

Chapter 2663

“The high and mighty head of the Law Enforcement of Longmen joining forces with the Islanders, then press charging me for conspiring with outside forces...

“That alone should be a death penalty for him!

“If this shameless man doesn't die for this, people of Longmen will die because of him!

“As for Miyata Shinosuke, since he's a God of War from the Shinkage Way, it's reasonable for him to come after me.

“After all, it was I who foiled their plans.

“At first, I wanted to go to the Island Nations myself and challenge the Shinkage Way.

“But, now that they're coming, it'll be way easier for me.

“You have to admit; sometimes these Islanders just have a death wish.

“In any case, they won’t have to leave anymore after they’re here.”

Yoana Mendoza slightly nodded after hearing Harvey York’s words as if it wasn’t a big deal.

“Right. There’s another thing,” said Yoana after pondering about the situation.

“It’s said that a few sacred martial art training grounds in Country H caught wind about this.

“With the Five Virtues Temple leading the group, many people of the younger generation will come to watch your battle.

“You should know the person leading as well. It’s Scarlett Leithold from the Five Virtues Temple.

“Other than that, the Six Schools of Martial Arts from the Island Nations will send a

representative over.

“It's said that Daito Yashiro himself would lead his group.

“Daito is the Sword Saint of the Shindan Way, Akio Yashiro's son.

“It's also said that his father passed down almost everything he knows to him.

“Those people aren't just coming to have fun, and they're here to judge you.

“They want to witness your battle against Miyata.”

Harvey burst out laughing.

“When did my matter turn into some test for those so-called sacred martial art grounds?

“You sure they're not here to cause me trouble?

“And didn't Akio say he'd come to kill me

himself?

“Not only is he not coming, but he’s also sending his son over to watch?”

“What’s the meaning of this?”

Yoana shook her head.

“Those people showed up all too sudden. They must’ve been invited by Mitchell too.

“Mitchell isn’t just the head of the Law Enforcement of Longmen, and he’s also the head of the thirteenth branch of the Bauer family.

“He has a huge influence on both Longmen and the Bauer family!

“Other than taking his revenge on you, he must be thinking of uniting Hong Kong and Las Vegas as one. That’s why he’s causing this much trouble right now.

“I’m worried that if he can’t deal with you in public, he’ll surely play tricks on you, judging from how he works.”

“It’s better if he does.”

Harvey smiled calmly.

“If he doesn’t, I won’t have the heart to deal with them all at once.

“But since they’re so fully prepared, it’d be a shame if I don’t reciprocate.”

Ten o’clock at night.

Inside the Nanyang Guild Hall.

Katy Cobb immediately got word as soon as Harvey walked inside.

A pleasant smell wafted over as she showed a

warm smile toward Harvey.

“I’ve been waiting for you for the past few days, Sir York.

“Your recipe for fighting the poison is very effective.

“Not only did my grandfather get a lot better after, but the Ice Poison also seemed to have dissipated quite a bit.

“But the process is just too painful. I wanted to ask you to fix everything all in one go...

“If not, I’m afraid he won’t last long.”

Chapter 2664

Harvey York arrived at the Nanyang Guild Hall early to permanently deal with Dean Cobb's Ice Poison.

Other than that, he wanted to grab another trump card for himself.

Even though Harvey was not scared of Mitchell Bauer and the others, since they had prepared so much against him, it would be stupid if he did not do the same.

He did not waste any more time and said calmly, "Take me inside."

Katy immediately took Harvey to the small oriental-style courtyard.

After pushing the door open, a tender look showed on Katy's face.

“Harvey’s here, Grandfather.”

Harvey stepped inside Dean’s house.

Even though a dense poison was still circulating the entire place, it was not as bad as before.

Other than that, a faint fighting spirit could be felt, as if a lion was about to be awakened.

Harvey felt surprised.

He did not expect the Nanyang God of War to be this terrifying. He had only recovered for a bit, but he was already brimming with energy.

Judging from this alone, he would surely be a big help if Harvey managed to save him.

“You’re here, Sir York?”

“Welcome!”

Dean was still sickly, but he had recovered quite

a bit.

He could sit on the bed without requiring any help.

His eyes lit up brightly after seeing Harvey's appearance.

“This is way beyond my expectation, Elder Cobb.

“I thought you needed seven nights to get to this point.

“But, you only needed three.”

Naturally, Dean was mighty before he was poisoned. He was definitely a remarkable man, even among Gods of War.

If not, he would not have recovered this quickly.

Even though Harvey gave him poison to fight poison, this was still not the typical medicine.

For Dean to be able to fight the pain and speed

up the entire process was truly beyond Harvey's expectations.

"It's all thanks to you. Without your help, I wouldn't be able to last until today," said Dean sincerely.

Harvey nodded slightly before wasting no time checking Dean's pulse.

He was not well-versed in medical skills, but judging from the slight change in Dean's pulse, he could tell that the poison in his body was almost gone.

After this final step, the terrifying poison would be removed entirely from his body.

Without a second thought, Harvey quietly exclaimed, "Elder Cobb, I'll remove the remaining poison from your body soon.

"After today, you'll be back to normal again."

“Really?!”

Dean did not say anything, but Katy was the one who exclaimed with excitement.

She had been worried about her grandfather for the past few days and had not had a good night's rest.

She did not expect that Harvey would bring such good news after arriving unannounced.

“Right, Harvey. Why did you show up here all of a sudden?”

Katy was reminded of another thing.

“I heard that the head of the Law Enforcement of Longmen joined forces with the Shinkage Way to face you tomorrow.

“Are you worried about tomorrow? That's why you came here ahead of time to deal with my grandfather's poison?”

Harvey just let out a chuckle.

“Yes, and no.”

Chapter 2665

“Mitchell Bauer and the others are mere clowns to me.

“But if they have so much help, it’s only appropriate that I get a few myself, right?”

“I’ll be embarrassed if I don’t have any by then!”

Harvey York shrugged. He was being truthful.

Katy Cobb froze after hearing Harvey’s words.

DeanCobb, on the other hand, burst out laughing.

“I admire you more and more, Sir York.

“Real men should be like this. Do what you want to do and take responsibility for it! The ones who hide around are just shameless filth!

“Since you’re so direct, I won’t beat around the

bush either.

“If you can remove the poison from my body...

“From then onward, your problems are my own!”

Harvey smiled. He was actually waiting for those words.

He wasted no time and told Katy to get someone to boil the prepared poison before pouring everything into the pot.

At twelve o'clock midnight, everything was set.

Harvey lifted Dean and set him inside the pot.

“The next two hours will be crucial,” exclaimed Harvey quietly.

“I’m afraid you need to keep watch outside, Head Cobb.

“Nobody’s allowed to enter.

“If not, everything will be wasted if someone disturbs us.”

Harvey was showing a serious look on his face.

Even though the poison would not physically harm Dean, if someone were to suddenly barge into the room, the poison would likely circulate in the wrong direction...

If that were to happen, Dean would die on the spot, let alone remove the poison in his body.

After seeing Harvey's expression, Katy understood the importance of the situation.

“Don't worry. I won't let anyone bother you,” exclaimed Katy with a serious expression.

She then got a dozen of her most trusted subordinates to guard the courtyard.

She stood in front of the entrance, nervously watching Harvey.

Harvey grabbed a scalpel before drawing streaks behind Dean. He was not rushing to operate on Dean though he kept soaking his body in the poison.

Harvey smiled after feeling Katy's worried gaze.

“Don't worry, Head Cobb. As long as no one gets in here, Elder Cobb will definitely recover with my help.

“I'm no doctor, and I have no medical skills. But, I am well-versed in the art of killing.

“If I can kill, I'll also know how to save someone.”

“Sir York's right. That has been the truth since ancient times.

“Saving people is a fundamental skill of killing, after all.

“With Sir York's help, I'll definitely return to

normal tomorrow!”

After hearing her grandfather’s confident words, Katy let out a sigh of relief before staring at Harvey with a serious look.

“When this is all done, I will never forget this kindness!”

She then stepped to the corner of a room without saying another word. She only observed intently, wanting to see how Harvey would save her grandfather.

Chapter 2666

“Elder Cobb, we’ll be treating your symptoms as well as the root causes today. You’ll be experiencing a lot of pain throughout the process ...”

Then, Harvey York took out a few instruments for surgery.

“You’ll need to bear with it for a while,” said Harvey quietly.

Dean Cobb burst out laughing.

“I’m a God of War who’s been on the battlefield, Sir York. I have experience!

“Besides, I don’t believe there’s anything more nefarious than the Ice Poison itself.

“Since you’re confident about it, let’s begin the procedure.”

Harvey smiled before pulling out a huge needle and stabbing it right into Dean's spine.

When Harvey pulled the syringe, it was quickly filled with some sort of black liquid.

Clearly, a considerable amount of the poison was still hidden inside Dean's spine.

Dean immediately seemed a lot better after the poison was extracted. He was brimming with energy, as if he was a few years younger.

Harvey smiled after seeing the sight. He then grabbed a scalpel and made a few incisions on every single part of Dean's body.

Pffffffft!

Dark blood spurted out in an instant. A strange fragrance could be smelled when mixed with the poison in the pot.

Harvey was able to force out the residue in Dean's

s body with this.

But the true challenge was the Ice Poison hidden in the deepest parts of Dean's body. It was known to be a persistent and vicious poison. It was going to be a challenge for Harvey to remove it.

The poison started to react to Harvey's attempt at eradicating it.

“Ngh!”

Even the God of War started to feel extreme pain at that moment.

He grabbed onto the iron bucket on his side, almost to the point where he crushed it.

“Grandfather...” Katy could not help but mutter to herself...

“Don't move!”

“He's in a peculiar spot right now. The poison in

the pot needs to enter his body so it'll neutralize the Ice Poison.

“After that, he'll be able to recover.”

Katy stared at her grandfather's painful grimace for a while before she gathered her strength to speak.

“Isn't this the legendary Bonewash Technique?”

“Something like that.”

Harvey nodded.

“After all, it's been a long while since the poison's inside his body. There's no other way to remove it altogether.

“Rest assured.

“Your grandfather's a God of War. Even the Ice Poison couldn't take his life...

“He'll make it through a small matter like this.”

Katy calmed down quite a bit after hearing Harvey's words.

After some time had passed, the poison in the pot started to fade a little.

Harvey took out a few more scalpels and made more incisions, this time on Dean's chest.

Pffffft!

Dark blood spurted out everywhere again, making Dean seem a lot skinnier instantly.

His entire body was trembling while his bones kept rattling, as if he was about to explode at any second.

Safe to say that Dean was almost paying with his life to completely remove the poison from his body.

Harvey and Katy knew that Dean was in extreme pain without having to experience it themselves.

Since the very beginning, Dean only gritted his teeth without even letting out a scream or even a word.

As expected from the Nanyang God of War.

“As a God of War, you really are courageous.”

Harvey could not help but compliment him.

“Since ancient times, other than just having a different title, people who could become Gods of War are all extraordinary people!”

But compliments aside, Harvey was not too shocked since he brought up a few Gods of War himself. He wasted no time releasing more blood from Dean’s body, steadily removing the remnant poison.
