

Chapter 2479

“Moreover, even though I did react just now, I’m afraid that only masters who were of the level of God of War could resist my sudden attack.”

“Since you can handle it calmly, I definitely know what it means, Young Master York.”

Dean Cobb sighed and said, “I’ve studied history when I was young, and I was never convinced.

“Because no matter which era of history, it is always pointed out that the great Country H is a place that is full of great talents.

“Later, the great Country H produces a legendary character.

“The Chief Instructor of Sword Camp.

“The advent of this person has made me understand what is meant by fate and a great

country with a thousand-year history!

“I didn’t expect that there would be another character like you in the great Country H apart from the legendary Chief Instructor!

“Over time, the great Country H might soon become the top country among the powerful countries!”

Dean sighed, apparently convinced of Harvey York.

Katy Cobb could not help but glance at Harvey a couple more times.

Her grandfather was a snob.

When they first came to Hong Kong, the Four Young Masters of Hong Kong, Young Lord York, and others had come to visit him, hoping to invite the number one master of Nanyang to be their guest.

However, he fobbed them off with the excuse that he had been ill.

After those people left, Dean's impression of them was just mediocre.

Unexpectedly, while facing Harvey, Dean was so generous with words and even praised him.

Most importantly, he also hinted that Harvey was a master on par with the level of a God of War.

At this moment, Katy felt relieved that she was not too harsh toward Harvey.

It was very difficult to find a King of Arms in the world, and the God of War was even more of a supreme existence.

Only a God of War could deal with another God of War.

Harvey became a God of War at a young age.

Perhaps, only the legendary Chief Instructor could be on par with him in this world.

Katy curiously asked while thinking of this, “Grandfather, after I came to Hong Kong, I heard a rumor saying that Vince York is the legendary Chief Instructor. I wonder if it’s true?”

“Him?”

Dean just smiled with slight sarcasm on his face.

“He is indeed a God of War, but he only managed to become one with drugs.

“How could such a person be the legendary Chief Instructor?”

“The Chief Instructor has trained and groomed many Gods of War!

“The myth of the military of the great Country H and the living legend is not just hearsay.

“If there are different levels in the world, then

the God of War is above the King of Arm, and the Chief Instructor is above the God of War.

“You should still remember the young God of War from the Morenos?”

Dean was deep in thoughts.

Katy thought for a while and said, “The one who tried to invade the great Country H seven years ago?”

“That’s right.” Dean sighed. “I’ve fought the Moreno God of War before. His prowess is extraordinary. Moreover, he is young and energetic. He certainly has a bright future!

“Unfortunately, in that battle, he met the young Chief Instructor who had just debuted and was still obscure at that time!

“One slap!

“Just one slap!

“It is said that the Moreno God of War was slapped to death with a slap!

“After I found out about this, I went to meet the Emperor of Nanyang overnight and asked him to retreat and pay tribute to them!”

“It can be said that the one slap by the Chief Instructor, not only did it kill the Moreno God of War, but he also crushed the Emperor of Nanyang’s ambition to dominate the East China Sea.

“Conquering one country all by himself. The legendary Chief Instructor has such ability.

“That brat, Vince York, how dare he have the nerve to claim that he is the Chief Instructor?”

“Nonsense!

“Wasn’t he still breastfed in his mother’s arms when the Chief Instructor became famous!”

Chapter 2480

Harvey York smiled on the side and said, “Thank you for the praise toward the Chief Instructor of the great Country H, Elder Cobb.

“It’s just that the Chief Instructor has mentioned on countless occasions that the entire army deserves the credit for making the great Country H invincible.

“The great Country H brought the Chief Instructor up, not the other way around.”

Dean Cobb nodded and said, “Yes, the Chief Instructor of the great Country H, not only is he excellent in both character and prowess, but he is also very low-key. Thus, only a few people know his identity to this day!

“If I have a chance to meet him, I’ll die without regrets!

“Ahem, ahem, ahem...”

Harvey could not help coughing a few times. ‘Old man, that’s enough. Stop flattering.’

He then changed to another topic and said, “Elder Cobb, let’s talk about your situation.”

Dean glanced at Harvey and replied solemnly, “Young man, you’re powerful, but you still have ways to go to even compare to the Chief Instructor.

“But I believe that with your talent, you may be able to compete with the legendary Chief Instructor ten years later!

“So, you’d better not be too ambitious, young man. It’s important to be down-to-earth.”

Harvey smiled and said, “Yes, you’re right. I’ll be more careful on this matter in the future.”

Dean showed a pleased expression. He then

squinted and said, “You know about the art of killing, which shows that you are extraordinary. There aren’t many people like you in the world.

“But you still can’t save me!

“Or should I say, in this world, apart from the few old monsters who stepped into seclusion, only the Chief Instructor can save me!

“If it’s him, it shouldn’t pose a problem to save me.

Having said that, Dean seemed indifferent with a hint of melancholy. He then said, “So, young man, there’s no need to waste time on me.

“Not only is it useless, but it is also likely to crush your spirit, affecting your future growth!

“I don’t want to ruin the person who has the opportunity to reach the same level as the Chief Instructor because of a pointless attempt.”

Harvey smiled. “Sir, just by the fact that you have full admiration toward the Chief Instructor of the great Country H, I have to treat you!

“After all, if the Chief Instructor is here, he’ll definitely treat you. So, if I don’t do so, wouldn’t I have no chance of surpassing him in this life?”

Dean was slightly taken aback when he heard those words. He laughed after a while and said, “I’m sorry for being cynical of your sincerity!

“Harvey, please go on!”

He changed the way he addressed Harvey. This showed that he had acknowledged Harvey a little more.

Harvey slightly nodded, reached out his right hand, and placed his fingers on Dean’s wrist.

In the next moment, a strong cold air spread out and even started to invade Harvey’s body.

However, it was blocked by the murderous aura contained in Harvey's blood and could not get inside at all.

Harvey looked surprised, and he slightly narrowed his eyes.

Dean was surprised to see Harvey being able to block off the cold air. He said, "Harvey, you're good!

"The cold air in my body can erode everything, but it can't erode you.

"You have extraordinary skills!"

Harvey smiled and said nothing. Instead, he continued to hold onto Dean's wrist.

Dean did not resist and let Harvey take his pulse after seeing him act like this to make him give up.

Katy Cobb knew her grandfather too well. At this

moment, she could not help but say, “
Grandfather, you’ll be fine!

“Young Master York can even hit Jon Surrey in
the face. He can surely save you!”

Chapter 2481

“Katy, I know you have been busy with my affairs all these years, but I know full well of my situation. It can't be healed with conventional medicine.”

Dean Cobb's eyes were soft when they landed on Katy Cobb, dotingly.

“Unfortunately, Grandfather can no longer stand behind you to protect you!

“Because Grandfather is estimated to have only one month left to live.

“You don't need to continue to focus your attention on me and waste your time any further.

“You should think about it carefully. What should you do after I die?

“Although the Cobbs is known as one of the

three major families in Nanyang, the glory has been gone since I was in this state.

“The internal feuds within the family have intensified. Your relatives are all keeping an eye on your money and status. Other forces in Nanyang can’t wait to get the book of martial arts that I used to cultivate back then.

“Now, it’s because I’m still alive, so I can use the title ‘the number one master’ to suppress those about to make a move!

“Many people will surely attack you once I die!

“Thus, you have to plan your future well!

“You certainly can’t go back to Nanyang.

“The best way for you is to find a way to get the green card of the great Country H and enter the country to live a stable life.

“You must never go back to Nanyang. If you go

back, not only you won't be able to come out again, but it might even cost you your life!

“Katy, you are charming. This is your best weapon against men.

“But when you lose power and aren't intimidating enough, it will kill you because all men would want to get a hold of you!

“So promise me. You will find a way out for yourself first, no matter what. So, I can leave with this world in peace, okay?”

Katy looked sad, nodded after a moment, and said, “Grandfather, don't worry. I've already made a contingency plan, and I won't let you worry about it.”

“Okay, I'm glad that you've done this.”

Dean slightly smiled. “It's a pity that you haven't learned the Nanyang North Fist from me. Otherwise, you will be able to overwhelm the

younger generation of Nanyang.”

“Grandfather, don’t worry. I still have many opportunities to learn in the future, and I’ll definitely learn it.” Katy’s eyes became a little red.

Meanwhile, Harvey loosened his fingers, glanced at Dean, and said, “I’m sorry to disturb you.

“Sir, I’m afraid you won’t die in a short time.

“So, both of you won’t have to bid your farewells now.”

Both Dean and Katy were slightly stunned.

Including Katy, she invited Harvey here as a last resort to save her grandfather.

She never thought that Harvey could really save her grandfather.

However, she had an incredulous feeling after

hearing Harvey speak at the moment.

Katy's voice slightly trembled and she asked, "Young Master York, what did you just say? Can you repeat it?"

"As I said, your grandfather won't die."

Harvey looked indifferent.

"As long as you can cooperate with me, I'll let you live at least ten years or even more."

Katy gasped after seeing Harvey's indifferent expression. "What happened to my grandfather?"

"Did the odor of rotting flesh enter his body?"

Dean also looked at Harvey curiously.

So many doctors, feng shui masters, and sorcerers from Nanyang could not tell what was going on with his body.

Could it be that Harvey could really see through

it?

Chapter 2482

Harvey York thought for a while and said, “The odor of rotting flesh in the body is just a starter.

“This starter caused the poison in his body to break out.

“So, Elder Cobb’s current situation is neither because of the odor nor illness, but simply poisoning.”

“Poisoning? Really?”

Katy Cobb looked unconvinced and shocked. “We have invited many doctors and experts to come and check on him before. Although they couldn’t accurately say what happened to my grandfather, they basically believed that he was afflicted by evil spirits.

“Someone even insisted that my grandfather become like this because he has inhaled a

thousand-year odor of rotting flesh.

“But now you are saying that my grandfather is just poisoned?”

Katy slightly frowned. “Young Master York, you should also know that people who practice martial arts know a little bit about medicine. My grandfather checked himself, but he himself didn’t notice that he was poisoned!”

Harvey thought for a while and asked, “Do you have a scalpel?”

Katy was stunned for a moment. She was unable to respond, but still, she quickly went and brought a set of surgical equipment.

Harvey then took out a sterilized scalpel from it. He then pinched Dean Cobb’s right hand, stared at it for a while, and instantly stabbed Dean’s wrist.

Katy unconsciously said, “Young Master York,

what are you doing? My grandfather is frail right now...”

She wanted to stop Harvey, but Dean shook his head and said, “It’s okay. Let’s see what he is trying to do!

“I’m old, and I can’t feel anything anyway. I’ll be fine with whatever he does.”

Katy felt heartbroken after hearing Dean’s words.

She bit her red lips lightly at this moment and stared at Harvey, speechless.

Harvey’s movements were swift. After the scalpel pierced through an acupoint on Dean’s wrist, he quickly withdrew it and poked another acupoint.

Strangely, the wounds did not splatter blood during the process but instead turned slightly pale, which was a little peculiar.

When Harvey stabbed the fifth time, he pulled out the scalpel very slowly this time.

Tsk...

A faint black smoke emerged from the five acupuncture points simultaneously. Although it was not much, it was still substantial.

The wounds, which were initially pale, were gradually turning black at this moment.

However, Harvey then removed the black skin after the black smoke disappeared. After that, he gestured at Katy to bring over the All-Cure medicine to help Dean bandage his hand.

“What is going on?”

Katy was shocked and nervous while looking at this scene. “Is this the poison contained within my grandfather’s body?”

Dean did not say anything. Instead, he intently

looked at the scalpel in Harvey's hand, which was also dark at this moment.

“That's right. This is a poison with a unique name, known as Ice Poison.”

Harvey threw the scalpel to the fireplace as he spoke and watched a faint black smoke appear.

“The night is long, and the darkness is boundless!

“This poison is invisible, tasteless, and colorless. It can even hide in the human body for a year or so.

“However, once it encounters a corpse, it will begin to break out and encroach on the human body, slowly destroying the meridian system and blood and finally becoming ALS.

“Normally, it's not bad that the poisoned person can survive for three months. One of the reasons your grandfather managed to survive for so long

is because he's strong. Another reason is that the perpetrator is afraid of being noticed by your grandfather, so the dose isn't enough.”

Harvey said earnestly, “But, if you don't deal with it as soon as possible, your grandfather only has one more month to live.”
