

Chapter 11

Ye Kong is sick. This news has not turned up many billows in the compound of Ye Residence, and it is no interest to anyone. In their opinion, even if this fool is not stupid, he will not be able to turn up any big waves.

But for Ye Kong, this damage to the soul is not actually a bad thing. A brave guy like him, he dared to practice without cultivation technique. In the future, he has various cultivation techniques in his hands, and he still doesn't know what to do. This experience made him more cautious on the road of cultivation. .

Three days later, Ye Kong's room.

"Mother, I'm fine, no need to drink." Ye Kong pushed away the bitter medicine bowl in disgust.

"Kong'er, good medicine tastes bitter, you just drank it for three days and it's almost good, then stick to it for another three days, and when it's completely healed, let's stop, okay?" Chen Jiuniang persuaded while sitting on the bed.

In fact, Ye Kong is very clear. He is only injured in his soul, and his body is very healthy. There is no medicine that can be taken into the soul. Now it is much better. It is because the soul has the ability to self-recover, not to mention that he is just using excessive force. , It is not injured.

But these Ye Kong are not easy to tell the old lady. Looking at the top of the tent for a long time, she found that the old lady was still carrying it, but she had no choice but to take it, "Okay, OK, I can't drink it? Oh, I'm really scared of you."After resting in bed for three days, Ye Kong felt that he was much better. As soon as he was about to get out of bed, he heard an old lady talking to someone outside, and the voice got closer and closer.

Ye Kong thought, could someone come to visit him? This Southern Great Continent is really cruel. A useless person like himself has not seen anyone come to see him after lying down for three days. Who is this today?

"Ga~" The long door shaft turned, and a tall young man in his twenties stood outside the door.

It was Ye Wei who came. He is now twenty-six years old. He has established a government, married a wife and had children, led soldiers to fight, and has become Ye Haoran's powerful arm.

This eldest brother can't talk about taking care of the idiot 8th Younger Brother, but he is more upright, and will often come out to help the poor mother and son when there is any injustice, but he leads soldiers all the year round, and after getting married, he opened his own government and built a mansion. It helped Ye Kong for a while, but it couldn't help his mother and son.

But in the mind of the idiot Ye Kong's, he is already very grateful to this big brother. After all, in this mansion, he is the only one who does not scold himself for being a fool, and he is the only one who can help to say something fair.

"Big brother." Ye Kong was a little moved when he saw Ye Wei coming in, even his eyes were red."You are lying down. I have been at my home for the past two days. I heard about it as soon as I came over today. I came to see you. Last time I heard that you were sane, and I didn't have time to meet you." Ye Wei Put the snack box and small paper bag in make a move, walk quickly to the bed and sit down.

When he was on earth, Ye Kong felt that he was hard-hearted enough, and he would not cry if he encountered touching things. But when I came here, I realized that I am fragile, and the humans here are hard-hearted. There is no pity for the weak, but only throw stones at sb who fell down a well.

But fortunately, there is a big brother who treats him well.

The two chatted casually for a while. Ye Kong said he wanted to go to the academy to study essays. Ye Wei told him that the class was an old pedant and very old-fashioned, but the poems and writings were superb, let Ye Kong If you study hard, you can also gain fame in the future.

Ye Kong smiled. He just wanted to learn to read when he went to study. He didn't plan to study poems and books to get fame.

After chatting for a while, Ye Wei saw that Ye Kong was really good at his brain, and asked some old things about the past, and found that Ye Kong also remembered it clearly, so he was more relieved.

"Last time I heard my father say that you are too late to learn martial arts, and you are ready to study hard, so I bought some pen, ink, paper, inkstone, Four Treasures of the Study, namely pen, ink, paper and inkstone." Ye Wei is also considered a caring person. Now, in this Southern Great Continent, the poor cannot even afford pen, ink and paper."Thank you, brother." Ye Kong quickly thanked.

"Rude, my own brother. Then I will go back first. The 8th Younger Brother will take care of it and study well after recovery. There will be a bright future in the future." Ye Wei finished speaking, nodded and smiled, in Chen Jiuniang's endless thank you Go out.

"Young Master is such a good person." Chen Jiuniang sent Ye Wei away and returned to the room with a sigh, then put the pen and ink bag aside, opened the snack box, and wanted to bring some snacks to Ye Kong, but found out when he opened it. There is no snack in it, just a silver sheet of fifty taels.

"Young Master is such a good person." Chen Jiuniang couldn't help repeating it again, and then said to Ye Kong, "When you have a future, remember to report your favor."

"Understood, mother, you should put away the silver as soon as possible, so as not to be seen by Ye Cai and think badly." Ye Kong replied with a smile, but thought in his heart, Ye Wei will definitely take over the Patriarch position of Ye Haoran in the future. Do you need to repay a useless person like yourself?

Chen Jiuniang was not as complicated as his thinking. He picked up the silver happily and said, "My mother will marry you a daughter-in-law", and he went back to the room to put the silver.

"Please, buddy, I'm only twelve years old." Ye Kong smiled bitterly.

When the old lady went out, Ye Kong lay down half bored, thinking of the book in his head again. "Talisman Spell Comprehensive Guide. It must not be something ordinary that can enter the head... But how can it be opened?"

Ye Kong closed his eyes. He still keeps in mind constantly about the Talisman Spell Comprehensive Guide. He has a feeling that to survive in this cruel and helpless Southern Great Continent, it seems that he can only rely on this book hidden in the soul. Up.

However, he has suffered a big loss, but he dare not try it easily anyway.

Day by day Heaven and Earth passed, and half a month passed in the blink of an eye, and Ye Kong's damaged soul gradually healed.

Ye Kong's study life began. Every morning, I went to the school and came back for lunch at noon.

There is an old gentleman in the school hall of the mansion, called Zhang Wude, who has a face like a vice-panel all day long, unsmiling.

Zhang Wude had a bad impression of Ye Kong at first, because he knew he was stupid. What kind of words should he learn if he is stupid? Isn't it insulting to teach a fool?

But later I said that he is not stupid, but if you are really not stupid, just work harder, a lazy look that can't open your eyes, I guess you can't learn well. But after a few days, Zhang Wude found that he was still wrong about him. Although this kid looked lazy, he was actually very serious. It was neither like those big kids around girls, nor was it like those little kids. On the contrary, Ye Kong speaks and does things with a kind of old age that does not match his age, and his eyes are more like adults.

And more importantly, Ye Kong has his own opinions on everything. Although he will constantly swear words, he is very reasonable. He often utters a classic saying that makes Zhang Wude very happy. He thinks he has met a good talent and thinks You must pass all your ink to him.

But Ye Kong is not interested in those poems and songs. He is more concerned about the strange things, such as whether there is Buddhism, Taoism or Christianity in this world, such

as whether there is Immortal, where to find Immortal, and whether there is anyone in this world draws. Talisman, are there any ghosts.

Zhang Wude was also stunned when he asked about other things such as things, but this old scholar is also very experienced. Not only did he read thousands of books, he also traveled thousands of miles to serve as an official for many years, and he also had a little bit of things that were not clear to mortal. Known.

He told Ye Kong that there are no sects in this world, but Immortal does exist. To be precise, they cannot be called Immortal because they have not cultivated to become immortals. They are called Immortal Cultivator. Immortal Cultivators generally belong to various Immortal Sect cultivators or families, but these people are devoted to cultivate and disdain to interact with mortal, so it is rare to see them.

In addition to the organized Immortal Cultivator, there are also some rogue cultivators, but most of these rogue cultivators are not high in Cultivation Base, because there is no backing, and they are often killed when they are ordered, so rogue cultivators are very rare and not usually Dare to show up.

Zhang Wude also heard that besides Immortal Cultivator, there is also Demonic Cultivator. Originally, Immortal Cultivator belonged to ruthless people, but those Demonic Cultivators were even more terrifying. The biggest difference is that Immortal Cultivator is a killer, and Demonic Cultivator does not need a reason to kill.

As for the ghosts and symbols, he is not clear. After all, he has not cultivated immortals, so he can only know some general information, but the detailed details are unknown.

However, Zhang Wude still has a lot of books, many of which are rare and exotic. Ye Kong likes to read this kind of books the most, but the Southern Great words he knows are still scarce, and many of them are not well known and influenced him of.

Time is hurried, ten days passed in the blink of an eye.

Early that morning, Ye Kong packed up, asked his mother to put her hair in a bun, changed into a clean gown, took pen, ink, paper and inkstone, and left the hospital to the school hall. As soon as I walked out of the small courtyard, I looked up and saw the housekeeper Ye Cai rushing in from the outside. It looked like something urgent happened, and he ran towards the inner courtyard.

.

"It catches fire? Or is it dead?" Ye Kong snorted, still walking towards the academy.

As soon as Ye Kong left here, I saw Ye Haoran dressed in neat clothes, carrying Ye Wei and 2nd Madam, and walked out quickly, with uncontrollable joy on his face.

A group of several people, three steps in two steps, quickly walked out of the door, outside the door, an old man with white beard and hair stood calmly. The old man only wore

a long gown, his face was very ordinary, and a small black-gray bag was hanging on his waist. . Such ordinary old people are everywhere on the streets of Southern Capital City. The soldiers who guard the gate do not understand why Patriarch Ye Haoran wants to take his son and wife out to welcome him in person.

"Oh, Immortal Master is here, please go inside." The majestic General Ye on weekdays saw this old man with a smile on his face like a blooming flower.

"Oh, rude, I haven't seen you in five years, the general style is still the same." True Master Wan Xuan smiled and greeted him, and followed Ye Haoran into the imposing Ye Family gate.

"Where, old, wow, how can I wait for mortal, how can I be able to be the Immortal Master, I think the Immortal Master's style is better than that of the year, and Cultivation must have made a breakthrough again." Ye Haoran walked, while flattering. True Master Wan Xuan smiled bitterly, "General Ye, how do you know that Immortal Dao is difficult? Just like the old man, you have basically reached the top of Cultivation. If you want to make a breakthrough, there is no coincidence. It is impossible to go further."

Ye Haoran listened to True Master Wan Xuan with emotion, and hurriedly changed the subject and said, "Immortal has a long life, much longer than the mortal life expectancy of me. I believe True Master will also have an opportunity."

True Master Wan Xuan did not want to talk more about his Cultivation Base, and laughed: "Immortal Cultivator is indeed much longer than mortal, and many Immortal Cultivators are skilled in beauty. You cannot guess the age based on your face. I just Cultivation. I once saw a boy who seemed to be 20 years old. Who knows, he was an old man who became famous five hundred years ago."

"Haha." Everyone laughed with them.

But listening to True Master Wan Xuan's words, Ye Haoran and Ye Wei's eyes were full of yearning for Immortal Cultivation, not to mention other things, they said that they would live forever, which was enough to make mortal's eyes hot.

Even the 2nd Madam who followed is enthusiastic. If you can live as Immortal Elder, you can stay young forever, how beautiful. But she also knew that Ye Haoran could let his son and daughter go to Immortal Cultivation, but would not let his wife and concubine go to Immortal Cultivation. You must know that Ye Haoran wants to keep Ye Family safe forever. If you let his wife and concubine go out to catch something amazing Immortal, cuckolding is trivial, and it would be counterproductive to cause misfortune. Since I can't Immortal Cultivation, 2nd Madam puts hope on Ye Wen Ye Wu, as long as they do Immortal, isn't it the right time for my wife to fill the house? 2nd Madam, the "two" in front is selected!

Of course, I heard that Immortal Cultivation also needs qualifications. 2nd Madam hates that he doesn't have too many children. If you have one hundred and eighty children, the chances will be much higher. But it was obviously too late to give birth, so she begged Ye Haoran to ask her brother's daughter to also let Immortal check her qualifications.

Ye Haoran was reminded by her and felt right. After all, Immortal Cultivation is one of a variety of qualifications. If his children are not eligible, then the children of relatives, friends and loyal servants are also OK. If there is an Immortal here, I also want to thank Ye Haoran for his help. Let's quote the beginning/enrolment.

So Ye Haoran made two-handed preparations. First, he and his children. If there are Immortal Cultivation qualifications among them, then the alternate will not be mentioned. If not, then the second tier, the children of relatives and friends, are the children of the loyal servants of Ye Family (that is, the servants given the surname Ye). Ye Cai followed from a distance. Although he couldn't hear what the owner said, he was very nervous. He prayed that none of Ye Haoran's family could be selected, so that his son's substitute could play? Hey, if my Ye Cai's son is Immortal, this Ye Family can go sideways, and the Old Fourth Li. Who calls you not Ye? I'm afraid you don't even know the news!

Thinking of Old Fourth Li, Ye Cai naturally thinks of another person who has not received the news, Ye Kong. Hey, you idiot, who told you not to be popular, who told you to make 2nd Madam unhappy, I won't notify you.

But he thought about it again. In fact, it's okay to call that fool. Is 2nd Madam a fuss? Is it possible that a fool has the qualifications to be Immortal?

And at this moment, Ye Kong, who wants Immortal Cultivation, still not knowing anything at all, and is still flipping through the book at Zhang Wude. He didn't even know that a great opportunity to enter Immortal Sect was about to slip through his fingers. .

"Sir, why does Southern Great Yizhi only say that continent is surrounded by endless Great Desolate, so what is in Great Desolate? Does Immortal live there?" Ye Kong asked. Zhang Wude shook his head, "I don't know, the danger lurks on every side inside Great Desolate. All kinds of monsters are rampant. No one can go deep inside. Even the barbarians who have lived on the edge of Great Desolate since ancient times just dared to spin around the periphery of Great Desolate. No one knows what's going on inside Great Desolate or what the end of Great Desolate is. I don't think Immortal will choose to cultivate there."

"Oh, that's the case, so where can I find Immortal?" Ye Kong asked directly without giving up.

Zhang Wude smiled and didn't blame it. In fact, he broke his head for a while and wanted to cultivate into a fairy.

"Kong'er, making Immortal is not as easy as imagined. Even if you find it, others may not accept you. Immortal Cultivation needs spiritual root. Although there are spiritual roots, one or two in case of spiritual root is actually a spiritual root. Root has inheritance factors, like your Ye Family ancestors do not have any Immortal, even if 10,000 Ye Family people stand up, there will be no spiritual root. You should not think about the road of Immortal Cultivation...

Chapter 12

Ye Family Flower Hall.

Ye Haoran let True Master Wan Xuan sit down in the main seat, and when the maidservant delivered incense tea, Ye Haoran motioned Ye Cai to take the maidservant down the hall, leaving him, Ye Wei and 2nd Madam in the hall. There is an uninvited 3rd Madam who can't leave.

True Master Wan Xuan, if there is no outsider, it will make a long story short. He slapped the storage pouch around his waist, and a book as white as jade appeared in his hands. Then he put the book on the table of the Eight Immortals, slowly pushed it towards Ye Haoran, and said, "Ye Family Treasure Book, this Wan See five years, can't thank sb enough, now the original is returned, please check it by General Ye."

"Hey? True Master is too polite." Ye Haoran reached out and held the other side of the book, pushed the book back, and smiled, "My Ye Family is all mortal. It is useless to ask for this thing. If True Master needs it, just take it. ..."

Unexpectedly, True Master Wan Xuan also laughed and pushed the book over again, "General Ye is polite, but this thing is useless to this Wan. I have read it for five years and showed it to many elders. Now, they don't recognize the words on this treasure. According to this Wan, this is not the magical treasure of Immortal Dao's books."

Ye Haoran listened to have a surprise. The book Ye Family has been preserved for nearly a thousand years. It has been passed on from generation to generation. Each generation tells the next generation that this is an Immortals classic, but now True Master Wan Xuan denies it. Ye Haoran questioned, "True Master, if it weren't the Immortals treasure book, why is this book as smooth as jade after thousands of years, and why the thin pages of the book won't be damaged by a knife and a fire?"

True Master Wan Xuan was also not angry, but said lightly, "This book is made of silk spit by the ice soul cold silkworm. Natural water and fire will not invade. Although the ice soul cold silkworm silk is precious, it is not too rare. The object, General Ye, this thing is really useless to this Wan, so Ye Family should keep it safe."

If people say that, Ye Haoran can't say anything anymore. How can they force others to collect garbage? In fact, Ye Haoran has grievances in his heart. You said it was useless to borrow it for five years?

True Master Wan Xuan has a good temper. He is not in a hurry or annoyed. "This Wan has stayed in the Foundation Establishment Early Stage for several decades, and he sees no progress in his life. Only then is he looking for ancient prescriptions and books. According to General Ye, this Wan has been to various major repairs of Immortal Sect, Spiritual Medicine Mountain, Azure Profound Valley, Flower Lair School, Sabre and Sword Dock in the past five years, and even the Yin Corpse Sect of Demonic Cultivation. Fortunately, this Wan has a lot of friends, and those big sects have seniors who helped this Wan watch it, but

they all agree that this is a useless thing, it is not rare in terms of material, and there is no spiritual energy flowing inside, in terms of content , No one knows what font this is, and..."

As True Master Wan Xuan said, he patted the storage pouch again, holding a small, green, flat bucket in his hand."This is the spiritual note used by the Immortal Cultivator to store the book chant. Just put the Immortals divine sense into it. This was the case ten thousand years ago. Therefore, no senior Immortals would write the chant and the cultivation technique on the books used by the mortal, unless It is the first-level cultivation technique for beginners/enrolment people who do not have a divine sense to learn. Even so, what use do I want this beginner/enrolment cultivation technique for?"

True Master Wan Xuan's rhetoric is unequivocal. Although Ye Haoran is not completely convinced, he still believes most of it. Unexpectedly, his "baby" Ye Family passed on from generation to generation turned out to be worthless rubbish, so frustrated in my heart. Don't mention it.

"My Ye Family has been preserved for hundreds of years. I didn't expect it was not a treasure of Immortals. I let True Master run around for five years. Ye Mou is really..." Ye Haoran shook his head in frustration.

Originally, I wanted Immortals to owe favor to others, but now it seems that he owes favor to others, and he muttered in his heart, how should I mention the matter of apprenticeship.

"Oh, General don't have to be depressed. It may be that this Wan doesn't know the bead. General should keep it properly. After all, ice soul cold silkworm is not a common thing." True Master Wan Xuan comforted and put the spiritual note back. storage pouch, but took a small bottle out.

"The feeling of borrowing, this Wan has nothing to report. This bottle is the Wushou Pill I brought back from Spiritual Medicine Mountain. There are 20 pills in it. Although this is useless for Immortal Cultivator, it can help you get rid of all diseases and extend it. The efficacy of lifespan for more than ten years."Hearing about the effects of Ling Dan, the eyes of the Ye Family members all brightened. The brightest one is Ye Haoran. One piece is more than ten years old. If 20 pieces are eaten together...Wow, then Ye Haoran can't live longer. Two or three hundred years!

True Master Wan Xuan probably guessed his thoughts and said with a smile, "Wuji Pill, each person can only take one pill in his life, and the second pill will be invalid."

Ye Haoran's eyes darkened a lot, but even so, taking it for his girlfriend or holding it as a gift is a good thing.

But he refused, "True Master kindly accepts Ye's heart. As long as True Master needs it, I will let Ye Family drive me up and down. I don't want the benefits of True Master. What's more, this book does not help True Master. I bother True. Master runs around to ask, how can you accept the gift of True Master?"

True Master Wan Xuan thought Ye Haoran was embarrassed to accept it at first, but he turned aside and found that the other party actually refused.

Now it's True Master Wan Xuan's turn to be embarrassed. He took back the medicine pill and said, "General Ye, anyway, if you are willing to lend me the book for five years, you will be the old man owing you a favor. Exactly."

Ye Haoran couldn't hold back anymore when he heard the overjoy. He quickly got up, bowed in front of True Master Wan Xuan and said, "True Master! Ye Mou really has a ruthless please."

True Master Wan Xuan was stunned, but he had to accept medicine pill. It turned out that there was something waiting."General Ye just said, why give this big gift." True Master Wan Xuan walked quickly to help Ye Haoran.

Ye Haoran knelt down and said, "True Master, I have longed for Immortal Dao for a long time. I would like to ask True Master not to abandon it and accept Ye as an apprentice. Ye Haoran knows his aptitude is dull, but he brings tea to True Master. Yemou can still do it."

True Master Wan Xuan laughed, walked back to his seat, raised his hand, and a violent attack made Ye Haoran knelt no longer.

Just listen to True Master Wan Xuan laughed and said, "General Ye is the pillar of the country, so how can you cut off the cultivation of the red dust? And... I have tested the General just now. You do not have the qualification for Immortal Cultivation. Even if you follow me back to the mountain, you will not Will take a step in Xiantu."

Ye Haoran had already guessed the result, and said, "Then please Immortal to check the qualifications of my Ye Family children. Ye can't go on the path of immortality. If one child can become Immortal, this life is enough."

True Master Wan Xuan shook his head, how easy is this spiritual root to find? But thinking about just saying that he owes him a favor, he shouldn't be so direct. Besides, if you find an apprentice with a good aptitude, it will be considered a contribution to your family.

True Master Wan Xuan changed his words to the point of his lips, "Then tell them to come and see."

"Thanks True Master!" Ye Haoran overjoyed at unexpected good news and quickly said to Ye Wei, "Hurry up and call out the younger brothers and sisters!" Next door, the Ye Family brothers who have been waiting are already impatient at this moment.

"Xiao Wu, do you think we will have the qualifications of Immortal Cultivation?" Ye Wen asked in a low voice anxiously.

"I don't know. If you can do divine immortal, you can live forever and fly in the sky." Ye Wu thought of the benefits of divine immortal, and his heart was both excited and nervous.

"I'm afraid our qualifications are not enough." Ye Wen said hesitatingly.

"We don't have the qualifications, and they won't have either." Ye Wu looked at the brothers behind him, and said in a low voice, "I wanted to call a fool, so I told Ye Cai not to tell him, haha, the fool wants to do it too. What about divine immortal, I heard him ask her husband about divine immortal that day."

"Toad lusting after swan's flesh, and don't take a picture in the mirror." Ye Wen snorted lightly from his nose, and said again, "Mother is right. It's good for his kind of fool to be able to read, and he wants to be a fairy. , Dreaming! The only way to make him come is to shame our family! Look at his mother's face...really, like a toad, haha, mother and child are both toads."

Ye Wen was silly, and saw Ye Wei come to greet them to the Flower Hall.

Ye Wu hurriedly said, "Brother, don't laugh, Dad and Big Brother haven't noticed that the fool is not here yet, don't remind them."

"Oh, yes, yes." In the flower hall. True Master Wan Xuan is closing his eyes and brushing his beard, with a faint smile on his face. He didn't pay attention to it. Now he releases the divine sense. There are a group of teenagers on the left and right yard. They are all waiting. It seems that Ye Haoran has already prepared .

This True Master Wan Xuan has a good temper and is not guilty, but he still ordered Ye Haoran and opened his eyes and said, "General Ye, this Immortal Cultivation is required. It must have the qualifications that ordinary people do not have. In the words of our Immortal Cultivator. It is spiritual root. Those who have spiritual root are one or two in ten thousand. Since you have prepared a lot of people, why not let them come out together?"

Ye Haoran was exposed and prepared two groups of people, his face flushed, and he said embarrassedly, "True Master is divine immortal. I can't hide anything from you. I did prepare a lot of children, just because they are not lucky."

"It is very rare for a person with spiritual root. You must have fate, and you can't force it, otherwise it will be counterproductive." True Master Wan Xuan said with a lesson.

Ye Haoran, who holds a heavy hand in front of the tens of thousands of people, dare not speak out in front of Immortal, and speak more carefully. "True Master taught that there is indeed something wrong with what he did underneath. Please forgive True Master." "Then let them come together, and you will be able to repay your borrowing, but if you don't have a spiritual root, then it is God's will." True Master Wan Xuan said this very clearly, this time the qualification check is even After paying back your favor, we won't owe you Ye Family anymore. Even if none of those children have a spiritual root, it is God's will, and they still owe nothing to each other.

In fact, True Master Wan Xuan thinks this is good, Immortal Cultivator is most afraid of things, that is, obsessions. Cultivation pays attention to carelessness. If you always remember to owe someone a favor, it will affect your mood.

Ye Haoran certainly understood what True Master Wan Xuan meant, and hurriedly said, "Only this time, I will never disturb True Master in the future." Then he asked 2nd Madam to call out all the children on the other side.

It was around 2 o'clock in the afternoon. The sun was high and people were sweating. However, there were dozens of young men and women standing in front of the flower hall, but they didn't feel hot at all. Waiting for your turn.

They all know that the old man inside is divine immortal. If you are attracted by divine immortal and accepted as an apprentice, after more than ten years, you will also be divine immortal. Wow, immortal, flying on the Flying Sword. There is effective cure, miracle medicine, like a fairy, and I'm drooling thinking about it. But imagination is always beautiful, but reality is cruel. When these teenagers saw the old divine immortal shaking his head one by one, the expressions on their faces were as if they had received the death sentence.

The most exciting expression on his face was Ye Haoran. Every son and daughter came over, he was looking forward to it, but when True Master shook his head without exception, he looked depressed again.

"It's okay, there is also the following. There are no children in the Ye Family. It is impossible to guarantee that the children of the relatives and friends of the Ye Family servants will not. One of them is Immortal. That's okay!" He continued to comfort himself, but hoped to become a disappointed and still cruel performer.

"Next!" Ye Haoran was almost desperate.

However, the next one still did not appear. Ye Haoran looked up. He was completely desperate. There was no next one. A yard full of young men and women had been tested, and none of them had a spiritual root!

True Master Wan Xuan has seen such scenes a lot, and comforted, "General Ye, don't be depressed. Those who have spiritual roots are one or two, and these two are still in the Immortals family. For mortal families like you, none of them It's also normal."

"Let True Master laugh." Ye Haoran smiled, but the smile was uglier than crying. He calculated it well. Who knew that there was no one. It was too much, too much he didn't know what to say. Up. But when he looked desperately at True Master Wan Xuan and wanted to leave, he suddenly heard Ye Wei say, "Father, it seems... Ye Family has not come yet..."

"Who..." Ye Haoran trembles as he speaks as if a drowning person grabs the straw again.

Chapter 13

"The 8th Younger Brother did not come." Ye Wei replied.

In fact, Ye Wei didn't notice it at first. After all, Ye Kong never appeared on such occasions before. Everyone has become accustomed to not having the old bait appear, and they can't even remember that there is such a person.

And more importantly, Ye Wei would have a divine immortal dream by himself, so he didn't think of others.

But when he knows that he doesn't have a spiritual root, he can't express his sadness, but he is the eldest son of Ye Family after all, and he will look at things from his father's point of view, so he also hopes that other people can have a spiritual root.

So he looked back and forth to the bottom, hoping to find a spiritual root.

But he was disappointed in the end, but after looking around, looking around, and seeing the problem, it seemed that there was one missing.

Who is missing? Really unexpected. Ye Wei simply used a clumsy method, counting one by one, "I am the boss, the second brother, the third brother, the fourth brother... The 8th Younger Brother has not come!"

As soon as Ye Wei said these words, Ye Haoran also looked at him. As expected, he didn't see Ye Kong, and his heart was angry. How could this fool not come to such an important thing? It's too much!

Although he hates this kid in his heart, this is the last hope. He has been disappointed so many times, don't mind being disappointed again!" True Master, I'm sorry, there is one more child underneath. I don't know why it hasn't come yet, so please wait a moment for True Master, I'll let someone call him."

True Master Wan Xuan checked dozens of them and didn't care about one more. He sat down and waved his hand impatiently, "Then go quickly, go quickly and get back."

"Thanks True Master." Ye Haoran stretched out his hand and called Ye Cai. Just about to ask him to call Ye Kong, some people were upset.

2nd Madam She is not happy anymore. She can make others become immortals by apprenticeship, but she can't make Ye Kong become immortals. Why? If Ye Kong becomes Immortal, then Chen Jiuniang's status will be higher! How could she let a woman with an ugly face and poor family affairs step on her feet?

What's more, Ye Kong beat her son and molested her girl, still let her take troubles to heart, she must prevent this possibility from happening.

"General, this matter is not acceptable." 2nd Madam got up and said, "Ye Kong is a son of arrogance and rebelliousness, and his temperament is ferocious, and he must be punished. If he cultivates the Immortal Technique, it will be a misfortune to my Ye Family. blessing....."

2nd Madam is really vicious enough. In front of True Master Wan Xuan said this, making True Master feel that this is a devil-like existence, even if he has a spiritual root, he will not be taken.

Ye Haoran This would be considered to understand why Ye Kong did not show up. It was 2nd Madam who dared to talk about it. Now it is even more nonsense in public, even if Ye Haoran is also angry. "Presumptuous!" Ye Haoran was furious, "You woman is bad for me. Ye Kong has a bad temper, but he is only twelve years old after all. How can you say it is so unbearable!" Ye Haoran was afraid of True Master Wan Xuan. Under the influence of 2nd Madam's words, he quickly said to True Master Wan Xuan, "Let True Master laugh. In my family, I have been confused and slurred since I was a child. I have just opened my mouth recently and may have some words for those who laugh at it. Improper, let others think he..."

"Okay, okay, let someone ask him to go." True Master Wan Xuan's expression remained unchanged.

"Yes." Ye Haoran glared at 2nd Madam again, wanting Ye Cai to call people, fearing that he would play some tricks, let Ye Wei do it properly.

Ye Kong was reading a book there, and when Ye Wei called, he hurriedly followed. On the way, I heard that Immortal was going to accept disciples, and he was even more overjoyed.

Ye Kong didn't expect that he had been looking for Immortal for a long time, and now he actually appeared on his own initiative. It is really wear out one's iron shoes, there is nowhere to look, and it takes no effort.

Is there a spiritual root? He is not too worried about this question. First of all, he can feel aura, and besides, he can still enter his spiritual root, Purple Mansion. Can others do it? Obviously he is stand out from the masses. Under the scorching sun, those teenagers who didn't have spiritual root after the inspection dare not leave. They didn't feel the sun just now. Why does the sun feel so scorching now? The pores on the back are as uncomfortable as the ants crawling. Since it is impossible to become an immortal, they hope to disperse soon.

But at this moment, they saw Ye Wei come in with Ye Kong. They didn't hear the conversation in the room outside the flower hall. Now they saw Ye Kong, how surprised they were.

"Have you got the fool? Hehe, really when hungry, you can't pick what you eat. We don't even have a spiritual root. Will he have one?"

"Definitely not. If he has a spiritual root, Ah Huang I raised also has a spiritual root."

"Haha, he's not as good as Ah Huang, that dog is still human, Ye Kong, he is a fool and idiot, just like the pig in the pigsty, he used to hum when he was full."

Ye Kong walked in and was a little surprised to see so many people. At first he thought he was late, but when he heard it, they all checked. Ye Kong was so shrewd that he immediately guessed that none of them had spiritual root before thinking of calling him.

"Fuck his ancestor's tablet, it's too bullying! Even the irrelevant people are here, but still be Laozi's surname Ye? It doesn't matter if this teacher doesn't worship, I don't owe you Ye Family favor!" Ye Kong raged and mumbled. , Turn around and leave. Ye Wei, who had just entered the report, came out and saw Ye Kong was leaving, and quickly followed, "8th Younger Brother, 8th Younger Brother...what are you doing?"

Ye Kong is very grudge, he can be angry with others, but he is not good at Ye Wei.

"Big brother, I'm going back to read, Ye Family is almost the same without me, there are so many brothers... handsome boy, ah, why do you want me to be a fool." Ye Kong suppressed his anger and smiled bitterly.

Ye Wei suddenly understood, and said in a low voice, "It was Ye Cai's ghost. My father and I didn't know it. My father had already reprimanded them. You can't go. If you leave, you just slap my face with my father."

Ye Kong was dubious. He looked up into the hall, and was caught by Ye Wei and dragged in. There was no way. Ye Wei could only drag him in.

True Master Wan Xuan kept his eyes closed, but divine sense saw all this clearly. When Ye Kong stood in front of him, his eyes opened.

"Call Grandpa Immortal Master." Ye Haoran urged.

"Immortal Master Grandpa." Ye Kong was in a bad mood and looked at him boldly. The two had a pair of eyes. True Master Wan Xuan frowned, "Why is your soul hurt?"

Ye Kong's heart shuddered. Damn, really f*ck is Immortal, and I can see that my soul is hurt at a glance. At the moment, he said half true and half false, saying that when he was sitting in a seat, he couldn't do anything about it and got hurt, but he never dared to say the Talisman Spell Comprehensive Guide in his head.

True Master Wan Xuan had no doubts, and smiled, "cultivate yourself? You are too courageous, come, stretch out your wrist, let me see if you have spiritual root."

When True Master Wan Xuan hit Ye Kong's wrist, everyone around them stared at True Master's face. 2nd Madam kept praying, "No, no, shook his head and shook his head..."

Ye Haoran also stared at True Master Wan Xuan's face, clenched his iron fist tightly, and his knuckles were bleeding and turning blue. Ye Kong is the last hope. Can you say he is not nervous?

This moment seemed to be extremely long, everyone held their breath, 2nd Madam prayed for True Master and shook his head, Ye Haoran nodded in anticipation.

But who knows, True Master Wan Xuan didn't shake his head or nod, he smiled.

Of course, it's not a happy smile, or a mockery, it's a somewhat ironic smile.

Ye Haoran didn't know what True Master Wan Xuan meant, and asked hurriedly, "True Master, Dog...Is there any hope?"

"No." True Master Wan Xuan let go of Ye Kong's hand and said lightly.

Ye Haoran didn't give up yet, and asked again, "Then why does True Master laugh?"

Ye Kong is also scolding in his heart, damn, I don't want you to laugh at something? Shake me? Just listen to True Master Wan Xuan laughed, "I laughed at his poor qualifications, and the spiritual root is too messy to imagine. It is the worst pseudo spiritual root I have ever seen."

"Pseudo spiritual root?" Ye Haoran and Ye Wei didn't understand what it meant.

Then Wan Xuan gave another explanation. It turns out that this spiritual root is the perception of aura. If you can perceive aura, then Immortal Cultivation can be used. If you can't even feel the aura, what about absorbing the aura to nourish the inner core?

However, this spiritual root is also different. The best one is called single spiritual root, or heavenly spiritual root, which means that this Immortal Cultivator is particularly sensitive to the spiritual energy of a certain attribute. If these people are equipped with a cultivation technique of the same attribute, he cultivates That's fast, Nascent Soul Stage has no bottleneck before, it is the best aptitude, only one or two in a thousand years.

Someone asked why the single spiritual root cultivates quickly. The answer is simple, two words, pure. Regardless of gold, diamonds, medicine pill, spiritual root, the purer the better, are all impurities a good thing?

Below single spiritual root, it is double spiritual root, although it is not as good as single spiritual root, double spiritual root is not bad, if it is the kind of thunder spiritual root that mixes Wood Attribute and Earth Attribute, or the mix of Water Attribute and Wood Attribute ice spiritual root, it's also very good, it's called mutation spiritual root, it's also very rare, and some double attributes are not good, such as Fire Attribute and Water Attribute, these two attributes are originally opposed to each other, and it is easy to Qi in cultivate deviation. Next comes the three attributes. This is quite a lot. Many Immortal Cultivators of the Foundation Establishment Stage have three attributes. Unless there is an adventure, they will generally not surpass the Golden Core Stage, such as True Master Wan Xuan.

The next is the four attributes, which already belong to the pseudo spiritual root. Generally speaking, Foundation Establishment is not possible in this life. It is difficult to reach the apex of Qi Condensation Stage. However, because the various schools cannot receive good qualifications, so four The pseudo spiritual root of the attribute is also collected.

The worst is the five spiritual roots. It is no longer a general mess. Cultivating will never have a future. It will get half the result with half the effort. This kind of people will have difficulty in cultivating even begin/enrolment for a lifetime.

According to True Master Wan Xuan pulse detection, Ye Kong belongs to this kind of five spiritual roots, and the five spiritual roots are very confusing, and its qualification belongs to Low Grade in Low Grade. According to True Master Wan Xuan, this child is cultivated for life. It will not break through Qi Condensation Early Stage, and Qi Condensation Early Stage is not necessarily better than Mortal World martial arts expert, so it is better to learn martial arts at home.

Ye Haoran was very disappointed at the moment, but the last straw was still reluctant to let go, and pleaded, "True Master, although the dog is very poorly qualified, he can be regarded as a spiritual root. He is too late to learn martial arts now, even Qi Condensation Early Stage That was also an Immortal from Ye Family."Ye Kong was not reconciled to the loss of Immortal Destiny, and pleaded, "Yes, Immortal Master is here. Although the kid has poor aptitude, we can endure hardship..."

True Master Wan Xuan interrupted and laughed ironically, "Immortal Cultivator's achievements are determined by the spiritual root, and it is not enough to endure hardships. Otherwise, it would be good for all the martial arts to go to the dock to collect hard work."

Ye Kong was depressed. I was really a file. I missed the time to learn martial arts. Immortal Cultivation is the most rubbish spiritual root. Isn't it true that there is no way to survive?

Seeing that this is going to be wrong again, Ye Kong felt that he had to seize the opportunity and show it, maybe the old divine immortal just changed one's mind?

Ye Kong made up his mind and said loudly, "Immortal Master's statement is wrong! I heard that the achievements of Immortal Cultivator are not determined by aptitude, and the best spiritual root is not heavenly spiritual root!"

"Oh?" As soon as Ye Kong said this, everyone was staring at Ye Kong. Ye Haoran was a little worried. Could the Real Taoist Immortal Master make a mistake? What do you know as a mortal? But Ye Haoran didn't say anything to stop him, hoping that there might be a turnaround.

"The old man doesn't understand, I would like to hear the details." True Master Wan Xuan also waited for him curiously. Ye Kong smiled and said to True Master Wan Xuan, "Going back to Immortal Master, I think that the biggest determinant of Immortal Cultivator's future achievements is Immortal Destiny, not qualifications! The best spiritual root is not the heavenly spiritual root. It's a bitter spiritual root!"

Chapter 14

Immortal Destiny is easy to understand, that is the fate with Immortal Dao, or luck.

Some Immortal Cultivators have good aptitudes, but have bad luck. Immortal Path twists and turns, Qi deviation accidentally, or beheaded when they just debuted, and even the heavenly spiritual root Immortal Cultivator was killed by a poisonous insect in the Core Formation. Embarrassment.

But on the contrary, some Immortal Cultivator has mediocre aptitude, but Immortal Destiny is very good. They kicked the Lingbao foreign object in the walkway, picked up the ancient secrets in the toilet, and fell under the cliff to encounter the shocking gods. These things have happened. .

In fact, many of the old monsters of the Nascent Soul Stage in Southern Great Continent are ordinary and mediocre. They all get a lot of Immortal Destiny without exception, so what Ye Kong said is indeed very reasonable.

True Master Wan Xuan really smiled with his beard this time, and his eyes were re-evaluating the boy, but what he didn't understand was, what is suffering spiritual root?

Ye Haoran saw True Master smiling at his son, and felt relieved. Not to mention, fools and geniuses can really transform each other. This kid doesn't know where to look at it. Immortal is joking.

"Immortal Destiny understands it. That sage nephew talked about the suffering of spiritual root, right?" True Master Wan Xuan said a lot more cordially. Ye Kong hurriedly replied, "In fact, suffering spiritual root means that I can endure hardship as I said before. Immortal Dao is very difficult and dangerous. You must have the determination to abandon miscellaneous thoughts and engrave Ascetic Cultivation. Even if your spiritual root is good, Immortal Destiny is good. If you don't work hard, play or otherwise, you can only accomplish nothing in the end."

"Haha, reasonable, General Ye, you have a good son." True Master Wan Xuan smiled with his palms, his eyes admiring the twelve-year-old boy in front of him.

"Inuzi is daring. True Master, please don't look at the strangers." Ye Haoran said this, but gave a thumbs up in his heart. Boy, good job, there is a way for this.

Ye Kong was also smiling, already fantasizing that he was also spinning around the sky in the Flying Sword, but who knew that the next sentence from True Master Wan Xuan knocked him back to his original shape.

"Although you are reasonable, the old man cannot accept you."

Ye Kong, who was still flying in the clouds, seemed to fall into the valley and stared, "Why?"

"Because your personality is not suitable for Immortal Cultivation! Your personality is straightforward and impulsive, and your personality is rather straightforward. You also like to be pushy, sharp and bold! Am I right?"

Ye Kong froze for a moment, and replied, "Yes, it's all in." "So I can't accept you. Immortal Cultivator talks about calmness, desirelessness, and forbearance. In Immortal Cultivation World, it also emphasizes concealment and forbearance. Everything is natural. A personality like yours is also extremely unsuitable for Immortal Cultivation."

True Master Wan Xuan's words beat Ye Kong to death. When Ye Kong was desperate, he couldn't help but retort, "Immortal is wrong again. Immortal Cultivator has no desires and no desires? No! Immortal Cultivator pursues heaven and longevity, this it's their sex! Every time the realm increases, every time the power increases, isn't Immortal Cultivator excited? Isn't it excited to get amazing magical treasure? Isn't Immortal like this? How can I have no desires?"

After some words, True Master Wan Xuan actually asked True Master Wan Xuan dumbstruck and unable to reply, Ye Haoran was afraid that True Master would be annoyed, and quickly shouted, "Presumptuous! How can you blame Immortal Master like this!"

But Ye Haoran doesn't yell, it's better. Ye Kong couldn't help but shouted, "Immortal Cultivation is magical, but in my opinion it is the same as martial arts, one cannot achieve glory and wealth without having been through trials. and tribulations, Immortal World is indeed difficult and dangerous. It is because you do not have enough power. If an Immortal Cultivator has reached the top of Immortal Dao, then why do you have to endure it?" This time True Master Wan Xuan found the loophole in his words and scolded, "You are right! If I am the best Immortal in the world, of course I don't have to forbear, but there are a few people who are really standing on top of Immortal Dao. I'm afraid I'm afraid of you, a brave but powerless kid! Do you know why I didn't accept you? The biggest reason is that your unbearable character will cause me the Yellow State Wan Family's misfortune!"

True Master Wan Xuan pointed at Ye Kong and scolded again, "You have poor aptitude. If this impulsive temper doesn't change, no school will dare to accept you!"

Ye Kong was also outraged, and sneered, "Man, laugh when you smile, scold when you scold, and yell when you see uneven roads! If you are afraid of the east and fear the west, there will never be a day before, all day long. With his tail, how boring is this person? The necessary patience should be there, and I can do it, but if you have to endure everything, you have to endure when you meet your opponents, and you have to endure when you meet the same door. Going to Cultivation Base is so low that people are afraid that people will pretend to be pigs and eat tigers. Is it interesting? Have fun? Also, you have to be patient when you meet delicious food, and you have to be patient when you meet beautiful women. It's just a joke for a thousand years!"

After Ye Kong finished speaking, he couldn't help but asked spoofly, "Dare to ask Immortal Master how longevity is? Are you still a virgin now? Do you have fun in your life?" "You are too much!" Ye Haoran finally couldn't help it. No matter how fierce the previous argument was, he didn't stop it too much. He expected his son to convince True Master, but he didn't expect this kid to ask if Immortal was a virgin.

What's more important is that True Master Wan Xuan was asked to blush with a thick neck. It seems that he was asking, and the third wife, 2nd Madam, who was next to him, gave a shrill laugh.

Ye Haoran doesn't make a move. It really provokes the Immortal Master to fly into a rage out of humiliation. He has nowhere to reason after he is destroyed. The character of this kid who caused trouble is really mentioned by Immortal Master.

"You are too much!" Ye Haoran yelled and slapped a big slap to say that he was really angry this time. The slap made Ye Kong unable to stand up.

Ye Kong snorted and was knocked down on the table of the Eight Immortals next to True Master Wan Xuan. With this blow, half of his face quickly swelled and he couldn't stand up on the edge of the big table.

But when he threw himself down on the table, his eyes lit up suddenly, and there was something in front of him that caught his eye!

"True Master, I am arrogant and bold. It is really hateful. I also blame my family for not being strict. Please True Master 10 million/absolutely. Don't blame it, or forgive it." Ye Haoran ignored Ye Kong's question and quickly apologized to True Master Wan Xuan. .

Unexpectedly, True Master Wan Xuan was angry at first, then dumbfounded. After Ye Haoran pleaded guilty, he actually laughed again. "General Ye, you gave birth to a good son. Although your words are too radical, you can think about it carefully, and everything makes sense. The old man had no fun for the first 150 years of his life. It's really boring to think about it now. I will go back. Marry a lady, haha, let me wake up here!" True Master Wan Xuan said, patted Ye Kong who was lying next to him, stood up and said goodbye, "General Ye, I'm here, so I'm leaving. "

"Asshole, don't you thank True Master magnanimous?" Ye Haoran kicked Ye Kong's ass again.

"Oh, True Master forgive me, True Master thank you, I like to talk nonsense, slap...Oh, my dad hits too hard to fight.

"Haha." True Master Wan Xuan laughed for a while, and exhorted before leaving, "Although you are reasonable, you can keep a low profile when you have no strength. Remember, keep a low profile. !"

"Yes, yes." Ye Kong hurriedly replied, but his eyes remained on the table. It wasn't that he didn't respect True Master, but that this thing attracted his attention too much. He couldn't break his eyes when he saw it. .

What can attract Ye Kong so much, of course, is not the beauty, but the white jade scroll on the table. This was inquired by True Master Wan Xuan and finally identified as a useless Ye Family book, but it seems to have sucked Ye Kong's soul away, just like an old pervert who sees a woman's sex and can't do without staring at it. Up.

That wasteful book made Ye Kong forget that the pain was so gaze is because the cover was written in Chinese characters... "Five Elements Immortal Ascension Scripture".

Heavens! It turned out to be Chinese characters! I'm not fighting alone! A voice in Ye Kong's heart was yelling, the excitement was beyond words.

When Ye Wei brought him from the academy, he had already told him some things, such as the Ye Family treasure book, and was identified as rubbish by True Master Wan Xuan and so on.

This thing is rubbish to others, but it is a treasure to Ye Kong. Who would call him come from the earth, or is it Chinese? If you come to an American, even if you know that this is a Chinese character, you don't know the content inside.

Most importantly, look at the title of the book, it is the classics of Immortal Cultivation!

Ye Kong didn't care about others, and while Ye Haoran greeted True Master Wan Xuan to leave, he hurriedly took the treasure book on the table in his hand. This was a casual look, and it was overjoyed at unexpected good news. This is indeed a cultivation technique of Immortal Cultivation. It was written by an Immortal Master who traveled through the earth thousands of years ago. The first paragraph of the opening book makes people feel arousing involuntarily, "Hey, friend, welcome to Southern Great Continent, is it very happy to see familiar text? I also feel very happy, but I guess I can't see you anymore. I have been through Heavenly Tribulation, and the time to stay in this world is running out. Five Elements Immortal Ascension Scripture is the summary of my cultivation for more than a thousand years. Just treat it as my first meeting present for this fellow. But when you see this book, maybe a thousand years have passed, or Ten thousand years...who knows? Or this continent will never be known to anyone...this world is really fucking, remember, don't trust anyone! If you can, I really want to return to the earth..."

"You understand these words!" Ye Haoran had already walked back to the Hua Ting for some reason, because True Master Wan Xuan heard Ye Kong's words, and was a rare high-profile, and did not go out, standing in front of the Hua Ting and driving away with the magical artifact Yes, so Ye Haoran came back so quickly.

"I..." Ye Kong's mind turned quickly, True Master Wan Xuan became high-key, but Ye Kong low-key, thinking of True Master Wan Xuan's leaving, and the message from the fellow earth fellow, Ye Kong immediately He smiled and said, "How can I recognize these words, really strange words, like squares." "What do you look at if you don't know you?" Ye Haoran was still angry, snatching the treasure from Ye Kong, and scolded, "You rebel! Do you know how dangerous today is? Immortal Master is also something you can scold for laughing?"

Ye Kong lowered his head and muttered, "Immortal is reasonable, too. True Masters say I am reasonable."

2nd Madam, who was suffocated behind, finally had a chance to speak, and snorted, "I said don't let him come and ask him to come, it will only shame Ye Family."

"Naughty!" Ye Haoran glanced back at 2nd Madam, and hated this woman very much. If she didn't interrupt, maybe True Master would have accepted Ye Kong, but Ye Kong this kid is also hateful, you Can't you be polite with Immortal Master? Maybe True Master Wan Xuan sees that your temper is not that bad, so he will take you back to the mountain.

Anyway, it's smashed now.

Ye Haoran looked at his wife and Ye Kong again. The more he thought about it, the more he held his breath. After preparing for a long time, now that he failed and wiped over the floor, he regards these two as criminal ringleader, main offender, don't mention the anger in my heart. Up.

"Bang!" Ye Haoran slammed a punch on the sandalwood table of the Eight Immortals, smashing the iron-knot-like table into a big hole."Ye Kong! Go to the Ye Family Ancestral Hall and introspect your ancestors! Don't get rid of your bad temper and you are not allowed to come out!" Ye Haoran decided to punish him. This is to make Ye Kong think about it, but it is not convenient for his wife to be in court. Scolded, glared at him, and walked out angrily.

Ye Kong doesn't care what he has thought about, but what makes him uncomfortable is that scripture, daddy, you can show the Five Elements Immortal Ascension Scripture to you guys!

Chapter 15

The Ye Family Ancestral Hall, in the center of the inner courtyard, is a small independent courtyard. The big house in the middle is dedicated to the spiritual seat of the ancestors of Ye Family. The back room of the big house is like a showroom, hanging those who have been glorious. Portraits and deeds of his ancestors, and family trees are also displayed.

Ye Kong was not in a hurry to go to the ancestral shrine, because Ye Wei told him that before thinking about it, you can go home and say goodbye to Chen Jiuniang, and it is also a rule for the ancestors to think about it. It cannot be dirty, so every five You can come out once every day, wash your hair and take a good night's sleep.

Ye Wei said that he was locked in by his father many years ago. The hardest thing to endure was the night. Ghastly was horrible, and there was no place to sleep. He had to kneel. In addition, he could not leave Ye Residence during the period of thinking.

Ye Kong doesn't care about these things. There are too many ghost movies. As long as there are no ghosts, he is not afraid. As for the fact that he can't go out, he didn't plan to go out.

The only depressing thing is that if I could get that Immortal Cultivation scripture, it would be great.

However, Ye Kong did not mention the scripture to Ye Wei. He has shown excessive attention to the treasure just now. If he continues to stare at it, others will doubt it. At that time, the simplest question is how do you recognize these square characters? He couldn't answer this. Read it in the book? Which book, take a look. Dreaming about it? This f*ck is too bullshit.

Well, no matter what, go back and tell my old lady and think about it. As long as the book is in Ye Family, it will be easy to handle and there will always be a chance to get it.

Ye Kong thanked his elder brother, walked quickly out of the inner courtyard and returned to the small courtyard where he lived, and found that there was an unexpected guest here.

The person who came is 3rd Madam. It is said that these Madams never come here. Even if Chen Jiuniang is required to do the work, he will send an old maid to send it. Why did this 3rd Madam condescend to come here?

Seeing Ye Kong coming back, 3rd Madam naturally lied to praise Ye Kong for a while. Chen Jiuniang was already flattered. How can I see 3rd Madam being so pleasant to talk to?

3rd Madam's next words let Ye Kong understand her intention. She is here to reveal the news, saying that if it weren't for the blockade of 2nd Madam before, Ye Kong would have followed Immortal Cultivation now.

Dare to love this woman is here to provoke. Although Ye Kong hates 2nd Madam for being a stalker, he does not want to be used as a gun by 3rd Madam.

So Ye Kong told his old mother that he was going to think about his ancestors, and then he took a few thicker clothes and left his courtyard. On the way to the Ye Family ancestral hall, Ye Kong found that the voice behind it had changed again.

"Hey, do you know? Immortal came to Ye Family to accept apprentices today. I have chosen for a long time. Only one person has the qualifications of divine immortal."

"Who? So lucky?"

"Here..."

"Ah, idiot? Lucky for his f*ck, but... why didn't he go with Immortal?"

"Haha, you don't know about this. Although he has the qualifications, he is the most rubbish qualification. It is so bad that it is divine immortal that you can't help but laugh. It's embarrassing."

"That's right, rubbish is rubbish, he is already rubbish, he is more embarrassing than others without qualifications."

"Haha, who said no, I have been punished to think about it in the ancestral hall now."

"Fuck his ancestor's tablet. Sooner or later, I'm going to smoke your mouth!" Ye Kong cursed in his heart, turned around and sneered at the two families, and walked away leisurely.

When he came to the Ye Family Ancestral Hall, Ye Kong found a strange phenomenon. He saw that there were many soldiers surrounded by the Ancestral Hall. The guards were tightly guarded. I didn't understand why the Ancestral Hall had to be guarded by so many soldiers. Could someone steal Ye Family's ancestors? Not a spiritual position?

Although Ye Kong was strange, he didn't ask. He walked over with his night coat. Just about to enter the door, he happened to see Ye Haoran strode out from inside. What is he doing? Come to me? See if I come? Ye Kong was puzzled, and hurried to one side of his body to make way out.

Ye Haoran was obviously still angry, walked in front of Ye Kong, gave a cold snort, and walked away quickly.

He didn't come to me, so what did he come for?

Ye Kong lowered his head, pondered, crossed the high threshold and walked into the heavily guarded ancestral hall.

To say that this ancestral hall is different from other rooms, it is ghastly cool in the daytime, and after entering the house, there is a feeling of jumping into the cold water.

"This... won't f*ck really have a ghost, is it?" Ye Kong felt fuzzy and depressed in his heart. There are so many people outside, why is there no one inside?

If it were on the earth, Ye Kong would definitely laugh three times. But here in Southern Great Continent, it is hard to say whether there are any ghosts.

He (to move or do sth) walked in softly and quietly, and saw that the center of the ancestral hall was a circle surrounded by a white marble railing, and the center of the circle was also a circle carved with white jade. How to describe it is like the Temple of Heaven in Beijing. It's a bit similar.

There is a circle of railings on the outside and a granary-shaped building in the middle. The difference is that in the middle of Beijing is the tall Hall of Prayer for Good Harvests. The Ye Family is a white jade tower with numerous ancestral tablets, both large and small, high and low. "This Ye Family really f*ck people are prosperous!" Ye Kong was surprised to find that this spiritual tower is not all of Ye Family's ancestors. This spiritual tower enshrines only all the long rooms of Ye Family, that is, Ye Family has the power of the past dynasties. Or celebrities or high-ranking officials from Ye Family.

And more of the spiritual positions of Ye Family branch are placed on the table by the wall of the big house. There are more numbers. Looking at it, they are densely packed with eternal lights dotted in the middle. They are really grumpy people.

Tall solid walls, ghastly wind flowing in the empty space, no one in sight, but full of dead people's spiritual positions, even the bold king Ye Kong can't help having one's hair stand on end, dare not Breathe loudly, lift your heels and walk in slowly...

"Ye Kong."

"Oh my god!" Ye Kong trembles with a sudden sound from behind, leaning his back against the wall and looking back, only an old-faced old man standing at the entrance of the ancestral hall.

"Oh, it's sir." Ye Kong found Zhang Wude was coming, and hurried to greet him, "Mr. come in and talk."

"No, Ye Family Ancestral Hall, it is not convenient for me to enter as an outsider." Zhang Wude still held the expressionless old face, Yang Yang said with a few books in his hands, "I heard that you are going to face the wall, and I will give you some books. Come."

Although Zhang Wude's face was expressionless and his tone was as plain as ever, Ye Kong felt warm in his heart. "Thank you, Mr." Ye Kong took the book and found that most of them were poems and songs, and there were also two books about strange things and strange things in them.

Zhang Wude looked at Ye Kong, his eyes gradually softened, and said, "I just heard about you. Since you don't have a good spiritual root, you don't have to think about divine immortal, but you can learn good poetry at ease."

Although Ye Kong didn't think so, he couldn't refute anyone who really cared about him and nodded.

Presumably to see Ye Kong's thoughts, Zhang Wude suddenly waved his sleeves, reached out his hand to touch Ye Kong's head, and sighed, "My child, it's not a bad thing not to Immortal Cultivation... Do you think that the mortal relationship is cruel to survive? But in fact, between Immortal Cultivator, that's really cruel, killing people for treasure, killing people for fun, killing each other in one sentence, these are all normal, and gradually you will become cruel Ruthless, for the sake of some so-called treasures, morality, shame, and even the lives of relatives can be disregarded. My husband does not want you to become such a person."

Ye Kong found Zhang Wude's words very touching, and he raised his head and asked, "Sir, why do you know so much about the Immortal Cultivator? Are you also Immortal?"

Zhang Wude shook his head, "Even if I had spiritual root, I wouldn't be on this path."

Obviously Zhang Wude has a story, but people can't help it if they don't want to tell it. Ye Kong said again, "Sir, no matter if I am Immortal World or Mortal World in the future, or whether I will have a bright future or not, but I will never give up my dedication to good and evil, nor will I compromise with any force. And lure!"

Zhang Wude, who had never had an expression on his face, actually smiled and touched Ye Kong's head and smiled, "Don't give up and don't compromise. Well, well, you are a good boy."

"Hey, buddy is not a child!"

After Zhang Wude left, Ye Kong took the book and walked into the back of the ancestral hall, found a bedding, placed it under the largest candle, and read the book to pass the time.

But Ye Kong was really not interested in those poems, and finally turned up the spiritual fetish, which recorded many spirit beasts and spiritual grass characteristics. Of course, Ye Kong was purely fun, and he didn't expect it to be useful. Because according to the book, these spirit beasts have become extinct.

Soon in the evening, there were soldiers shouting to eat outside. In the ancestral hall for self-examination, they still have to eat, so they eat with the soldiers. To the other young masters, the food here is called coarse tea and light rice, but for Ye Kong, the food is better. It's better to be at home.

"Is this pork? Why is it so fragrant? It's still very exciting to eat!" Ye Kong asked, chewing on a big bone. The leader of the army was a hundred-man captain called Liu Changqing with a smile, "8th Young Master, you don't know about it. This is the meat of an iron-skinned bull. Don't look at the skin of this iron-skinned bull like iron. Yes, the meat inside is so fragrant."

"Oh? Tin Bull, it's hard to hit, right?" Ye Kong asked in surprise.

"Of course, this is Middle Grade spirit beast." Liu Changqing said proudly, "If I happened to hit this time when I came from Daying, the big guy would not have tasted it."

This Southern Great Continent is also different for beasts. Generally, pigs and sheep belong to poultry and livestock. Only beasts, or spirit beasts, are divided into Top Rank, High Rank, Middle Rank, Low Rank, Rankless. Between each level, it is divided into Top Grade, High Grade, Middle Grade and Low Grade.

Generally speaking, the spirit beast of Rankless refers to the spirit beast without cultivate. Just like people, it has no spiritual root and no natural Magical Technique.

But even without Magical Technique, these spirit beasts are also very powerful, some are brute force, some are poisonous, and some are big. In short, this kind of spirit beast can be dealt with by ordinary people, but it is not easy to deal with.

As for the spirit beasts with ranks, they cannot be dealt with by ordinary people. Immortal Cultivator will be launched, but that kind of spirit beasts will not appear on the street, because they are also cultivated and also ascended. When they reach High Rank, they will open spirits. If you are wise, you can transform into a human form when you reach the Top Rank. And this kind of iron bull is a Rankless Middle Grade spirit beast. It is not easy to think that this hundred-man captain can kill a Rankless Middle Grade spirit beast.

Ye Kong nodded and said, "General Liu is superb in martial arts, and we also followed suit."

Liu Changqing was called General by Ye Kong, and his heart was refreshing. At this moment, a soldier smiled and said, "8th Young Master, don't listen to him bragging, the iron-skinned bull is so hard and big, if he didn't happen to meet him. It's a severely injured iron-skinned bull, even if General Ye leads people out, it's not always possible.

Liu Changqing's old face blushed and said angrily, "Whether you are seriously injured or not, you can taste the smell of iron skin bull today, it is always because of me."

The soldier didn't even startle him, and said, "How many other brothers are injured."

Ye Kong watched their disputes and quickly persuaded, "Who, don't say anything, no matter what, General Liu can be considered to improve the food for everyone, haha, General Liu, don't be angry, that brother is also distressed and the brother is injured. Everyone said one less thing, ah, drink and eat meat."

Chapter 16

As for Ye Kong, the 8th Young Master, the maid did not bother him, but the soldiers who regularly rotate outside are not familiar with the situation. Take him seriously. Everyone stopped talking about what he said.

"Come for a drink." Ye Kong and Liu Changqing sat at a table.

Liu Changqing watched the 8th Young Master pouring wine for himself, and said he didn't dare, so he quickly took it and filled Ye Kong with it.

Ye Kong smiled and said, "I came to look at my ancestors, how can I drink."

"Drink less. Actually, I shouldn't drink it either." Liu Changqing raised the small tile bowl, reluctant to drink it dry, and took a big sip.

"Then I will accompany General Liu to drink a bowl." Ye Kong took a sip and drank Southern Great Continent for the first time. The degree is not too high or too low, the taste is not bad, and it has a grassy fragrance. .

"Good wine." Ye Kong put down the wine bowl and asked again, "Is this tin-skinned bull so powerful? It was caught after all serious injuries and damage to several brothers?"

"Of course it's amazing!" Liu Changqing said, "This iron-skinned bull is about the size of three or four ordinary bulls, and the skin is even unbreakable with a steel gun. It's amazing." Liu Changqing finished speaking, and sighed again. The skin, bones, and horns are all good things. Skin can be used as armor, bones can be used as medicine, horns can be used as

weapons, or Middle Grade spirit beast." "Rankless Middle Grade is so powerful." Ye Kong grinned and asked again, "Then why doesn't the country kill more tin bulls, so the brothers' armor is not lighter and stronger?"

Liu Changqing laughed and said, "You're a layman. When these tin bulls appear, there are a group of thousands of them. Don't look at them as Middle Grade spirit beasts. The number is scary, even Immortal. If you dare to carry it hard, the tide rushes down, and you are not worthy of a hundreds of thousands of troops. It will kill you when you rush them back and forth. For their skin, is this a good deal?"

"It turned out to be like this." Ye Kong suddenly realized, and then recklessly, as if suddenly remembering to ask: "Oh, what's the matter for my father this afternoon?"

Liu Changqing said happily without even thinking about it, and said, "It seems to be putting something."

Liu Changqing is also a clever person. As soon as he spoke, he felt that something was wrong. He hurriedly said to Ye Kong, "8th Young Master, please don't hurt me. What do you want to ask General? To be honest, I don't know if General enters. What did the house do? You didn't hear the sentence just now, and don't say it was the villain."

"Hehe, looking at you nervously, I just asked casually, would I still harm my dad? Or is it a foreign spy?" Ye Kong said carelessly. Then Liu Changqing looked at Ye Kong and felt right. He was overly vigilant. Although the 8th Young Master was punished by the General today, he is a father and son after all. What's more, General Ye is not a military secret. Just talk about it.

In fact, the guards are not allowed to enter the ancestral hall if there is nothing wrong. Today, Liu Changqing happened to pass by the door and saw Ye Haoran's back. Seeing him toast the incense, he touched the jade box on the altar in the middle, and finally walked away with the key. After coming out, Liu Changqing could easily guess that Ye Haoran put something in the box.

"Come on, drink."

"drink."

The two drank not much wine, but they had their own calculations.

Ye Kong was shocked when he heard Liu Changqing's words. He originally guessed that there was a reason why the old man came to the ancestral hall. Otherwise, Ye Haoran would be so angry at the time. Would he come to burn incense to calm his anger?

Hearing another sentence from Liu Changqing, there seemed to be a flash of thunder in his brain, "Pop!" A white as jade book appeared.

Yes, it is possible, very likely, this book is Ye Family heirloom, Ye Haoran is very likely to put it in the ancestral hall, if it is really like that, it is really fate, just introspect and Immortal Cultivation.

Ye Kong was overjoyed, and when he had thoughts, he was not interested in eating and drinking. After chatting with Liu Changqing for a while, he hurried back to the ancestral hall, looking for Ye Haoran's possessions. However, he is also a thoughtful person. As soon as he walked in, he thought, would Liu Changqing report this matter to Ye Haoran? This guy must be Ye Haoran's confidant to come to the Ye Family ancestral hall to guard the gate, and it is normal to report the situation.

So Ye Kong walked into the ancestral hall and did not rush to find it. Instead, he bowed his head and sat directly on the futon, reading by candlelight, but his eyes were fixed at the entrance of the ancestral hall.

Sure enough, after a short while, I saw a dark shadow passing by the entrance of the ancestral hall. It was Hundred-man captain Liu Changqing who came. He sat there after dinner, and the more he thought about it, the more he became afraid. If the 8th Young Master really stole the General baby, then he would be very guilty.

So he sneaked to the door and observed the situation inside. Fortunately, the 8th Young Master was reading there. It seemed that he was overwhelmed.

Ye Kong pretended to read a book, and his heart was horrified. It seems that it doesn't hurt to be careful, and he was almost caught.

After waiting for a while, it was estimated that Liu Changqing had already left, pretending to be sleepy, and turning around again, but still did not dare to act prosperously, and finally turned back, put on his coat and lay down and fell asleep.

Introspection in the ancestral hall is the heaviest punishment for Ye Family. You can't eat well, you can't sleep, you don't have room to sleep, you still have no freedom, oh, there is also fear. In this scripture, no matter how great the torture is, there is no fear, let alone this crime. In the middle of the night, many candles in the ancestral hall had been extinguished, and it was cold in the outside world. Ye Kong felt that he still had less clothes. He had known that he would bring a quilt.

His body is a bit cold, but his heart is warm.

Almost there, look for it!

The jade box is not difficult to find. It is just below the central altar, but it is locked and cannot be opened. Moreover, the box and the base are connected by a whole piece of jade, which cannot be opened without unlocking.

Smash the jade box? Ye Kong will not turn his face with Ye Haoran.

Since only the lock can be opened, only the key is used. Ye Haoran will not take the initiative to give him the key, but this is not difficult for Ye Kong. Although he is not a thief, he is the leader of the gangster on the street, often with a thief. Those who deal with it, know a little bit about twisting door picking.

Although this is not a buddy's strong point, this ancient lock was easy to open. Ye Kong studied for a whole night and felt that he was still confident. He decided to find an opportunity to go out and get a little iron to open the lock.

However, it was a bit inconvenient to want to go out. The next day when he wanted to leave, he realized that those soldiers still had the role of guarding him, and he was forbidden to leave the courtyard.

Ye Kong had no choice but to sit in the ancestral hall and stare in a daze at the spiritual signs. It seemed that he had to wait to return home once every five days. But who knows that the opportunity came at noon. Ye Wei came to see him with the quilt, saying that Chen Jiuniang asked him to bring it.

The two brothers started chatting and chatting to Zhang Wude. Ye Kong asked if Zhang Wude had any story.

Ye Wei laughed, took out an ear, and while pulling out his ears, he said, "This Zhang Wude is from the neighboring Martial Nation. He is very famous in Martial Nation. He entered the Martial Nation court at a young age. Appreciated by the emperor, their Zhang Family is also a big family, and the people are prosperous, but who knows, does not know who offended his family, they were wiped out overnight, and Zhang Wude's wife and daughter were also killed at that time. Lost."

"Ah, that's it." Ye Kong said in his heart, no wonder the old man was so stubborn all day, dare to have this sad past.

"Yeah, Zhang Family was killed, only Zhang Wude escaped. It's miserable." Ye Wei also sighed.

"Then the emperor appreciates him? Why don't the emperor avenge him?" Ye Kong asked again.

Ye Wei shook his head, "I don't know, I guess the emperor can't provoke the murderer."

Ye Kong thought about it for a moment, and then guessed, "The emperor can't afford it? It must be Immortal Cultivator, no wonder he said that tone." The 8th Younger Brother is really smart." Ye Wei nodded in praise, "However, we are just guessing. Mister Zhang doesn't say it himself, who knows what's going on."

"Mr. must have come to our Peace Nation to avoid chasing and killing, was taken in by his father, and then lived an incognito life, right?" Ye Kong continued to guess.

This time he guessed wrong. Ye Wei shook his head and smiled, "8th Younger Brother, you didn't guess right this time, but maybe most people would guess like this, but you forgot, Mr. Zhang Wude, if he really gets caught Immortal chases and kills, how can he come to someone else's house and bring disaster to others?"

"Yes, that's right." Ye Kong nodded. After a short time together, he still admired Zhang Wude's character very much.

"Actually, I guess the Immortals who killed people were just to vent their anger, and it didn't matter if they killed other people's family. Zhang Wude has a good reputation among the people, and Immortal didn't complain, so he let him go. But because the emperor didn't avenge him, he simply came to our Peace Nation and happened to meet his father, so he stayed in our house."

Ye Kong couldn't help but nodded, "Big Brother's reasoning ability is much stronger than mine."

Ye Wei smiled and said, "Where and where, I am the dumbest person." Then he shook his head and sighed, "Mister Zhang is actually very bitter." Ye Kong flattened his mouth, nodded and said, "If there is a chance, I have to help Mr. take revenge and wipe out a grudge."

Ye Wei was taken aback by him. He almost poked his ears into his ears and hurriedly said, "8th Younger Brother, don't mess around. Immortal is not something we can afford. Don't look at Ye Family's magnificent army with thousands of men and horses, but Immortal is not enough."

Ye Kong smiled, "Don't worry, brother, I'm not stupid, on the contrary, I am still very smooth. I know what to say to someone."

Ye Wei said in his heart, I'm afraid that it won't be the case when you get excited.

After chatting for a while, Ye Wei was about to leave and said, "I'm going back to the barracks now. I can't leave there for too long. Take care of yourself." Pat Ye Kong on the shoulder, "I, I'm leaving."

This elder brother really felt like a brother to Ye Kong. Ye Kong smiled and nodded, watching Ye Wei leave, and seeing him go so far before suddenly remembering something.

"Hey, brother, wait, my ears also itchy."

Chapter 17

Opening the jade box, there was a thin and white book lying quietly inside the box. On the title page, a few familiar Chinese characters "Five Elements Immortal Ascension Scripture", the kind of intimacy rushed over.

Holding this volume of heavy, cool and whistling book, Ye Kong was also very excited. He knew that this book was like a key and was about to open the door of Immortal World for him.

After taking out the scripture, covering the jade box, and locking the lock as it was, Ye Kong looked back, grinned, and said excitedly, and rushed back to the padding in the corner of the ancestral hall.

To prevent others from seeing anything, Ye Kong clamped the Five Elements Immortal Ascension Scripture in the foreign object log, just like he saw in class when he was in school.

With a fingertip, the thin pages of the book opened gently...

Ye Kong has never read a book so neglect sleep and forget about food. He has been reading it since the afternoon. In the evening, he casually took a few bites of food with the soldiers, and then he came back and read it again.

Finally, he put down the book and closed his eyes and thought.

According to this earth fellow who calls himself Five Elements Rogue Master, those who travel from the earth should be five spiritual roots. According to the concept of Southern Great Continent, this is the worst aptitude, but Five Elements Rogue Master does not agree with this view. He believes that five spiritual roots are actually the most stable and most natural spiritual roots. Imagine that this world is made up of Metal Wood Water Fire Earth, and the human body is also a small universe, and it cannot be separated from Metal Wood Water Fire Earth. Therefore, cultivate five spiritual roots. It is stronger than other spiritual roots.

This view of Five Elements Rogue Master can be said to be contrary to the popular view of Southern Great Continent. According to him, isn't heavenly spiritual root the worst and most unstable qualification?

However, Ye Kong feels that there is some truth. The world is originally composed of these five basic elements. Cultivating together is of course stronger than Cultivating. Moreover, the Five Elements elements are mutually reinforcing. If you are against each other in the future, you can call it arbitrarily. The right element can kill the opponent.

For example, if the opponent is Cultivate's Fire Attribute, let's come to Water Attribute, and water overcomes fire; if the opponent is Water Attribute, then let's come to Earth Attribute.

Ye Kong feels that this man who came first is really an individual talent. If he is absolutely unable to create a cultivation technique by himself, this "Five Elements Immortal Ascension Scripture" is the cultivation technique created by the Five Elements Rogue Master himself based on the five spiritual roots aptitude. technique. According to Five Elements Rogue Master, the advantage of this cultivation technique is that it is powerful, divine sense is strong, and the amount of aura in the body is several times higher than that of the same

stage Immortal Cultivator; the second advantage is that the bottleneck of this cultivation technique is not too serious. It may be because the five spiritual roots are relatively stable, or the foundation of this cultivation method is firmly laid. In short, every bottleneck that plagues other cultivation techniques is not a headache in Five Elements Immortal Ascension Scripture.

Five Elements True Master and it can be said to a large extent that, whether Foundation Establishment or Core Formation Nascent Soul Formation, as long as a medicine pill, you will be successful once, and there will never be the kind of foundation that can't be found if you eat the August-July Foundation Establishment Pill Establishment situation.

Someone may ask, since this cultivation technique is tailor-made for five spiritual roots and has solved the big problem of bottleneck, Ye Kong should cultivate quickly, and what else is he taking time to do?

The key problem is that this cultivation technique also has shortcomings. First of all, cultivation is slow. Why is the heavenly spiritual root good? It is fast cultivation, half the work, twice the effect, and the Five Elements Immortal Ascension Scripture aggravates the slow characteristics of five spiritual roots cultivation, which is slower and slower. It's so slow that you can't imagine it. Of course, it's because the cultivation is slow that it can lay a solid foundation and weaken the bottleneck. It is also because of the long cultivation that the power can far exceed the same stage Immortal Cultivator. Disadvantage two, the aura of Metal Attribute is scarce. According to the Five Elements Rogue Master, this Five Elements Immortal Ascension Scripture is to absorb the Five Elements aura from Heaven and Earth to achieve balance and stability. The auras of the five attributes cooperate with each other and check and balance each other. Therefore, the Metal must be guaranteed after the Foundation Establishment. The five elements of Wood Water Fire Earth are averaged in the body. Others are easy to say. The most troublesome thing is that Metal Attribute is not in the air, and there is no place in general.

Five Elements Rogue Master gave a suggestion to absorb the aura in the Metal Attribute spirit stone. Ye Kong smiled bitterly. He hasn't seen the spirit stone look like yet. If you suck the Metal Attribute spirit stone cultivate, how many spirit stones do you need? It must be an astronomical number.

The Five Elements Rogue Master also knows that it is really hard to get so many Metal Attribute spirit stones, and he gave the second suggestion, to refine the vein of a Metal Attribute spirit stone mine, then you will have a steady flow Metal Attribute spirit.

Ye Kong even shook his head. You dug the veins of other people's spirit stone mines, and cut off other people's money. Isn't that your own death? Might as well think of a way to get a spirit stone.

"Practice or not? The advantage is that it is powerful and has no bottleneck, but the disadvantage is that it is slow and there are more flowers and stones." Ye Kong lowered his head and pondered.

But he quickly made a decision, "Practice! Are there any other options now? According to True Master Wan Xuan, I have to stop at the Qi Condensation Early Stage for my whole life. Five Elements Immortal Ascension Scripture guarantees my success in the Foundation. Established, let's slow down a bit slower." Now that Ye Kong had a decision, he didn't delay anymore. He immediately sat cross-legged and recited the Cultivation method silently. Then he put the book into the inner bag, closed his eyes, laid his palms flat, and began to cultivate.

Immortal Cultivator's realm is divided into Upper, Middle and Lower, Lower Realm is Qi Condensation, Foundation Establishment, Golden Core, Nascent Soul, Divine Transformation, etc. 5 realms, Middle Realm is Void Refinement, Integration, Great Ascension, etc. 3 realms, and in the end Upper Realm, then there is only the last Transcend Tribulation. If you successfully pass the Heavenly Tribulation, you can ascend Immortal World and live the same life as Heaven and Earth.

It should also be noted that in each realm, it is divided into ten/10th Layer, 1st, 2nd and 3rd Layer is called Early Stage, 4th, 5th and 6th Layer is called Intermediate Stage, and the seventh layer is Late Stage. It is ten/10th. Layer is Great Perfection.

Ye Kong doesn't think too much at this moment. At present, he only has to work towards the first goal... Foundation Establishment works hard, just like a marathon runner who has finally taken the first step in a long-distance race. He doesn't know what the future will have. He only knew that since he was on this road, he had to bury his head, gritted his teeth, rush forward, and never look back.

Cultivation and meditation are not the same, but they are also related. Last time Ye Kong cultivated by himself and spent the extremely strong strength before he entered the state of concentration, but today is different. He can feel the spiritual energy in the air converge to him when he starts cultivating, what kind of wind and cold feeling. All of a sudden, he was gone, as if he was wrapped in warm water, very comfortable, and he quickly naturally entered a state of meditation.

What makes people inconceivable is that the first part of the body that starts to inhale the aura into the body... it turns out to be the palm! Ye Kong thought it was breathing, inhaling aura, and then extremities and bones revolving.

But who knows it was actually the palm. However, it is normal to think about it again. The palm of the hand is an extremely sensitive and flexible organ. The palm is the place where the acupuncture points of the human body are the most dense.

Ye Kong clearly felt the strands of Water Attribute and Wood Attribute aura penetrating from the palm of his palm. He felt that the flesh of his palm became a sieve, covered with countless fine and neat eyes, and then the spirit flowed from his small eyes. It flows into the body, slowly transporting into the body from the meridian of the arm.

Fortunately, the first realm Qi Condensation Stage of Cultivate does not require the balance of inhaling aura, as long as it is aura, Ye Kong is like a greedy baby, constantly trying to absorb the aura from the air. However, this aura is not stored in Qi Sea as much as

you breathe. In fact, the aura enters the body. With the Eight Extraordinary Meridians running for eight weeks, the amount of aura that finally falls into the Qi Sea is very small.

A part of the aura is used to nourish all parts of his body and meridians, another part escapes from the inside of the body through the skin, and another part is impurities. These impurities stay in the muscles of the body and are slowly pushed out of the body along with the cultivation.

After many Immortal Cultivators meditate for a long time in closed-door cultivation, they will leave a circle of dark gray dust around their bodies. The black ones are the bad substances inside the human body, and the gray ones are the impurities mixed in the spiritual energy.

So at the Late Stage, the dust discharged from Immortal Cultivator's body is only gray and not black.

Ye Kong didn't dare to slack off, and after cultivating all night, he felt that Qi Sea had a vague aura.

This has already made Ye Kong overjoyed at unexpected good news. He knows that he has stepped into the door. Since then, he is an Immortal Cultivator, but this level is still very low. Ye Haoran can still beat him with a slap. Confused.

However, you have already entered the door, is there still a long way to improve your ability?

What makes Ye Kong even more happy is that his spirit has also improved a lot. It seems that absorbing aura is still good for the soul, and it will not take long for the damaged soul to recover. After the soul grows stronger, it is not a dream to open the Talisman Spell Comprehensive Guide. I don't know what surprises the spell book brought by the earth will bring to me?

"8th Young Master, it's breakfast." Liu Changqing's call was remembered outside.

"Hey, here it is." Ye Kong got up and patted his clothes and walked out the door.

"8th Young Master, you sat all night last night, isn't your leg numb?" Liu Changqing asked, passing the breakfast bun.

Be low-key, still be low-key! People's eyes are poisonous. Just when something happens, others will see it in their eyes.

"Hemp, why not? But there is no bed here, so I can only meditate and sleep." Ye Kong sighed and then laughed, "General Liu, should we change it?"

"Haha." Liu Changqing laughed and said, "I feel sorry for the 8th Young Master. I want the 8th Young Master to sleep more comfortably, but if you let the General know, if you can't eat it all, you'll have to take it home."

From then on, Ye Kong moved the pad to the back of the ancestral hall. It's better to be cautious in everything, but Liu Changqing is not bad, and he has a heart of fawning. Ye Kong is also very happy. Everyone gets along well and time. One day Heaven and Earth passed, and in a blink of an eye, Ye Kong has been introspecting the Ye Family ancestors for a year.

Chapter 18

It was another sunny morning. The blue sky was clear of clouds. Under the sky, there was a busy scene in Southern Capital City.

Many people gathered at the gate of the city. A scholar-like person in front of the bulletin board was shaking his head and reading the bulletin. There were a lot of people dressed as civil servants around him, and there was a lot of buzzing discussion.

"Are you going to recruit soldiers? Is it going to fight again? I haven't heard of it."

"You don't understand. This is called armament preparation. When there is a real war, and then recruiting soldiers, it will be eight lifetimes late."

"It turned out to be like this, Preparedness averts peril. Yeah, this soldier can be a soldier, it's free to live and live, and there is salary, and there is no need to go to the battlefield. I will go back and let my son sign up.

"Cut, Ye Family's military is rigorous in governing the army, and the military laws are very strict. Even if you don't go to the battlefield, the training is enough for you to eat a pot."

"Then let them serve as soldiers. Next door Ma's second son is the Ye Family army. Look at what he says, huh!"

As he was talking, the horse bell of "cackling croaking" came from a distance. Looking up, I saw a rider with a big "post" embroidered on his clothes, riding a yellow pheasant and rushing towards him. The horse kicked back and forth, splashing a line of flying loess.

The horse was galloping, the wind shook the electric switch, but the rider still seemed to feel slow, and the raised whip threw a loud whip in the air."Pop!" The crisp whip made the yellow horse hiss and rushed toward the city gate harder.

"Peace Capital City urgent official document!" The rider roared deep, scared the people who were stuck at the door and wanted to enter the city and retreated quickly, and even the gatekeepers quickly gave up a passage.

"Call~" The yellow horse hissed, and in the blink of an eye he passed through the city gate and brought a breeze full of loess. The speed was so fast that passers-by did not even see the face of the rider, and only left it getting better The far, crisp sound of horseshoes...

Ye Residence Flower Hall.

Ye Haoran everything steady and stable Sitting in the middle of the lobby, bowed his head and savored fragrant tea, a small celadon tea bowl, and small young buds before the rain. Drinking it in one sip, the refreshing fragrance only rises.

"Good tea!" Ye Haoran put down the tea bowl and sighed, "A cup of tea, two or two turbid wines, how long can you calm down these comfortable days?"

I was sighing, and an old servant in Tsing Yi rushed into the house, who was the housekeeper Ye Cai.

"General, there is an express post of Peace Capital City outside!"

"Quick! Come in, please!" Ye Haoran's expression condensed, but his brows wrinkled again.

After a while, the dusty rider strode in and saw Ye Haoran. He knelt down on one knee, held up a wax-sealed paper bag, and said loudly, "See Southern Defence General! Peace Capital City Fang Shi Lang urgently wrote !""Well, you worked hard." Ye Haoran took a sip of tea, then got up and took the letter, motioning the rider to get up and talk.

"Do you have a message from Fang Shilang asking you to take me?" Ye Haoran asked again without opening the letter.

"Report to Southern Defence General! No!" The rider returned on one knee.

"Oh." Ye Haoran didn't respond, and raised his hand to signal Ye Cai to take someone down to receive the reward and send it away.

After Ye Cai took the postman to leave, Ye Haoran walked back to the study, opened the letter, condensed his eyes and read it, snorted, and walked back and forth dozens of times in the study with his hands on his back.

Then the majestic voice of Ye Haoran rang from the study, "Ye Cai! Go and get ready. I will set off for Peace Capital City in the afternoon and call for a Sergeant Ye Family."

"Yes, the old slave is going to do it." Although Ye Cai felt that Ye Haoran was a little rushed to go to the capital this time, as an old housekeeper, he still knows the rules, and the master doesn't want you to know about it.

However, it should be notified to 2nd Madam. A short while later 2nd Madam hurried to the study. Ye Haoran was handing a volume of letters to Ye Family soldiers.

"Call Ye Wei and ask him to take it personally." Ye Haoran said.

"Yes." The soldier put the letter on the sticker, turned and walked out of the study quickly. 2nd Madam hurried up and asked, "General, why are you walking in such a hurry this time? Could it be that something happened in the capital?"

Ye Haoran smiled and said, "Don't worry, that is, your Majesty scolded me twice in the court meeting to hold back one's troops without moving and let the Barbarian Race develop."

2nd Madam was also from a family of officials and eunuchs, and said in deep thought, "Why didn't your Majesty give you an order to kill you, but scold you in the court?"

Ye Haoran sneered, "He is going to show his position to the civil and military officials."

"Then you can send troops to wipe out the khan."

Ye Haoran smiled indifferently, "The day the Barbarian Race was destroyed is the day when my Ye Family started family bankrupt and the people dead."

2nd Madam was taken aback, and then asked, "Then you went to Southern Capital City this time, didn't you make a mistake?"

Ye Haoran laughed and said, "Don't worry, as long as the Barbarian Race is not destroyed, my Ye Family will be safe. This time I want the emperor to rest assured that I will bring more gold and silver, and do it up and down. Nothing will happen."

After Ye Haoran finished speaking, he ordered, "In order to reassure the emperor, I may stay a little longer and leave the house to you. Don't make trouble outside. You should also have a good relationship with a few rooms at home. You quarrel with me. Fighting makes outsiders laugh." "My concubine knows." 2nd Madam bends her legs slightly and bows. This action shows her still round buttocks. Although 2nd Madam is not young, she is well maintained. Ye Haoran couldn't help it. Reached out and squeezed.

"General ~ I'm going on the road, and I'm going to make things worse... Oh, my old husband and wife, what is there to touch, the more I say it is too much, I can't touch the front, um..." 2nd Madam was unhappy, but happy in his heart The old lady is no worse than those little hooves, and she can hook General, and the hooves wait for General to leave to see how I can fix you! And that ugly woman, I remember!

Ye Haoran did not mess around for a long time, because the other rooms also got news, and the sons and daughters also came to say goodbye. There were a lot of people, so Ye Haoran went back to the flower hall to say goodbye to everyone.

When the husband and wife were separated, many little women were jealous and weeping, and they were annoyed by the sight of 2nd Madam: Wave hoof, you perform hard, wait for Ye Haoran to leave, let you know how good I am!

Ye Haoran, of course, didn't know, but he was still trying to comfort some of the concubines who had just received the house, and then told his sons. It seemed that this hall was a benevolent father, filial son, congregate in one hall. No one mentioned that Ye Family has a young master who has been thinking about it for more than a year! Perhaps everyone has forgotten that the fool and the ugly woman were originally forgotten corners, not to mention that the fool has completely disappeared in the past year or so.

Of course, some people remember, such as 2nd Madam or Ye Cai, but will they remind Ye Haoran? Of course not, they wish Ye Kong had better face the wall for a lifetime, and die in the ancestral hall, so as not to be upset by seeing it.

At noon, in the inner courtyard of Ye Family, a figure in a gray coat was walking fast. The old man is getting older but walking in a hurry, making people worry that he might fall at any time.

This is Mr. Zhang Wude from the academy. He only heard that Ye Haoran was going to Beijing when he had lunch, so he put down half of his meal and ran out in a hurry.

"General has gone out, just left."

"Oh." Zhang Wude softened his calf, turned and ran outside the door.

"Sir, what's the matter with you? Slow down..." a handmaid yelled twice, wondering, "Mister Zhang always reprimands others for standing and sitting. Why is it so disgraceful today."

"General Stay!" Zhang Wude's running look is very ugly. He was a little rickety at first, and he didn't run very often. His legs were still half-curved.

But the situation is urgent, he doesn't care about Gentle, he can't watch Ye Kong be detained for another year. Fortunately, after catching up, Ye Haoran had just got on the horse and was waving at the farewell crowd. He saw Zhang Wude rushing out of the crowd and panting on the last carriage.

"Sir, why are you so anxious?" Ye Haoran quickly dismounted and came to support Zhang Wude.

"General...you forgot one thing, 8th Young Master...is still in the ancestral hall, now it's...more than a year..."

Ye Haoran was shocked. Yes, there is also an 8th son. Since the failure of the apprenticeship, I have forgotten that I still have a son thinking about it.

It's been more than a year in a blink of an eye. The longest punishment before was a month of introspection against the ancestors, but Ye Kong has been there for more than a year. Oh my god, it's cold and scary there, and there is no bed. Stayed there for a year!

"Oh, my father's dereliction of duty." Ye Haoran couldn't help but sighed, and then said to Zhang Wude, "Mr. Let him come out, I don't have time to say goodbye to him, so that when he comes out, he will not cause trouble and read more. Don't fight with the brothers... everything is up to Mr. Labor."

In the afternoon, a vigorous young man walked out of the Ye Family ancestral hall. He is much taller than a year ago. What is different from the time he walked in is his looks, actions,

and confidence. After a year of cultivating, a lot of auras have been condensed in his Qi Sea. Those auras are like a cloud of seven colors. His body cannot be seen from the outside, but in fact his thinking, muscles, and bones The armpits are nourished by the spiritual energy far beyond ordinary people.

His eyesight is clear, his eyesight is excellent, his movements are quick, his reaction is very fast, and even his memory has been enhanced a lot. Southern Great Continent's text and poetry have been difficult for him. As for the force of force, he has been greatly improved, even if He has never practiced martial arts, but the hundred-man captain Liu Changqing is no longer his opponent.

"8th Young Master, don't come in again in the future." Ye Kong and Liu Changqing have had a good relationship with Liu Changqing and a group of soldiers over the past year.

Ye Kong smiled and said, "Look at what you said, this Ye Family Ancestral Hall I will come in whenever I want, and it's not a prison."

Liu Changqing realized that he had failed to say something, and smiled embarrassedly, "Haha, I mean don't come in and reflect on your ancestors in the future."

Ye Kong patted him and laughed, "Actually, I would like to stay here for a long time."

In fact, these words of Ye Kong are still true. Since cultivate, he has gone back less often, and no one disturbs him when he stays here. Apart from eating, it is cultivate, which is the best place to cultivate. However, there is another reason why Ye Kong has not wanted to go out, and that is that the Five Elements Immortal Ascension Scripture is still with him. If Ye Haoran wants to come to the ancestral hall to check the treasure book, he will also have the opportunity to put the book back in advance.

And now, he doesn't need to worry, Ye Haoran will not come back shortly after going out, and he can also bring the treasure out safely.

There is another reason for him to leave the ancestral hall, that is, his divine sense is enough to open the Talisman Spell Comprehensive Guide in the Lingtai.

This is great news for Ye Kong. He now has a cultivate cultivation technique. If he is equipped with a variety of powerful spells, he doesn't need to be afraid of encountering Immortal Cultivator.

"Old Liu, don't give it away. I will come back to play when I have time." Ye Kong now calls Liu Changqing a lot more casually.

"Hole, just waiting for you to come back for a drink."

Ye Kong nodded, then shook his arms and walked towards his courtyard, humming, "Only I am the most swaying...no one is handsomer than me..."

Chapter 19

"Mother!" Ye Kong walked to the door of his small courtyard with a warmth in his heart. He couldn't expect to experience the warmth of the family in another world. When he hadn't traveled before, he often watched other people's parents doting on their children so much. Now he There is a mother too.

Although it is a bit ugly, Ye Kong believes that he will have a way to make the black scar on his old lady's face disappear in the future. This is Ye Kong's biggest wish.

Chen Jiuniang didn't hear the shouting from outside. She was busy embroidering. It was urgent for 2nd Madam. She didn't dare to delay. Ye Kong hadn't come back for half a month, and she didn't expect Ye Kong to come back today.

"Mother! I'm back." Ye Kong opened the door and shouted with a smile.

"Yeah!" Chen Jiuniang heard his son's voice, turned his head in surprise, and smiled, "When I come back, I will take a shower and change my clothes, and get a good night's sleep. I'm going to suffer again tomorrow."

Ye Kong laughed and dragged a bench to sit over and said, "There is a good news, a bad news, which one do you want to hear first?"

Chen Jiuniang smiled, still busy in his hands, and said, "Let's listen to the good news first, I'm afraid of hearing bad news."

Ye Kong said, "Well, the good news is...I have been liberated, and I won't have to look at the ancestor's spiritual position anymore." "Really!" Chen Jiuniang looked up and was also very excited. She didn't know that Ye Kong didn't care about the coldness in the ancestral hall. She was always worried that her son might have something wrong with it. Now I heard that I don't have to go, of course I am happy.

"What about the bad news?" Chen Jiuniang was just happy, his brows frowned again, didn't this kid get into trouble again when he came out?

But fortunately, not what she thought, Ye Kong said, "The bad news is that you have to bleed, and my son is going to buy some good things and bring silver!"

"Look at what you said!" Chen Jiuniang groaned, tapping the palm of Ye Kong's palm, and said, "You can buy as much silver as you want."

Ye Kong asked for the silver from Ye Haoran. He didn't hire a martial artist. They all existed in Chen Jiuniang. They saved nearly two hundred tael of silver for more than a year. It's not a small sum of money in Southern Great Continent. Now, Chen Jiuniang also hopes to leave it to Ye Kong to marry a wife in the future.

"Yeah... I don't need much silver for dansha if I buy yellow paper." Ye Kong has been to Southern Great Continent for more than a year. He hasn't been on the street yet. Of course

he doesn't know the prices. After thinking about it, he said, "Or, mother, come with me Going around the street, you haven't been out for a long time, right."

"Huh? Go out?" Chen Jiuniang frowned, bowed his head and said, "I'm... rushing to live, how much silver is needed, just say it." Ye Kong didn't notice her expression, and Yun said, "Whose job is it? Give them white embroidery. It's not bad when I am here to work for them?"

"You, you are like this rogue all day long." Chen Jiuniang smiled and groaned, then lowered his head and said, "Actually, mother... doesn't like going out."

Ye Kong immediately understood. Looking at the low-pitched old lady, she solemnly said, "Mother, don't worry, I will have a way to cure your face sooner or later. Isn't it just melanin deposition? My son is about to become a Divine Doctor. ."

Chen Jiuniang doesn't know what melanin deposition is. She only knows that the black scars on her face will not be good. The best doctors in Southern Capital City said that there is no law to rule, and her son is comforting herself.

"Okay, my mother is waiting for you to treat." Although he knew that his son was comforting him, Chen Jiuniang still showed a very happy appearance.

She is indeed happy, although her face will not be better, but compared with more than a year ago, the idiot has become a genius and will hurt others. What reason is there to be unhappy?

"Don't worry, there will be a way." Ye Kong nodded.

In fact, he didn't brag, he really was about to become a Divine Doctor, to be precise, it was a Talisman Doctor.

To tell the truth, I still have to talk about the Talisman Spell Comprehensive Guide, the book hidden in his soul. It was opened when opened, but only half of it was opened. This Talisman Spell Comprehensive Guide is divided into two types: Spirit Talisman and paper talisman. The so-called Spirit Talisman is a spell that requires aura characterization and casts it with powerful power and aura.

And the paper talisman is much worse. It has no aura and does not have many functions. The yellow paper talisman can also be used on earth.

Ye Kong's current divine sense is not strong enough to be Spirit Talisman's. The few pages he opens now are all paper talisman, and these paper talisman are all healing or exorcising ghosts.

There are Mind Calming Talisman, Clear Vision Talisman, Mind Purifying Talisman, etc., which are not very useful for the current Ye Kong, and he does not want to be a doctor. What he really looks forward to is that he can use Spirit Talisman in the future to send out powerful and powerful combat tools. , Kill a large area, the kind of Spirit Talisman.

Of course, he doesn't know if there are such symbols in the Talisman Spell Comprehensive Guide, but he is confident!

Although he didn't want to be a doctor, after all, he has seen a lot of paper talisman now, so he still wanted to draw a few to try it out, so he hurried out to buy the materials for draw talisman.

"Come back early." Chen Jiuniang gave him twenty tael of silver and didn't forget a few words, "Go out for 10 million/absolutely, don't cause trouble, and don't walk around, keep your arms away, and follow Like a rascal." "Mother, you are wrong. It's not a rascal, it's a rascal. The rascal is the sum of rascals, rascals, gangsters, and Garden disciples." Ye Kong put the silver in the sleeve cage and walked out with a smile.

Chen Jiuniang murmured angrily, "I'm not a good person anyway." Then he lowered his head and started embroidering again.

"Good guys? Good guys can't even get out of the gate!" Ye Kong muttered and came to the door. Today, the man sitting in the concierge was Old Fourth Li who was beaten by him.

"8th Young Master, where are you going?" Old Fourth Li nod one's head and bow greeted him.

Ye Kong is funny. This person is just a bit more powerful. If you are polite to him, he will treat him as if you have no temper. If you beat him, he will treat you like an ancestor.

"I'm going out to buy something." Ye Kong didn't look at him at all.

"Master will take care of you when you go out, Ye Family children should be careful in words and deeds, and don't get into trouble, usually..."

"I'm going out to buy something!" Ye Kong increased his voice this time, staring at Old Fourth Li with two sharp eyes.

"Then 8th Young Master...you walk slowly." Old Fourth Li was frightened by him, thinking that this 8th Young Master is more powerful than a year ago. This kind of villain should stay away. It won't be a smashing brick. Be merciful. Stepping out of the gate of Ye Residence, Ye Kong stood in the sun. Looking back at the gate building of Ye Residence, I saw the big plaque at the gate, the majestic stone lions, and the large stone steps with a primitive and majestic vibe. There are several Ye Family Junjilang in front With a simple knife on his waist, he is domineering. The most striking thing is the powerful characters of "Southern Defence General's Residence", which were actually personally mentioned by the current emperor An Rushan.

"Ye Residence is good, but it's not the place where Ye Kong will stay for a long time." Ye Kong had a desire to go long in his heart, pulling up his blue shirt and walking towards the bustling street.

Walking on the streets of Southern Great Continent for the first time, Ye Kong found it particularly novel, as if he were entering the city with a countryman. Looking around, everything can arouse his interest.

"Hey, there is actually a shop that specializes in repairing broken bowls. There are so many people over there. They are crickets, ah, not crickets. They look fierce, a bit like praying mantis."

Ye Kong walks through the bustling commercial districts, and there are fresh things everywhere. For example, there are also sugar face men here, but the images they squeeze out are the monster images of have three heads and six arms, holding all kinds of weapons in his hands.

The most different from ancient cities on the earth is that in the middle of the intersection of every bustling street, there is a square platform made of blue bricks, about one meter high and square. This is not the station traffic police, this is the ring. Southern Great Continent emphasizes martial arts and neglects literature, and the southern part of Peace Nation is close to Barbarian Race. The people here are more practising martial arts, and the folk customs are not ordinary sturdy. After a few words, I can't help but learn from each other.

But you can't always fight in the street, hurting innocent people? What about smashing the store? So there appeared a ring at this crossroads, privately-owned, but it must be approved by the government. Those who want to learn from each other, go up and play a game of fifty coppers.

Southern Great Continent 100 copper plates is a tael of silver. Fifty copper plates are not cheap, but if they are killed, the boss has to bury them. If they are injured, they will be provided with special medicines for internal and external use, so they are not It's expensive.

Ye Kong happened to see an intersection where a pair of sturdy men with sturdy arms were about to compete. Ye Kong was not in a hurry. He didn't need money anyway, so he hugged his arms and mixed in the crowd watching.

"Below is Cloud Platform Mountain Lu Fei, just let my brother look at my Yuntai Fallen Leaf Palm."

The other also clasped his fist and said, "At San Li, the grandson of the Aoba Gate, I will show you the lightness art of my Aoba Gate-Wan Lifei!"

Next, the two men fought together. One was mainly brisk in the palm of his hand, while the other was known for his agility to drift without a resting place, and he was able to fight hard to untie, hard to separate for a while. This is the first time Ye Kong has watched the Southern Great Continent contest. He was fascinated for a while. Since Cultivation Five Elements Immortal Ascension Scripture, he has a keen eye and an indescribable memory. To the essence of their respective boxing techniques.

"Practice is the best learning. I don't need to ask a martial artist to teach me in the future. I will come and have a look when I have time. I can steal the teacher and use my reaction

and actions to deal with mortal." Ye Kong thought. He settled, seeing that the winner was undecided in the ring, he didn't look at it, and crowded out the crowd.

Ye Kong didn't notice. He squeezed out the crowd, and a tall and strong bald head came out. The bald head stared at Ye Kong's back and several people who were tall, short, fat and thin immediately followed.

After walking a few steps, it was a paper-and-pencil calligraphy and painting shop. Ye Kong nodded, carrying a blue shirt on the front, crossed the threshold, and walked into the shop.

"Does Childe want to buy books or paintings? We have the latest collection of stereotypes, as well as the famous paintings of Tang Bo Niu." A slender shop owner in his twenties greeted him.

"Well, let me take a look at it first." Ye Kong didn't know if there was yellow paper for sale in this world, so he ignored the shopkeeper and looked around.

The thin shopkeeper was very enthusiastic, "Childe, we also have good Yellow State pens, White Stone Mountain inkstones, and the prices are fair." Ye Kong continued to wave his hand, "I don't want to buy a pen, and I don't want an inkstone."

The magan shopkeeper suddenly understood something. He smiled, dragged Ye Kong to the corner of the shop, and took out a stack of thin books from his sleeve.

"Childe, the latest version of the erotic scene awards, each book has 20 copper plates, each book is exciting, and it is definitely worth the money. You see many exquisite paintings, so many beautiful pictures..."

Ye Kong almost fainted, "Hey hey hey, buddy is only thirteen years old this year, do you know this is poisoning a minor?"

"What does it matter at the age of thirteen? I started to read it at the age of ten. The cheapest book is fifteen copper plates, how about making friends at the cost price." Hemp poles still peddled enthusiastically.

"But you are too rough, it's still black and white. If you have sex, you can still consider it." Ye Kong flipped through it casually.

The magan shop owner seemed to like this kind of book in particular, and immediately asked, "***? Isn't it better than this? Childe, why don't we... have a chat?"

"Okay, okay, let's talk about business. Is there any yellow paper on the cover of this erotic book?" Ye Kong muttered after saying, "No wonder it's called a yellow book, the cover and back cover are all yellow."

Chapter 20

Yellow paper is not expensive. I bought three big pieces of 50 copper plates and cut them on behalf of the customer. Ye Kong asked to cut them into two-inch wide and five-inch long paper strips. The shopkeeper did not ask the reason, so he cut them anyway.

A short while later, a hundred and ten long and narrow yellow paper strips were delivered to Ye Kong. After paying, he snatched an erotic scene album from the shopkeeper.

"Buy one get one free." Ye Kong flipped through the book and walked away.

Yellow paper is easy to buy, but Dansha is not so easy to buy. In fact, Dansha is called solid mercury sulfide in technical terms, and the main ingredient is mercury. Southern Great Continent also does not have a chemical store. If you want to buy this thing, it is probably only a pharmacy.

Not to mention, it is indeed sold in pharmacies, but because Dansha is generally rarely used by people, Ye Kong ran to several pharmacies and all were out of stock. Finally, under the guidance of others, he came to the most prosperous Tongchuntang in the middle of the city.

"This is Tongchuntang. I hope I can buy Dansha." Ye Kong muttered under the golden gate plaque of Tongchuntang and walked up the steps.

It is the largest pharmacy in Southern Capital City. The lobby is very wide. People who buy medicine are also coming and going. There are a few people around the consulting desk in the corner and they don't know what they are arguing about.

Ye Kong turned and looked in the direction of the door, and walked straight to the medicine counter. "Is there any dansha sold here?" Ye Kong asked the guy inside.

"Ah? Dansha? It seems there is, you wait." Hearing that Dansha felt a little strange, he hurried to ask the shopkeeper in the lobby.

"Dansha has it, one tael of silver and one coin." The middle-aged shopkeeper replied, looking at Ye Kong, who was in a rough coat outside, and took care of the buddy. "There are still some things in the warehouse and it is difficult to find. Let him give the money first. ."

Since Ye Kong cultivated Five Elements Immortal Ascension Scripture, sharp ears and keen eyes, he heard the shopkeeper's words clearly, and knew that the Real Taoist family was afraid to find out that they could not afford it, so they simply took out ten tael of silver.

"Bring me one or two." Ye Kong put down the silver.

"Good." The man dragged the long tone to accept the silver, and said politely, "Dear guest, there is a bench for rest over there, please rest, I'll go to the warehouse and find it for you."

Ye Kong nodded, walked to the rest area next to him, sat down, closed his eyes and waited.

Ye Kong closed his eyes and his ears became sharper. Not only can he hear everyone in the lobby, but also who is where, what is said, who is the other person... all be very clear about sth.

"This Immortal Technique is really magical." Ye Kong praised in his heart. Qi Condensation one/1st Layer is so keen on the five senses. It seems that it will not be difficult to listen to thousands of miles in the future.

"Divine Doctor Kan, you can help, my mother will be blind if she does not cure her." "If you don't go or not, you have to get money for medical treatment. This is a medicine hall, not a charitable place."

"Divine Doctor Kan, can we count our Lu Family brothers please?"

"No! Why? You want to make a move? You rascals, you know that when you ask us, you don't go if you don't want to go, and if you don't give silver, you won't be treated!"

Ye Kong opened his eyes when he heard this, and looked at the disputed doctor's desk. There are doctors in the big pharmacies, and he looked at the medicine at that time with minor illnesses.

He opened his eyes and paid attention because he heard about the rogues, he wanted to see what happened to the colleagues of Southern Great Continent.

But these two rascals are a bit worse than the earth's rascals. Although these two men are tall and strong, they are dressed in shabby, short, coarse cloth, with a small hemp rope tied around their waists, just like a farmer. .

Those two scumbags were rejected by the doctor, and they were also anxious. The one who looked a little older stared but no strategy left to try, exhaled and pleaded, "Divine Doctor Kan, the adults don't care about the villains, the last time was also The gang forced us to come to Tongchuntang to collect monthly money..."

"Then you go to Dragon Snake Gang to find someone to see a doctor." Divine Doctor Kan coldly interrupted, and snorted, "Don't you want to cause trouble, we have already paid monthly bills, you can't make trouble with us, otherwise Your Gang Lord will not forgive you either." Ye Kong listened and closed his eyes, daring to feel that the two gangsters came here to collect protection fees before, and offended the other pharmacy. Now they want to ask a doctor for treatment without spending money, of course the doctor took this opportunity to retaliate.

Of course he doesn't plan to care. He doesn't have any money. He can't help because he is a fellow from another world. There are so many rogues. Who told you to rude when collecting protection fees? I thought that when I was mixing up on Hanzheng Street, I took special care of the clinic in the film. No one can keep a small pain.

But Ye Kong just closed his eyes and heard the ruffian say in a deep voice, "Divine Doctor Kan, let's do this. We have a gem in our family, which is the heirloom of our Lu Family. If you help my mother, I'll let you watch it once."

Divine Doctor Kan said, haha smiled, "I heard that your precious jade is a long time ago. Isn't it just that there is a faint little figure dance in the moonlight? What's so good about it, look at the tael of silver once, and go to Kan. Don't spend ten tael of silver for a girl in the Spring Tower for one night."

After the Divine Doctor finished speaking, the people around him also laughed, and someone said, "Southern Great Continent has been around for many years, and many people have some shit family heirlooms. The last look is rubbish. I heard that the treasure in your family is OK. You can see the profound martial arts from the dancing villain, but why didn't you brothers become expert?" When Ye Kong heard it, he paid his attention. Indeed, Southern Great Continent has been passed down for hundreds of thousands of years, and many people have treasures, many of which are useless, but there is no guarantee that there will be real treasures.

You can't see the famous, doesn't it mean you can't see it, right? Isn't the Ye Family treasure book recognized as rubbish by Immortals?

The Lu Family brothers pleaded again, but they offended the other doctor a lot. Divine Doctor Kan just ignored them, and they had no choice but to bow their heads and prepare to leave.

"Brother Lu Family, please stay." A boy in a coarse cloth gown stood in front of them.

"Who's hapless kid? It's nothing to you, get out!" Sure enough, no matter what the world, this rascal is a rascal, and his tone of voice is similar.

Ye Kong was not upset, and smiled, "fuck his ancestor's tablet! Kindly treat it as a donkey liver and lungs. Since you don't want my help, then forget it."

When the Lu Family brother heard that he wanted to help, the elder one hurried over to apologize, "Childe, in the next Lu Jun, just in the next brother Lu Yi, the old mother in the family is seriously ill, he has a bad temper, please forgive me."

Ye Kong nodded and said directly, "I have nine or two silvers here. I can barely ask you to be anxious, but I want to see your precious jade."

The Divine Doctor said that it takes ten taels to see a doctor. In fact, he estimated that nine taels would be a lot. Lu Jun was overjoyed and he quickly thanked him. The spectators around all screamed, "Little childe, Lu Family brothers are all rogues, don't be fooled by them!"

"Little childe, there is really nothing to see in Baoyu, go to my house to see my family heirloom, as long as eight tael of silver!"

"Go to my house! Just seven taels!"

"Six two!"

"Take one or two! Take it five and two!"

Ye Kong was about to faint directly. It seems that this Southern Great Continent really has family heirlooms. Alas, I don't know that Lu Family is a good thing.

Lu Jun Lu Yi was notorious. Hearing the noise of the people around him, he immediately snorted and snorted.

At this time, the dansha at the counter had been found, Ye Kong took the dansha, and the Lu Family brothers had also hired Divine Doctor Kan and hired a carriage.

A few people in a car, head to Lu Family.

On the way, Ye Kong learned that the Lu Family brother went to Tongchuntang to collect protection fees a month ago. Not only did he have a bad tone, he also injured two nursing homes. Of course, Divine Doctor Kan hated their brother.

However, the Lu Family brothers were helpless. They were asked to come by their help, and all the money they received had to be handed in. The Dragon Snake Gang was very dark, and the gangsters below had a hard time, but there was nothing wrong with it. I heard that Gang Lord Fan Jiulong is an expert, and his brother Fan Jiushe is a powerful character who appears and disappears unpredictably like a spirit or a ghost. Ye Kong shook his head. It seems that Southern Great Continent's gang hasn't done it yet. Originally, he thought about resume one's old trade. Now it seems that it's not interesting to have a gang like this selfish boss. .

I arrived at Lu Family soon, but when the moonlight had to shine on this gem at night, Ye Kong just recognized the door and waited to watch it at night.

Although Ye Kong's expectations for this heirloom have been reduced a lot, but after all we have given the money, we still have to take a look.

Fearing that the two brothers are playing tricks, Ye Kong reminded him when he left, "Lu Jun Lu Yi, I am the oldest member of Southern Defence General's Residence. If you have something to do, go to the house to find me."

Ye Kong certainly didn't let them find themselves, but just warned them, don't want to cheat, otherwise we can have a way to deal with you.

Although no one in Ye Family regards 8th Young Master as a human being, it is still very useful to frighten outsiders. The Lu Family brothers, including the Divine Doctor Kan, all hurriedly salute.

Ye Kong waved his hand, "Forget it."

As soon as he was about to leave, he heard Lu Jun remind him in a low voice, "Or send the 8th Young Master back home, there are a few Dragon Snake Gang tails behind."

Ye Kong had discovered those who followed long ago, but Lu Jun did not expect to have discovered it too. It seems that the two brothers were not interesting at first. They were probably going to let those guys rob themselves instead of letting themselves look at family heirlooms. "It's just a few gangsters, don't worry about it." Ye Kong felt a little unhappy, damn it, Southern Great Continent is really a good person to do, I don't need to remind you of the urgent need to save you.

Lu Jun saw that Ye Kong was unhappy, so he didn't dare to say more. He just told Ye Kong to report his family by then, and those gangsters would naturally not dare to provoke him.

Ye Kong sneered, do I need to declare his family? It's just been cultivated for a year, let's take a look at the power of this Five Elements Immortal Ascension Scripture!
