

Chapter 2858

“boom!”

“boom!”

...

The terrifying weapon hit the shield and dissipated in an instant, making it impossible to penetrate the shield.

Everyone in the future science and technology country saw this scene as if they were watching fireworks all over the sky.

“Want to break into here?”

“impossible!”

Mr. X smiled and said, “Prepare to fight back!”

The original energy shield absorbed all these weapons.

“Boom boom boom...”

Then all the energy shields were returned. “Rumble...”

Repeated bombardments above the sea.

All the weapons and equipment of the coalition army were destroyed. ...

But how could Levi Garrison not expect this?

The first round of attacks were scheduled to be fully automated weapons, so no personnel were injured.

“The air team, start bombarding!”

Next, Levi Garrison arranged air firepower to strike.

One aircraft began to make repeated strikes in the air.

After the attack, quickly evacuated. “Rumble...”

Countless artillery weapons bombarded again.

At this time, Levi Garrison took out the artifact.

This scared everyone.

This is also OK? ? ?

After some operations, Levi Garrison aimed at the position of the Kingdom of God.

This is a giant crossbow!

It was cast by Levi Garrison from the residue left over when building the artifact.

These residues can't be used even in the hands of high-tech biblical organizations.

But Levi Garrison has an ancient casting technique.

Use all these residues to cast this giant crossbow!

It is a hundred times that of ordinary crossbows!

Regardless of body shape or other aspects!

When this giant crossbow was taken out, the audience was shocked!

I was scared!

This is much larger than many heavy weapons.

Because it is all made of materials from Forbidden Land No. 76, this giant crossbow is dozens of times heavier than imagined.

It is also extremely difficult to transport.

There are many strong people who rely on brute force to even be unable to lift this giant crossbow.

Let alone use it.

In order to exert the greatest power of the bow and crossbow, the strong players on the field must unite before they can be activated.

Levi Garrison naturally couldn't show his strength in front of so many people.

"Next, you are looking for ten top experts to urge the crossbow together!"

Soon, Zhan Xiong Nation waited out ten strong men who were good at strength.

"One or two, shoot!"

The ten powerhouses squeezed their strength and used their strength to pull the crossbow to its full capacity.

"Boom!"

The giant arrow disappeared in an instant like a shooting star across the night sky.

Pulling out a long wave of air in mid-air, like tearing the stars!

At this moment, the future technological kingdom of the Kingdom of God is firmly guarded by the energy shield.

No matter what kind of firepower, it was blocked by the energy shield and turned into a sky full of fireworks for them to celebrate.

Those dignitaries who were having a banquet watched the sky full of fireworks and took out goblets to congratulate each other.

Everyone in the Lab of the Gods is also relaxed.

It's like watching a joke.

"They don't know how powerful our technology is, right? We didn't use this kind of weapon a few years ago, and attacking us now is like tickling it!"

Everyone looked disdainful.

Dare to take the initiative to attack even with this kind of firepower? "Boom..."

But at this moment, suddenly the entire future science and technology city began to shake.

Shaking vigorously, and getting more and more violent!

As if the entire city had to be uprooted.

“this.....”

All of a sudden, everyone panicked.

The dignitaries who held the party and the people in the laboratory of the gods.

What’s wrong?

“Not good! Danger is coming! Danger is coming!”

At this time, the defensive system boiled water and issued a harsh alarm sound.

I saw a stream of air coming extremely fast ahead!

Can’t see what it is!

Even the system can’t detect it!

“boom!”

In the blink of an eye, a giant arrow shot.

Hit with the energy shield.

“哐啷!”

The next moment, the giant arrow pierced the energy shield forcibly.

The energy shield shattered in an instant. “Rumble...”

But the huge arrow shoots towards the city without any reduction in speed.

Suddenly caused huge losses!

Even if the material of this city is unprecedented, it can’t stand the ravages of giant arrows.

“Buzzing...”

However, everyone else reacted, and the movement of the earth and the mountains came again. “Boom...”

Another giant arrow came. Caused a huge loss again...

It’s messed up!

This time the kingdom of God is completely chaotic!

The flames of war are raging, and many areas have been affected.

This is not critical.

The most important thing is-this is the kingdom of God!

Where is the kingdom of God!

How dare ordinary people violate?

This is an infringement of God's kingdom, this is an insult to God!

This is the most intolerable!

To cause such a great loss to the kingdom of God is an infringement of the majesty of the kingdom of God!

“Looking for death!!!”

These “gods” in the Lab of the Gods were all angry.

They were all bullied to the door.

Who can bear this? ? ?

God is inviolable, let alone insulting! “Give the order! The Kingdom of God begins to counterattack! Attack all parties in the world who have not surrendered!”After the order.

The teams prepared in advance by the Lab of the Gods were dispatched.

Countless advanced aircraft and so on also flew out of buildings.

About to fully attack the front. “Buzzing...”

But at this moment, the third giant arrow flew in.

“哐啷!”

“哐啷!”

“哐啷!”

...

The army of the Gods Laboratory that had just been dispatched was hit by this giant arrow head on.

Suddenly, personnel, weapons, and various equipment suffered heavy losses.

At this time, the powerful and powerful people who surrendered were dumbfounded.

It turns out that these so-called “gods” are the same as them.

The same will be killed, the same will bleed, and the same will scream.

This is exactly the same as them.

God?

Chapter 2860

Is this a god?

Doubt!

All parties are beginning to doubt, have they all been deceived?

Is God a scam at all!

They are just a little stronger and call themselves gods!

I was dumbfounded for a while.

All began to doubt.

It was mostly a bloody scene that I saw with my own eyes.

This caused the kingdom of God to collapse directly in the eyes of the public, and it gained prestige.

In the beginning, these surrendered dignitaries and major forces began to wonder if their decision was wrong?

This is the most embarrassing thing for the Kingdom of God!

It is also the last thing they want to happen!

They control the world by relying on the prestige of God.

As a result, the image of God now collapses.

Everyone began to doubt.

This is quite a wave of military sentiment and public opinion.

This is a shameful thing for the Lab of the Gods!

also.

The greater the loss they suffered, the more morale boosted the coalition forces.

At that time, Levi Garrison yelled-see, they are the same as us, carrying a head on two shoulders, they will still fall off.

...

anyway.

The power of these three giant arrows is much greater than the substantial damage they cause.

“Offense! Offense! Don’t let them live!”

The various departments of the Lab of the Gods went crazy.

The system of the future science and technology nation began to attack across the board, and all terrifying advanced weapons were launched.

Launched a fierce attack on the front position.

Whether it is range, coverage, or power, it is rare in the world.

The world was shocked again.

Feel the confidence of the laboratory of the gods.

I saw that any place in the sea ahead was covered by the advanced weapons of the Kingdom of God.

The line of defense that Levi Garrison had set long ago was destroyed in an instant.

But at this time, Levi Garrison had already let the army retreat.

Therefore, the ground destroyed by the Lab of the Gods was completely empty.

“Huh? Commander, shouldn’t we continue to attack? Your special weapon has already caused them so much damage!”

“Yes, why did we retreat suddenly?” ...

Everyone didn’t understand why Levi Garrison retreated.

Levi Garrison smiled: “You’ll know later!”

“Give me an order-to eat all the major forces that surrendered to the kingdom of God! This is the best time! We can’t let them stab us in the back!”

Levi Garrison not only gave the order to retreat.

Now it is even more necessary to aim the offensive direction at those surrendering forces that have been divided and turned into lip service.

Soon all parties launched an attack specifically to deal with these lackeys who surrendered.

Blitz wars broke out.

Under the command of Levi Garrison, the coalition forces almost swept these surrendering forces.

They simply have no power to fight back.

All were destroyed one by one.

At this time, the morale of the coalition forces was greatly boosted.

In one effort, one after another was taken.

As for the surrenders and followers of the Kingdom of God, they were all scared to death when they saw the “bad news”!

I am afraid that the next one will find them.

Even the surrenders who are now in the kingdom of God are beginning to worry.

Soon, the chief mates will know.

Levi Garrison is not only attacking the kingdom of God, but also disintegrating their psychological defenses and increasing the momentum of the coalition forces. And soon, they learned why Levi Garrison’s intention to retreat.

The vanguard team from the Lab of the Gods arrived. powerful! too strong!

Whether it is the strong, or equipped with weapons.

It’s horrible.

If they had just stayed here, it is estimated that they have suffered heavy losses now.

At least half of the people will sacrifice... not only.

There are also a series of beast teams and mechanical teams in the laboratory of the gods!

It feels like a fight with Leviathan!

These have been placed at the forefront, launching a rolling attack! powerful!

Wrong!

The coalition is strong for all parties!

The three giant arrows completely forced out the anger of the gods’ laboratory.

So that they sent all the powerful forces out.

Prepare to leave no hope for the coalition!

But for Levi Garrison, it's still weak!

It's not the chief priest!

What he has to wait for is the main priest!

All his plans are to use three giant arrows to bombard the kingdom of God.

The purpose is to push the Lab of the Gods in a hurry and let them release all their hole cards.

Including the main priest!

Chapter 2861

Levi Garrison always wanted to force the chief divine division out, and then he could release all his strength to fight.

However, it was still not enough to force out the main priest.

It seems we have to continue...

"Pass my order and withdraw! Leave a small group of teams to harass!"

Levi Garrison is still an order-retreat.

Small groups of teams harassed, but the result was terrible.

One by one suffered heavy casualties!

The army that encountered the laboratory of the gods was completely defeated and defeated.

Not one level!

The Lab of the Gods vented their anger completely.

Use the strongest equipment and the strongest superpower to attack and crush in turn.

For a time, the coalition defense lines were breached one after another.

But Levi Garrison hadn't had any good way to resist, he just kept retreating.

At present, all eight lines of defense have been lost.

Fortunately, Levi Garrison had set up a lot of defense lines in advance, otherwise, they would have threatened the fundamentals.

However, behind the coalition forces led by Levi Garrison is an ally-the Giant Bull Nation.

If Levi Garrison retreats blindly.

Then it is equivalent to completely ceding the Giant Cow Kingdom to the Lab of the Gods.

The Lab of the Gods will swallow the Giant Cow Kingdom without hesitation...

"The commander-in-chief can't retreat anymore! If he retreats again, it would be equivalent to abandoning the giant cow country. We will fight anyway!"

"Yes! Once an accident occurs in the Giant Bull Country, I am afraid our federation will fall apart!"

"You must fight! You must fight anyway! I suggest, gather all the coalition forces here to fight the Kingdom of God, right?" ...

The lieutenants of all parties began to persuade Levi Garrison.

Everyone's suggestions are almost the same.

They are all required to gather all the forces to fight to the death with the laboratory of the gods on the ninth line of defense.

Levi Garrison refused, "No! It's not suitable for a decisive battle for the time being! I don't think it will come at that time!" What is the final battle now?

Even if you are finished.

Even won.

What is the use.

The main priest is still there.

The more powerful ones are still there.

If he suddenly came out, Levi Garrison might not be able to take care of the overall situation.

At the moment, we have to fight steadily, and step by step to force the main gods out is the right way.

“what?”

The words came out.

The audience was in an uproar.

The lieutenants looked at Levi Garrison in disbelief.

“What do you mean by commander?” Everyone asked.

“Withdraw! For the time being, we have to continue withdrawing!” Levi Garrison ordered.

“Ah? In this case, wouldn't the Giant Cow Country be handed over to the Lab of the Gods? The place will be destroyed and everyone will die! The Giant Cow Country is our ally!”

“I don't agree to retreat!”

“I also don't agree to retreat!” ...

Even the relevant personnel of the Giant Bull Nation in the coalition force strongly opposed Levi Garrison.

After all, this involves their survival. Levi Garrison was happy: “That's not what I meant for you to retreat!”

“First of all, we first adopt the tactics of harassment. Every moment, every place harass the laboratory of the gods, disturbs their attention, and delays their progress!”

“Secondly, let's not withdraw! Let's guard here first! Even if the Gods' Laboratory comes, we have to stop!”

“But all this is actually to cover the retreat of everyone in the giant cow country!”

“According to my order, everyone in the giant cow country will withdraw by the early hours of tomorrow morning! All those who want to survive will withdraw!” Regarding Levi Garrison’s decision.

Everyone still has no obstacles.

At least he wants to keep the giant cow nation up and down.

Everyone can only listen to Levi Garrison.

All sorts of harassment began on the army of the Gods Laboratory from the front.

Even if the sacrifice is great, it must be harassed.

As for the giant cow country, it immediately began to retreat.

At this time everyone saw the benefits of Levi Garrison’s deployment of defenses in advance.

Arrange most of the world as a defensive area in advance, so that most areas are under control.

It is like now that the giant cow country can flee to any area behind it.

It’s all alliances anyway.

But if Levi Garrison hadn’t arranged it in advance, now the left and right sides may be enemies.

There is no place for the giant cow country to withdraw.

Everyone once again admired Levi Garrison’s brilliance.

The army of the Gods Laboratory was harassed by all kinds of harassment, which really slowed their progress.

However, there are still many strong men who broke through everything and came to the ninth line of defense ahead of time.

Levi Garrison was in charge and commanded the defense of the coalition forces.

The two sides fought extremely hard.

Especially on the coalition side, encountering the powerhouse of the Gods Laboratory, it was even more defeated and suffered heavy casualties.

Fortunately, the commander is Levi Garrison, who arranges each party in the most reasonable position to ensure that everyone's strength is maximized.

Otherwise, it might have been breached long ago.

Chapter 2862

Over time.

The harassment would have no effect, and the army of the Gods Laboratory at the rear was also suppressed.

The coalition positions suffered the strongest attack.

Everyone felt the power of the Lab of the Gods.

This is their true strength.

Both the strength of the strong and the weapons and equipment are one level higher than that of the coalition forces.

Levi Garrison could only do everything possible to bridge this gap.

For example, let the strong people of the Bible organization come to reinforce it...

This battle lasted more than three hours.

The coalition forces have suffered heavy casualties.

But at this time the good news also came, and the evacuation of the giant cow country in the rear was complete.

Their task is completed.

“Withdraw! All withdraw! Withdraw quickly!” After receiving the message.

Levi Garrison immediately ordered the retreat.

Give up the ninth line of defense.

soon.

The ninth line of defense was breached by the army of the Gods' Laboratory.

But after arriving, they found that the ninth line of defense was empty and all evacuated.

“Hahaha!”

“Who can stop the power of my kingdom of God? Just a bunch of tortoises with shrunken heads!”

Breaking through the ninth line of defense, everyone in the Kingdom of God began to cheer.

“Behind is the Giant Cow Nation, destroy the Giant Cow Nation in one breath!”

“The Giant Niu Nation will be the first country to be destroyed by our kingdom of God! This is for the whole world to see! The ultimate means must be used!”

“We defeated the Giant Bull Nation in one fell swoop, and let the alliances of Daxia directly collapse!”

“I don't want to see anyone in Giant Cow Country, including all creatures, alive!”

The army of the Gods' Laboratory is attacking non-stop.

Kill directly to the giant cow country.

The army marched in directly.

Soon came the giant cow country.

But after coming.

Everyone was scared.

All streets are empty.

There are no people in all buildings.

Ghost town!

The giant cow country is full of ghost cities!

No one has it!

The entire country has been evacuated, and no one can see it.”I see! The Daxia coalition forces initially withdrew, but they fought with us just now, and they harassed us in the front, just to make the giant cow country withdraw!” ...

The Lab of the Gods quickly understood everything.

Now it is equivalent to guarding an empty ghost town.

It is of no use to them.

It will not have any deterrent effect!

This makes their noses crooked.

But what’s the use?

“Continue to attack!”

“As long as we bypass the giant cow country, our offensive range will be much wider!”

“Press it up!”

...

Levi Garrison, who was on the tenth line of defense, was discussing with them.

Suddenly received a message that the army of the Gods Laboratory was pressing up.

The speed is much faster than they expected!

Everyone looked at Levi Garrison one after another.

If nothing happens, you have to evacuate again! “The commander has to think of a way, he can’t withdraw forever!

There must be a way to deal with it!”

“Yeah, we have all withdrawn ten lines of defense! The previous lines of defense are okay, they are basically on the ocean!

But the back line of defense involves our countries! When the time comes to withdraw a line of defense, it is tantamount to surrendering an ally! “

“The retreat of the Giant Nation is very successful! But can’t dozens of countries learn from the retreat of the Giant Nation? Where can it finally be withdrawn?” ...

Everyone is talking about it.

indeed.

Levi Garrison did have a set of ideas in this regard, and he had the right idea.

However, the opponent is too powerful, so that the tricks can only be used for a while, and in the end it is still unstoppable.

Especially now Levi Garrison has no good way to retreat blindly.

Leading to a chaos in the military.

Many people have begun to feel that Levi Garrison is not suitable for the position of commander.

Although he is capable, there is no good way to do it when needed.

Then it can only be replaced by someone else.

The change of coach is not small. is everywhere.

Chapter 2863

Levi Garrison in the position of commander-in-chief frowned, he was also thinking of a way.

How to get the main priest out?

According to the current posture.

Unless it is to make the Lab of the Gods suffer a huge hit or make them fail.

It is possible for the chief priest to be dispatched.

But if you don't make a move, you don't show the ultimate hole card.

How easy is it to defeat the Lab of the Gods?

What if all the coalition forces are gathered?

Whoever is white, most of them will be cannon fodder. No effect.

Unless the war eagle nations also unite in.

Levi Garrison, the powerful of the Eagle Nation, understood it, even if he didn't know the details.

However, the Warhawk Nation has a clear stand, and will not form an alliance or surrender.

It is difficult to join forces.

Other ways.

Levi Garrison still didn't think about it.

Therefore, only after encountering the army of the Gods Laboratory will it steadily retreat.

He has much more consideration than everyone present.

But it is undeniable, if you want to defeat the laboratory of the gods.

You have to follow Levi Garrison's rhythm.

Others don't even know the composition of the Gods' Laboratory.

Everyone knows that the real power of the Gods Lab is the main gods.

"Commander, do you have a good way? Are you just waiting to withdraw?"

"Really! It's better than we gather all the strength to face them head-on!"

...

Everyone stared at Levi Garrison, waiting for their answers.

"Most of the coalition forces retreat!"

"Leave small teams to harass them and consume them as much as possible!"

"In addition, we lay down regular bombing weapons under our line of defense! When the army of the Gods' Laboratory arrives, they will all be ignited!"

Levi Garrison immediately gave the order.

Everyone looked disappointed when they heard the word retreat.

They gave Levi Garrison opportunities again and again.

Now that he has the tenth line of defense, he still has no way of retreating.

Everyone's opinion of him also changed.

The lieutenants quickly gathered together in private.

"Are we all suggesting to change the coach? Levi Garrison can't do it!" The initial retreat was understandable.

But it was still retreating later, which disappointed everyone.

Disappointment again and again.

They are all withdrawn to the “eleventh line of defense.” Except for retreat and harassment.

Levi Garrison had no choice.

This is what makes everyone disappointed!

There is no way, so what are you doing?

Who can solve the current dilemma?

This is the truth since ancient times.

Levi Garrison is a military adviser, and it’s okay to support him, but he doesn’t seem to be the coach at the moment.

“I think Levi Garrison is still suitable to join the think tank as a military adviser, and come up with ideas or something! As for the coach, let’s change someone!”

“Well, let’s report it first! It is estimated that it will take a while for everyone to make a decision! At that time, under the command of Levi Garrison, it is estimated that we have withdrawn several lines of defense!”

“Yes! Now he has no way to solve it, he can only retreat! The next thing is the same, we recommend changing the coach in advance!”

“Do you agree?”

“Agree!”

...

Where did Levi Garrison know that most of the lieutenants have jointly replaced the coach.

He was still figuring out how to lead the chief priest to come.

The tenth line of defense has been abandoned.

Soon, the army of the Gods’ Laboratory was overwhelmed.

“Rumble...”

But Levi Garrison's presets all exploded at this moment.

Caused a lot of impact and damage to the Gods Laboratory.

But on the whole it is basically negligible.

That is, what a bunch of lieutenants said was useless.

There will be no substantial harm to the Lab of the Gods at all.

Next is the eleventh line of defense.

It is also a vital line of defense.

This line of defense fully connects seven countries.

If this line of defense is broken, seven countries will be in danger, which is equivalent to opening the door to the laboratories of the gods.

Suddenly, the Lab of the Gods will have seven more options.

At that time, we will go to defend one by one, and it is estimated that the defense will not be enough.

Seven countries will fall into disaster.

This is something you don't want to see.

The giant cow nation has all evacuated to these seven countries.

Can't we continue to evacuate, right?

Moreover, it took so much effort to withdraw a relatively small giant country.

If the seven major countries are withdrawn, I don't know how much it will cost.

Moreover, if the seven countries were to continue to evacuate, it would be equivalent to putting all the dozens of countries in the rear to the laboratory of the gods to attack. therefore.

Chapter 2864

The eleventh line of defense is crucial.

Never lose it!

You can say that.

The eleventh line of defense was lost.

The coalition lost a third!

If the seven countries after the eleventh line of defense fall again, it is equal to half of the loss.

Even in theory, it is undoubtedly a loser.

therefore.

All parties are more optimistic, fighting to the death on the eleventh line of defense!

The best to win.

There is no way to win.

In short, the eleventh line of defense must not be allowed!

But these lieutenants probably figured out Levi Garrison's routine.

He still has no idea, and there is a high probability that he has to give up the eleventh line of defense.

Then let the Seven Kingdoms retreat behind you!

The tenth line of defense is a routine.

He had no way at all, and he would not face the laboratory of the gods.

There is really no way except harassment.

Sure enough, after retreating to the eleventh line of defense, Levi Garrison didn't give the order to all be stationed here.

Instead, everyone was on standby, waiting for his orders.

It seemed that Levi Garrison would probably give the order to retreat.

This is exactly the same as everyone expected.

While observing the movements of the Gods Lab, the lieutenants waited for the above decision-whether to change the coach.

Levi Garrison was also hesitating.

Where did he not understand the importance of the eleventh line of defense.

What he thinks is to pull all the power over to fight frontally or other ways...

For example, continue to retreat, continue to think of ways...The army of the laboratory of the gods quickly passed the giant cow country and pressed up.

Very close to the eleventh line of defense.

To say that Levi Garrison is testing, in fact, they are also testing.

Their purpose is similar to that of Levi Garrison.

Levi Garrison was thinking of a way to force the chief priest out.

And they attacked in an all-round way, in order to force the existence of Daxia's two types of legends, of course, the premise is...

However, it is clear that the Lab of the Gods has the advantage.

Now they are aggressive and put the coalition forces into difficulties.

If this goes on, sooner or later, it will be forced out.

But Levi Garrison still had no choice.

“The main divine division ordered-the eleventh line of defense must be broken! This is very important!”

“They predict that the enemy will fight back frantically here! This is a big battle! The chief priest hopes that we must win it! Under the premise that they don’t make a move!”

The Lab of the Gods also received the order, ready to launch the most violent attack on the eleventh line of defense!

This battle is the key!

After being played, the real hole cards may be forced to come. therefore.

Mr. X personally came to supervise the battle.

The powerful power of the Lab of the Gods should be used here.

This battle is crucial.

Soon Mr. X came in person.

There is also a strong man and top weapons and so on...

In addition to the vanguard team in the laboratory of the gods, the subsequent army gathered one after another.

The Lab of the Gods was also not anxious to attack, but gathered all the power.

Start a fight to the death!

The atmosphere of the war is permeated everywhere.

The coalition forces on the eleventh line of defense felt oppressed.

They are discussing one by one.

The enemy army on the other side is making drastic preparations.

There is no movement on their side, can they not panic one by one?

“What’s the matter with the commander?”

“Are there any plans yet? Wait, the enemy will come over!”

“Should he continue to evacuate? Then are we all over!” “I don’t think he is suitable to be the commander-in-chief, so he should be replaced by someone else!”

“Now everyone is dissatisfied with him!”

...

The war was about to start, and now there are too many people who are dissatisfied with Levi Garrison.

This voice is everywhere in the coalition forces.

After all, the coalition forces are gathered from all sides. It’s not Daxia.

They don’t have the so-called feelings, and they don’t know Levi Garrison’s saving Daxia again and again.

They only saw Levi Garrison’s ability to solve this matter.

Replace if there are any!

The soldiers are so, and the lieutenants are even more dissatisfied.

And the emotions are getting bigger and bigger.

I almost spoke in front of Levi Garrison.

“Believe it or not, Levi Garrison will still retreat next! Give up the eleventh line of defense and let all the seven nations behind him withdraw!”

A lieutenant said.
