

Chapter 618

In a private room in a hotel in Zuo City.

In the private room, there was a table full of delicious food and good wine, and four people were sitting around the table.

"Mr. Hu, this time, the cooperation between our two companies will definitely defeat Collier Security Company." It was a woman in her thirties who spoke. She looked very capable.

"Haha, she's just a retired soldier. Does she think she can beat us, such a stronger opponent? President Wong, this matter will 100% be successful!" Mr. Hu, a big-bellied middle-aged man, had a gold watch on his wrist and a huge gold ring on his finger. All of these showed a sense of wealth and honour.

Next to each of them was a young man. They stood there, their bodies ramrod straight, causing anyone who looked at him to feel a sense of pressure.

"Mr. Hu, the person I invited this time, belonged to the special brigade. He is the former trainer-in-charge of the special training team. He's winning percentage is extremely high. I wonder how strong the person you invited is?" The woman, who was called President Wong, said with a confident face, and there was a hint of boasting in her tone.

Mr. Hu laughed and also reached out his hand and pointed to the person behind him. "President Wong, the person I invited is not worse than yours. Tomorrow, it will be a piece of cake to take down Collier Security Company. The woman surnamed Jiang is a judge. I don't believe that there is anyone in her company who can compete with the two elites we have invited!"

President Wong raised her glass and shook it gently. "In this case, Mr. Hu, I wish us a pleasant cooperation!"

"Nice doing business with you!"

Collier Security Company.

When Anna heard Henry's proposal of cooperation, she suddenly had a happy look on her face. If Mr. Zhang was willing to help, it would be easy for her to get the five-star grading with his strength.

"Mr. Zhang, if you are willing to help me, you would really help me a lot this time!" Anna said excitedly.

"It's mutually beneficial. You also have to help me." Henry smiled.

"Absolutely, no problem," Anna replied.

If she could maintain the five-star grading, even though it would be very troublesome to open the branch office in Yinzhou, but it was still much less troublesome than firing people. Although it would be troublesome, it would also increase her own company's popularity.

"Mr. Zhang, let me show you around our company." Anna stood up and made a gesture to Henry.

Anna led Henry for a walk around the company. Henry discovered that Anna's security company was more like a training centre. All the security guards who had joined the company came here to study, for example, fighting skills, reconnaissance, and so on. Anna had brought all of her skills in the company. She also had high requirements for her employees. Most of the people after undergoing the training in her company were elites.

Now with Henry's participation, Anna's mood, which had just been full of worry, became cheerful in an instant. Although the other two security companies had some connections to the officials, on the surface, the rankings were based on true strength. If Anna could defeat the other two companies based on strength, then it would be useless even if they had a strong background.

If Henry hadn't been there this time, Anna would have been set up by those people. But with the appearance of Henry, everything would change. Anna could be said to be full of confidence now.

In a corner of Collier Security Company Security, the young man, who had a conflict with Henry before, took

out his cell phone and carefully observed the surroundings. After finding that no one was around, he dialled a number and went out. The other side answered the phone after a long time.

"Hello, Mr. Hu, I'm Barret Yu, the security guard of Collier Security Company. Right, right, I think I'm interested in the position of the manager you mentioned last time."

"Oh, it's Barret Yu." Mr. Hu, who was still sitting at the dinner table, took a drag on his cigarette with a pleasant look on his face. "The position of manager in our company is already taken."

"Already taken?" Barret was shocked. "Mr. Hu, the benefits you told me last time..."

"Haha, Barret." Mr. Hu laughed and said, "I only said that the manager position was taken, and I didn't say that our company was full. Well, if you can bring a whole department with you, I can give you the position and treatment of the manager. What do you think?"

After listening to Mr. Hu's words, Barret was silent for a while. The other side's meaning was very clear. He wanted Barret to pull people from Collier Security Company.

Barret thought for a moment and then replied, "Well, Mr. Hu, how many people do you want?"

"One department. At least 30 people." Mr. Hu said with a smile on the phone.

"Thirty?" Barret frowned.

"Ha-ha, without thirty people, your department can't be set up, can it? Cheer up. I think you can do it. The manager position is just your starting point. There will be a higher position waiting for you in the future!" After finishing his words, Mr. Hu didn't think that he should say anything more and directly hung up the phone.

Hearing the busy tone on the phone, Barret took a deep breath. 30 people. 30 people.

In the hotel, Mr. Hu smiled and put away his mobile phone.

President Wong asked curiously, "It seems that something good happened to Mr. Hu. Otherwise, he wouldn't laugh so happily."

"Haha." Mr. Hu's face was wrinkled. "President Wong, we are partners. Do not think that I am boring. The people in Collier Security Company were trained by Ana Jiang. The cost of cultivating talents is not low. After the ranking tomorrow, there is no doubt that Collier Security Company will have to fire people. Fully-trained talents will be up for grabs."

Hearing this, President Wong's eyes lit up. "Mr. Hu, I really didn't expect this. Thank you for solving my doubts."

After saying that, President Wong immediately took out her mobile phone and began to arrange some things.

Henry and Anna walked in the company, and Anna took Henry to visit the company from the first floor to the top.

"Mr. Zhang, in your eyes, we are just a small company, aren't we?" Anna smiled.

"You are doing a good job at regular security work, but I think you can add more training projects regarding lurk and reconnaissance. Also, you need to have more technical programs in terms of personal logic and thinking. These details can play a great role." Henry suggested.

"Sure." Anna took out her mobile phone and wrote down everything Henry had just said.

Anna looked at the time, and it was almost dinner time. She took Henry to the first floor so they can leave for dinner.

When they passed by an office with its door locked, Henry suddenly stopped.

"Mr. Zhang, what's wrong?" Anna looked at Henry strangely.

Henry stretched out his hand and pointed to the office. "I think you will be quite interested in the things going on inside."

Anna walked to the door of the office with a suspicious look on her face. The voice inside the door was somewhat faint into Anna's ears.

"Barret, are you sure you want to leave now? Don't forget who taught you everything you know."

"That's right. At that time, all the training was provided by President Jiang. I'm afraid it's not appropriate to leave now."
