

## The Return of the God of War [The Protector] Chapter 2739

He thought that Agent Black Hawk looked thoughtful and wanted to send a message to the Sky Shield.

“Huh? I don’t have any...”

Agent Black Hawk was taken aback.

Explained hurriedly.

Mr. X smiled and left.

However, he ordered his subordinates to strengthen the guards and was determined not to let the Black Hawk agent send out any messages.

If necessary, you can kill it directly.

This is of course a last resort.

Now the Black Hawk agent is still famous.

When the time comes, he can quietly activate the energy power station with his authority.

In this way, all giant creatures like Leviathan can be shipped out.

If you kill him, it will be a little troublesome at that time, and it may be exposed...

This is a last resort!

Agent Black Hawk sweated coldly.

Thought for a long time.

I really can't think of other ways.

He also understands that Mr. X's defense is really impossible now.

He simply gave up.

I can only pray that Levi Garrison will go out early, and when he finds that he can't get in touch with him, he will understand the anomaly.

So he can prepare in advance.

I can only pray.

...

Mr. X, who left the place of house arrest, sneered.

"Sure enough it is him!"

It turns out that the Gods Laboratory has found safe islands and other items.

## The Return of the God of War [The Protector] Chapter 2740

Although the safe island was carried out in secret.

But the Lab of the Gods has too many eveliners in Daxia.

It is normal to know this message.

Now that the safety island has been built.

This shows that Daxia has responded in advance.

Then why do they want to build a safety island?

I must have received some of the information before I started to respond.

Who revealed the information?

Agent Black Hawk!

The motivation is also very simple!

I want to see the Lab of the Gods and Da Xia fight each other, and there will be a situation where both sides will suffer.

therefore.

Mr. X will put the Black Hawk agent under house arrest.

Let him not send out any messages.

It can't be given to the Sky Shield Bureau and the Eagle Kingdom, let alone Da Xia...

From the moment he decided on his own plan, his performance can illustrate this point even more.

therefore.

The Lab of the Gods was right, but not completely right.

Ignore the character on Daxia's side-Levi Garrison.

...

Although Daxia has already withdrawn.

However, the Bible organizes the evil gods and the others, according to Levi Garrison's orders.

Build a safety island.

Observing is still observing.

Levi Garrison confessed to them, paying particular attention to the major energy power plants of the War Eagle Nation.

When the time comes, the Lab of the Gods will hide all the Big Macs here.

# The Return of the God of War [The Protector] Chapter 2741

Therefore, they stared at it tightly.

No matter how clever the techniques of the Gods' Lab were, it was such a large body and there were so many in number.

Once you want to hide underneath, there must be clues.

The evil god sent manpower to stare at all the energy power stations.

...

But how did they know that Leviathan was all hidden underneath during the previous chaos.

Now they are staring, that is lonely.

Can't see anything.

In addition, Levi Garrison explained the evil god.

Once the Lab of the Gods had an action, the Black Hawk Specialist of the Sky Shield of the Eagle Nation would send a message to him.

Now he is staring hard, and the Black Hawk agent sends a message.

That is double guarantee.

Underworld God breathed a long sigh of relief.

After the Daxia defensive line withdrew, the Lab of the Gods did not attack directly.

That shows that this matter is still eased.

At least extend the time to wait for Levi Garrison to come out.

“Master, go out! I foresee something bad! Hurry up!”

This is the wish of many people.

One day passed.

Nothing happened to the Underworld God.

Agent Black Hawk did not send a message, and there was no trace of the Big Mac.

He became more concerned.

After all, according to time, there is still a month and a half before the time to go to the Lab of the Gods to act.

Levi Garrison was fully aware of the dangers, so he advanced a month and stuck in time for two months.

In this case, there are still sixteen days left.

That's more worry-free.

## The Return of the God of War [The Protector] Chapter 2742

The god commander Tiance is also sending people to stare at him, for fear that the enemy will attack as soon as the defensive line is withdrawn.

But nothing happened after one day passed.

I'm afraid it will attack at night.

Stared at it all night.

Still nothing.

One day and one night after the defensive line was withdrawn, nothing happened.

Yan Longwei and all parties dispelled his doubts.

Announced that nothing happened.

The best time for the enemy to attack has passed.

There must be something wrong.

Even if the gods of Tiance were still suspicious, they had to admit what Yan Longwei said.

indeed so.

Not offensive for such a good opportunity.

It's even more impossible next.

There is only one day left.

Levi Garrison, which many people are looking forward to, still has no exit.

I couldn't find where Levi Garrison was in retreat.

Fortunately, no one knows the specific deadline, if only one hour is left.

It is estimated to be anxious to death.

Instead, everyone in Daxia became more and more relaxed.

Internal complaints against Levi Garrison grew louder.

I feel that Levi Garrison's false information has caused Daxia to suffer a huge loss.

It even hurt Da Xia's vitality.

Someone has calculated it.

Even if the island stops, all the remaining resources and materials will be sold.

In total, Daxia Treasury lost one-seventh of its resources...

This is already badly injured.

The key is no accident.

## The Return of the God of War [The Protector] Chapter 2743

If you fight against the enemy, you will have lost so much.

After all, everything is used for ideas.

But just a word from Levi Garrison, the loss was so big, nothing came in handy.

This is depressing.

Therefore, many people complained particularly about Levi Garrison.

Even spread to Kunlun Academy.

Let Zoey Lopez be criticized for them.

Kunlun College was cut off from the world, because they practiced madly and ignored the outside world.

Therefore the information is difficult to know.

They just learned that such a big thing happened in Daxia and even the whole world.

The most important thing is that all of this has something to do with Levi Garrison.

No wonder everyone can't see Levi Garrison during this period of time.

It turned out to be busy with other things.

The key is that after he provided false information, the person disappeared.

“What is he doing? What is he doing every day?”

“Just because of his words, Daxia Treasury lost one-seventh of its resources...it hurt the root...”

...

Plum dyed them one by one and couldn't be angry.

Many people pointed at them.

Let them suffer.

Since entering Kunlun College.

Just because of Levi Garrison, how much slander did they receive?

Every day is pointed and pointed.

Now this situation is more slanderous to them.

All of them were very aggrieved and uncomfortable.

They obviously don't do anything, why should they be ridiculed and humiliated.

Some people even speak bluntly-saying that they are the culprit responsible for Daxia's huge losses!

It's Daxia's sinner!

# The Return of the God of War [The Protector] Chapter 2744

Be responsible for this matter.

...

Why?

They don't do anything? ? ?

Who are you going to talk about?

Can't find Levi Garrison!

the other side.

In order to reduce losses, Daxia Yanlongwei is selling resources and materials.

It can be considered to be able to recover a little loss.

However, many countries and forces are watching Daxia's jokes, deliberately holding prices or equivalent exchange values.

Daxia suffers a lot...

It is too much lower than expected.

If this is sold rashly, the loss will be too great.

So Daxia is waiting, choosing the most suitable buyer, and then selling these things.

But everyone colluded and made it clear that they would pit Daxia together.

Prices on each side are kept extremely low.

Let Daxia have no choice at all...

In the end it can only be sold at a low price...

Just when Daxia gave up hope, a group of mysterious people suddenly appeared.

It claims to need these substances to be sold in Daxia's hands.

And buy them all at a relatively high price.

It's okay to exchange other resources for...

Although this price is still much lower for the value of these material resources.

But now and then, now the whole world is madly lowering prices on Daxia.

The price they have now proposed is double the price.

For Daxia, this is nothing but charcoal in the snow!

Yan Longwei didn't even think about it, and directly agreed to cooperate.

Sell all the resources and materials that are not used up.

In exchange for other scarce resources...

But how did they know that these people were sent by Mr. X...

## The Return of the God of War [The Protector] Chapter 2745

Underworld God and others immediately got together.

“What’s wrong? Did they act?”

Several people asked quickly.

“There was no action! However, suspicious persons were obviously found near the Energy Power Plant of the War Eagle Nation...They were sneaky and seemed to be stepping on the same thing!”

According to reliable information, they did find people around.

It was Lucifer them.

They were going to check Leviathan’s situation, and they didn’t expect that the people arranged by the Underworld God would be tracked down.

Misunderstanding that they are doing preparatory work, stepping on or something.

In fact, they hid it a long time ago and just came to check it.

The evil god suddenly realized, and sneered: “That means they are about to start preparing! Soon they will hide those Big Macs! Now it’s just the preparation stage...”

“We still have time! This is a good thing! It was wrong with the owner’s estimate! About two months! Now they are starting to prepare, and in a few days, almost all the Big Macs can be hidden under the energy plant!”

...

After analysis, everyone thought that Lucifer and the others appeared just for preparation.

“Well, you guys keep staring! It is estimated that they will be transporting those Big Macs and hiding them quietly!”

Underworld God ordered everyone to keep staring.

As for Daxia, no one was staring at all, and no one paid any attention.

A lot of people are holding a celebration banquet, and there are scenes of singing and dancing everywhere.

...

Not only did the Gods Lab prepare everything.

Still thinking about how to strengthen, and strive to avoid the slightest omission.

They are still perfecting various preparation activities.

In fact, in the eyes of the Gods Lab, the real enemy is not Daxia or the God of Forbidden Land No. 76.

Those are the two types of existence in Daxia.

Everything they follow is to prepare for these two types of beings.

If they do not show up, it is naturally good.

But if it appears, then the Lab of the Gods will definitely go all out to fight it.

...

The current thinking is how to reduce the loss as much as possible!

“By the way, I also thought of a way!”

“It can greatly reduce Daxia’s combat power!”

## The Return of the God of War [The Protector] Chapter 2746

Mr. X suddenly thought of something and couldn't help exclaiming.

"what?"

Everyone looked over.

"How about letting Tiance God Commander lose his combat power?"

The words came out.

The whole audience is going to explode.

"It would be great if the god commander of Tiance really loses his combat power! Basically, the god commander of Tiance is the ceiling of Daxia's combat power, of course, if those two types of existence do not appear..."

Everyone was excited.

"Well, I will let his great apprentice of the Dark God go to him, and use his mother to drag the goddess of Tiance! Attract him to places other than Daxia... Even if he knows that Daxia is in trouble, he will run again. It's hard to support!"

Hearing what Mr. X said, other people said one after another: "When the time comes, we will stop again. This strongest combat power will be of no use!"

"Hurry up and do it!"

...

After receiving the order, the former great apprentice of the Dark God immediately came to Kunlun College to find the God of Heaven Strategy.

Claiming to go with him to see his mother's grave.

Tiance Shenshuai couldn't bear it after all.

Follow him to the Western Continent, on a small island next to the headquarters of the Bible Organization.

This is where the tomb of the former dark god...

Tiance Shenshuai Ren was transferred out of Daxia, this goal has been achieved.

Not only reduced the strongest combat power.

He is also a strong leader and commander.

If he is not there.

Relatively speaking, Tiance Mansion and Baolong clan will be very chaotic.

"Next, start the dead men we trained in Daxia! Let them enter at the right time, and try to hold Daxia's masters as much as possible!"

“Twelve o’clock has passed! The countdown for the next six hours begins...”

The time since the total attack of the Gods Lab was launched.

Only six hours left...

The celebration banquet of many people in Daxia is still going on. They will have a good day and night.

Never go home until dawn!

Some people even hired yachts and ships to hold banquets on the sea...

Many people even shouted at the sea: “Aren’t there giant creatures? Come on! Are there any more? Jump out! Come on!”

## The Return of the God of War [The Protector] Chapter 2747

“A group of defeated generals, come and kill you once!”

“Just do you deserve us to build a safe island?”

One by one arrogant and domineering.

Don't take everything into consideration at all!

But this is the mental state after the big victory, everything is normal.

...

But this is the epitome of Daxia everywhere.

Almost every place is extremely lax.

Various banquets were also held to celebrate.

Ordinary people, or warriors, or strong people are celebrating...

As for continuing to guard?

impossible!

The whole world thinks that the giant creatures are wiped out!

What's more, they were wiped out with their own hands!

There is nothing more convincing than seeing the destruction with your own eyes!

No matter how much Levi Garrison said, can it compare to what they met in person?

So what you say in everyone's ears is not useful now!

Everyone only recognizes what they see...

After all, as the saying goes, hearing is false and seeing is believing.

"Another day! Still nothing happened!"

"I think the monitoring department can be reduced by half! Let's return to normal levels!"

In the Yanlongwei base.

Everyone breathed a long sigh of relief.

As decision makers, they certainly cannot relax 100%.

They still sent someone to stare.

But on the first day, that is, the best time, nothing happened.

Now two days have passed, and there is still no situation. This high probability means that it is safe.

This is simply anything unexpected happened.

You can't just suffocate one out, right?

That can't be!

"Okay, I'm going to rest!"

Xiao Liejun and the others went to rest.
