

Chapter 2483

Katy Cobb's expression slightly changed. Then she pondered and inquired after a while, "Who is the one who poisoned Grandfather?"

"This..." Harvey York thought for a while and said, "For this Ice Poison to enter the body, it must be consumed, and it is most likely mixed in food or drinks."

"As for who the perpetrator is, I can't infer that, but I think you should know, Sir."

Harvey said it firmly, which also made Katy's expression change, again and again. Apparently, she also understood what Harvey meant.

The one who could do this was undoubtedly very close to them and was trusted by Dean Cobb.

There weren't many such people. Thus, it was not difficult if he wanted to find out about it.

However, once it was proved that the perpetrator was one of the relatives, then the Cobbs might be looming in chaos.

At this moment, Dean suddenly trembled all over. A black stain appeared on his face, and he felt an indescribable pain.

His entire body began to tremble as if he would die at this moment.

“The poison is attacking his heart!”

Harvey's expression slightly changed. He never expected that he would not be able to suppress the poison in his body after he pointed out Dean's situation.

However, this was normal too. Presumably, Dean knew who the perpetrator was, and his grief was greater than death.

This made him lose his mind, and he could not

suppress the poison in his body.

“Grandfather! Hurry up and save my grandfather!”

Katy looked panicked.

“Don’t rush. Let me do it!”

Harvey quickly took action and tapped several major acupoints on Dean’s chest, instantly sealing his blood flow.

He then took out another scalpel and poked several acupoints on Dean’s left hand.

Black blood flowed out from the wound this time, and it solidified into ice almost immediately when it dripped onto the ground.

Harvey then gestured toward Katy to bandage his wound after the black blood flowed out.

Dean’s trembling gradually subsided at this moment.

He became a little conscious instantly and no longer felt as sluggish as before.

Meanwhile, Dean, who returned normal, raised his hands in disbelief.

Although both his hands were now bandaged, Dean still could not believe it. “I can move my hands?”

“What?!”

Initially calm and composed, Katy was shocked after hearing Dean’s words. In disbelief, she asked, “Grandfather, you can feel your arms?”

Katy knew full well that her grandfather could not even hold the chopsticks with his hand those days. Now that he could move them, it was definitely a miracle.

Harvey smiled and said, “It’s normal to be able to move your hands. I took the opportunity to

get rid of all the poison hidden in the upper body of Elder Cobb just now. Now half of his body should be back to normal.”

“That’s right.”

Dean twisted his body with difficulty. Then, he smiled after a while. “I haven’t felt this way for a long time. Although I still couldn’t move my lower body, at least half of my body could move.”

Katy grabbed Harvey’s hand excitedly. “Young Master York, hurry up and force out the remaining poison inside my grandfather’s body!”

Harvey nodded and said, “I can, but not now.”

Katy was stunned for a moment. Then, she quickly replied, “Young Master York, I know that the terms that I just mentioned aren’t enough. Just say whatever you want. I’ll give you everything as long as I have it!”

Dean also closely looked at Harvey. He wanted to know what Harvey wanted before he was willing to help him completely remove the poison from his body.

Chapter 2484

Harvey York laughed and said after seeing the serious expressions of the two of them. “You two, do I really look like someone who would ask for a lot of money?”

“The reason why I said not now isn’t that I want to bargain anything, but because the toxins in Elder Cobb’s body cannot be removed in a short period of time.

“This is because the poison has been in his body for too long like a maggot attached to the bone. If you want to remove it, you can’t do it by conventional methods.

“However, fortunately, Elder Cobb is a master, so there’s still hope!”

“So, you are saying that...” Dean Cobb seemed to have thought of something and asked at this

moment.

“I’m saying that I might need you to put you in danger to let you live,” replied Harvey softly.

“I need you to completely release the suppression of the toxins in your body and let it break out. When it has completely broken out, I’ll remove it in one go, and it will be gone.”

“Letting the toxins break out?” Katy Cobb looked worried. “But what if it fails? Wouldn’t my grandfather die on the spot?”

“That’s right.” Harvey said indifferently, “That’s why I said that I might put you in danger to let you live.”

“Based on Elder Cobb’s situation now, there is no way to remove the toxins altogether from the body by conventional methods, including what I just did. It would only help suppress them for a while, and it is only a temporary solution.

“But this kind of suppression can only have an effect up to ten days or half a month at most, and it may not be effective the next time!

“The only way is to let the toxins break out and get rid of them in one go. Although it is very risky, it’s also the only way to save his life.”

Katy’s expression kept changing frantically. Apparently, she knew very well that the risk of performing such a method would be great. If Harvey is not careful enough, she might lose her grandfather forever.

Just when she was having difficulty deciding, Dean suddenly waved his hand and gestured Katy not to speak. He then squinted at Harvey and said, “Young Master York, I wonder what are the chances of this succeeding?”

Harvey thought for a while and answered, “Fifty percent.”

Katy's face instantly turned pale, and she shrieked, "Just fifty percent?"

She was about to say something, but Dean was already laughing and said, "Fifty percent? Your ability is indeed amazing, Brother York!

"I initially thought you would say thirty percent!

"Moreover, having fifty percent chances of succeeding in my situation is already a great thing!

"In that case, I believe in you. I'll fully cooperate with you!"

Dean made up his mind. "Just do whatever you want. I'll cooperate with you!"

Katy regained her composure after seeing her grandfather's expression. She said softly, "Yes, we'll fully cooperate with you. No matter what you need, just say it.

“I’ll cooperate at all costs.”

“Okay.”

Harvey slightly nodded. He then narrowed his eyes and glanced around. He said, “The thing that I want you to do isn’t difficult, remove all these things.

“Then, go get the medicine following this prescription and let Elder Cobb consume it continuously.

“I’ll come here again after seven days. Then, I’ll have a fifty percent chance of successfully removing all the toxins from his body at that time.

“But it’s only fifty percent. You will need a backup plan.”

Katy slightly nodded, and her gaze fell on the prescription in her hand. Her face changed

drastically after a while, looking horrible.

“Highly toxic drugs?!”

Apparently, the prescription given by Harvey contained highly toxic drugs.

<https://t.me/HarveyYorkEnglish>

Chapter 2485

Harvey York replied indifferently, “Yes, the highly toxic drugs. The more potent and older the poison, the better.

“These are all starters, used to completely induce the Ice Poison in your grandfather’s body.

“We’ll use poison to quell poison.”

“Poison quelling poison.”

Katy Cobb’s expression changed after a while. She then said softly, “Okay, since you said so, I’ll procure all these things as soon as possible.”

Dean Cobb also glanced at the prescription. He smiled and said, “Katy, since Young Master York is willing to give such a prescription, that means he is really treating us as his friends.

“Anyway, we’ll do what we can. This time, you

can't blame Young Master York regardless of whether it is successful or not, do you understand?

“Young Master York, just do whatever you want. I'll bear whatever the price!”

“I'll do my best.” Harvey smiled. “Sir, you must hold on for the next seven days and let the Ice Poison break out. The process will be a hundred times more painful than death.

“But since Elder Cobb is a martial arts master, it shouldn't be difficult for you to hold on, right?”

Dean laughed and said, “At this point, what I fear most is that I lose consciousness and reasoning, just like a vegetable.

“Feeling pain makes me feel that I'm still alive!

“So, don't worry, Young Master York. It's only seven days, I can endure it!”

“Okay, I’ll see you in seven days then.”

Harvey then left with Katy after he told Dean a few more things.

After Katy quickly called and ordered the prescribed things, she then looked back at Harvey and said, “Young Master York, thank you very much.

“We were initially in opposition, but you kindly helped. I can’t thank you enough.”

Harvey smiled and said, “This was initially a deal between you and me. I’ll certainly go all out.

“But you have to control your subordinates from Nanyang for the next seven days. If I get killed by your people, then your grandfather will be finished.”

“You can rest assured.” Katy smiled sweetly. “I promise, the people from Nanyang won’t hurt

you, but no one else would even be able to touch you!

“Whoever dares to mess around with you in the future is certainly going against me. Don’t even think about laying a finger on Young Master York before stepping over my dead body!”

“Do you need me to send the eight masters of Nanyang Gang to protect you?”

Obviously, Dean was very important to Katy. Thus, she must protect Harvey at all costs.

“No, I can still protect myself.”

Harvey smiled.

“Please control your people and the Nanyang Gang.”

It was already late at night after Harvey left the Nanyang Gang.

Harvey initially wanted to call Yoana Mendoza to

come and pick him up. However, he did not do it after thinking about the ambiguity and awkwardness between the two of them today.

Harvey took a deep breath while walking on the streets of Kowloon City. He then squinted at the scene of people feasting on the side as well as the busy crowd.

Harvey was full of curiosity and green with envy towards the lives of those ordinary people.

Unfortunately, he was destined to be unable to live a simple life like ordinary people.

After all, some people led extraordinary lives.

Just when Harvey was lamenting and wanted to find a late-night snack stall to drink and have some barbecued meat...

A car with a casino license plate suddenly stopped ahead.

Then, a few men were seen escorting a drunk girl, who was wearing a college uniform, out of the car.

The girl was apparently a little reluctant, but since she was drunk, she did not put up much resistance and she could not push away some of the male Islanders around her.

<https://t.me/HarveyYorkEnglish>

Chapter 2486

“Hurry up and bring her over. Young Master Takei has been waiting for a long time!”

“Tsk, tsk, tsk. I have to admit that the ladies of the great Country H are amazing. It’s no wonder Young Master Takei has a crush on her at first glance. Thus, we’ll have to bring her over no matter what.”

The leading male Islander had the word “Kamishita” printed on his clothes.

He had a wretched smile, and he looked devilish. “I didn’t come to Hong Kong for nothing this time!”

He also reached out and groped the girl as he spoke. He seemed to be very satisfied with her.

The girl slightly struggled and seemed a little conscious but was not fully awake yet.

Meanwhile, her hair was covering her face, which made Harvey York unable to see her.

Harvey slightly frowned. This was a notoriously gray area, and many women were engaged in this field, compensated dating.

Thus, Harvey was a little hesitant, thinking about whether to take action or not.

If this girl were voluntary, he would be considered nosing in, meddling with other people's affairs.

The two parties brushed past each other. Harvey then unconsciously glanced at the few male Islanders.

Obviously, a couple of male Islanders had complacent smiles on their faces. As for that girl, she continued to struggle a few times again, seeming reluctant to do so.

It was just that she was too drunk that she did not have the strength to resist those men.

Harvey slightly frowned, and his face looked strange in the next moment.

This was because he could clearly see the girl's face when she slightly raised her head.

The Fifth Young Lady of the Hamiltons, Zina Hamilton?!

Harvey never expected to meet Zina in this place, and someone even picked her up.

Although he often heard about such things, Harvey was still shocked when he actually encountered such a thing.

Meanwhile, Harvey did not care about the past grievances between him and Zina. He just turned around unconsciously, grabbed Kamishita's collar, and shouted. "Wait a minute!"

Several Islanders who were drunk stopped at the same time. They squinted at Harvey.

“Idiot!”

Kamishita, who was grabbed by the collar at that moment, squinted at Harvey and said coldly, “Let go of your hands. Kneel and apologize to me. Otherwise, I’ll cut you!”

Harvey said coldly, “This woman is my friend. You can’t take her away!”

At this moment, Harvey smelled a strange aroma coming from Zina’s body.

The aroma was potent, making others feel a little dizzy.

Harvey instantly knew that Zina was not simply drunk but was actually drugged.

“How dare you meddle in the Islander’s business?”

Kamishita's eyes were cold. He stared at Harvey and said, "This is the woman that Young Master Takei has a crush on. Regardless of whether you are her friend or her man, get out of here this instant!

"She must accompany Young Master Takei tonight! Whoever dares to stop him dies!"

Along with Kamishita's shouting, several other male Islanders also turned around, holding the daggers around their waists, staring at Harvey with vicious gazes.

Naturally, those Islanders would move without hesitation as long as Harvey had made an extra move.

"Idiot, don't you know the meaning of minding your own business?"

"If you are hacked to death by us, no one in this place can help you!

“Also, hurry up, kneel and apologize. Otherwise, you will die, right?”

In the midst of the conversation, several men who were obviously gangsters from the streets walked over. All of them were holding machetes and stared intently at Harvey.

Possibly, they were thugs or subordinates of those Islanders and were responsible for covering up their wanton behavior.
