chengmin from

But real masters are not so easy to deal with.

Fire Cloud Cthulhu, two pure energy bodies, the highest-level trump card of the Gods Lab that Richard can mobilize at present.

Five ssss-level powerhouses!

Join Telegram Group For Fast update

There are also twenty-three sss-level powerhouses!

And a luxurious lineup composed of a large number of ss-level powerhouses!

This is in addition to many weapons, such as the scepter of God.

Because Sanxing Group is a dog raised by the Gods Laboratory, there are many Sanxing Group bases in and around Star Country.

Directly launch satellites and super weapons.

These weapons do not require preparation time and can be launched directly.

So now Levi Garrison is besieged to death.

This is Richard's confidence.

Richard sent almost all masters to suppress Levi Garrison.

As for Li Chengmin, he handed it over to the Sanxing Group, the Mythical Organization, and the Black Hand Organization to solve them.

I have to say that the 13 people in the Demon-Making Project are very strong.

Abruptly smashed a bloody path.

Escort Li Chengmin to leave.

No matter how Li Chengmin shouted, it was useless.

They won't care about Levi Garrison.

Li Chengmin was rescued, but Richard's expression remained unchanged.

He only needs to leave Levi Garrison alone.

Li Chengmin can deal with it afterwards.

"Did you see? Your companion betrayed you and ran away alone!"

Richard couldn't help laughing when he saw it.

Hearing the sound, Levi Garrison took a look, and Li Chengmin ran away as expected.

Levi Garrison just wanted to curse.

The pressure is too much now.

The offensive firepower of the five ssss-level powerhouses is too fast, no less than the two pure energy bodies, or even higher.

The most important thing is that he is entangled by two immortal bodies of pure energy.

In addition, the Fire Cloud Cthulhu, who has been wandering nearby, will give you a fatal blow at any time.

There are

tens of thousands of masters on the periphery... Looking at the embarrassed Levi Garrison, Richard smiled.

Think about it last time, sending all the power to deal with Levi Garrison.

At that time, Richard was not high in the laboratory of the gods, and there were not many masters mobilized.

If this lineup is now against Levi Garrison at the beginning, Levi Garrison will have no more scum left.

But where he wanted to get it, Levi Garrison was also dealing with it now.

.....

some melee.

Hundreds of masters fell in the laboratory of the gods.

This area was completely destroyed.

But Levi Garrison still stood tall.

So many masters did not leave a trace of injury on him.

This is too strong, right?

Who the hell is this?

Richard and their faces changed one by one.

I thought it was easy to eat.

It doesn't seem necessary now.

It may pay a huge price!

The Huoyun Cthulhu has determined that this is not the Underworld God.

The Underworld God was trained by him.

No matter how much opportunity he has in the Bible organization, it is impossible for him to rise to this level.

Who is this in the biblical organization? Because Huoyun Cthulhu had been paddling the water, he didn't use his real strength to deal with Levi Garrison.

But now he desperately wants to know who the person in front of him is!

He must win!

The Fire Cloud Cthulhu displayed his true strength.

"Boom boom boom boom..."

His speed was twice as fast as before, and his strength was greatly increased.

The suffocation and oppression like the collapse of the sky!

In an instant, Levi Garrison's pressure increased a lot.

His face changed.

Join Telegram Group For Fast update

Huo Yun Cthulhu actually practiced this technique to this level?

I thought I could completely suppress him.

He can't get any benefits.

But he didn't expect him to retain his strength all the time.

He is really strong enough!

The pressure on Levi Garrison has risen sharply.

Plus two pure energy bodies and the crazy oppression of major masters.

They have shown their housekeeping skills one after another.

For a while, Levi Garrison was really suppressed, and the danger was all around.

There is no possibility of escape at all!

Can only fight with them blood!

The only way to leave is to kill everyone in front of you!

Upon seeing this, Richard couldn't help sighing.

The two pure energy bodies are indeed immortal.

It's just that the offense is too weak.

The methods that can be used are also limited.

Levi Garrison couldn't kill them, but the threat they posed to Levi Garrison was limited, only they could entangle him.

There is a big gap between Xu Zhengjie's ideal pure energy body.

Xu Zhengjie was like a god.

One thought made all the guards of Tiance Mansion faint to the ground.

The magical means can be called godlike.

The pure energy body that Richard has made is still in the low-level stage, and the offensive method is

only to release energy to attack.

It's almost useless for a master like Levi Garrison.

What Richard wants is a super existence like Xu Zhengjie!

It's so powerful that it's helpless!

Fortunately, the pure energy body he brought was only the second batch of products.

There are still further improvements.

After step-by-step improvement, the pure energy experience will become stronger and stronger.

However, this actual battle let Richard know a truth-in the

future, he will not blindly think about building pure energy bodies in batches.

We should devote ourselves to creating a pure energy body that is infinitely close to Xu Zhengjie!

Only one person like this!

It can be worth thousands of low with pure energy body!

When Richard's thoughts were flying, the fierce battle in the field had already become fierce.

Levi Garrison is too strong, too strong.

Rao was a siege of this level, and the masters of the Gods' Laboratory fell a blockbuster.

But after all, it was Huoyun Cthulhu that he was too strong.

In addition, the two pure energy body dog skin plasters were firmly attached to Levi Garrison's body.

He can't kill, let alone get rid of it.

Gradually, the disadvantage is getting bigger and bigger.

The combined attack by the five ssss-level powerhouses is also super terrifying.

Levi Garrison was almost unable to parry.

...

Ten minutes passed.

Although Levi Garrison was getting harder and harder, wounds appeared on his body.

Still didn't fall down.

The loss in the laboratory of the gods is getting bigger and bigger.

Fortunately, the main force is fine.

"Too strong?"

Everyone was shocked.

Richard was silent.

But the stormy sea turned up inside.

The person who was so difficult to deal with last time was Levi Garrison. This punch is too scary!

Directly smashed Levi Garrison's clothes in half.

The things in his arms also spilled out.

Several ancient books and the black token left by the master in the prison.

The black token is dilapidated, and one word can be vaguely seen: God.

“Looking for death!”

Levi Garrison was also forced to be anxious.

I’m really bullying?

I really can’t kill him?

Join Telegram Group For Fast update

Levi Garrison picked up all the ancient token books.

He swept towards everyone murderously.

At this time, Huoyun Cthulhu glanced at it and just saw the black token scattered on the ground.

At this look, the pupils of the evil god Huo Yun dilated, revealing an unbelievable look, and his whole body trembled.

Like being struck by lightning...

he almost didn’t kneel down!

Obviously, Huoyun Cthulhu recognized this token.

This token has a great background, and it can scare the Huo Yun Cthulhu into this.

Immediately, Huoyun Cthulhu made a bold decision.

Levi Garrison was surprised to find that the Huoyun Cthulhu revealed a flaw...

Of course it was not the Huoyun Cthulhu that revealed the flaw on his own initiative and let Levi Garrison fight it.

That's too fake.

He was revealing the flaw that allowed Levi Garrison to attack the five ssss-level powerhouses.

Levi Garrison fisted over, trying to test whether Huoyun Cthulhu really revealed his flaws.

Unexpectedly, the Huoyun Evil God evaded and put Levi Garrison in the blind spot behind him.

As a result, the top five ssss-level powerhouses have no angle for the time being.

“boom!”

“Puff!”

...

Now the five major players have suffered heavy losses.

There was no trace of Huoyun Cthulhu's hand.

Crazy Levi Garrison is terrible.

He wants to avoid the edge for now.

As a result, the five masters suffered.

Levi Garrison was shocked.

Does this person really show his flaws and let him go?

But now there is no need to think about why.

Go away!

Levi Garrison took advantage of the flaws revealed by the Fire Cloud Cthulhu and fled directly.

“

Catch up !” Huo Yun Cthulhu followed up pretendingly.

He rushed to the front.

Seemingly positive, he was actually escorting Levi Garrison away.

The situation was urgent, and no one noticed the behavior of Huoyun Cthulhu.

Even Richard didn’t notice.

The key point is that he can’t think of a reason why Huoyun Evil God wants to help the person in front of him.

If you want to help, it won’t be hindered at all.

Just madly calling people to track Levi Garrison.

The result of tracking is to chase farther and farther.

In the end, Levi Garrison disappeared.

Tracking all the way, in fact, there is still a chance, but the Huoyun Cthulhu deliberately led the way or released Levi Garrison’s space to escape.

“Lost...” After

chasing the lost, Huoyun Cthulhu sat down on the ground.

He was covered with blood.

Richard and the others will not doubt it anymore.

Everyone knows how powerful Levi Garrison was just now.

How fierce was the battle just now.

The evil god as strong as the fire cloud was also injured.

“Mr. Richard, there is no way! I tried my best!”

Huo Yun Cthulhu shook his head helplessly.

“Unsurprisingly, they should be organized by the Bible! The God of Underworld is the closest person to me. He is now in the Bible organization. Not surprisingly, all my exercises are controlled by the Bible organization. So they can pretend to be Levi Garrison. ...”

Levi Garrison hurriedly took out the black token.

But he turned it over for a long time, and the black token was no different.

He had observed and pondered this token many times before.

There is no mystery.

Why did the evil god Huoyun make such a big change after seeing it?

The only explanation is that the evil god Huoyun recognizes it!

Know what this is?

This is left by Master!

That must represent the identity or characteristics of Master!

Moreover, the Evil God Huoyun was in the same line as himself, and he was more or less related to Master.

So he did this after recognizing Master's token.

Everything makes sense.

The evil god Huoyun is not a master.

Most of them are taught by the master, or have other relationships.

Huoyun Cthulhu probably knew the identity of the master.

What is the identity of Master?

Holding the token, Levi Garrison knew that there was a great secret hidden behind it.

It is estimated that it will be announced step by step.

If he encounters Huoyun Cthulhu next time, he will definitely ask.

Next he should study how to deal with pure energy bodies.

...

On the other side.

Richard went to see Li Chengmin to settle the account.

It turned out that Li Chengmin had not left the Star Country, but was at the headquarters of Sanxing Group.

It turns out that she has a special status and is one of the true direct descendants of Sanxing Group.

The descendants of the Sanxing Consortium are not only those who are engaged in business or embarking on official careers.

Others were taken out of experiments at a very young age to modify the genetic blood.

Even some bold ones have already made some deployments during pregnancy.

Li Chengmin is like that.

When I was young, I was dragged to reform.

She was extremely successful.

It is highly valued in Sanxing Group.

Especially this time, she controlled the thirteen demons of the demon-making plan, so that everyone in the Sanxing Group could see the effect.

That is a true power in the laboratory of the gods.

If Li Chengmin dies, no one can control these thirteen people.

For public and private, I don't want Li Chengmin to die.

So now all the senior leaders of Sanxing Group have come out to intercede with Richard.

Explaining the situation, Li Chengmin was not betrayal, but was just being intimidated by coercion.

Although Sanxing Group is a dog to Zhuo Shen Lab.

But this is a vicious dog, and his fighting strength is so full that he can be called a Tibetan mastiff-like existence.

The value is great.

Richard can only compromise and let Li Chengmin go.

Li Chengmin hesitated for a long time, but in the end he still didn't say the identity of Levi Garrison.

...In

the dark palace of the Bible Organization.

Several people knelt to the ground.

“Enlighten the Dark God, under Richard and the others, Levi Garrison finally left!” A

voice came from above: “Well, yes. I thought I could keep it this time.”

The following people continued: “But with Levi Garrison’s entanglement, the Lab of the Gods now basically believes that we have robbed them of the Sun Stone!”

“Yeah, is this unclear to entrap us?”

The Dark God smiled: “It doesn’t matter! Let the Gods Lab come, I’m not afraid!”

Then, the Dark God left here.

This is a secret room.

There was a screaming and crazy sound from inside.

He must have access to the core of the Lab of the Gods!

Originally, people like Lokita would be brought to the experiment next.

Now we still have to pause and continue to improve.

...

At this moment Levi Garrison has joined Qilin and the others.

"Finally didn't let me down!"

Levi Garrison smiled.

When I brought people to war before, I didn't do these things less.

It is even said to be familiar with the road.

But now the enemy has changed and there are more methods.

But everyone held on.

Levi Garrison touched his chin and said, "This can't be

"It has laboratories gods, I put forward a laboratory!"

This is Levi Garrison's plan.

He wants to gather all resources to build a laboratory that can fight against the gods.

Just like Wen Lei's original Shenlong Experimental Technology Base.

Just do it!

Even if Levi Garrison was hiding in the dark, it was easy to set up a laboratory.

Funding, resources, and technical staff are all arranged by Levi Garrison.

He will get the energy materials and resources.

As for the technical personnel, they mainly searched from all over Erudia.

And then cooperate with some large-scale technology companies.

Such as Wen Jia and so on.

The most important thing is to find a spokesperson to do everything on the surface.

This person, Levi Garrison, has already been found.

On the one hand, Levi Garrison was preparing the laboratory, on the other hand, he was thinking of ways to deal with the pure energy body.

The laboratory was quickly prepared.

The literary family fully helped, and the King Kong Island Gambling King Family also helped.

In addition, Commoner Killing God is dealing with it, and all parties in Erudia are involved and confidential.

Committed to the research of modern weapons and technology.

Named "Kunlun Industry".

In the early stage, he must be an unknown person, secretly developing.

Lokita is terrible now.

And report to the immediate boss as soon as possible.

The result was a commendation.

“Yes, keep working hard!”

Just a word made Richard very excited.

Because this laboratory can be further improved!

In other words, he can be infinitely close to Xu Zhengjie!

In addition, with the core technical support of the Gods Laboratory, particles similar to the super-energy particles discovered exclusively by Xu Zhengjie.

Richard didn't believe that he couldn't create something like Xu Zhengjie.

... After

Lokita's various tests, Richard did not deliberately control his thoughts.

Except at critical moments, he can completely control Lokita, and at other times he is allowed to move freely.

"You go back to Erudia now! What about your mission..."

Richard actually asked Lokita to go back to Erudia.

"When all of your family's experiments are completed, they will all return to Erudia!"

...

In addition, this month seems to be peaceful, but it actually caused an uproar all over the world.

Especially for some ancient forces.

They are all crazy, searching for a person everywhere.

The scariest thing is in Erudia.

Tiance Mansion and Baolong clan have monitored that there are many ancient forces that have been silent for too long and are ready to move.

Even if so many things have happened in this era, these ancient forces have not been affected.

How old are these ancient forces and how terrible are they?

Can make Tiance Mansion such a sensation.

There is no other reason.

Some ancient forces existed longer than Tiance Mansion, and could even compare to the history of the Dragon Clan.

Even Tiance Mansion they are afraid of the ancient forces.

They are so quiet that they are forgotten.

At one time, Tiance Mansion thought that they no longer exist and disappeared in the long river of history.

But now they actually showed signs of being born.

It seems that some ancient forces have quietly sent people into the world, and they don't know what they are looking for.

This made Tiance Mansion nervous.

Hurriedly sent someone to find out what was going on.

This happens all over the world.

There are faint signs of emergence from some ancient ethnic forces.

What are they looking for...

This makes the institutions of some countries quite puzzled.

Even the Sky Shield of the Eagle Nation was aware of this happening.

They are also wondering.

What is it that makes the world's ancient powers ready to move?

Token!

That token dropped from Sun Levi Garrison's body!

After seeing it that day, the evil god Huoyun made a strange move.

As soon as the token came out, the ancient racial forces everywhere would really come out.

In fact, it is these ancient ethnic forces that really guard and control this world.

They are the true source of inheritance in this world.

Such as exercises, such as magic and so on.

They are the real source.

As for the powerhouses restrained by the covenant of the gods before, they were nothing more than terracotta dogs.

Most of these people were ancestors who got some broken pieces of work and used them as holy methods and magical skills to practice.

Little did they know that they were just the fur of some ancient racial forces.

Or abandon unnecessary debris.

Huoyun Cthulhu sneered.

He is looking forward to the appearance of these ancient forces, which will be very interesting then.

...In the

base somewhere in the Lab of the Gods.

There are four people in total.

One of them was playing a hand of playing cards with the Joker's mark printed on the cards.

He laughed fiercely from time to time, which was very penetrating.

Another person is Richard's immediate boss.

They are discussing one thing.

It is the recent changes of the ancient forces and races from all sides.

Naturally, such a huge force in the Lab of the Gods has also discovered it.

"What is the reason?"

one of them asked.

“I don’t know at the moment, but it seems that something has been released on the dark web. But we can’t enter the specific encryption section of the dark web!”

“So many hackers in our laboratory can’t do it? Can’t we still enter?”

” Do you know? The creator of the dark web is known as the hacker god! With him, no hackers can break it, even if we can’t!”

...

“Strange, how could so many ancient races emerge at this time? “

The covenant of the gods established in our laboratory at the time! None of these ancient race forces emerged!”

It turned out that the covenant of the gods was established by the laboratory of the gods.

The Lab of the Gods has actually existed for a long time, and it has existed before the beginning of industrial technology in the world.

In order to develop faster and more effectively, the Lab of the Gods has specially set up a covenant of the gods to restrict the strong from all over the world.

In this way, the Lab of the Gods has fewer obstacles, allowing them to develop rapidly.

Therefore, the laboratory of the gods has the current strength and is inseparable from the covenant of the gods.

Playing the clown playing cards, stopped laughing, and said coldly, "That's because the covenant of the gods did not touch the interests of the ancient race forces! Otherwise, they would have jumped out to deal with us early!" Richard's immediate boss nodded. Head "to

Standing on the land of Jiangbei, Lokita opened his arms, a terrifying and terrifying aura spreading.

As if the king is coming.

Step into the door of Li's house.

Caused a huge sensation.

Today, the Li family is still mixed with the original Xishu clan.

The Li family, who was originally indisputable, has to be a human being with its tail between its tails after this era has changed.

After all, the strong are like a cloud, and the level of the Western Shu gate clan has become an ant.

If anyone offends someone, they will be destroyed directly.

There is no news about Zoey and Levilia, especially when he entered Tiance Mansion, which is the top secret among top secrets.

They don't even talk about it, and don't even know the news.

"What? Wen Hai is back?"

Li Tianhao and the old lady rushed out immediately after hearing this.

Others also came out one by one.

Even Wu Xuelan and Zhao Jianguo were here.

When I heard Lokita came back, I thought everyone else had come back.

For the group of Lokita, everyone is just dead.

After all, he was exiled by the War Eagle Nation, and he did not belong to any country or region in this world.

They are like savages.

It's no different from being dead.

Come back now, everyone is naturally surprised.

Seeing Lokita, everyone felt that Lokita was different.

More like a ruthless machine.

It's too strange.

“Wenhai, are you back?”

Where are Wenfei and others ? Where are Songkui Mengyue and the others ?” Li Tianhao and the old

lady were still looking at the back.

They also want to see other children and grandchildren.

“Yes, where is our Zhao family?”

Wu Xuelan and the others asked anxiously.

Lokita sneered and said, “Don’t worry, they will come back one after another!”

Lokita knew about Richard’s plan.

Then those people will succeed in the experiment one by one, and then they will be sent to Erudia.

“Really? Where are they now?”

everyone asked anxiously.

Lokita smiled, “They are encountering the greatest gift in life! They are transforming their lives! Once they succeed, Erudia will change!”

Lokita enjoys this feeling of controlling everything.

“You came back without authorization? I remember Erudia still has a ban. People like you can’t enter Erudia?” The

Emperor Xi Shu couldn't help but scolded.

"Yes, there is a ban, you can't come to Erudia without a ban, maybe it will kill us all!"

Lokita's terrifying aura was displayed, and it shocked the audience!

That is a god-like existence!

Everyone was dumbfounded.

How did Lokita become so scary?

This terrible aura is going to cover the entire Jiangbei!

What has he experienced?

Isn't it exiled?

This is also terrible!

In this era, everyone has seen any kind of strong.

But Lokita is terribly strong!

The huge momentum shocked the super powers everywhere in Jiangbei.

Came here one after another!

Times have changed now.

Powerhouses are stationed everywhere in Erudia, in order to solve problems in time when emergencies occur.

They were arranged by Tiance Mansion and Messiah.

They are collectively referred to as the guardians.

After knowing the change in Jiangbei, all the guardians of Jiangbei came in for a while.

“Who? Dare to come to Jiangbei presumptuously?” The

guardian came and scolded.

...

“What? I violated the ban to enter Erudia and killed so many people? Take it!” After the

guards learned about the situation, they shot directly to take Lokita down.

Lokita showed a cruel and violent smile, “Looking for death!!!”

Then it turned into a unilateral massacre.

No matter how strong the Guardian is, it can be in Lokita’s hands like a weak chicken without the power to bind the chicken.

die!

One by one!

Soon none of the hundreds of guardians in Jiangbei remained.

All killed by Lokita!

His strength is too strong.

Crush everything!

“Who else is going to die?”

Lokita looked at the thousands of people present.

“Puff!”

“Puff!”

...

everyone fell to the ground one by one.

“I am waiting to make you king! Jiangbei is king!”

Everyone is not stupid.

Life-saving is important at this time.

Lokita is too strong and too strong.

Not surrender is death!

Seeing all the thousands of strong men in Jiangbei fell to the ground, the old lady Li Tianhao was shocked like never before.

All their lives have been pursuing status, power, and wealth.

But it has never been as shocking as today.

Lokita smiled when

he saw it, "Is this how the strong feel?" He really thanked Richard now.

But he knew that his strength was more than that, a small Jiangbei finger crushed.

His goal is Erudia.

When others succeed in their experiments, if they return, isn't Erudia in control?

Richard told him that now no one can kill him except the Lab of the Gods.

Even if you come to Erudia and meet a master he can't beat, don't be afraid, because he is immortal.

"From today, my Li family is the king of Jiangbei! Understand?"

Lokita said coldly.

Thousands of people present nodded in unison.

The Li family became the king of Jiangbei in one fell swoop.

The big powers, as well as the celebrities and the rich, came to visit one by one.

Lined up for several kilometers at the entrance of Li's mansion, hundreds of luxury cars gathered.

Several warehouses were filled with gifts...

Lokita killed a lot of people, including the Guardian.

But he is too strong.

Even Tiance Mansion will not necessarily blame it, or even solicit it.

None of these things can be discussed by everyone like ants.

“They are here! These two people are the least promising !”

“Hurry up and call them!”

Li Tianhao said dissatisfied.

Soon Li Wenyuan and his wife were called to Lokita.

In fact, the two knew everything that happened, and they knew that Lokita was now a strong one.

Therefore, the two of them kept avoiding for fear of trouble and did not show up.

Unexpectedly, Lokita remembered it.

“Does the third child still know me?”

Lokita smiled.

“Second brother is kidding, how can we not know you...”

Li Wenyuan and his wife did not dare to look at Lokita.

“Haha, second brother? Have you ever regarded me as your second brother? When we were exiled, when our parents wanted to take us back to Erudia, what about you?”

“This ban was made by your good son-in-law himself! Dad! Where were you when Mom begged him?”

...

Lokita roared angrily.

“No, brother, we...”

Li Wenyuan and his wife were incoherent and couldn't explain clearly.

Lokita laughed and said: "What about now? Your son-in-law is dead! Your daughter is also missing! Your granddaughter has also disappeared. Your retribution is here!"

"You, don't worry, I won't kill you! Me! I want you to watch me conquer Erudia step by step!"

"Hey, what a pity! I wanted to kill Levi Garrison a long time ago, but he is dead! But is his mother alive?"

Lokita sneered bloodthirstily.

In fact, his feelings are gone now.

The main reason why he led the Li family to be king was that he was enjoying this feeling of control.

"Yeah! Levi Garrison's mother is still alive! But someone is protecting it! It's the secret team built by Levi Garrison during his lifetime! Not moving!"

Yugouji said immediately.

"Is anyone protected? Can you protect me when you meet me?"

Lokita sneered.

Regarding Levi Garrison's mother, it was Richard's task.

Richard let Lokita come to Erudia in order to destroy the troubles as much as possible. The bigger the better, the better.

Forcing them to act as soon as possible from Tiance Mansion is the task complete.

In fact, Richard's plan is deep...A

true pure energy body, Richard only needs one.

A pure energy body that is infinitely close to and even surpassed by Xu Zhengjie.

It is enough to have such one.

This is his main plan next.

Concentrating all resources is to create a true pure energy body.

The reason for continuing to build a pure energy body like Lokita is Richard's major plan.

He will send all these people back to Erudia, creating chaos in Erudia and even developing into disaster.

But the main purpose is to test the real power of Erudia.

That is, the Baolong clan of Tiance Mansion!

Richard wanted to use these pure energy bodies like Lokita to test the true power of the Baolong clan in Tiance Mansion.

Once Lokita and the others return to Erudia, things are going to be a big deal.

After all, the Baolong clan of Tiance Mansion will come forward.

Regardless of whether the Baolong clan of Tiance Mansion can solve the people like Lokita, it will be beneficial to Richard.

It can't be solved better, he is naturally happy to use Lokita to break Erudia.

If it can be solved, it can also test out the Tiance Mansion

This is everyone's doubt.

Tiance Mansion and Yanlong Wei has acted.

Special personnel were also sent to Jiangbei.

Little did he know that Lokita was sent to test their hole cards.

The Lab of the Gods is strong enough to explode.

But no one knows the real core hole cards.

Even Richard didn't know it himself.

Levi Garrison is digging and exploring step by step.

On the contrary, no one knows the true strength of Erudia's Baolong clan and Tiance Mansion.

Need to be tested.

When the Policy House took action that day, it had already entered the game.

Lokita didn't hide it, and swaggered to deal with Levi Garrison's mother.

The news spread quickly.

In the past, Levi Garrison's secret team all came out to protect Emma.

Wen Lei and Mia (Zhou Nanyan) went there as soon as they learned that Zhou's family was in trouble.

"The king died side by side, and his mother must have nothing to do!"

More and more people went to Jianghai to protect Emma.

...

A big battle will begin.

Lokita swaggered to Jianghai, and encountered many masters' blockade.

All came to stop him.

But Lokita is too strong.

He is a pure energy body that satisfies Richard and the Gods Lab!

He is unmatched.

The master who blocked him, he killed as many as he came.

No one can stop it at all.

The masters who guarded Emma were beginning to panic.

Lokita is indestructible and cannot be defeated.

Can they hold it?

Shortly after.

Lokita has arrived at Zhou's house.

Zhou had already gathered countless masters inside and outside his home.

The people arranged by Tiance Mansion Messiah and the others also arrived.

Lokita looked at the dense crowds and sneered: "Come today, I only kill Levi Garrison's mother! If others stop, come and kill one!"

Arrogant!

overbearing!

But it stems from strong strength!

"With us, don't try to move Mr. Garrison's mother at all!" The

guarding masters regarded death as home.

"Kill!"

Lokita started killing like a god of death from hell.

The pure energy body is really too powerful.

Don't talk about killing.

I can't even touch it.

...

Soon Lokita's bones became mountains and blood flowed into rivers.

No matter what kind of master is not an order of magnitude.

Lokita is like a god like a devil.

"Want to escape? Impossible!"

Lokita's consciousness covered the entire area, and he found that someone was going to escape with Emma.

"Boom!"

He disappeared instantly.

When he reappeared, he was already in the woods behind Zhou's house.

Directly block Emma.

“You all go, he wants my life! Don’t make senseless sacrifices!”

Emma tried her best to let the person protecting her leave.

She didn’t want to see anyone shed blood and sacrifice for her.

“No! There is something wrong with Mr. Garrison, anyhow

But Lokita will recover after deforming or injured.

Not affected at all.

The rapid recovery of his body is different from those with supernatural powers.

He is a pure energy body, there is no fixed body in the first place.

It's all made up of energy.

Wen Lei attacked like a storm.

Lokita could not be hurt at all.

unstoppable!

Lokita showed the horror of a pure energy body.

No matter how strong Wen Lei's moves and strength are, he can't be hurt!

Lokita just stood there and let Wen Lei fight, but he couldn't kill him.

"It's time for me!"

Because of the limited attack power of the previous two pure energy bodies, Lokita has been greatly improved.

Lokita's offensive power is terrifying.

"Boom!"

Lokita slammed a punch domineeringly.

"Puff!"

Wen Lei was beaten out.

After all, she still couldn't resist Lokita.

Wen Lei got up again and continued to attack.

But Lokita was too strong, Wen Lei flew out again.

Lokita shocked Erudia in the first battle!

The news also reached Kunlun Industry and was quickly known to Azure Dragon (Qinglong) Qilin.

“It should be known to the boss, but now we don’t know where the boss is in retreat! Then let’s set out to save people!”

Azure Dragon (Qinglong) and the others were just about to leave when they were stopped by the Common Killing God.

“You have a heavier task, and you can’t be exposed! No one notices you now. If you are exposed, Mr. Garrison’s plan will be more difficult next! I’ll go!”

Commoner Killing God set off for the first time.

...

Lokita didn’t want to continue entangled with Wen Lei.

After he repelled Wen Lei, he immediately pursued it.

Although Mia (Zhou Nanyan) took Emma away very far.

But Lokita still caught up.

“You can’t escape from my Wuzhishan!”

Lokita sneered.

The masters sent by Tiance Mansion and Messiah blocked Lokita for the first time.

But still invincible.

All were beaten out.

Let alone Mia (Zhou Nanyan), none of them were Lokita’s opponents.

Wen Lei is also stronger.

Can be entangled for a while.

“Forget it, let him kill me! Lokita, I just ask you to spare the others!”

Emma did not want to see more sacrifices.

“Impossible! I am here!”

came a cold voice.

The commoner killer appeared.

The Tiance Mansion, which was preparing for a big move, stopped.

With this appearance, can't Lokita make a second mistake, right?

All Erudia are paying attention to this battle.

Not to mention Richard and the others, they are paying attention all the time.

The commoner killer god is consecrated on the East Island, and has a high position in everyone's mind.

Now that he appears, everyone is at ease.

With him, all problems can be solved.

Even Emma and Mia (Zhou Nanyan) think so.

The Commoner Killing God is here, Li Wen

Lokita's ability to defeat Commoner Killing God gave him a lot of satisfaction.

The commoner killed the god East Island in the first battle to enshrine the gods and wiped out the Black Sun organization.

In Erudia, and even the whole world, the position is very important.

To defeat him is equivalent to pulling the gods off the altar.

For the first time, the core executives of the Gods Lab sent a message to praise Richard.

And give him more authority and status.

This made Richard very excited.

I want to create more pure energy body to go to Erudia.

He was already thinking about the scenes of Lopez and Black's family all becoming pure energy bodies and becoming a disaster in Erudia...

"Go on! Use Levi Garrison's mother to force Tiance Mansion

to take action !" Richard gave Lokita an order.

...In the

field.

Lokita stepped on the cloth to kill the gods. He sneered, "As long as I use a little bit of force, he will die!"

"Today, let me see who can keep Levi Garrison's mother?"

Thousands of people have come here after hearing the news, most of them are. Levi Garrison's old

ministry may have something to do with it.

Swear to protect Emma.

It can be seen that the powerful commoner has defeated the killer.

Everyone was silent.

How can this be played?

Don't look at so many people, you can't protect them at all.

Lokita is too strong!

All agencies are observing and analyzing Lokita.

His level of danger has risen sharply!

No one knows how the key Lokita became stronger.

The senior officials of Messiah directly called Tiance Mansion and asked Tiance Mansion to send a master to stop Lokita.

Lokita will become a disaster if it continues like this!

Tiance Mansion agreed, and it was already making arrangements.

It will arrive soon, but it will take a while.

After all, the real masters of Tiance Mansion were unable to retreat.

It hasn't even appeared in decades or hundreds of years, and even people in Tiance Mansion have not seen it.

And its nature is the same as the Baolong clan.

Only in times of distress in Erudia will be shot.

That's right.

Lokita is very strong now.

But it has not yet become a disaster in the Great Xia.

It stands to reason that in order to save a person, Tiance Mansion and Baolong clan would not make a move.

It was because of Levi Garrison's merits that he made the move.

It's good to be able to send someone.

"Tiance Mansion has sent a master, but it will take a while, we have to withstand it!"

“We need to unite!”

Wen Lei, who had recovered a little bit, began to organize everyone to guard.

Emma advised everyone to hand over themselves.

But is it actually Emma that everyone is guarding?

In fact, the family is guarding this land...

Emma has evolved into a spiritual symbol.

Anything can fall, she can't!

“Can you stop it?”

Lokita sneered.

Wen Lei teamed up with masters from all sides and began to deal with Lokita.

After getting out, the commoner killer also joined the battle group.

I have to say that the effect of someone's command is really good.

At least it can maximize everyone's role, so that Lokita will not be easily defeated one by one. "No! Don't!!!"

Wen Lei and the others shouted heartbreakingly.

But I can only watch.

Helpless!

Now no one can be Lokita's opponent except for the powerhouse of Tiance Mansion.

"Kill her! We don't need her to threaten anyone. Killing her can force Tiance Mansion to take

"Good!"

"Kill!"

Join Telegram Group For Fast update

Lokita punched Emma.

This punch made Emma disappear on the spot.

Wen Lei, Mia (Zhou Nanyan) and they all cried.

I don't want to watch this scene.

They still didn't keep it!

At the critical moment, a black shadow appeared at a speed that Lokita hadn't even noticed.

"Boom!" The

opponent also punched Lokita abruptly.

Afterwards, this person grabbed Emma and left directly, turning into a flash of lightning and disappearing on the spot.

Lokita immediately chased after him.

The person was so fast that people didn't react.

But Lokita was able to catch up.

However, a master appeared midway to stop Lokita.

Even if Lokita was killed on the spot, it also extended the time.

Moreover, it was blocked by stages, with about four or five waves of masters coming to block Lokita.

Even if every wave of people was blocked for a few seconds, the total time was enough for the mysterious person to take Emma and escape.

After Lokita clears the obstacles, where are there people?

Even if it was as strong as him, there was no trace of it.

The mysterious man has run out of sight long ago.

Lokita was dumbfounded.

Everyone was dumbfounded.

Obviously the other party came prepared.

Even the people who were blocking were selected, in order to save them.

“Who? Who is it?”

Everyone was dumbfounded.

This is by no means a strong man in Tiance Mansion.

If the powerhouse of Tiance Mansion would not secretly save people away, he would do it directly.

So who is saving people?

People related to Levi Garrison are here.

The common killing gods are here.

The secret teams are also here.

Who can it be?

Besides, it is still so strong that it can take people away from Lokita.

It's equivalent to pulling a tooth out of a tiger's mouth.

This strength is far less than Commoner Killing God.

He had no confidence in taking people away from Lokita.

And this person should be very familiar with Lokita's strength, never entangled for half a minute, and just ran away with someone.

And block by section, delay the time to escape.

This is carefully prepared.

Senseless.

All dumbfounded.

Everyone is wondering who took Emma away?

After thinking about it, there is no such person.

The commoner killer was stunned.

He was the only person present who knew that Levi Garrison was still alive.

Could it be that Levi Garrison took the shot?

But according to Levi Garrison's character, how could he leave after saving people?

Will definitely kill Lokita.

What's more, he is still in retreat.

Impossible.

Could it be Azure Dragon (Qinglong) and them.

But Commonwealth Killing God is very familiar with them. These people are very strong, but they are not strong enough to save people from Lokita.

So who is this person?

The most dumbfounded is Lokita!

He was going to explode.

Since coming to Erudia, he has always controlled everything like a god.

But at a critical time, someone got his hands onThe man smiled and said, “Yes, they all call me Huoyun Cthulhu!”

That’s right!

The person who rescued Emma at the critical moment was Huoyun Cthulhu!

Since seeing that token, I can’t wait to be a slave behind Levi Garrison.

First he let go of Levi Garrison, and now he saves Levi Garrison’s mother.

It is still in the hands of partners to save people.

If Richard knew everything was done by the evil god Huoyun, he would vomit blood.

Because after Huoyun Cthulhu told him that reason, he unconditionally believed that Huoyun Cthulhu would cooperate with the Lab of the Gods.

But who would have thought that the Evil God Huoyun would betrayed after seeing that token.

Do this twice in a row.

“

Huoyun Cthulhu???? Is it you?” Emma obviously knew the Huoyun Cthulhu.

He was once instigated by the Black Sun organization and turned Levi Garrison into the descendant of the Huoyun Cthulhu. He was endlessly pursued and killed.

Emma was deeply impressed by this.

Unexpectedly, Huoyun Cthulhu would come to rescue her now.

“Sir, are you the master of our

King’s Landing ?” Emma asked curiously.

“Hey!”

Huo Yun Cthulhu sighed.

How good is he?

To be Levi Garrison’s master?

Is he worthy?

Not necessarily worthy of being a servant!

“Old lady, rest here temporarily! It will be dangerous if you leave!”

Huo Yun Cthulhu placed Emma properly.

In fact, there is no need to worry about Emma’s safety.

As long as the Fire Cloud Cthulhu raised his arms-this is the mother of the token holder.

Then the ancient ethnic forces all over the world will work hard to protect them.

... The

Common Killer found Azure Dragon (Qinglong) and the others for the first time.

Asking if it was them who shot...

“It’s not us...”

“We are not strong enough!”

...

Everyone is blinded.

“Who do you think this person might be?”

Common Killer asked Azure Dragon (Qinglong) to analyze.

It is possible that they know people that everyone does not know.

“I don’t know, I can’t think of it! Unless the boss himself! But the boss is still in retreat!”

Everyone shook their heads.

Suzaku suggested, "Should I tell the boss about this matter? After all, his mother matters a lot!"

Commoner Shashen shook his head. People are safe! I will look for it too!"

"That's true! It's okay to save the old lady, the old lady must be fine!"

...

Lokita's affairs in Erudia, for the core seniors of the Gods Laboratory, are just watching movies. That's it.

The performance is good, they praise a few words, the performance is not good, they don't care.

What they are concerned about now is the dispatch of ancient forces and races from all over the world.

Richard's immediate boss and a few people playing Joker cards got together.

"We communicated with an ancient race in the depths of the Northern Continent Ice Sheet! When we offered to cooperate with them and help them, we were rejected!"

The information that Richard had scanned through Lokita, quickly let people inquire the information of these three people.

The strong man who can be dispatched at this time definitely has a position in Tiance Mansion.

So Richard has to pay attention.

It has to be said that the intelligence agency of the Gods Laboratory is really terrifying, and the world has all the data for nearly hundreds of years in control.

In just a few seconds, the information of these three people has been found out.

Three people who disappeared!

To be precise, the three people who died!

In that turbulent age.

All three of them were short-lived and only appeared a few times.

And it was either in a major event or randomly appeared in some small places.

They are just like ordinary people who disappeared in the long river of history.

It was the same as the large number of people who starved to death at that time.

There is no difference between the sense of presence and which animals.

No one will pay attention.

No matter how you check, you won't find it.

But the laboratories of the gods actually have their information.

These are the three wonders!

I was born with visions or weird things.

They were all abandoned by the family as monsters.

But in fact they were not dead, and they reappeared later.

Unexpectedly, these three people were selected by Tiance Mansion.

I have to say that the Lab of the Gods is horrible.

People like this have been found.

There is also information.

But what is the combat power of these three people, what will be...

these gods laboratories don't know.

But this is the beginning.

What Richard wanted was to dig out the hole cards of Tiance Mansion little by little.

It is best to expose the major players.

Then study one by one, and work out a specific plan.

It's the so-called knowing oneself and knowing the enemy.

"Test the strength of these three!"

Richard ordered.

Lokita immediately killed the three.

The three did not retreat and counterattack.

“Boom!”

“Boom!”

“Boom!”

...

Three seemingly ordinary palms were shot.

But it has a terrifying power like a stormy sea.

Directly blast Lokita out.

When the three of them shot, they were obviously far above Wen Lei and Commoner Killing God.

The three Wen Lei, Zoey and Mia (Zhou Nanyan) all knew each other.

Because when the three of them first entered Tiance Mansion, these three were guiding them.

Of course Levia is cultivated by stronger people.

This time the Tiance Mansion sent these three great abilities out to give Lokita face.

“Take it!” The

three big shots together, directly trying to lock Lokita.

Lokita was immediately under pressure.

However, Lokita's physique is immortal, and no matter how much pressure the three of them put on, he won't be hurt at all.

Lokita tried to fight back, but the three of them were very strong and could deal with all his attacks.

So it's no matter who the two parties are This time Lokita is well known to everyone.

The quality of immortality!

Who can stop?

Even if Tiance Mansion sends out real powerhouses, there is no way to get rid of them!

They are all investigating how Lokita became such a strong man!

...

Lokita was upset that Emma hadn't been killed.

In fact, for Richard, Levi Garrison is dying, it doesn't matter whether his mother kills or not.

However, the fact that Lokita could rescue people from his hands aroused his attention.

who can that be?

Tiance Mansion has been ruled out.

He couldn't figure out who it was...

"But through analysis, this group of people knows the pure energy body very well! Look at the people they sent out to block it specifically for the pure energy body!"

"Is there anything else? But now Few people know the pure energy body, right?"

“Moreover, no one knows about Lokita being a pure energy body, and nobody knows anything related to us,”

this made Richard deeply puzzled.

Is it the Bible organization?

But they have no reason!

I won't try to save an old lady!

It doesn't match their interests.

House thieves are hard to guard against.

He never expected that he would be the Fire Cloud Evil God!

...In

the dark palace of the Bible Organization.

“Now that the pure energy bodies of the Gods Lab are officially present, no one has thought of a way to target them. They are immortal and immortal! No matter how strong you are, you can't kill them!”

Underworld God and others stood below and couldn't help saying .

A mocking voice came from a distance, "That's not strong enough!"

"Does the Dark God have a solution to the pure energy body?"

Everyone was shocked.

The Dark God sneered.

He ignored everyone and went to see the progress of Zoey.

As soon as I entered, a breath of death and terror came.

Obviously Zoey has reached an unprecedented level.

Next, Lokita kept a low profile, and Tiance Mansion didn't move either, fearing that he was studying how to deal with pure energy bodies.

Some time passed.

Kunlun Industry is developing vigorously with the support of all parties, and the speed is comparable to that of a rocket.

Has long surpassed the scale of Shenlong Technology.

It is still accelerating.

And developed many weapons and advanced products.

Won more and more geniuses.

These geniuses actually have a lot of ideas, but the reality has too many restrictions, funding, environment, and so on.

Prevent them from expressing the ideas in their minds.

But Kunlun Industry gave them a stage.

Let the ideas of these geniuses be carried out, and a scientific research plan was put forward and realized...

The development speed of Kunlun Industry surprised them by the speed of development.

When the opponents react, I am afraid that Kunlun Industry has become a follower.

Richard's pure energy body developed rapidly and became more and more mature.

The Lopez and Black family all succeeded, and none of them failed.

The later ones are better than Lokita!

They have been secretly sent to Erudia by Richard one by one. The gathering of this group is a disaster.

One Lokita turned the Great Xia upside down.

Even if the strong Tiance Mansion was sent out later, he couldn't help but Lokita withdrew by himself.

Now a group of pure energy bodies.

And one is better than one.

What kind of disaster it will be together.

After Li Songkui and others obtained such a strong power, they could not wait to show it.

They want to have control and high status more than ordinary people.

"According to Mr. Richard's plan, those of us need to be kings and

hegemony everywhere in Erudia! So, let's be divided into two groups, each with one area to dominate!

Once we encounter an unmatched strong, we will send a signal to the nearest one. Immediately support! If the opponent is too strong, we will all gather together!”

Li Songkui, the strongest of them, quickly arranged a plan.

Every two people set off to various places in Erudia.

Soon, a few days later, such a situation appeared in Erudia, and mysterious strong men appeared! Start a massacre and suppress a strong person!

These mysterious powerhouses are too powerful.

No one can beat it at all.

They control one force after another, and all organizations are under control.

Anyone who does not surrender will be slaughtered.

The guards arranged by Tiance Mansion and Yanlong Guard were all destroyed.

None of them were left.

It seems that as soon as these mysterious powerhouses appear, they are directed at the guardians.

All over the place exploded for a while.

That is, the situation that occurred in Jiangbei some time ago has been staged in various regions.

According to the news that came out, these mysterious powerhouses are very similar to Lokita.

Their methods are almost the same.

Soon the conclusion came out-there were more than one weird powerhouse like Lokita, but dozens of them!

And scattered all over Erudia!

Dozens of powerhouses like Lokita have a headache to think about!

One is enough!

It was Tiance Mansion who sent three top powerhouses to expel them!

Now dozens of...

what should I do?

Where did this group of people come from?

Investigate soon!

This investigation shocked all parties.

Because these dozens of people are related to the Lopez and Black family in Jiangbei.

Among them are Lokita's brother, son, niece and so on.

They were all the people who fled from the Great Xia crisis and were finally exiled by the Eagle Nation.

Finally, they could not enter because of the ban.

But what have they experienced now?

How did they become so strong one by one?

There are also organized and premeditated riots all over Erudia.

Killing so many powerful people...it's

not normal!

This caused Messiah and Tiance Mansion a headache.

A Lokita let them know what the trouble is.

Dozens now...

unimaginable!

They have been checking Lokita during this period, but they couldn't find anything.

After being expelled, Lokita disappeared out of thin air and reappeared out of thin air.

It seems that no one is in control.

But now dozens of people appear.

It is obvious that someone is in charge behind it.

"What to do?"

Li Songkui and others all smiled after seeing the negotiator.

He can't imagine.

One day Erudia's strongest ancient martial arts organization was softened to them, and it came to negotiate!

How miserable he was!

In Jiangbei, he has been humbling and being bullied.

In the end, he was banished, even without his identity, Erudia couldn't return.

Now Erudia's strongest organization has come to him for negotiation.

This sense of accomplishment is simply taking off.

It is no exaggeration to say that people like Li Songkui are now in the form of one person and one country.

This is the splendid wealth that Richard gave them!

And Richard also said that they can be made stronger!

"Negotiating? What to talk about?"

Li Songkui sneered.

He is full of confidence now!

“Everything is easy to talk about! What’s more, you used to be Erudia people. Now you have learned a skill. How good is it for Erudia!”

“Presumably you and Erudia have no enemies, right? Why kill them for no reason? “

Negotiation experts want a peaceful settlement.

“No hatred? Haha... How did you do when we were exiled? A special ban was set up! Do not let them in!”

“Every one of Erudia is our enemy!”

Li Songkui sneered.

“Negotiate a hammer with this group of people! Don’t you know what’s going on? The ban imposed by the master was to prevent you from this group of trash from entering Great Summer!”

Levi Garrison’s apprentice Xiao Feng and the others rebuked.

They were also selected into the negotiating team.

Several people firmly do not advocate peaceful negotiations with these miscellaneous pieces.

Even want to drive these people out.

“Hahaha...is the ban? Don't let us enter Erudia, why did we come in?”

“Explain which weak people these bans are for! It's useless for us! The bans won't stop us! No matter how you keep them, all No! Is it still scornful to reconcile with us now? It's ridiculous!”

...

facing the arrogance of Li Songkui and the others.

Everyone can't refute it yet.

Now I can't stop them at all.

Don't talk about a group of people, even a single person is struggling.

They are already threatening to this point.

Messiah and Tiance Mansion had to negotiate with them first.

“By the way, Levi Garrison made the ban? Now we have violated the ban and came to Erudia! Where are the people? Come to expel us? Come kill us!”

Li Songkui laughed loudly.

Others cooperated with him, “Levi Garrison is afraid that he won’t be able to come. He died early, and even the body was dissolved by others!”

“

Hahahaha ...” Li Songkui laughed wildly.

The laughter irritated Xiao Feng and others fiercely.

They clenched their fists and wanted to fight with Li Songkui!

But they know how to fight!

At the beginning, even Li Wenhai couldn’t fight it alone!

“Are you Levi Garrison’s apprentices? Levi Garrison has no bones left, so you should enforce the ban! Come on, expel us, kill us!”

Li Songkui deliberately provoked.

Xiao Feng and the others were going crazy.

Xiao Feng shouted a few people reluctantly.

Although they knew it was impossible.

Levi Garrison appeared alive early.

Why bother to now?

This can only be regarded as a kind of hope, as a motivation for everyone to move forward.

How much they hope that Levi Garrison is still there, do these people dare to be arrogant?

“Levi Garrison, right? Don’t say that he is dead, even if he is alive? What about me now, do you think I am afraid of him?”

Li Songkui sneered.

Everyone was silent.

Yes!

Levi Garrison became Erudia’s savior time and time again, so he became an omnipotent existence in everyone’s subconscious mind.

But after another thought, what about Levi Garrison even if he was alive?

In the impression left to everyone, Levi Garrison and Commoner Killing God are of the same level.

But Commoner Killing God was rubbed against the ground by Li Wenhai.

Li Songkui these people are stronger than Li Wenhai!

What did Levi Garrison use to fight them?

...

Li Songkui sneered, "We hope that Levi Garrison is alive! Then we killed him by ourselves, plucked his skin, and pulled his tendons! Let him die without a whole body..." What

Richard said to them was thinking They didn't want to seek revenge on Levi Garrison, but when they became the strong, Levi Garrison died.

Everyone is depressed about this.

"You..."

Xiao Feng and the others were going to explode in anger.

"Satisfy these two conditions first, and then negotiate with us! Otherwise, you will know the consequences..."

“I can’t understand Levi Garrison’s apprentices, so let them all kneel and kowtow to me! Hurry up! Otherwise, this matter. Not negotiable!”

Li Songkui was arrogant.

They had to watch Xiao Feng and the others kneeling on the ground and kowtow to be satisfied in their hearts.

The other negotiators discussed with Xiao Feng, “You...you should kneel next time, for peace! For Da Xia!”

Xiao Feng and the others became more and more angry. , We can’t do it!”

“What’s more, you have to understand! If the second condition is agreed, once the ban is lifted, which garbage will rush into Erudia! Will it have consequences for Erudia?”

“Yes, more What’s more, after the ban was lifted, it had a great impact on Erudia’s reputation! We would say that we succumbed, we succumbed!”

“Is this what you want to see?”

...

Xiao Feng and others said, which negotiators are all Are silent.

They just want a peaceful solution, but they don't want problems in Erudia.

"Don't you kneel down? Then

get out!" The negotiating team was driven out.

They have to go back to discuss this matter.

The first condition seemed to them to be satisfied.

When the time comes, just order Xiao Feng and the others to kneel down.

But the second abolition of the ban is difficult.

...

Then Li Songkui and others still go their own way.

Continue to start their pace of conquest.

The surrender accepts!

Kill those who refuse!

A famous expert in Erudia is going to challenge!

Including those on the sky list, they all lost.

Even the three powerhouses of Tiance Mansion, the master of Zoey's trio, came to challenge them in the end!

On the one hand, they are so angry!

On the one hand, Tiance Mansion wanted to explore the strength of a new batch of pure energy bodies! "Press Tiance Mansion and let them hand over Levi Garrison's children!"

"Talk to them and hand over Levi Garrison's children, and you will immediately quit Erudia!"

This is Richard's new task.

At the beginning, Levilia's talents are well known all over the world.

They also want Levilia.

... In

front of Tiance Mansion's Tianji Attic.

Several people stand.

These are all the gods of Tiance Mansion.

Responsible for the main matters of Tiance Mansion.

Especially when the helm of Tiance Mansion and other high-level retreats, Tiance Mansion was taken care of by them.

Now they come to ask Tianji Pavilion Li Songkui about the history of these people and so on.

A voice came from the attic of Tianji Pavilion, "Li Songkui and other 37 people came from the laboratory

of the gods. It was Richard who restored Xu Zhengjie's experiment! These people are called pure energy bodies. To put it bluntly, they have no fixed form, so they are immortal. ..."

"Thank you, we know! It's Richard's conspiracy! These people were exiled by the world, and no country recognized their status! It happened that Richard used them to deal with Da Xia, to test our trump cards!
"

Several gods have reacted one after another. There was a voice in the Tianji attic, "In the past hundreds or even hundreds of years, you only thought about the mission of guardianship! In fact, you are standing still and isolated from the world! However, secret organizations in other places have long been laying out, even laying out several

Dozens of Li Songkui were rampant in Erudia, and no one could stop it.

It also reached the ears of several teachers who instructed Levilia.

The teachers who have instructed Levilia have a lot of background, and they are older than a few gods in terms of qualifications.

In addition, the masters of Levilia are one from Tiance Mansion and one from each branch of the Baolong clan.

Everyone is super powerful.

It is much higher than the master of Zoey and the three of them.

After all, Levilia is the most talented one.

It can even be said to be the future cornerstone of the Baolong clan in Tiance Mansion.

That is the seedling that guards the future of Erudia!

Too important!

So Levilia's masters are terrifying!

Let's put it this way... in the

mysterious Tiance Mansion and Baolong clan.

No one dared to provoke Levilia, the only outsider.

It's just because Levilia's masters are too terrifying, and their status is too high and too high!

Can't afford it!!!

Levilia is everyone's little ancestor!

Hearing that Li Songkui and their negotiating terms were to hand over Levilia, the masters of Levilia were angry!

"It's your turn! I see who would dare to agree to this condition???"

This is a female master of Levilia, who also came from Tiance Mansion.

It is said that she and the old guys in Tianji Pavilion are of the same generation and equally mysterious.

She rushed directly to the great gods of Tiance Mansion and angered, "That shameless man, dare to hit my disciple's idea???" The

great gods will be frightened.

"There are so many masters in Tiance Mansion who just send out a few, so what waste is not solved? I have to hand over my apprentice? What do you think???" I need to negotiate with people in

Tiance Mansion?" Master Levilia roared write.

The whole area is like an earthquake.

Several great gods trembled...

“Senior, we haven’t agreed yet! And our Tiance Mansion’s delay in acting is because of the overall situation! Now the Gods Laboratory uses these pure energy bodies to test our Tiance Mansion’s trump cards. They are laying out the laboratories of the gods...”

“We didn’t plan to hand over Levilia, we were just thinking of a way to get the best of both worlds! Temporary tolerance is for future counterattack!”

...

everyone began to explain .

“The significance of the existence of Tiance Mansion and Baolong clan is not just to save Da Xia in the most critical moment, but also to maintain Da Xia’s reputation and dignity! Understand?”

“Okay, you don’t have to worry about this matter, I will deal with it. !” The

female master Levilia slammed the door and left.

“Huh??” The

great gods were stunned.

“If you let this old ancestor go out, then you won’t be able to shake the sky?”

“But do you dare to stop? Who can stop the things she decides? Even if the gods are handsome, isn’t it?”

.....

Several great gods will want to chase , But didn’t dare to chase after him, for a while, he didn’t know what to do in the same place.

...

The place of negotiation is in the capital.

Li Songkui gathered all the pure energy bodies here.

Only by gathering together can they give the Tiance Mansion the greatest pressure.

In fact, you don’t have to have a king, Master Levilianu looks like a middle-aged woman.

Wearing a simple gown.

But in Tiance Mansion, she is the female ancestor!

No one knows her grade!

“Huh? Is there no one in

...

Anyway, Li Songkui’s task is to try to anger Tiance Mansion.

Seeing that it was a woman, Li Songkui and others became even more unscrupulous.

Laughing at every possible way...

what is the temper of the female ancestor?

Everyone in Tiance Mansion knows it.

Even the few great gods who control the real power are all scared like that.

Let alone other people.

The masters of the key monarch are all the ancestors of the Tiance Mansion and the Baolong clan.

Several ancestors level!

One is worse-tempered than one, and one is more grumpy.

Get started, one is more ruthless!

In particular, several ancestors were extremely fond of Levilia.

Let's put it this way, even if Levilia wants the stars in the sky, several ancestors will find ways to pick them off.

To want Levilia now is equivalent to killing them!

Can you not be angry?

Especially this grandfather is the most grumpy among the masters!

Some people even call her a female tyrant!

Originally, she was extremely angry because of Levilia.

Now I heard Li Songkui taunting and the female ancestor was even more angry!

The female ancestor's icy eyes swept across Li Songkui and the others, "You want me to be a disciple?"

"Yes, that's right! Quickly hand over Levi Garrison's daughter!"

Li Songkui looked at her disdainfully.

None of them looked at this female ancestor.

"Boom!!!"

Suddenly a booming sound exploded.

The ground collapsed!

The mushroom cloud in the air exploded!

The air swayed and turned the river to the sea, and the sky looked like thunder rolling in the sky.

Immediately, there was silence between heaven and earth...

But Li Songkui flew out ... His

body was severely deformed... The

most terrifying thing was that Li Songkui felt a sense of fear and pain.

Fear is normal!

If the opponent is strong, you can put pressure on him.

But the pain...

it can't be explained!

It stands to reason that he has no body, and his body is composed of pure energy bodies. How can this be painful?

impossible!

This is even more terrifying than removing the pain nerve!

There will be no pain!

But there was pain.

How is this going? ? ?

Could it be that the coercion of her move directly oppressed his consciousness, causing pain?

It can only show that the woman in front of me is too strong...

“Boom!”

“Boom!”

“Boom!”

... The

female ancestor’s violent temper came up, but she couldn’t stop it at all.

A slap in the face severely hit Li Wenhai, Li Wenfei and others on the face.

“

Boom ...” With every slap, the earth collapsed and mushroom clouds exploded in the sky today.

The mysterious female master of Tiance Mansion was born with a hot temper and shocking the world with a slap!

The parties shook.

There is no such information in the huge database of the Gods Laboratory.

You must know that all three of Zoey's instructors in Tiance Mansion have found out.

This one has no information!

"This..."

Richard was immediately startled in a cold sweat.

too terrifying!

This incident shocked even the core high-level personnel of the Gods Laboratory.

For example, Richard's immediate boss and the one who plays Joker cards are actively paying attention.

...In the

field.

"Boom!" With

a loud bang, the female ancestor had already appeared in front of Li Songkui.

“You want to arrest my disciple?”

she asked sharply.

“I...”

Li Songkui was frightened.

“boom!”

But the female ancestor didn’t give him a chance to speak at all, she slapped it out.

Li Songkui’s face was drawn to

pieces ... Li Songkui’s body deformed more and more seriously!

Frightened silly!

Li Songkui was confused and blank.

“You want to arrest my disciple?” The

female ancestor looked at the other people again.

“Boom!!!”

... The

female ancestor slapped the faces of these people again and again.

Every slap will turn the world upside down!

The seemingly simple slap resulted in the potential for destruction.

Every slap is taken, everyone feels that the world is going to be destroyed.

Li Wenhai and others were drawn out one by one.

Their bodies are getting more and more deformed, especially their faces are torn apart, and the speed of recovery has slowed down again and again... it

The pain of pulling away from the soul!

“Ah!!!”

.....

Let everyone let out a heart- piercing pain.

It felt like their souls were being roasted.

fear!

so horrible!

Li Wenhai and them all are going crazy!

This is too scary, right?

Originally thought that the immortality of the pure energy body, they can run wild, even if they encounter a stronger opponent than themselves, they don't have to worry about it.

Because no matter how strong the opponent is, he can't beat himself.

They have undergone various tests in the laboratories of the gods, and so is it.

They are immortal.

It can't be killed at all.

Even Richard said that he couldn't think of a way to deal with pure energy bodies.

In a sense, they are invincible.

No matter how strong the opponent is, they can't kill them, but they will only be consumed alive.

So Li Songkui and others were very pleasantly surprised. They can't kill them, so they can do whatever they want.

Because no one can use them at all.

Together with dozens of them, they didn’t pay attention to the female ancestor at all.

Together they made a shocking move.

What’s more, Richard has carefully arranged a set of cooperative tactics for them.

Let them maximize their power.

To achieve the effect that one plus one is greater than two.

So everyone shot together, and every confidence came.

If everyone beats the one in front of you again.

They really alarmed the world.

Everyone became more excited.

Their momentum changed, and a breath of silence came out and filled the audience.

Richard and the Lab of the Gods are full of expectations and confidence.

They really want to see the picture of victory.

...

Seeing Li Songkui everyone unite, the female ancestor just sneered.

“Fuck!!!”

She stepped on the ground with her feet, the ground shook, and everyone was shaken.

The terrible momentum is spreading.

Everyone felt something was wrong, as if something happened in this place.

“Huh? No...this...how am I restricted...I can't use my energy...”

Li Songkui's face changed drastically.

“Me too! I can't control it! I feel that something is pressing me...”

“I can't move, I seem to be restricted all over...”

“What’s the matter? What’s the matter with us?”

...

Everyone was dumbfounded.

They are restricted.

Even the most basic power cannot be used.

The weaker ones can’t even move.

This...

could it be that...

they looked at the female ancestor one after another!

She stomped her feet just now, which seems to have changed the magnetic field and other elements here?

Limit their energy directly?

Make them unable to play a bit!

The female ancestor looked at them blankly, slowly raised her right hand, and slapped it out in the air.

A huge palm came out suddenly.

“Boom...” The

sky was shaking!

Almost the entire capital is shaking.

The black clouds in the air were directly dispersed...

Li Songkui and dozens of others were directly bombarded to the ground.

A palm print the size of four football fields landed on the ground, several meters deep!

Shocked!

It was too shocking!

The power of a slap is terrifying!

Is this a god?

Why is this middle-aged woman so scary? ? ?

As for Li Songkui, they were directly photographed into cakes!

Under the palm of the female ancestor, half of their energy body was blasted away.

The remaining half let them linger!

It turned out that the female ancestors were merciful, otherwise they would be taken away with a slap.

The reason for keeping them is to take them back for Tiance Mansion to study!

How to kill pure energy body?

He was frightened.

He finally understood why his boss said that the Lab of the Gods could deal with pure energy bodies.

It turns out that in the eyes of the real strong, the pure energy body is just like the weak chicken, which

can be easily crushed.

Before Xu Zhengjie's level was reached, they were all scum.

In this way, Richard's plan all fell through.

His original plan was to use people like Li Songkui to force out Tiance Mansion's hole cards little by little.

Tiance Mansion will slowly send out more and more powerful masters.

There must be at least ten batches.

Then he can analyze the dozens of masters in Tiance Mansion.

Anyway, in his expectation, it is not easy for Tiance Mansion to deal with Li Songkui's dozens of pure energy bodies.

At least peeling.

Even more than a dozen batches of masters, there will be more.

Otherwise, Li Songkui would all be slapped to death by her.

so horrible!

The problem is solved with one slap.

Richard was dumbfounded.

Tiance Mansion was even more dumbfounded.

What they want to break their brains, is that solved?

But sometimes hiding it is not necessarily a good thing.

You have to be decisive and deal with it directly.

...

“Now you understand? Tiance Mansion and Baolong clan are very powerful, just like you don’t know how powerful the Gods Lab is!” The

top boss said something like a touch of cold water on Richard’s head. .

He is still arrogant.

Delusion to use these pure energy bodies to measure the hole cards of Tiance Mansion.

But the result was obvious-it failed.

Also elicited such a lunatic, and shocked the whole world!

The evil gods finally knew what the dark god had said and their disdain for pure energy bodies.

In the face of absolute power, the pure energy body is vulnerable.

If you can't solve it, then you are not strong enough.

"Tiance Mansion and the Baolong clan can't afford to provoke them. Basically, how long the history of Erudia is, and how deep the Tiance Mansion Baolong clan is!" The

Dark God said such a sentence.

...

Erudia Capital.

The female ancestor dragged dozens of Li Songkui away with a rope.

She wants to give them to Tiance Mansion to study...

Although she is weak in front of her, it still has meaning for Erudia.

People from Tiance Mansion came to greet him immediately.

Each was wiping cold sweat.

The most unprovoked child!

But the people in Tiance Mansion knew that this kid could not be messed with.

What the world saw this time was an ancestor.

But know that there are more than ten ancestors standing behind this child!

That's it for one.

If more than a dozen ancestors stand up together!

That would be unimaginable...

but these are not known from the outside.

I thought that Levilia only has this master!

It is the people of Tiance Mansion who suffer.

Not even a few great gods dared to provoke them, let alone other people.

...

The commoner killer god of Kunlun Industry, they breathed a sigh of relief.

Now Levi Garrison can continue to retreat.

What surprised them was that Tiance Mansion secretly sent two pure energy bodies for them to study.

In fact, the members of Tiance Mansion who came to give it to Kunlun Industry didn't know why it was given to Kunlun Industry.

What they didn't understand was that this was given away by Tianji Pavilion.

In this way, Kunlun Industry can study the pure energy body from the source, so as to target defense.

Commoner Killing God even asked the representative of Tiance Mansion: "Is Mr. Ye's mother okay?"

Several representatives of Tiance Mansion were all confused: "What is Mr. Ye's mother? We don't know."

Commoner Killing God is anxious: "No, didn't Tiance Mansion rescue the people?"

"Huh? Is there such a thing?"

"No! Absolutely nothing!"

"Not to mention that you think about Tiance Mansion. Is it necessary to secretly save people this time to resolve the matter vigorously and vigorously?"

...

They all were taken aback for a while.

That's true.

There is no need to cover up to save people, the female ancestor came out and slapped to death.

Who was the one who rescued Levi Garrison's mother?

Everyone is puzzled.

Besides, Li and Zhao's family, even though Li Wenhai and others were captured alive, their status has not diminished at all.

Why?

Just because they are Levilia's family!

Everyone knows about the female ancestor protecting the calf. Who would dare to provoke Levilia's family?

They are the number one giants.

"I really didn't expect that in the end our wish would come true, we would rely on Levi Garrison!"

Old man Li and the others sighed.

...

The slap of the female ancestor continued to slap, as if the whole world was quiet.

The Lab of the Gods and Richard were all honest.

I was really afraid of being beaten.

All parties need to evaluate Erudia.

The various forces really did not move at all.

Except for those ancient racial forces, the others really didn't move.

But this gave Kunlun industry time to grow wildly.

This industrial group supported by all parties is developing at a terrifying speed.

How could she become so strong? ? ?

What happened during this time?

Did the dark god fully arouse her potential?

The Eighteenth Dark Angels and other members of the Bible Organization are already strong enough, but why do they show such an expression when they see Zoey?

That's because they felt a sense of oppression similar to the Dark God in Zoey... It

shows that even if Zoey is not as good as the Dark God, it is infinitely close.

This is terrible too!

They finally knew why the Dark God would directly choose Zoey as his disciple.

This is the answer.

Because she can be so strong!

“From today, you are the empress of the Bible Organization! The status is second only to me!” The

Dark God directly canonized Zoey as the Empress...

Everyone was shocked but sighed.

...

On the other side.

People in Common Killer were worried about Emma’s safety and began to look for Levi Garrison.

Suzaku finally found Levi Garrison’s retreat with a lot of effort.

After repeated inquiries and no results, several people from Common Killer broke into Levi Garrison's retreat.

It was discovered that Levi Garrison was missing.

"Huh

??" "Isn't Mr. Garrison in retreat? Why is he missing?"

Commoner Killing God and others were stunned.

After Qilin looked around, he was surprised: "I have been away for at least three months!"

"Suzaku is wrong, the boss is not here at all in retreat?"

Azure Dragon (Qinglong) asked.

Xuanwu and Baihu said at the same time: "Impossible! We helped Suzaku find this place. The boss retreated here before!"

"Yes, it can't be wrong! The boss retreats here! You see, these are all left by the boss. !"

Suzaku also said.

Kirin thinking, can not help but said: "!? To be sure the boss does retreat here too, probably left three months ago it would mean that Li Songkui these pure energy body lawless time"

“hiss !!!”

People have Take a cold breath.

A terrible idea came up.

So at that time, Levi Garrison left the customs? ? ?

Doesn't it mean that he can solve the pure energy body.

“It is estimated that the boss wanted to take action at that time, but the female ancestor of Tiance Mansion appeared! It is estimated that the boss didn't do it!”

Qi Lin exclaimed.

Everyone smiled: “It turns out that the boss left the customs early!”

Commoner Murder frowned, “Where has the husband been in these three months? Why is there no news at all? It stands to reason that he should meet with us after he leaves customs.

Right ?” “I don't know, there is no news!”

Everyone was shaking their heads.

Qilin smiled: "According to the style of the boss, he must be doing something big! The reason why he didn't contact us was probably because he was afraid of exposure! After all, Kunlun industry has developed to a certain scale, and we are not necessarily safe. . eyeing necessarily "

Dragon nodded:" Yes ah, the boss if we need it, be sure to contact us we need to do now is to develop the Kunlun industrial "

Kirin is looking forward to:" boss exit all three Months, I think there will be movement soon! It must be a big move, look forward to it!"

Everyone understands.

Levi Garrison had no news for three months after leaving the customs, so a big move is bound to be brewing.

In fact, Levi Garrison was in a dangerous place.

Star Country's Sanxing Group.

He is with Li Chengmin.

No one thought of this.

Going around, Levi Garrison came back.

It's still inside them.

They also secretly controlled a lot of things in the Gods Lab.

Levi Garrison used these three months to grasp the information of the Gods Laboratory as much as possible from the Sanxing Group.

After these three months, Levi Garrison summed up a lot.

The core layer of the Lab of the Gods is inaccessible at all and cannot be controlled.

But spokespersons like Richard and Levi Garrison, outsiders, have all mastered.

Of course, there are doglegs like Sanxing Group, who also mastered nine out of ten.

“Okay, I’m leaving!” After taking

control of everything, Levi Garrison was about to leave.

Li Chengmin asked anxiously: “Where are you going?”

“Go and kill some people!”

Levi Garrison said calmly.

“Do you want to start? Do you need my help?”

“No need!”

...

Levi Garrison left.

Looked at the densely packed names on the list.

Who should kill first? ? ?

This is a problem.

But Levi Garrison quickly locked onto one name—

Richard! ! !

Among the densely packed names, this one is the most dazzling.

“Richard has been your opponent for a long time! Even when I didn’t know you, you were already my opponent! Now I can’t keep you, kill!”

Because Richard’s use of Levi Garrison’s value is to the end NS.

Richard’s hole cards were all revealed.

He estimated that it would be difficult to dig out more of the Lab of the Gods.

So Levi Garrison wants to kill him!

Levi Garrison left the star country and went straight to the war eagle country.

According to the intelligence of Sanxing Group, Richard did not go out recently, but was in his own independent laboratory.

Studying the pure energy body experiment that can really be close to Xu Zhengjie!

...In

a secret base in the Warhawk Kingdom.

“The biggest problem at the moment is still super-energy particles! We still can’t create something comparable to what Xu Zhengjie discovered in a short time!”

“There are other experimental groups who have not been able to find this kind of natural super-energy particles. I really don’t know how Xu Zhengjie discovered and obtained it. Yes!”

“I suspect that with our current technology, even if we find such super-energy particles, they will not be able to obtain them, and there will even be a huge danger!”

...

Listening to the report, Richard frowned.

Nothing has gone smoothly recently.

It is really difficult to create a unique one.

But Li Songkui’s mass-produced low-profile version was completely destroyed by the female ancestor of Tiance Mansion.

“Go on, I’ll go back to rest!”

Richard drove back to his residence.

It is also not far from the base.

It is a private manor.

Richard is a very cautious guy.

For one's own residence, naturally build the safest fortress.

The sea, land and air have the top defensive system.

There are a lot of escape and life-saving functions for houses and beds

With one breath, all the guards at this outpost were killed.

Levi Garrison started the killing.

Whether it was an open or secret whistle, they disappeared one by one.

After the death of these people, not even a message can be sent out.

So no one knew that Levi Garrison was close to this secret base.

Join Telegram Group For Fast update

Because there is no abnormality at all.

This is the benefit of Sanxing Group.

They provide some raw materials, or test products, to the laboratories of the gods.

So I know more or less about the secret base.

So Levi Garrison had to come in a lot easier.

One hour passed.

The perimeter defense line of Richard's secret base for hundreds of miles was all solved by Levi Garrison alone.

Thousands of people died.

But there was no movement at all.

No one knew about the entire base.

Looking at the base close at hand, Levi Garrison sneered: "Can you live tonight Richard?"

He wants to destroy the base first, and then kill Richard.

Levi Garrison entered the base easily.

No one noticed it at all.

When they came to the core area, everyone discovered that a person dressed differently from everyone appeared.

After all, everyone in the laboratory is wearing protective clothing.

But Levi Garrison was wearing casual clothes, which was too eye-catching.

Hundreds of eyes glanced at Levi Garrison.

"Who are you? What are you doing?"

someone immediately asked.

“It’s nothing, come to kill you!”

Levi Garrison went directly to kill as soon as the voice fell.

Soon the corpses piled up all over the floor.

“Boom...”

He was killing and destroying, and the laboratory of the base was destroyed one after another.

Levi Garrison finally came to the main control room and after copying all the data, he destroyed the base.

“Boom...” The

base instantly appeared in the flames.

Plus some super energy materials are also exploded together.

The terrifying power directly lifted the entire secret base to the sky!

A mushroom cloud formed in an instant...The

terrifying flame spread for dozens of miles, like the end of the world.

The Lab of the Gods does not refer to a laboratory, but a code name.

It has many such bases.

This base was given to Richard!

Richard's status is very high, so this base can be regarded as one of the core bases.

This is a heavy blow.

The moment the base was blown up, Richard received the news not far away.

"Dididi..." The

harsh alarm sounded through the manor.

Everyone including Richard was awakened.

After all, the manor and base systems are connected.

When Levi Garrison copied the data, he actually copied all the data of Richard's residence.

He immediately sent the data to Li Chengmin.

Under the control of the top hacker arranged by Li Chengmin, the system of the entire manor was quickly paralyzed.

The defense systems, including the land, sea and air, were all paralyzed.

...In the

manor.

Richard woke up in shock: "What's the situation? What's the situation?"

"No, someone invaded our base and destroyed it! Levi Garrison! ! !

Richard heard it.

This is Levi Garrison's voice!

But is it really Levi Garrison?

But there are too many people posing as Levi Garrison recently!

"Evacuate! Evacuate!"

Richard gave an order, and he led everyone to escape from the secret passage.

At the same time, Richard reported the situation to various places in the Gods Laboratory.

He is also ready for the ultimate rescue button.

Once the situation is not right, press it directly to request the ultimate rescue of the Gods Laboratory.

"Want to run? Richard!" the

voice came again.

The next moment, Levi Garrison stepped on it.

The earth fell apart immediately, and all burst into pieces.

The appearance of a dungeon was exposed.

It turned out that all under this base was hollowed out.

There are divergent roads below, which can go to any place in the Eagle Nation.

It is also the secret place of this base.

All of their transportation can be carried out underground and cannot be found at all.

But now, under Levi Garrison's kick, the earth collapsed completely, and the underground city below was completely exposed.

It's simply breathtaking.

It is impossible to imagine such a large area, there is no cave below.

How much financial and material resources will it take to create this.

This is the horror of the Lab of the Gods!

Levi Garrison glanced at Richard and others who were fleeing.

"Boom!"

He turned into a lightning chase, and at the same time he threw a punch.

Sweep to Richard and hundreds of others.

“Kakcha!”

“Kakcha!”

... After this

punch, the building in the dungeon was directly destroyed and smoothed out.

Richard and the others were forced to stop abruptly.

“Who are you?”

Richard asked.

“Can’t you hear my voice?”

Levi Garrison smiled.

“Pretend to be a fool! You are not Levi Garrison at all! Levi Garrison is dead early!”

Richard naturally didn’t believe it.

“Take him!”

Richard gave an order, and the four pure energy bodies immediately killed Levi Garrison.

Although the pure energy body was slapped by the female ancestor of Tiance Mansion.

But how many female ancestors are there in the world?

She is the only one revealed right now!

Therefore, pure energy bodies are still terrifying combat power!

Others still can't think of a solution!

After all, you don't have the strength of a female ancestor!

The four pure energy bodies are all fighting desperately, because they know that they are immortal.

The other party can't kill them at all.

So they don't need to defend at all.

Just work hard.

It can't be killed anyway.

“Boom!”

“Boom!”

“Boom!”

“Boom!”

... But

Levi Garrison instantly pointed out four points, and hit the four of them at a speed beyond the limit.

At this moment, the four of them only felt that their consciousness was forcibly pulled out of this body.

Pain!

They actually felt the pain!

Can't tell where it hurts, but it hurts everywhere!

They have no bodies,

This, this... the

sky is falling!

The corner of Levi Garrison's mouth rises!

In fact, his spike pure energy body is not the same as the female ancestor of Tiance Mansion.

That one is really too f*cking strong!

Strong enough to ignore everything!

I care what you are, so I just slap it!

As for why Levi Garrison can kill the pure energy body in seconds?

That is the result of his retreat!

He transformed a door taboo technique into his own thing!

What Levi Garrison just showed is a taboo technique of fingering, which emphasizes gathering all the power in one burst!

Instantly cause the most terrifying destructive power!

Destroy everything!

Even if it is as strong as a pure energy body, it can't hold it!

Levi Garrison transformed into something that belonged to him, almost with the power comparable to the taboo technique.

The only price is that it consumes a lot of money to use this trick.

Once this door taboo technique is used once, it takes ten and a half days to recover before it can be used a second time.

It instantly concentrates its whole body strength in a single burst, so it consumes too much.

Even if Levi Garrison has improved, it can't be used too much.

After all, the consumed power can't be made up instantly.

"This..."

Richard and the others never expected it to be like this.

Levi Garrison is determined to kill Richard today.

"Boom!"

He appeared in front of Richard in an instant.

Started everyone.

Richard instantly activated the armor.

Others also quickly tried to block Levi Garrison.

“Boom!”

“Boom!”

...

Levi Garrison bombarded the person blocking him with a terrible punch.

Popped one by one!

If the pure energy body blocks, Levi Garrison should immediately use his own version of taboo fingering.

One pure energy body burst open!

In front of Levi Garrison, he couldn't see enough and couldn't stop it!

Now Richard is very annoyed by one thing-why not just build a pure energy body that is infinitely close to Xu Zhengjie?

Rather than mass-produce a lot of low-profile versions, in the end it will make people spike.

stop!

Each of Richard's men had taken Ecstasy, swearing to stop Levi Garrison to the death.

Even if you save your life, you will not hesitate!

But they met Levi Garrison who was too powerful.

Fall down one by one!

...

Blood splashed, bones flying!

Many people still burst into a cloud of learning fog!

The pure energy bodies also fall apart and all dissipate.

miserable!

Fewer people!

Levi Garrison was getting closer and closer to Richard.

Richard is getting more and more panicked and has been asking for support.

It's a pity that everyone within a hundred kilometers was dealt with by Levi Garrison.

All the air-supported aircraft arrived, but they were interfered with without any effect.

The hacker arranged by Li Chengmin has been interfering.

"Hurry up, the support team must hurry up!"

Richard must be tight "Haha, shake people? I see who can save you!"

Levi Garrison will kill Richard.

I can't stop Heavenly King Lao Tzu from coming!

After Richard used extreme rescue privileges, eight bases scattered around the surrounding area.

Able to rescue in the shortest time!

After the eight people were launched, they galloped at the speed of the rocket launch.

He arrived at Richard almost instantly.

This is only the case of eight people starting an engine.

Can be reached in an instant.

Of course it is also because of the relatively close distance.

Too fast is not good.

“Boom!”

“Boom!”

...

the engine device behind the eight people burst into blue flames, bursting out unmatched air currents, and the surrounding wind was raging, and the air waves rolled.

“Boom!”

...

They started the engines and blasted towards Levi Garrison one after another.

The purpose of Extreme Rescue Team is not to kill, but to rescue.

They just wanted to force Levi Garrison back and take Richard away.

As for what Levi Garrison would do, it was not something they should consider.

The engine device behind the eight people burst into flames, giving them the ultimate strength and speed.

This is absolutely unprecedented!

“Get out!!!”

Levi Garrison roared.

A domineering punch blasted out, and an invisible force rumblingly covered it.

“Bang bang bang...”

All eight people were blown out!!!

Incredible!

All eight were stunned!

Is there anyone who can withstand the starting power of an aerospace-level engine?

"It's turning on an engine!" The

eight people communicated quickly and turned on another engine device!

"Buzzing..." After the

two engine devices were started, there was a muffled sound in the sky, the earth was still shaking, and dust was flying in the sky!

"Rumble..."

...

The speed and strength of the eight people directly doubled compared to just now.

What they expected was to directly penetrate Levi Garrison.

"Boom!!!"

They were still greeted with a punch.

Levi Garrison's invincible punch once again blasted everyone out.

horrible!

Horrified!

Before the devastating momentum of the eight people arrived, Levi Garrison instantly blasted thousands of punches and smashed them on them.

The eight people rushing at the limit speed stopped abruptly, and their bodies stopped in mid-air.

"Puff!"

"Puff!"

Finally, these eight people, their terrifying physiques were carefully selected from all over the world by the laboratory of the gods.

But now all cracks appear as fine as a spider's web!

In the end, all eight people exploded, turning into a cloud of blood and dissipating.

Hot blood splashed all over Richard.

Although he was wearing a battle armor, it was no different from not wearing it.

The devices on these guys in front of them all burst.

Richard is dead! ! !

His body exploded completely and turned into blood mist, with no possibility of surviving!

The strongest spokesperson for this laboratory of the gods, who almost destroyed Da Xia’s existence, was beheaded today.

“Huh!”

Levi Garrison let out a long sigh of relief.

This kid finally died.

After killing Richard, Levi Garrison left quickly.

When the army of the Gods’ Laboratory arrived, there were ruins everywhere.

...

Levi Garrison did not leave the War Eagle Nation, he turned around and went to other places to kill other spokespersons.

Overnight, Levi Garrison successively killed the spokespersons of thirteen gods laboratories, and destroyed more than a dozen of the bases of the gods laboratories...The

entire war eagle country was in chaos, and the gods laboratories were chasing Levi Garrison everywhere.

But it didn't catch up anyway.

His whereabouts are uncertain, and he will leave after killing someone.

What's more, they were all spokespersons, not key figures in the Gods Lab.

So it is difficult to capture his whereabouts...

This time Levi Garrison was not curious about who they were.

Levi Garrison smiled.

The evil god also laughed and said: “That’s because they are the intruders, we are bystanders, and the angles are different!”

This is also true !

It’s similar to the black under the light!

Now that Levi Garrison is so rampant, it stands to reason that the Lab of the Gods is easy to find.

But they are the entrants, and they are confused.

Levi Garrison has been leading the nose to walk, and has been stuck in the rhythm of Levi Garrison for a long time.

It’s hard to find.

On the contrary, the Bible organization has always been a bystander, which is equivalent to the perspective of God, and it is easy to find.

Levi Garrison asked directly: "Then what is your purpose for coming to me?"

Underworld God clapped his hands, and Levi Garrison appeared on the left and right.

The eighteen dark angels all came.

This time the Bible organization sent all the dark angels just to bring Levi Garrison back.

"The purpose is very simple! I told you before! You pass the standards of the Bible Organization and you are qualified to join! We are here to invite you to join!"

Underworld God said with a smile.

The eighteen dark angels gathered together, that is, they must take Levi Garrison back.

They have enigmatic self-confidence.

"We advise you to join the Bible organization! This is something you can't escape! If you join, you will get benefits you can't imagine!"

Underworld God smiled.

Levi Garrison smiled and said, "I am used to being free. Joining your organization will make me uncomfortable..."

“So you won’t agree?”

“No, I have a condition!” The God of

Underworld was taken aback and looked curiously. With Levi Garrison.

“Very simple, I can go, but I want to be the leader of the Bible organization! Everyone must listen to me!”

Levi Garrison said this, everyone was dumbfounded.

To be the boss?

He came to be the dark god?

What a joke!

Everyone then realized that they were played by Levi Garrison.

“Levi Garrison, don’t toast or eat fine wine! There are many ways we can hold you!”

Mingxie roared with anger.

There are indeed many ways.

First, the eighteen dark angels joined forces to bring him back.

Second, there is also Zoey dyeing this hole card.

...

Levi Garrison looked at everyone with disdain: "Really? So confident!" The

evil god stared at Levi Garrison: "Nothing else! As long as we entangle you for enough time, the masters of the Gods Lab You'll be here! You have to go by then, is it possible?"

Others also said: "Yes, we will give you a chance now! You can choose by yourself!"

"Come on, you are sure to stop me to that one. When?"

Levi Garrison sneered.

"Then give it a try! Let's do it together!" The

Eighteen Dark Angels joined forces.

This is the first time in the history of the Bible Organization that 18 people have joined forces to attack.

Even Levi Garrison is pondering what is going on...

But now is not the time for Levi Garrison to think.

He has to quickly resolve everything in front of him and leave.

“Don't let him leave! He wants to run!” The

It seems that everyone is an individual, but there are faint connections between them, and the eighteen people are a whole.

Levi Garrison was tightly trapped.

Don't let him escape!

Seeing that Levi Garrison was trapped, the God of Underworld sneered and said: "Levi Garrison thinks about it? It won't take a long time for the people from the Lab of the Gods to arrive! At that time you really can't get away!

" Now? Do you still choose to fight against us?"

In their opinion, Levi Garrison had only two choices.

Levi Garrison shouted out.

The whole body exploded vigorously.

“

Boom !” With a booming sound, the world was overshadowed, as if it had fallen into the doomsday.

The terrible mushroom cloud exploded.

The mountains and rivers are shaking!

A high wave of hundreds of meters above the sea rises!

The mountain not far away caused a sensation one after another and exploded.

The terrible power forced the eighteen dark angels to retreat.

Any combination of skills is useless in the face of absolute power.

The eyes of the eighteen people including the Underworld God and others were shocked...

this is too strong!

After Levi Garrison forced 18 people back, he left immediately!

He didn't think about killing 18 people at once, these 18 people are weird and strong.

Only leave now!

"Can't let him go!"

Underworld God shouted.

This is their task!

It must be done!

Levi Garrison can never escape!

Eighteen people chased Levi Garrison like crazy.

But the master made the move only for a moment, and just as Levi Garrison forced them back, he got a gap to escape.

They were still a step slower after all.

Damn it! ! !

Everyone was irritated!

But still can't catch up!

Can only watch Levi Garrison leave.

Beyond the dust.

Levi Garrison also thought he had gotten rid of it.

"Boom!"

But there was a terrible air current.

"Boom!" He has a title in the laboratory of the gods-the clown emperor!

He is on the same level as Richard's boss.

To be able to gain a foothold at the core level in the Lab of the Gods, he relies on strength!

The aircraft in the Lab of the Gods is as fast as lightning.

But the Great Clown came here first and stopped Levi Garrison.

Dangerous breath.

Because you can't feel his presence, no blood, no breath.

But a strong opponent!

Levi Garrison likes it!

“Boom!!!”

Suddenly the clown emperor started, the earthquake trembled, and the sky shook.

But the others disappeared in the picture instantly.

Can't even catch the afterimage!

The clown emperor appeared in front of Levi Garrison instantly, the hot breath seemed to burn Levi Garrison.

“Plap!” With

a crisp sound, the world faded.

The clown emperor grabbed Levi Garrison's throat!

In an instant, Levi Garrison felt the pressure of the mighty mountain.

His body was bent abruptly!

It was as if the clown king wanted to hold him in the ground.

Levi Garrison quickly grabbed his arm, trying to break free.

But he was pressed back by the great clown, and instantly drew a few hundred meters.

Cracks several meters deep appeared under the feet!

The retreat continues...

When the clown emperor made his move, it was earth-shattering.

Levi Garrison was actually crushed.

This is incredible.

Because Levi Garrison has always crushed and slaughtered the masters of the Gods Lab.

“What shall we do now?” The

eighteen dark angels looked at each other.

Underworld God said coldly: “The task that the Dark God gave us is to bring him back! Let’s help him!”
The

Eighteen Dark Gods immediately shot to the Great Clown.

Both Levi Garrison and the Great Clown noticed the movements of the eighteen dark angels.

“Get out! I don’t need your help!”

Levi Garrison shouted loudly.

Unmatched power burst out again!

A pneumatic mountains and rivers!

It was exactly the trick that Levi Garrison used to retreat the eighteen dark angels just now!

Levi Garrison also used a taboo technique to innovate his own trick!

He used it again at this moment!

“Bang!” The

terrifying force forced the Great Clown away!

Shock!

The clown’s eyes were filled with shock that couldn’t be resolved.

In any case, he did not expect to be shaken by Levi Garrison!

In fact, both sides were shocked.

It was also the first time that Levi Garrison encountered an opponent like the Great Clown, and it would make him so embarrassed.

Absolutely the first person!

“The one who stopped me died!” The

Great Clown looked at the eighteen dark angels and warned.

Kill Levi Garrison instantly.

“Boom!” The

clown emperor slammed a punch, plain and unremarkable, but when he shot it, it shocked the world.

Levi Garrison also blasted a punch.

“Bang!” The

two slammed their fists together.

It’s like two stars colliding.

At this moment, everyone felt a sense of spatial imbalance.

It seems that the plates under the feet have moved abruptly.

The sea water is boiling, just like boiling.
