

## The Return of the God of War [The Protector] Chapter 2639

Finally someone couldn't help but ask.

This is asked by Yin Zhengping.

In fact, he asked what was in the minds of most people present.

Many people were observing Levi Garrison and thought he was a little sneaky.

Even Zoey Lopez felt that Levi Garrison might have come to learn.

But everyone can't say it directly.

After Yin Zhengping put it forward, everyone responded.

"Yes, I see him standing here for a long time, and has been sneaky!"

"Not only that, he goes back and forth in almost every team..."

"The observation is very careful. Every student has to observe for more than one minute. Isn't this stealing learning?"

...

Everyone surrounded Levi Garrison.

Zoey Lopez looked at each other, and an idea came to mind—could it be that Levi Garrison came in as a mentor, in fact, to learn something.

It is reasonable for him to patrol the audience as a mentor.

Directly learn, he can't pull it off.

But when he learned secretly, no one said anything.

When Yin Zhengping said this, they felt that Levi Garrison was going to learn secretly.

Facing everyone's questions, Levi Garrison sneered, "I need to learn from them? Are they worthy?"

The students are going to be angry.

But the gods and the gods of Tiance made everyone quiet.

No conflict!

The students don't know, how could they not know?

Their bit of breaking power is not worth learning by Levi Garrison at all.

Levi Garrison showed a deep smile, took a deep look at the crowd, and left.

"Let's see! Levi Garrison smiled like that, it shows that he learned it secretly! It's shameless!"

“A dignified instructor, even stealing a lesson! Shameless!”

“This is not fair to us!”

...

The emotions among the trainees are very high.

But Levi Garrison was happy to see such emotions, the more ups and downs, the more he could detect the spies.

Just now Levi Garrison almost observed many people for at least one minute.

Indeed found a few good seedlings!

It is not suitable for practicing his exercises, but other exercises can be practiced. He needs to guide and guide, and future achievements can be higher than those of Tiance Shenshuai.

It can be regarded as reaching the standard of a super strong in his mind.

Of course, Levi Garrison also discovered some spies such as Yin Zhengping.

Although there is no conclusive evidence, it is basically true.

But they progressed too slowly.

Of course, it was also the reason why they couldn't reach the three of Dark Gods.

Levi Garrison decided to add fire to them!

night.

He gathered Tiance Shenshuai and others together.

Simply talked about some of my own plans.

Implemented the next day.

the other side.

The agents of the Sky Shield and the great apprentice of the Dark God have already begun to act.

## The Return of the God of War [The Protector] Chapter 2640

Especially the Black Hawk agent was going to send someone to Daxia and went directly to Ye's family to start inquiring about clues to the new owner of the ancient Garrison Clan.

The great disciple of the Dark God first searched in the Bible organization.

The Kunlun College, which was most hopeful by the Gods Laboratory, has no clues for a long time...

The contest between the two sides is ongoing.

The next day.

In Kunlun College, Tiance Shenshuai summoned all the trainees and mentors to hold a meeting.

"In order to motivate students! Kunlun College decided to launch a reward mechanism!"

"Compare once a month! First, divide the individual ranks of the trainees. Second, divide the ranks of the teams!"

"The students who get the first place will get the supreme artifact! This artifact is forged by the Dark God! The power is terrifying!"

"The top three in the team will get a lot of resources, such as potions, artifacts, etc.! All the resources that can strengthen your strength!"

...

As soon as this message was announced, the whole audience exploded.

Everyone has heard of the artifact forged by the Dark God.

But I have never seen it with my own eyes.

Can only yearn for.

Now there is a chance to get it.

Who is not excited?

Everyone is as if they were beaten up...

“In order to inspire everyone! The dean has sent an artifact for everyone to see!”

The next word from Tiance Superintendent completely made the entire Kunlun College boil.

Can you see the artifact at the scene?

Can still test the power?

soon.

Someone brought a long box of modern technology.

After entering the password.

The long box opened.

A shining blue crossbow popped out of it!

“boom!”

At the same time, a terrible force radiated from it, squeezing the audience.

Even Ye Qingtian’s faces changed drastically.

They all felt a coercion.

Ye Zhantian gritted his teeth.

Just this divine tool is more powerful than his sword.

What Levi Garrison took out was indeed a good thing.

Let’s put it this way, as long as you can fully control it, your strength can be raised to a higher level!

But this is not so easy to control.

Even Tiance Shenshuai and others can’t say 100% control.

Except for Levi Garrison, there should be no one who can exert the greatest power of the artifact in the field.

## The Return of the God of War [The Protector] Chapter 2641

But even one percent of its power is uncommon in the world.

There is also a mezzanine inside the long box.

Twenty arrows are neatly placed in the mezzanine!

It's made of special metal from Forbidden Area No. 76, and it contains terrifying energy.

An arrow was shot, destroying the world.

The Heavenly Sword and Earth Sword was a fart?

Seeing the artifact coming out, everyone clenched their fists tightly, and there was a trace of madness in their eyes.

Who doesn't want to get it?

"Now we choose a student to try!"

"Xiao Feng!"

Tiance superintendent finally chose Xiao Feng to try the artifact bow and crossbow.

"good!!!"

Xiao Feng excitedly agreed.

Rushing to the front, tremblingly took out the crossbow from the box.

Everyone else looked enviously!

Tiance Shenshuai flashed, and retreated to a hundred meters away from Xiao Feng.

“Come, take an arrow! Attack me!”

Tiance is so handsome.

“what?”

This made Xiao Feng stunned.

“Wrong! Do your best to pull out an arrow to attack me!”

Tiance Shenshuai said very affirmatively.

Xiao Feng tremblingly grabbed the crossbow, the weight of the crossbow apparently stunned him.

Is this too heavy?

Like the weight of a hill!

He took another bow and arrow from the mezzanine and put it on the crossbow.

“Then be careful! I’m going to start!!!”

Xiao Feng’s momentum was shocked, and he wanted to leave the bowstring.

But with this start, he almost staggered to the ground.

too heavy!

Can’t open it at all!

Sure enough, the artifact is not easy to control!

It’s invincible if you control it!

“what!!!!”

Xiao Feng pulled the crossbow again and roared into the sky.

His aura continues to rise, and his strength continues to increase.

The whole person seemed to burst.

He is using all the strength of his body to pull out this arrow...

“Rumble...”

Even the earth was trembling, making a loud noise.

However.

The bowstring was only pulled halfway, so I was dissatisfied with it!

It shows how powerful this artifact can be controlled!

“Whoo!”

## The Return of the God of War [The Protector] Chapter 2642

Xiao Feng reached the maximum and shot this arrow violently.

This arrow swept across the mountain with the force of a tsunami.

That is lightning speed, no one can capture it.

In an instant appeared in front of the God Commander Tiance.

After the contact, Tiance Shenshuai's face changed drastically.

He underestimated the enemy.

I thought that even if it was a divine tool, Xiao Feng's use of this level would not cause him much harm!

result!

Now it is a direct threat to life!

“Ah!”

Tiance Shenshuai scolded, and tried his best to resist.

“Chichichi...”

Tiance Shenshuai has been going backwards.

It stopped after a few kilometers, and the offensive of the arrow was resolved.

The whole person is extremely embarrassed!

Amazing!

It was shocking!

Zoey Lopez, Azure Dragon (Qinglong), Kirin ( Qilin ) and others clenched their fists tightly!

They must be the first and must get the artifact!

too frightening.....

But Levi Garrison dismissed it with a smile.

It's boiling!

Because this is an artifact that everyone has never seen before, and has never seen such a power.

Too eager!

After seeing the true power of the artifact, everyone was ecstatic.

Who doesn't want to get it?

Xiao Feng, a quasi-sacred leader, even threatened the god-skilled Tiance after using the artifact.

And it wasn't pretended by the gods of Tiance, the true power is like this.

And everyone can see that Tiance Shenshuai has underestimated the enemy.

Who doesn't want to get such an artifact?

In addition, everyone is training hard here, and the strength has reached a certain level.

Not to mention full control of the artifact, half or one third.

All of them can directly challenge the top ten of the gods.

There was a fiery look in everyone's eyes, an almost crazy look.

Not only the students, but also Ye Qingtian's expressions changed drastically.

Levi Garrison still has such a good thing?

I want to come, more than one or two...

this is too scary.

Levi Garrison also deliberately observed the changes of the students.

Especially the spies Yin Zhengping looked different from others after seeing the artifact.

They tend to be more surprised and fearful.

Surprised and feared why the Dark God has such an artifact...

This look is different from what other people expected.

Levi Garrison knew it at a glance.

## The Return of the God of War [The Protector] Chapter 2643

Apart from them, there are still many people in the field.

Of course, some are extremely hidden and not easy to find.

Levi Garrison smiled.

It seems that this fire is wrong...

“Everyone has seen it? There are many opportunities to get the artifact in the future! Where is the dean?”

Tiance Shenshuai smiled.

This makes everyone crazy.

I became more and more curious about what kind of existence the dark god is.

Even Zoey Lopez now suspects that the dark god has changed a person...

My master could not have this ability in the past!

Even said that the difference is too far.

For Yin Zhengping and the others, the God of Darkness became more and more mysterious.

The more so, the more distressed they are.

There are no clues at all.

“In addition to personal rewards, there are team rewards! They are also resources provided by the Bible Organization of the Dark God!”

“This will greatly enhance your strength, and you must know it yourself!”

...

The whole team is full of vigor and vigor.

One by one seems to be crazy.

“Let’s work hard together! Let’s not talk about the individual performance, our team must be in the top three and strive for the first place!”

Azure Dragon (Qinglong) shouted.

“Yes, we will be the first if we want to be!”

Shura God of War and they all expressed their views one by one.

All the teams in the field are cheering wildly.

They were roaring one by one.

The sounds gathered together, all resembling thunder.

All of them showed great effort.

Every team is enthusiastic.

Only Levi Garrison's team was quiet as usual, and quiet enough to be heard.

Everyone looked calm and calm.

There was even a trace of disdain in his eyes.

As if the artifacts in front of me were all pediatrics.

Since they saw Levi Garrison's shocking punch, the movement of the artifact tossed out was not worth mentioning at all.

They looked at other students as if they were watching a group of buns who had never seen the world before.

Where is one by one twitter.

It's like the guys who have just met the world.

Not to mention Levi Garrison.

He looked at the crowd with a high air, as if mocking.

soon.

Everyone noticed the extremely quiet team from the hot environment.

Why are they so quiet?

Everyone is very puzzled.

## The Return of the God of War [The Protector] Chapter 2644

This is not in line with ordinary people's thinking.

"Impossible! Who is not excited to see this artifact? Even if you see these instructors are a little crazy! Why are they so calm?"

"How did they do it?"

Everyone said one after another.

All eyes were on Levi Garrison's team.

"I know why they are calm..."

Zhu Shaoyuan said to everyone: "Think about it, everyone, only the first in the academy can get the artifact. Can any of them do it?"

"Impossible! No one can do it! They will only be in the bottom line!"

"That's not enough, the artifact is completely unfavorable with them! Secondly, the team performance, how many do you think their team can rank in all the teams?"

Zhu Shaoyuan continued to inquire.

"Don't think about it! They will definitely be the bottom! All the time in the future, they will definitely be the last one! Just fight for the second one!"

"Sure! They are definitely the last one! You can tell without comparison!"

“Give them the number one from the bottom directly, there is no one in the options!”

...

Everyone said one after another.

“Well, in this way, the rewards of team performance will have nothing to do with them!”

“It means that the reward system proposed today has nothing to do with them! So why should they be as excited as we are?”

“Why should I get excited about something that has nothing to do with me? The way they are now is the most normal!”

After listening to what everyone said, everyone felt very reasonable.

On the contrary, Levi Garrison’s team is like this, which is the most normal.

“Hahaha.....”

Everyone laughed.

“I feel sorry for them! The academy’s rewards are so good, in the end it has nothing to do with them!”

“Like we can at least fight for it! Individuals can’t, there are teams to fight for! But they can’t do anything!”

...

At this time, someone suggested: "Since there is a reward system, there should be a punishment system, right?"

"The bottom three in the team's performance, and the bottom ten who are behind in personal performance should be punished! This can also be a reverse incentive! Otherwise, those who are at the bottom will feel at ease and have been motivated all the time! Be content with the status quo!"

"Yes! If there is punishment, there must be an incentive system!"

...

Everyone agreed.

"I will announce another academy's decision-due to the special nature of the sect of One Word Side by Side, they will not participate in the monthly assessment! They will directly participate in the competition one year later!"

Tiance Shenshuai said again.

As soon as this decision came out, the audience was in an uproar.

Everyone was shocked.

But think about it.

They are the default one from the bottom. What is the difference between participating or not?

At most, suffer more insults and ridicule.

## The Return of the God of War [The Protector] Chapter 2645

Just don't participate.

This decision was also what Levi Garrison meant.

Compared to other people, this practice is indeed slow.

Especially the monthly assessment, which greatly affects their rhythm.

So it's better not to participate at all.

Anyway, Levi Garrison's students wouldn't need those rewards!

Levi Garrison noticed a detail.

Such a good opportunity for ridicule, Yin Zhengping and the others stopped ridiculing.

Attention is all on the artifact.

Levi Garrison didn't understand their thoughts.

Want to know more information about the Dark God.

At the moment, the artifact is the entry point.

They are bound to work on the artifact.

Such as stealing to study...

“A year from now, you will honestly be the last one!”

After the crowd clamored, the audience dispersed.

Under the protection of everyone, the artifact was also taken away.

Finally put it into the secret laboratory of the college.

“Tutor! Don’t worry about the safety of the artifact? We are afraid of someone stealing such a terrifying artifact!”

Yin Zhengping came forward and said.

Levi Garrison was happy.

Is this kid not tricking himself?

Also actively asked, is this trying to rule out your own suspicion?

“No! The laboratory where the artifact is stored is the safest place in Kunlun College! Let me put it this way, no one can open it except our own! Don’t worry, it is extremely safe!”

Tiance Shenshuai said.

“That’s good, we are relieved!”

afterwards.

Tiance Shenshuai and Levi Garrison gathered together.

“Dean, do you say they will do it?”

“Yes, would it be too obvious to do this!”

Tiance Shenshuai asked several people.

“They are now eager to find clues, how could they not do anything when such an important thing appears? Even if they are exposed, they have to do it!”

Levi Garrison smiled.

“But are we too strict in guarding the artifacts? In addition to human guards, there are eight locks in the laboratory! I doubt if they can open them?”

The point that Tiance Shenshuai is worried is not unreasonable.

They made a mistake, but they couldn’t open the laboratory. Can’t get the artifact.

Levi Garrison smiled: "Then we can't control, we can only say that they are rubbish! We can't even get the artifacts! Not only can we not relax, but we must strengthen supervision!"

## The Return of the God of War [The Protector] Chapter 2646

“That’s right, once we relax, they might think it is a trap we set deliberately! The harder the better!”

Other humane.

“Eight of us will guard tonight!”

Levi Garrison picked eight mentors to guard them personally.

...

Capital.

In the base of the Gods Laboratory.

Mr. X has obtained complete information.

“This artifact is so powerful, it should be able to explain the identity of the dark god...must be brought back!”

“Send my order and let everyone act at all costs! Even if it’s all exposed, you must get the artifact!”

“Go, send them all the equipment!”

Mr. X directly gave the death order.

After receiving the order, the spies of Kunlun Academy dispatched one after another.

But for the sake of security.

They still retained a dozen people.

It can't be exposed at all.

The remaining dozens of people swiftly acted together.

Levi Garrison retreats to the north of the laboratory.

Early on, he noticed that seventy or eighty auras came from different directions.

He quickly locked everyone in.

They are well-trained, some are exalted, some are responsible for vigilance, some are responsible for responding...

And they used unprecedented equipment.

It is not in this new era.

Then there is only one possibility-the equipment of the laboratory of the gods.

"Um?"

Levi Garrison suddenly noticed.

Their bodies are transparent, like ghosts.

Just like the pure energy body that he had hunted down in Forbidden Area No. 76 before.

They not only created a pure energy body, but also created ghostly transparent equipment.

Hardly reveal any energy fluctuations.

Don't talk about ordinary people, they don't even think about observing it even if the gods are handsome.

Twenty or thirty ghost bodies approached the laboratory.

Skip the eight mentors and their guards, and enter the outskirts of the laboratory.

Of course, the other seven mentors and guards were really skipped, they didn't even notice.

But Levi Garrison had a panoramic view of everything.

Even if he sits on a boulder and closes his eyes.

He clearly felt that someone had passed him and raised his middle finger towards him.

## The Return of the God of War [The Protector] Chapter 2647

It seemed that he was despising such an important artifact and sent Levi Garrison to guard it.

There is no difficulty in breaking through the line of defense.

Levi Garrison made a special note of this person, named Fan Zhisheng.

Dozens of ghostly figures sneaked into the laboratory.

They used the equipment of the Gods Laboratory to unlock the eight locks of the laboratory and successfully found the location of the artifact.

Replace the artifact.

After getting the artifact, everyone left immediately.

Now everyone fled from Levi Garrison's direction.

After all, in their opinion, Levi Garrison's breakthrough in this direction is the easiest.

When passing by Levi Garrison, everyone smiled meaningfully.

In Levi Garrison's opinion, these guys are despising themselves.

But this is different from what he thought.

They laugh like this, but they have other ideas.

After this group of people came out, the reception team immediately responded.

Finally, the release group and the alert group left one by one.

There are no traces left.

But where do they want it.

Levi Garrison actually left marks on them one by one.

This is the tracking chip developed by the strongest team of the Bible Organization.

It's actually a drop of liquid.

After entering the body, it will dissipate.

Follow it up.

Now Levi Garrison's men have locked dozens of them and are tracking them all the time.

Including where they go.

Can be noticed.

Levi Garrison smiled.

At this time, no one else discovered that the artifact had been stolen.

If there is no advance notice from Levi Garrison.

I am afraid that it will take a long time for them to find that the artifact has been stolen.

“As expected of the Lab of the Gods, this set of equipment is still advanced, and it was stolen without knowing it...”

Levi Garrison smiled.

After hearing Levi Garrison’s notice, everyone knew that the artifact had been stolen.

“too horrible!”

Even Tiance Shenshuai wiped cold sweat.

If it weren’t for Levi Garrison’s presence.

The laboratory of the gods came out.

Tiance Mansion and Baolong clan might not be able to cope with it.

Unless it is Daxia's two types of existence...

"Dean, now? What should I do?"

Everyone asked.

"Wait!"

## The Return of the God of War [The Protector] Chapter 2648

Levi Garrison smiled: “Wait for them to send back the artifact!”

“Ah? They will send it back? Impossible? How can the stolen artifact be sent back?”

Everyone is puzzled.

Ye Zhantian said: “They just check it out, find some clues, and they will definitely send it back!”

Levi Garrison smiled and went to contact the Bible Organization to see the tracking situation.

...

Everyone knows to send it back.

But I didn't think they would transport the artifact out of Kunlun Academy at all!

After getting the artifact.

The detective Yin Zhengping scanned the artifact in all directions at the fastest speed.

This is an instrument specially equipped by Mr. X.

Scan the artifact directly, and send the analysis of the data, image, and material to it.

There is no need to deliver things personally.

After the artifact data is passed.

The laboratory of the gods began to analyze.

The result came out in a few minutes-

The structural components, power, etc. of this artifact are most likely to be the same as the artifacts used by the "Gods" that the Gods Lab encountered in Forbidden Area No. 76.

At least 90%.

The only difference is the forging technique...

However, there is not much information about the No. 76 forbidden area they have collected before...

It is basically certain that this artifact is used by the "God" in Forbidden Land No. 76.

"But this doesn't explain anything, at best, it means they have found the artifact used in Forbidden Area 76! After all, the Dark God now has this place!"

"Yes! This artifact does not explain anything? And I heard that the Dark God has many other artifacts, which means it was picked up!"

"You said that the dark god is the god who came out of the forbidden area No. 76?"

Lucifer had a bold idea.

Mr. X echoed: "Mostly! We guessed wrong before! We all guessed on Daxia! But I ignored Forbidden Land No. 76! Why is Forbidden Land No. 76 a god? That's because they all left!"

"If this is the case! It would be terrible! More serious than any result we thought! The God of Forbidden Land No. 76 will be our biggest obstacle!"

Levi Garrison also didn't think that this group of guys had been involved in Forbidden Land No. 76 after analyzing for a long time.

...

the other side.

Levi Garrison is tracking the whereabouts of these spies.

It turned out that they were motionless.

It's in Kunlun College.

Never left at all.

"Huh? What's the matter?"

Levi Garrison looked surprised.

That means that the artifact has not left Kunlun Academy.

This is how the same thing?

And it's been a long time to see them send the artifact.

what happened?

## The Return of the God of War [The Protector] Chapter 2649

He also wanted to track these people and find the whereabouts of the Gods' Laboratory.

It turned out to be like this...

Time passed by every minute.

The person Levi Garrison was staring at was always at Kunlun College.

Never left at all.

Other people who have not been marked can also do nothing.

It's as if the artifact has never left.

But I never saw the artifact sent back.

This is completely different from what Levi Garrison predicted before.

How did he know that the Lab of the Gods had instruments for scanning artifacts.

"What should we do now?"

The others started to panic.

Can't help asking Levi Garrison.

“Wait! There is no other good way!”

Levi Garrison approached.

He was thinking about what was going on.

Mr. X on the other side is still continuing to analyze.

“If the Dark God came out of Forbidden Land No. 76, how could it have something to do with Daxia? Why set up Kunlun Academy, and what is he doing?”

“In terms of race, the gods that came out of Forbidden Area No. 76 are more biased towards us! To cooperate, you should cooperate with countries like the Warhawk Nation. How could it be Daxia?”

...

Everyone can't figure it out.

Mr. X looked serious: “This is what we should check next!”

“The Dark God has already made a major breakthrough here! Let the Sky Shield and the others speed up! Quickly find out the master of the ancient Garrison Clan!”

...

The whole night passed.

Artifacts have never been sent back.

The dozens of people marked by Levi Garrison have never left Kunlun College.

This is very strange, making Levi Garrison very puzzled.

Do they think that the artifact has taken over?

Or there are other ways to get out of here.

After waiting all night for no results.

Levi Garrison decided to return.

This hunting operation is a failure!

There are still many shortcomings in what I have prepared.

To continue from other aspects...

Just after Levi Garrison left.

Suddenly someone shouted: "The artifact is lost!!!"

When the students heard this sound in the place where they were staying, they stood up one by one.

All gather outside.

And one by one, the message that the artifact was lost was conveyed.

One pass ten.

# The Return of the God of War [The Protector] Chapter 2650

Ten pass one hundred.

...

Soon the whole college knew.

Thousands of students all gathered together.

The mentors were all taken aback by this battle.

They also gathered quickly.

The students and instructors gathered in the place where the artifacts were stored.

Even the gods of Tiance were dumbfounded.

They also did not release the message that the artifact was missing. Who sent it?

There is a problem with this.

But so many students have come.

At least give them an explanation.

“Teacher, see if the artifact is there...”

Everyone hastened to urge.

Faced with the urging of so many people, the superintendent Tiance could only bring everyone to the laboratory.

The place where the artifact was placed, after the box was opened, there was another weapon in it, not a artifact at all.

Obviously it has been swapped.

At this point, Tiance Shenshuai seemed to understand something...

They were calculated.

“Sure enough, the artifact was lost!”

“Hurry up and find it! The artifact has been contracted!”

...

This time the crowd burst.

In everyone’s mind, this artifact is just like yours.

Lost, absolutely unbearable.

“We must find the person who stole the artifact, and we must absolutely punish it!!!”

Everyone shouted.

“That’s not right! You said yesterday that the mentor, the artifact is definitely not to be thrown away! Unless you are...”

“I think the instructor who guarded the artifact last night had a word side by side, right?”

“Yes, I’m sure! I saw the king guarding the artifact side by side!”

“Now that he is not here, it shows that he is suspicious...”

Someone said suddenly.

Index the flame on Levi Garrison’s body.

“That being the case, let’s go to Master Ye and find out, don’t we know?”

“good!”

Everyone responded.

Thousands of people rushed to Levi Garrison here.

At this time, Levi Garrison had just arrived at the station.

“Teacher Ye, when was the divine tool here with us?”

# The Return of the God of War [The Protector] Chapter 2651

Jiao Tianyu held the artifact and looked at Levi Garrison in surprise and asked.

Others also said one after another: "Yes, I don't know what's going on. Get up early in the morning, the artifact is here! Very strange!"

"We haven't moved at all! Besides, if the artifact is hidden in the laboratory, we also don't have the ability to take it out!"

...

Everyone was surprised.

Levi Garrison took over the artifact.

Looked carefully.

suddenly.

He has a bad feeling!

not good!

The artifact was actually sent back.

It's just that they haven't been sent back to the laboratory.

But sent to myself.

It suddenly appeared in Levi Garrison's mind that when the group of guys left last night, they looked at him meaningfully.

At that time, Levi Garrison thought they were laughing at that he couldn't find them.

Now it seems that there are other ideas.

They were trying to send the artifact to themselves, and then they were arranging the artifact by themselves.

All this is already in the calculations.

No wonder the artifact has not returned yet.

The reason is here.

not good!!!

"boom!!!"

Levi Garrison's body trembled suddenly.

At this moment, a large number of people rushed in.

Levi Garrison also held the artifact in his hand.

Everyone saw it at a glance! ! !

“Hahahaha... Am I wrong? Levi Garrison stole the artifact! He also bought a fake one!”

“Everyone gets the money! See what else he can refute!”

“I have to say that Levi Garrison is stupid. He stole the artifact and hid it, and even showed it to everyone! Didn't this come to the door by himself?”

...

Thousands of people saw it with their own eyes.

A hundred mouths can't argue!

Even Levi Garrison laughed himself.

It turns out that these spies are secretly thinking about the Fa, what about themselves?

But a little too naive, pediatric stuff.

But hear here.

Jiao Tianyu and others immediately began to defend: “Everyone is misunderstanding! We saw the artifact here when we got up in the morning! I don’t know who put it here!”

“Instructor Ye just came back! He didn’t steal it!”

“Yes, besides, he has no motivation to steal, he doesn’t like this stuff...”

...

“Ho ho, do you fart? Still motivated?”

“What is the power of the artifact? Everyone saw it yesterday! Who is not greedy! Even the major mentors are unavoidable. As for you, you are the group that is the least likely to get the artifact. Your mentor is greedy for the artifact, so I changed the package!”

## The Return of the God of War [The Protector] Chapter 2652

“And he was the tutor to the guard last night, he can do it very easily!”

“Tiance God Commander said that outsiders can’t steal the artifact! Unless you are! This just shows that Levi Garrison did it!”

“Furthermore, we have seen all this with our own eyes! Do you still have to quibble?”

...

Everyone said this, no matter how Jiao Tianyu and the others argue, it will be futile.

After all, the lost artifact was found here, and Levi Garrison took it personally.

Nothing is useful!

“Levi Garrison was secretly learning our exercises a few days ago, and it is not weird to steal the artifact now!”

“He is so weak, he can understand if he wants to be strong!”

...

Everyone said one after another.

They look ugly after plum dyeing.

Looking at Levi Garrison incredulously.

Did he really steal the artifact in order to become stronger?

It's not that they don't believe in Levi Garrison, but the evidence is solid.

Also, stealing the exercises was also caught on the spot.

Everything is ironclad proof.

...

Immediately, someone changed their words: "But Levi Garrison stole the artifact and is still a mentor! The academy will give you an explanation! Otherwise, it will be difficult to convince the crowd!"

"Yes! Give an explanation! Stealing artifacts should be dealt with!"

"Levi Garrison is still a mentor, so he deserves to be more guilty!"

...

Everyone shouted.

It means to force the palace.

They were stunned.

Don't know how to deal with it.

They realized it later, and it was only later that they understood all this.

But everything is too late.

"Everybody gets the loot! Seen by everyone! Levi Garrison is stealing!"

Yin Zhengping shouted.

This is directly deciding Levi Garrison to death.

There are all personal and physical evidences, and there are motives...

The dozens of spies from last night showed successful smiles and looked at Levi Garrison, the scapegoat.

"Levi Garrison, what do you have to say? We listen to your sophistry!"

Thousands of eyes stared at Levi Garrison.

It seemed to melt him.

"I have nothing to say! As you can see, things are in my hands!"

Levi Garrison smiled.

But even if he took it back, it was called taking it.

Because this is his thing!

Jiao Tianyu and the others wanted to argue, but they didn't know what to say.

A hundred mouths can't argue!

"Since Tutor Ye admits it himself! Then the academy should punish accordingly, right?"

"Yes, Teacher Ye has a special identity, so he deserves to be more guilty!"

"Punish, punish!"

Thousands shouted.

Zoey Lopez and Azure Dragon (Qinglong) bowed their heads one after another.

It feels very embarrassing.

Can't wait to find a seam to drill in.

They didn't want to admit their relationship with Levi Garrison.

What a shame.

All of them lowered their heads, not wanting to say that they knew Levi Garrison.

He actually did such a thing!

“this.....”

Tiance Shenshuai several people are embarrassed.

How dare they punish Levi Garrison?

But in order to quell public anger, a series of measures must be taken.

“This matter is of great importance. After we discuss it, let the dean and deputy dean make a decision!”

Tiance Shenshuai said.

He wanted to use the gimmick of the dean and deputy dean to suppress this group of people.

As a result, everyone did not agree.

“No! This evidence is conclusive and must be dealt with! Otherwise, it will be difficult to convince the public!”

“Aren’t the results obvious? What else is there to discuss?”

...

Under the lead of these spies Yin Zhengping, Levi Garrison was to be punished on the spot.

“Dispose of it on the spot! I think the thief is just a three-handed act! So, cut off his hands! Let him kneel in front of the gate of the academy and confess all day and night, and this matter will be resolved!”

Someone shouted.

Levi Garrison recognized this person as Fan Zhisheng from last night!

“Okay, that’s it!”

...

A hundred responses.

Each one had to punish Levi Garrison in this way.

Fan Zhisheng sneered.

A look of success.

“Did you say you want to cut off my hands? Make me kneel?”

Levi Garrison’s eyes fixed on him.

“Yes! Wrong! This is the price you paid for stealing!”

Fan Zhisheng sneered.

Levi Garrison did not speak.

He just stepped forward step by step and came to Fan Zhisheng.

Fan Zhisheng also smiled.

Looked at him disdainfully.

“Snapped!”

“boom!”

“boom!”

Suddenly, Levi Garrison made a move.

First, he slapped him severely with a slap, then knocked him to the ground with a punch, and kicked Fan Zhisheng more than ten meters away.

shocked!

The whole audience was stunned!

## The Return of the God of War [The Protector] Chapter 2654

No one thought that Levi Garrison would suddenly do something.

Fan Zhisheng was even more stunned.

It stands to reason that he is at the forefront of the quasi god list, and he doesn't know where he is stronger than Levi Garrison.

But who would have thought that he could not fight back.

“Puff...”

Fan Zhisheng gurgled blood after falling to the ground.

Was beaten to death.

He would never have thought that Levi Garrison had been eyeing him last night.

Starting from the vertical middle finger, Levi Garrison wanted to beat him a long time ago.

Now he jumped up to catch up by himself.

Levi Garrison will naturally not let it go.

It took a few minutes for everyone to react one after another.

“Levi Garrison, what are you doing?”

“How do you hit someone?”

...

Several spies with Fan Zhisheng shouted subconsciously.

“Snapped!”

“Snapped!”

...

Levi Garrison slapped their faces again.

Senseless.

Someone speaks again.

Levi Garrison slapped again.

soon.

There was silence in the field.

No one dared to speak.

Speaking must be drawn!

But not everyone smokes Levi Garrison.

They were all participants in the theft of artifacts last night.

“Are you looking for death? Think we can’t beat you?”

Many people will fight back.

At this time Fan Zhisheng raised his hand and shouted: “Don’t! Wait a minute! Don’t get caught!”

“He hit us like this, nothing more than forcing us to shoot! Once we do it, the nature changes! He is the tutor of Kunlun College anyway, we hit the tutor, we are guilty, and he can use this to offset it. NS!”

After hearing what Fan Zhisheng said, everyone nodded in agreement.

They were amazed at the depth of Levi Garrison’s strategy.

Actually use this kind of aggressive method.

Levi Garrison is happy: “You think too much, I just want to hit you!”

## The Return of the God of War [The Protector] Chapter 2655

“Boom boom...”

With that, Levi Garrison stepped forward and kicked Fan Zhisheng.

Fan Zhisheng gritted his teeth, his face full of anger.

Although he endured the pain, he swore to the death not to fight back.

Levi Garrison didn't get used to him, punching and kicking.

If it weren't for Tiance Shenshuai to stop him, or Fan Zhisheng would be beaten to death.

“Calm down! Calm down!”

Tiance Shenshuai waved his hand.

“Teacher, Levi Garrison committed the crime of theft and beat someone again. He must be punished severely!”

Everyone shouted.

“Shut up to me! When did you decide at Kunlun College? This matter is decided by the dean and the others! No one can mention it again!”

“Come here, take the artifact away!”

...

With such a tough attitude, the gods of Tiance dared not speak.

Soon everyone dispersed.

“That’s the end of the matter? Is there any more?”

The students who left were very angry.

Still discussing this matter.

“Let the dean think about making a decision. Isn’t it obvious? That’s the end of this matter.”

Humane.

“But... But Levi Garrison stole something and was hit by us! This is nothing?”

“I’m not convinced!”

“I’m also not convinced!”

...

Not only the spies in the Lab of the Gods, but also many others find it unfair.

“You are not convinced! Talk to the gods and the gods of Tiance!”

“Don’t you still see it? Kunlun Academy tried to protect Levi Garrison! Besides, the artifact was also found! This matter is gone!”

Yin Zhengping said.

The injured Fan Zhisheng also echoed: “Yes! Wrong! We underestimated Levi Garrison’s status! His status in Kunlun College and even Daxia is very important!”

“Don’t say anything else, the identity of the king of the word side by side is bigger than the sky! As long as he doesn’t do anything to damage Daxia or pierce the sky, they can all be guaranteed!”

“After all, in the past, the king of the word side by side was Daxia’s savior! The status in their hearts is completely different!”

“It’s not a person who can’t even make it on the quasi god list in our concept!”

This time, everyone knows one thing-Levi Garrison’s status is too high and too high!

It is estimated that Levi Garrison can be exchanged for Daxia’s treasures!

Afterwards, these spies told the matter to the Lab of the Gods.
