

Chapter 361

Among most of the Ancient kungfu families, they all thought that they were superior to others and knew what others didn't know.

Shane also had this idea in his heart. Because of the rules, he could not participate in all kinds of fighting competitions. In his heart, he also looked down on the so-called fighting champion. He thought that this was only the reason why he did not participate. Over time, the pride in people's hearts would become more and more prosperous.

When he heard Henry mention the champion title, Shane was looking down on him from the bottom of his heart.

Henry wiped his ears and deliberately said, "Everyone can talk big. If I couldn't win one

championship, I would also be jealous of others."

"I don't want to talk nonsense with you. Believe me, you will definitely kneel here today!" Shane stretched out his finger and pointed to the opposite side.

Chaya and Ethan Su sneered, waiting to see Henry make a fool of himself.

Shane, dressed in a white martial arts suit, stood there with an outstanding temperament.

"Hey, Shane, don't pretend there. Wait a minute, I'm afraid you'll lose the bet!" Wade Zhang shouted.

"Ha, it's too noisy!" Shane pretended to be cool. Then he stepped forward and rushed to the place where Henry was.

Shane's movement was very natural and unrestrained. After rushing to the front of Henry, he stood up and jumped up. He

kicked toward Henry with one leg in the air. His action was as natural as the one in a martial arts movie, causing a whole series of screams.

"So handsome!"

"He's too handsome!"

These screams came into Shane's ears, which made him particularly proud. He even thought of the scene that Henry was kicked on the head by himself and fell to the ground.

Shane, who was proud of himself, did not know that his action was like a fool in Henry's eyes.

When fighting enemies, the most taboo thing for martial arts practitioners was to lose balance. Now Shane's kick in the air made him have no way to retreat. Unless his strength could absolutely crush his opponents, it was no different from

courting death.

Facing Shane's kick, Henry's movements were not as luxurious as his, but more practical. He raised his fist, aimed it at the emptiness in Shane's chest, and slammed it down heavily.

Shane was in the air. Facing Henry's punch, he could not avoid it at all. He was hit in the chest by Henry.

This was a long story, but in fact, it happened so quickly.

The girls screamed for Shane. As soon as they shouted that he was good-looking, they saw that Shane, who was kicking his legs in the air, seemed to be hit by a heavy hammer on his body. He was knocked over from the sky, and there was a "bang".

This scene was very visual. For the spectators, they could not help but think of a few words.

One's strength could defeat ten's strength!

"What the hell is this Shane Liao? What a fancy thing!" One of the boys curled his lips disdainfully.

"He even kicked his leg in the air and got hit by a hammer. He was knocked down by someone with one punch."

Originally, many people thought that it might be a unilateral battle that belonged to Shane, or that they were a little better than each other. Even Wade thought that Henry would fight with Shane for a few moves, but he didn't expect that it would end like this.

The scene that Henry defeated the enemy with one punch was too shocking.

Henry looked at Shane, who was lying on the ground with a painful face. He glanced at him and said, "I thought you were capable after talking big for a long time,

but in the end, it turned out to be like this?"

Shane was lying on the ground. He wanted to get up and get back on his feet, but he couldn't do it due to the sharp pain in his chest.

Henry's punch broke Shane's ribs.

"Hey, what did someone say just now? He said that the champion was nothing in his eyes, and he said that others were ignorant? What are you doing now? Did you bring up the challenge? What was the bet?" Wade's mocking voice rang out.

The word "bet" caused a burst of laughter.

Shane Liao, as the president of the Ancient Martial Arts Club, relied on his extraordinary strength. He usually showed his pride in school, which had already made many people unhappy. However, due to his skills, many people dared not to say anything. Now that they had the

opportunity to hit him, they naturally would not let go of it.

The laughter was so ear-piercing in Shane's ears.

For a long time, he felt that he was invincible in school. This was the first time that he had been defeated in such a direct way in front of so many people.

Henry raised his head and glanced at the people of the Ancient Martial Arts Club standing aside. "Is there a referee in this competition? I won, right?"

"This is considered a win? Our club president didn't admit defeat!" A member of the Ancient Martial Arts Club stood up. He was actually the referee of this competition. If it was Henry who fell to the ground, he would rush out to announce the result in the first place. But now, the fact was not what he thought, so he didn't say anything.

"He didn't admit?" Henry raised his eyebrows and then reached out to grab Shane's waist. He lifted Shane up with one hand. In the shocked eyes of many people, he lifted Shane over his head with the other hand.

Then, accompanied by a scream of a girl, Henry threw Shane heavily on the ground. The sound of "bang" made people close their eyes subconsciously.

Shane, whose ribs were already broken, was forced to spit out blood.

Henry looked at the member of the Ancient Martial Arts Club and said, "How about now? Why don't you announce it now?"

The member of the Ancient Martial Arts Club clenched his teeth. Everyone could see that Shane had lost all his fighting capacity, but he was unwilling to admit the fact that the president had lost.

Henry smiled and picked Shane up again.

"Enough, are you still a person? Our club president obviously doesn't have the ability to fight anymore. You broke the rules!" The member of the Ancient Martial Arts Club shouted out.

"So you admit defeat?" Henry narrowed his eyes.

"Of course not. We didn't lose. This time, you broke the rules first!" The member of the Ancient Martial Arts Club stiffened his neck. "Next time we will decide who won."

This shameless behavior immediately attracted a lot of sarcasm.

"Ancient Martial Arts Club is really fair!"

"Now we know who they really are."

Henry nodded, "Okay, since you don't count this time, we can fight next time. If the competition is over, the next is my

personal grudge against him!"

After Henry finished speaking, there was a cold light in his eyes. He threw Shane on the ground, lifted his foot and stepped hard on Shane's palm.

"Ah!" Shane's heart-wrenching roar came out of his mouth.

Listening to Shane's roar alone made people feel a burst of pain.

Shane deliberately spread those words that were not good for Daisy's reputation at school. Henry also heard some words on his way here just now. For such a person who hurt his own family, if Henry could easily let him go, The Conqueror's name would be in vain.

Henry crushed Shane's palm hard. When he clearly felt that Shane's fingers had been broken, Henry raised his foot and stepped on Shane's other hand.

"Stop it, boy!" A loud shout came from the entrance of the Ancient Martial Arts Club.

Chapter 362

At the entrance of the Ancient Martial Arts Club stood a middle-aged man. At this moment, the middle-aged man was striding toward Henry.

Henry looked at the middle-aged man and raised his eyebrows. His feet, which had stopped in mid-air because of him, stepped down again.

Shane screamed again.

The middle-aged man's face changed because of Henry's movement.

"Guy, how dare you!"

Shane cried out in pain to the middle-aged man, "Uncle, save me..."

"I beat the young one, and the elder came for help?" Henry's mouth showed disdain,

and his feet were more powerful.

"Ah!" Shane opened his mouth widely and let out a roar.

The middle-aged man sped up and rushed to Henry. When he rushed in front of Henry, he suddenly punched toward Henry's face.

Henry looked at his opponent coldly. He saw his opponent's fist enlarged in his pupils. When Henry was about to break his opponent's arm, his opponent's fist stopped.

The fist was less than ten centimetres away from Henry's face.

In addition to Henry, everyone thought that Henry didn't even have a chance to react. If the opponent hadn't shown mercy, this punch would have hit Henry in the face.

In fact, as long as Henry was willing to, in such a short distance of ten centimetres,

he could fight back and disable his opponent's arms before his fist touched him.

The middle-aged man gasped and glared at Henry, with a strong struggle in his eyes.

Henry smiled slightly. He knew that he was restrained by the Ancient Martial Arts world, so he did not dare to attack him directly.

Looking at the smile on Henry's face, the middle-aged man was gnashing his teeth with hatred, but he did not dare to make a move. Once the fist was punched out, he would not be able to bear the consequences, and it would implicate the whole Liao family.

The middle-aged man glared at Henry and said in a low voice, "Boy, I don't know where you come from, but I advise you not to make any mistakes!"

"Ha." Henry chuckled and asked, "Did I make a mistake? Didn't your Liao Family set this up first?"

"You've crossed the line!"

"If I were the one lying here now, would you stand up and say that?" Henry sneered.

Henry lifted the foot that was placed on Shane's hand. Shane's palms were completely deformed at this moment. His ten fingers were all broken by Henry. Shane himself was also very weak and could faint at any time.

"You are very arrogant. I hope you have the capital to be arrogant. Don't let me down!" The middle-aged man said ruthlessly. He bent down and picked up Shane. He shouted to the members of the Ancient Martial Arts Club, "Call the ambulance."

In the face of the threat of the middle-aged man, Henry didn't care. He had seen too many people who threatened him, but none of them could do anything.

Chaya and Ethan Su stood by the side, and their faces were very ugly. They did not expect that Shane would be defeated so easily. Who was Sylvia's husband?

When Chaya and Ethan looked at Henry, they happened to meet Henry's eyes.

Under Henry's gaze, what they saw was a kind of sarcasm, a kind of contempt. Such a look made them very uncomfortable.

Since they came to Yinzhou, the two of them had a feeling that they were superior to others. The identity of the Su Family made them look down on any one of them. Now, being treated like this by Henry made them particularly angry. This kind of mentality was like that of a person who was provoked by an ant. They couldn't wait

to step on this ant.

A fight ended in this way, which made many people sigh.

Shane had been arrogant around the university for a long time. This time, he was defeated by a thunderbolt, which made many people feel comfortable in their hearts.

Henry chatted with Daisy and the others for a while. The three of them still had classes in the afternoon, so Henry left first.

As soon as he stepped out of the gate of the university, five Audi A6 parked in front of Henry.

Henry glanced at them. In one of the cars, he saw the middle-aged man from just now, who was also Shane's uncle.

The door of the Audi A6 opened. Two strong men in black came out from each car and stood in front of Henry. One of

them sneered at Henry and said, "Boy, come with us."

Henry shrugged his shoulders and said indifferently, "Let's go."

Henry had already thought that the other party would retaliate, but he didn't expect that it would be so soon. It happened that this matter would be resolved sooner than later. He would take advantage of today's trouble to finish it.

The two strong men pressed Henry into an Audi A6 and then left.

As soon as Henry got on the car, he was put on a headgear. Henry had already been accustomed to such a trick. Even if he had the headgear on, he could clearly know how long the car had been driving and which intersection it was turning. He already had a whole map of Yinzhou in his mind.

When Henry counted in his heart to 1736 seconds, the car stopped, and at the same time, the headgear on his head was taken away.

Henry looked around and found that the car had arrived at a manor.

According to the route, Henry assumed that it was a Date Manor not far from the city.

"Get out!" A strong man pushed Henry and pushed him out of the car.

After getting out of the car, Henry saw more than a dozen strong men standing straight on the side, and Shane's uncle was also standing not far away.

In the manor, there was a stone chess table. Two grey-haired old men were playing chess at the table. They did not even look at Henry, who had been caught.

"Hey, this piece of black chess piece of

mine is placed here, but you don't move."
An old man sighed.

Another old man smiled. "Your blackie is tempting, but it's not something I can eat as I want. Leave this blackie here and I can continue to develop. If I eat your blackie, I may not be able to bear your counterattack."

Shane's uncle walked up to the two old men and said to the old man who was holding a black chess piece, "Master, I've brought him here."

"Yes." The old man who held the black piece nodded, glanced at Henry, and then said to the old man who held the white piece in front of him, "You know the importance of the black piece to me. It's the last hope of my chess game. It's a pity that my eldest son left early. My Liao family has been inherited for such a long time, but now it's only one descendant.

However, my poor grandson's ribs were broken and his hands were disabled. Do you think I should care about it or not?"

Man with white piece smiled and said, "Of course you should deal with it, but you should pay attention to the method. You know, as the manager of this area, I don't want to make things difficult for you."

The man with black piece nodded, got up, patted the dust on his legs, looked at Henry and asked, "Kid, which family are you from? Don't pretend to be stupid with me. Although I am old, my eyes are very good."

The man with white piece also got up and took out a wooden token. "Young man, if Master Liao asks you a question, answer him truthfully. Otherwise, I can't protect you."

Chapter 363

Henry looked at the token that the white old man took out and frowned. "A Law Executor?"

"That's right." The man with a white chess piece nodded. "Since you know about the token, it means that you know something."

Henry Zhang knew a little about those law executors.

In this world, there were many things that ordinary people were not familiar with. For example, Ancient Martial Arts was one of them.

The power of the Ancient Martial Arts was so great that all the people who practised it would be under certain control.

There were many rules in the Ancient kungfu families. For example, they could

not be revealed in front of ordinary people, and they could not participate in all kinds of fights. These rules were managed by law executors.

In each region, there would be a law executor. He was directly sent by the government and was in charge of management.

In Ning province, there were two ancient kungfu families, one was Four Direction Sect, and the other was the Liao family.

Henry said to the law enforcer, "I know a little about it, but as a law enforcer, you should understand that they have violated the rules by kidnapping me like this."

"What a joke!" The Master of the Liao family shouted. "You destroyed my grandson's hands, so I had to bring you here. Do you want me to let you go unpunished?"

Henry ignored the Master of the Liao family and continued to say to the law enforcer, "You can inquire about it. Today's matter is purely because the other party provoked me first. I just accepted the challenge."

Before the law enforcer spoke, Master Liao was the first to question, "Provoked? If you hadn't offended the Su Family, would my grandson provoke you?"

Henry waved his hand. "Your grandson provoked me and was disabled by me. It was his own fault. Ancient martial arts should have this rule. In the fight between the two sides, even if the provoked party lost his life, it was also his own fault."

"B*llshit!" The master of the Liao family slammed the stone table in front of him. The stone table cracked from the place where the master of the Liao family patted, and there were cracks on it.

Henry didn't seem to see the anger of the

master of the Liao family, so he continued to say, "As a law enforcer, you should know all these things I said. No matter how I look at it, I am not wrong at all. On the contrary, it is they who have broken the rules by capturing me here."

The law enforcer chuckled and said, "Young man, rules are dead, but people are alive. Shane Liao did something wrong today, but you were too cruel. The Liao family only has one successor. If you disabled Shane, you would destroy the hope of the Liao family."

"So, as a law enforcer, you are partial to them?" Henry asked.

The law enforcer shook his head slightly. "It can't be called partial. It's just that young people, you are too arrogant. This is good for no one. At the right time, you should also give in. Today, you disabled Shane, and then you should honestly

apologize to the Liao family. If you show a good attitude, and I can keep you safe."

"Ha." Henry sneered and said, "Keep me safe? Is this how law enforcers do things?"

The law enforcer's grinning face suddenly changed. He stared at Henry and said, "Young man, it's not your turn to teach me how to do things!"

Henry shook his head. "I'm not teaching you. I just heard that every law enforcer has the principle of justice. It seems that what I've heard is not accurate. I didn't see the justice in you at all. Do you mean that even if the Liao family did something wrong today, I would be the one to bear the consequences?"

The law enforcer's face darkened. "In the ancient martial arts world, strength comes first. Since you don't have the capital to fight against the Liao family, you should take good care of yourself in the face of

Shane's provocation. Fighting back is not what a person like you should do!"

The master of the Liao family waved his hand and said, "I'll give you a chance, ask your elders to come to my grandson. Kneel down and kowtow a few times. If you disable your hands, I'll spare your life."

Henry looked at the two old men. When they were talking, their faces were full of arrogance and they looked down upon everything. Looking at them, Henry suddenly laughed.

"Young man, what are you laughing at?" The law enforcer frowned. "Do you think we're joking with you?"

Henry shook his head and then nodded. "You two are indeed joking with me. Are you looking for an elder of my family? I have no family, and I have no elder."

"You are from Family Lin. Your wife, Sylvia

Lin, is in charge of the Family Lin. If you are willing to let your wife give half of the shares to my grandson, and then let your wife inherit a generation of the Liao family, I am willing to consider letting you go." When the Master of the Liao family said this, his face showed a strong desire.

Everyone in Yinzhou knew about the Lin Family.

Although the Liao family was an ancient kungfu family and considered to be superior, its economic situation was not as carefree as that of the Su Family.

Sylvia's beautiful name was well-known all over the Yinzhou. Everyone knew that this glamorous iceberg president was the most beautiful woman in the company.

If it was through normal means, the Liao family would not be able to get together with Family Lin. This time, the Master of the Liao family had talked so much. The

most important thing was that he had a crush on Family Lin, on the money of Family Lin, and on the person from Family Lin.

The words of the master of the Liao family made Henry's smile suddenly disappear.

"You're the master of the Liao family, aren't you? It seems that you've made up your mind to ask someone to kidnap me this time. But unfortunately, you made a mistake." Henry's voice suddenly became very dull.

"Oh?" The master of the Liao family looked at Henry with great interest. "Did I make a mistake? Tell me about it?"

The law enforcer laughed out loud. "Young man, stop your arrogant look."

Henry looked around and said, "If you brought me here to get revenge, that is okay. But you shouldn't have laid your eyes

on my wife."

At this point, Henry raised his right hand and waved it in the void space.

As Henry waved his hand, more than a dozen strong men in black, who were originally standing straight on the side, fell to the ground at this time.

This sudden change shocked the Master of the Liao family and the law enforcer, and they didn't know what had happened.

Henry continued, "The ancient kungfu family focuses on inheritance. The official ban that prevents your from showing up in front of ordinary people is not for fear of you, but for protecting you. However, after such a long time, you seem to have misunderstood something. This arrogant mind will only let you face the destruction."

As soon as Henry finished speaking, screams were heard in every corner of the

manor, and a strong smell of blood floated in the air above the manor.

Henry turned around and walked slowly toward the law enforcer. "As a law enforcer, you don't remember your own mission at all and you helped the devil. There is no need for a person like you to exist."

Henry's pace was very slow. Every step he took, a strange figure would appear beside the Master of the Liao family and the law enforcer. This figure was full of chill. Even in the summer, it would make people's hair stand up. These people, with sharp knives in their hands, were dripping blood slowly above them. The blood fell on the ground and splashed.

Chapter 364

Henry slowly walked toward the direction of the law enforcer.

More and more people gathered around the law enforcer and the Liao family's patriarch.

Shane's uncle stood next to him, with his eyes wide open and his eyes full of fear. The ghost-faced masks seemed to come from the abyss. The only thing that brought to people was despair.

"The... Reapers..."

The law enforcer trembled his lips and looked at the people who appeared beside him.

The name "Reaper" was well-known all over the world. Everyone knew that there was only death in the place where they

appeared.

"Kill them all." Henry said lightly. His voice started ringing in the ears of the law enforcer and the master of Liao Family.

In their eyes, there was not only the deep fear but also the disbelief that the young man in front of them had something to do with the Reapers.

There was a flash of white light, and the white light brought blood.

Henry turned around and walked out of the manor at the same time as it was sprayed with blood.

Behind Henry, the sound of the blade chopping the flesh could be heard constantly.

When Henry first stepped out of the manor, there was a big fire behind him. The whole Date manor would be turned into ruins in less than ten minutes. When

the firefighters came, there would only be scorched bodies there.

In the People's Hospital of Yinzhou.

Shane lay weakly on the hospital bed, waiting to enter the operating room at any time. He had a comminuted fracture on his ten fingers. His hands were destined to be useless.

Chaya and Ethan Su accompanied him to the bed and comforted him, "Brother Liao, don't worry. That guy surnamed Zhang will never have a good end. When you come out of the operating room, we will settle scores with him."

"I want him dead!" There was hatred in Shane's eyes. "I want my grandfather to kill him. I want to take his wife. I want to peel his skin and pull his tendons!"

Several nurses came over and pushed Shane into the operating room. One of

them hid a needle in her hand. While pushing Shane, she inserted the needle into Shane's chest.

Before Shane entered the operating room, the nurse sighed and said, "The patient's heartbeat accelerated because he inhaled a lot of powder, which led to his death."

Chaya and Ethan knew nothing about Shane's death. They strode out of the hospital and headed for Lins Group.

After Henry left the Date manor, he also went to Lins Group.

Standing downstairs of Lins Group, Henry looked at his mobile phone impatiently.

"Mr Zhang, Mr Zhang." An anxious voice came from the side.

Listening to this voice, Henry frowned. "You are too slow."

"I'm sorry, something happened on the

way." The man repeatedly apologized for fear of Henry's dissatisfaction.

"Alright, my wife is upstairs. Tell her what you want to say in person." Henry looked at him. It was Victor Su, the current Master of the Su Family.

After seeing Chaya and Ethan's attitude yesterday, Henry asked someone to call Victor over. Of course, Victor did not dare to hesitate. This morning, he took a plane to Yinzhou.

Victor followed Henry to the Lins Group.

Looking at the positive attitude of these employees of the Family Lin, Victor was a little curious about what kind of person she, his niece whom he had never met, was.

In the office on the top floor of Lins Group, Sylvia was sitting there, holding an old album in her hand. The photos in it were

blurry.

The woman stroked the cover of the album gently. "Mom, I am a failure. I may not be able to take you back to the Su Family in a short period of time."

Someone knocked on the door of the office.

"Come in." Sylvia put away the album, and at the same time, she restrained her emotions.

When the office's door opened, Cathy stood in front of the company's office with a schedule in her hand.

"President Lin, originally you were supposed to have a meeting with President Zhao this afternoon. Can we postpone it for 10 o'clock tomorrow morning?"

"Hmm?" Sylvia was confused. "Why did the meeting got cancelled all of a sudden? Is there anything wrong with President

Zhao?"

"Er..." Cathy was a little embarrassed. "President Lin, Mr Zhang asked me to cancel it. Don't you know that?"

"He asked you to cancel it? Why did he change my schedule?" Sylvia frowned.

"Henry said that you had something important to do this afternoon, so he asked me to cancel the meeting," Cathy replied, "Now Henry has been waiting in the reception room. He told you to go there as soon as you are ready. He brought someone here."

"Okay, I know." Sylvia's face was full of suspicion. She tidied up her clothes slightly and walked toward the reception room.

"Something important?" Sylvia thought in her mind. "What kind of important thing could it be?"

Sylvia stood in front of the reception room and opened the door. She saw Henry sitting there chatting with a stranger.

At the sight of this stranger, Sylvia felt a throb in her heart. It was a kind of connection from the blood.

At the same time, Victor, who was sitting in the reception room, also saw Sylvia. Although he had seen Sylvia's photo before, this was his first time meeting her in person. Victor was still amazed by his niece. Because of Sylvia's appearance and her unique temperament, she had already developed a strong aura. If he was in other places, Victor would look at this girl more.

Looking at Victor, Sylvia had a strong intuition in her heart. A bold guess emerged in her mind.

"Honey, this is..."

"Dear, this is Victor Su." Henry stood up,

walked to Sylvia, and grabbed Sylvia's little hand. "He should be, your uncle..."

Sylvia's delicate body trembled slightly like an electric shock. She looked at Victor and murmured, "Uncle... Uncle."

Since Sylvia was young, she didn't have the concept of an uncle in her heart. For her, her mother's relatives were so distant.

Victor got up and smiled at Sylvia. "Sylvia, I finally meet you. You have suffered for so many years."

Henry saw that the woman's eyes were covered with a layer of fog and tears. Henry could feel that the woman's tears were full of excitement, grievance, and unspeakable complexity.

This was the first time that Sylvia had seen her mother's family for more than 20 years.

Henry reached out and wiped the tears from the corners of Sylvia's eyes. "Well,

dear, your uncle came to see you. Isn't it a good thing? Come on, sit down first."

"Mmm." Sylvia nodded vigorously and grinned.

Looking at the smile on Sylvia's face, Victor also looked relieved.

The door of the reception room was closed.

In front of Lins Group, Chaya and Ethan broke through the company's door.

"Where's Sylvia Lin? Ask the woman surnamed Lin to come out. Today, she must give me an explanation!" As soon as Chaya entered the company, she shouted.

Many employees of the Family Lin looked at Chaya and guessed what had happened.

"You two, please don't make trouble here." The security guard of the company came over immediately.

Chapter 365

"Make trouble?" Chaya looked at the security guard. "What's the matter with you watchdogs? Let Sylvia come down! If she doesn't make it clear for me today, even she is my family, I'll be rude to her!"

When the security guard heard Chaya's words, he quickly shut up. "Are these two people from President Lin's family?"

"Where is the woman surnamed Lin?" Ethan shouted and asked.

"President Lin is upstairs." The security guard answered honestly.

Chaya rolled up her sleeves and walked to the elevator with Ethan.

"Sylvia Lin! Sylvia Lin! Get out!" Chaya scolded all the way, which attracted the attention of the staff of Lins Group.

"What's the matter, both of you?" Cathy asked. When she heard about the incident downstairs, she hurried over to them.

"Where's Sylvia Lin?" Chaya asked.

"President Lin is in the reception room." Cathy remembered the two of them. Yesterday, President Lin went downstairs to receive them personally and took them home. "If you have something to talk with her about, please wait a moment. President Lin is seeing guest right now."

"Guest? What kind of guest is more important than us!" Chaya pushed Cathy away and strode towards the reception room.

The door of the reception room was closed.

Before Chaya entered the room, she yelled into the tent, "Lin, your husband treated us that way and hit our friend today. If you

don't give me a reasonable explanation, you'd better not go back to the Su Family!"

Chaya was just about to push the door of the reception room when the door in front of her was opened from the inside.

Henry walked out and frowned. He looked at Chaya and Ethan in front of him and said, "Keep your voices down. My wife is chatting with someone."

"Keep our voices down? Why?" Chaya put her hands on her hips. "I'm telling you that if you don't show a good attitude and apologize to me, your wife cannot go back to the Su Family!"

Henry had a strange look on his face. "What does it have to do with you that my wife is about to return to the Su Family? Do you think what your words count?"

"Huh!" Chaya laughed derisively. "You're just joking with me. My words don't count,

then whose words count?"

There was a strange look on Henry's face. He shook his head and said, "I don't believe you."

"You don't believe me? I'll show you if you don't believe me!" Chaya said, and then she took out the phone and dialed a number in front of Henry. When the phone was connected, Chaya said loudly, "Dad, you can tell the Family Master that Sylvia Lin doesn't care about our Su Family at all. We came over to talk to her. She directly asked us to leave. What's more, in her eyes, the Su Family is nothing. You have to tell the Family Master about this. How dare a b*stard to be so impolite? "

After Chaya finished speaking, she hung up the phone and glanced at Henry complacently.

Henry narrowed his eyes. "What you said doesn't conform to the facts, does it?"

"I'm telling the truth!" Chaya crossed her arms over her chest. "Hey, Henry, what do you think you are? In front of our Su Family, you're nothing!"

"Okay." Henry nodded, turned around and shouted at the living room, "Master Su, you've heard that it's your family who provoked me every time."

Henry waved his hand and opened the door of the reception room.

Standing at the door of the reception room, Victor Su couldn't hide the anger on her face. Last time, the Su Family was almost destroyed because of the commotion of the Su Family. He wanted to make up for it, but he found that the arrogance of these juniors had exceeded his expectation.

Chaya and Ethan, through the open door of the reception room, saw Victor Su. Victor's appearance made them unable to react.

"Ma... master?" Chaya's expression was aghast. She was stammering when she spoke.

"What a reckless act!" Victor's face turned red with anger. "I asked you to come to Yinzhou and invite Sylvia back. What did you do? Is this an attitude you show when you ask people to come back! You acted recklessly and you told lies. If I didn't stand here, I really wouldn't expect that our disciples of the Su's would be so arrogant outside. It's a shame to the Su family!"

Chaya and Ethan never thought that Victor would come to Yinzhou in person, let alone that he was already inside the room. Just because Henry sent a message, he came as fast as he could.

"Mr Zhang, Sylvia, I'm sorry for the behaviour of these two unfilial descendants." Victor said to Henry very solemnly. He was very clear that as long as

this person was willing, he could destroy the Su Family at any time. Through the conversation just now, he also learned that this big shot was the husband of his niece. In this way, Sylvia's return to the Su Family was not because of the benefits of the Su Family, but because the Su Family would benefit from Sylvia!

In the well-known families, the greatest wish of every Master was to carry forward and promote their own family.

Originally, Victor wanted Sylvia to choose on her own. If she was willing to be the family head, he would give the Su Family to her. If she was not willing to do it, he would give half of the Su Family's property to her according to the will of the old master.

Victor knew very well that his father's favourite person was not his mother, but Sylvia's grandmother. If the Su Family had not been in danger at that time, Sylvia's

mother would not have been driven out of the Su Family.

After knowing the relationship between Sylvia and Henry, Victor's hope was that Sylvia would take over the Su Family. In this way, the Su Family could directly build a relationship with Radiant Island. It was not too much to say that they would rise through the ranks in one step.

Henry didn't say anything about Victor's apology, so Sylvia took the lead and said, "Uncle, you don't have to act like this. We are not angry."

Hearing Sylvia's words, Victor glanced at Henry subconsciously.

Henry glanced at him and said, "Whatever my wife says, it's all up to her. However, you should deal with these two."

"That's for sure." Victor nodded. He walked to the door of the reception room

and looked at Chaya and Ethan. "You two, go home and remove your names. From now on, you are not allowed to use the surname Su again!"

In the clan, the greatest punishment was to remove a member from the family list, especially in a family like the Su's. Anyone who did so would be treated as a laughing stock.

Moreover, the Su family members had served the Su Family for the rest of their lives. People like Chaya and Ethan, after graduation, worked in the Su Family's group, lived in the houses and drove cars provided by Su's. All this was from the Su Family. If they were taken out of the family, it meant that they had been deprived of everything.

Their faces instantly became extremely ugly, and they wanted to explain in panic.

Victor did not give them a chance to

explain. He turned around and entered the reception room, closing the door of the reception room.

With a bang, Chaya and Ethan stared blankly at the closed door of the reception room in front of them. Their hearts sank to the bottom.

"No, I can't be removed from the family. I want my father to plead with the master. Ethan, you should also call your father to talk!" Chaya anxiously took out her mobile phone.

Chapter 366

Before Chaya could dial the phone, the phone rang first. It was her father.

"Hey, dad, I was just about to call you, I..."

Before Chaya finished speaking, there was a burst of abuse from the other end of the phone. "What did you do? Ah! I just received a message from my family that our family has been taken out of Su Enterprise. What did you do?"

When Chaya heard the voice on the phone, the last glimmer of hope in her heart was shattered.

In the conference room, Victor did not care about what would happen to these two unfilial descendants after they left the Su's. Such a person staying in the Su's would only bring shame.

In the afternoon, Sylvia took Victor to her mother's grave. This was the first time for her mother to see someone from the Su Family after she left for so many years.

"Samantha, for so many years, I have wronged your family. When the Su Family was in crisis, my father had no choice but to drive you out of the Su Family. Even on the day my father left, he couldn't forgive himself. You can rest assured from now on. Sylvia will return to the Su Family completely. According to my father's will, she will rule the Su Family. It is also my father's compensation for what happened that year."

Victor bowed deeply to Samantha's monument.

Just because of Victor's bow, the tears in Sylvia's eyes could no longer stop and flowed wildly.

Henry put his arm around Sylvia's shoulder

and said, "Dear, why are you crying? Your uncle came to see you, it should be a happy thing. Look at you, you are crying."

Henry reached out and wiped the woman's tears.

Sylvia took Henry's hand on her own initiative and put hers in his palm. "Honey, thank you."

Sylvia looked at the man in front of her. She remembered her mother's death wish before she left, and now she finally realized it. Everything was because of this man in front of her. If it weren't for him, she might still be angry with Chaya and Ethan.

After going out of the cemetery, the three of them found a random place to eat. Sylvia curiously asked Victor how he knew Henry.

Henry had told Victor before that Sylvia had feelings for the Su Family. From her

mother's side, what Sylvia needed most was a kind of family affection, not just compensation.

Victor told Sylvia that he and Henry had cooperated with each other in business before and they had a good relationship. Henry called him yesterday and he came here specially.

As for someone in the Su Family who wanted to kill Sylvia, Henry and Victor were not willing to share with her.

For Victor, this matter was not glorious. It was a scandal in the family. Sylvia would be the Master of the Su Family in the future. If she knew about it, she would definitely have some problems.

As for Henry, he could bear everything for Sylvia. He could block all the sufferings in front of him just to see Sylvia's happy smile. It was enough.

After the meal, Victor left. Even though Sylvia begged him to stay, he still hurriedly went back to the Su Family. Staying here was a psychological test for Victor. He was afraid that his words or actions would make the big shot dissatisfied.

Sylvia insisted on sending Victor to the airport. After watching Victor board the plane, she felt much more relaxed.

"Honey, I'm so nervous." Sylvia took a deep breath.

"What are you nervous about?"

Sylvia wittily stuck out her tongue and said, "I'm afraid. I'm afraid that I can't do it well."

Henry smiled and looked at Sylvia's behaviour. He rubbed her head. "Don't be afraid. Don't forget that your uncle said that you will be the next Master of the Su Family in the future. You are in charge of all the affairs of the Su Family."

Sylvia shook her head. "Now I feel like I'm dreaming. Yesterday, I was worried about the Su Family's matter. Today, you let me be the Master of the Su Family. Is this a dream?"

"Why don't you pinch yourself to see if it hurts."

"Okay." Sylvia's eyes narrowed into the shape of the crescent moon. She stretched out to Henry's waist and twisted hard.

Henry grimaced and said, "Dear, why did you pinch me?"

"Do you think I'm stupid?" Sylvia rolled her eyes. "It will hurt if I pinch myself, haha."

The woman ran away with bell-like laughter.

Henry stood behind and looked at the woman's back with a knowing smile.

By the time they got home, it was already

past five o'clock in the afternoon.

"Honey, change your clothes and come to a party with me tonight."

As soon as they got home, Sylvia urged him.

"Ah? There's another party?" Henry casually lay on the sofa.

"It's a party, but in fact, it's about a bid. But the situation is a little special this time. Hurry up and change your clothes, or we will be late." Sylvia came over and pinched Henry's nose. Then she left a fragrant breeze behind her and went upstairs.

Henry touched his nose and found that Sylvia had really changed. She had become naughty from the cold beauty in the past.

Henry spent two minutes to change clothes and waited for Sylvia for 20 minutes.

Today, Sylvia was wearing a black evening dress on purpose. Her long hair was tied up behind her head, like a proud black swan.

The platinum necklace in front of her neck was shining all the time. Today, Sylvia was wearing light makeup. She was originally shining, but now she looked even more beautiful.

Her perfect S-shaped figure was flawless. She stood there, radiating a strong aura.

Even Henry, who had seen too many beautiful women, was a little stunned at this moment.

"What are you looking at? Let's go." Sylvia smiled and held Henry's arm.

"Honey, you are so beautiful." Henry praised sincerely.

Sylvia's pretty face turned red. She covered her mouth and tittered. "You're

such a sweet talker."

"I'm telling the truth." Henry nodded hard.

Henry drove Sylvia to the place where the party was held, Glory Hotel.

As the best hotel in Yinzhou, almost all the large-scale parties would be held here, and this time was no exception.

There were already a lot of luxury cars parked outside the door of Glory Hotel, and a lot of people in the gown gathered in twos and threes at the door of the hotel, talking about something.

When the car stopped, the door opened. The moment the woman in the black evening gown stepped out of the car, she attracted people's attention. She appeared as if she had become the protagonist in an instant.

Henry parked the car with an unhappy face and walked out of the car.

"Darling, why are you unhappy?" Holding Henry's arm, Sylvia asked with concern, "Are you uncomfortable?"

"Yes!" Henry nodded vigorously. "I'm not feeling well. So many people are staring at my wife. I'm not happy."

Chapter 367

Sylvia, who was uncomfortable and worried about Henry, heard his words and laughed. "If your wife was ugly, you would be happy when others wouldn't look at her."

"Of course not." Henry put his arms around Sylvia's thin waist. "I think my wife should only show her beauty to me."

Henry's gesture of holding her waist made Sylvia subconsciously dodge it, but soon she calmed down and let Henry's big hand hold her waist. She glanced at him and said, "Indecent!"

As if he didn't hear Sylvia's words, Henry's hand on the woman's waist silently enjoyed the softness.

"President Lin, you're here."

Henry saw that the secretary, Cathy Lee, was also standing in front of the door of Glory Hotel.

Cathy came over and greeted Henry.

Sylvia looked at the door of the hotel and asked, "What's going on?"

"The situation is not optimistic. Originally, according to our sources, this time, the powerful competitor was only Chows Group, but..." Cathy subconsciously glanced at Henry at this time and continued, "But the QZ group is also here. It's brought by Bing Ke."

Bing Ke was the person who Henry saw when he came back from the Su Family. When he saw the person who confessed his love to Sylvia in front of the company, Henry destroyed the heart-shaped roses that Bing Ke prepare.

"Why did he come?" Sylvia frowned.

The QZ Group was not comparable to Lin's in terms of financial resources, but the other party's connections were stronger than that of the Lin's. If QZ also wanted to intervene in this matter, it would make Lin's very uncomfortable.

"President Lin, according to the rumours, QZ came here to make trouble. It seems that it's because of what happened last time," Cathy said, glancing at Henry again.

Henry showed a look of indifference from the beginning to the end. In his eyes, no matter who he was, he was just a clown.

Sylvia frowned and said, "Let's go in first."

Cathy nodded and led the way for Sylvia.

The three of them went all the way to the banquet hall on the top floor of Glory Hotel. It could be seen that there were already a lot of people in the banquet hall. Many people were standing in groups of

three or five, chatting.

Many people knew that they had no chance in this project. If they came here, they would only make more friends. There were only a few people who really had the ability to compete.

Danny Chow, the young master of the Chow's, stood in the banquet hall, surrounded by a lot of people, men and women.

The appearance of Zhao's Group made Chows' company, who ranked second in Yinzhou City, rank third, but this did not affect Chows' influence in Yinzhou at all. After all, in many people's eyes, there was no difference between the second and third. They all needed to be looked up to by themselves.

The person in charge of the Zhao family, whose name was Owen Zhao, was also a young man. Although the Zhao family had

just risen up in Yinzhou, there were too many people who wanted to make friends with the Zhao family. Some people even privately said that in one or two years, the leading enterprise in Yinzhou might not be the Family Lin.

Originally, because of Danny Chow and Owen Zhao, the situation in the banquet hall was a competition between the two of them. The arrival of Sylvia directly changed the situation into a three-legged one. Many people came up and greeted Sylvia.

Sylvia had seen too many of this kind of scenes, so she had already been able to cope with them easily. She smiled and responded to everyone.

Henry walked to the side of the banquet hall, sat leisurely on a sofa, and picked up some pastries to eat.

While eating, Henry looked at the people in the banquet hall and listened to the

soothing music in the banquet hall. After forty minutes, Henry saw Sylvia walking toward him wearily.

Henry had experienced such a scene before, so he knew that she was tired of it.

"Dear, have you finished chatting?" Henry got up from the sofa, let Sylvia sit down, and then massaged Sylvia's shoulders.

Sylvia nodded.

"Honey, what kind of project are you doing this time? Why are there so many posters about technology here?" Henry pouted his lips at a poster in front of him. There was a spaceship drawn on the poster.

"It is a project supported by the government. Yinzhou been developing rapidly recently. As the capital city of Ning province, Yinzhou is behind in science and technology. This time, it is mainly to develop a large-scale technical centre in

the suburbs, and then build an experimental automatic residential area around it. Whether it is the construction of the centre or the experimental residential area, it is a good business, which is steadily profitable." Sylvia explained to Henry.

Henry nodded thoughtfully and asked, "What are you looking at this bid?"

"It's hard to say." Sylvia smiled bitterly. "It's hard to say who can win the bid this time. Even the authorities are not sure. It all depends on the experts. This time, they say that they are experts from the capital. If we can give them the greatest support, they will cooperate with us. This is the time to test the financial resources of each family. Of course, it depends on the expert's mood."

Henry nodded. "Understood."

If it was another bid, Henry could give

Sylvia an idea. But if it depended on the individual's mood, Henry could do nothing, unless he called Future. With the influence of Future, if she was willing to help the officials with the construction, it was estimated that the officials would cry with excitement.

Henry looked around and asked, "Honey, where is the expert?"

"I don't know." Sylvia shook her head. "We haven't even seen the expert. I only heard that the expert likes to play. This party is specially prepared for the expert."

"Likes to play?" Henry guessed that this was probably another person with outstanding abilities. Otherwise, who would give in to this expert's character?

Henry patted his chest and said, "Honey, when the bidding comes, we'll spend money on it. I'll invest it for you!"

"Your money is your money. I have the ability to make money. Why should I use your money?" Sylvia refused.

"Er..." Henry touched his nose. Sure enough, his wife was still strong.

Henry didn't mention this topic. He gave Sylvia a piece of cake and they sat down to chat.

"Oh, isn't this Sylvia? Are you also here to bid?" Bing Ke came over from the side with a group of people. Beside Bing, there was a beautiful woman dressed in gorgeous clothes. Judging from Bing's appearance and tone, it was obvious that he was looking for trouble.

Sylvia smiled and said, "If Bing Ke can attend this event, I don't see why my Lins Group should not be here, right?"

Bing nodded and said, "Lins Group isn't bad, but..."

Bing paused deliberately and looked at Henry. "Some people have made me very angry. This time, I'm afraid that Lins will need a lot of luck today."

After Bing said that, he glanced at the beautiful woman next to him. The woman understood and stepped forward. She looked at Sylvia and said, "You are Sylvia Lin, just so so!"

Chapter 368

The woman next to Bin came up and directly aimed at Sylvia. It seemed that Bing wanted to get revenge for the last time.

Sylvia glanced at the beauty and frowned slightly. She asked confusedly, "Who are you? Do I know you?"

When the woman heard Sylvia's words, her face suddenly changed.

"Haha, let me introduce her to you. This is Jodie Cheng." Bing said with a smile, with a strong sense of pride on his face.

Jodie held her hands in front of her chest. The Cheng family was absolutely in a high position in the whole Ning province. The three disciples of the old Master Cheng were the top leaders of the three major forces in Ning province. Although Will Ning

had fallen off the throne, this did not hinder the influence of the Cheng family at all.

Sylvia shook her head. "I haven't met her. I don't know."

Bing opened his mouth again. "Jodie just returned from studying abroad in the United States. It's normal that you haven't seen her."

Jodie looked sideways at Sylvia and said, "I've always heard that Sylvia Lin of the Family Lin is so great and excellent. Now it seems that she's just so-so. Yinzhou is too small. No capable person can compare with us in the United States. Look at you. Your clothes seem to be so expensive, but it looks like you're a nouveau riche."

In the face of Jodie's sarcasm, Sylvia acted as if she didn't hear it.

"Jodie Cheng, right?" Henry clenched his

right fist and waved his left hand. "Come here, I'll show you a treasure."

Sylvia pulled Henry's sleeve and said, "Honey, forget it. Don't make trouble."

Sylvia knew Henry's character. She knew that he was going to do something to her, so she stopped him in a hurry.

Henry nodded, looked at Jodie with warning eyes, and loosened his fist.

Jodie looked at Henry again and said, "Are you the son-in-law of the Family Lin? Are you a burden to the Family Lin? No wonder you are so anxious to show your loyalty in front of the Family Lin. In the end, you are just a servant!"

Henry looked at Jodie and shook his head. She was definitely an idiot. How could she be so proud of being used by others like this?

When Jodie saw that Henry and Sylvia

ignored her, she certainly would not let it go. She kept looking at Sylvia, trying to find some reason to provoke.

Today, Sylvia was wearing a decent black dress with infinite charm. Her hair was tied up, shining brightly, and her whole body was perfect. If we had to say that there was a flaw, it was the ring on Sylvia's ring finger.

The silver ring, like an aluminium circle, destroyed the overall beauty. This ring was a gift from Henry to Sylvia.

Jodie naturally fixed her eyes on the ring on Sylvia's hand.

"Hey, is this your wedding ring? It's so unique. Which factory gave you their raw materials?" Jodie covered her mouth and smiled. In the process of covering her mouth, she deliberately showed the ten-carat diamond ring on her right index finger.

This 10-carat diamond ring, under the light, was extremely dazzling, emitting multi-coloured brilliance.

"Oh, I'm so sorry." Jodie deliberately revealed the ring on her hand for a while, and then quickly put it away. "This ring was given to me by Bing. If it hurts you, it's my fault. I apologize to you."

Bing, standing aside, sneered and said loudly, "Henry, is this the wedding ring you gave to Sylvia? It really fits your identity as a real son-in-law. I'm afraid that it cost a lot of money for this type of silver."

As soon as Bing's voice fell, all the people he brought burst into laughter.

"The president of Lins Group wears a simple aluminum ring as her wedding ring. Hahaha, I guess that you are secretly laughed at by others."

"It's too funny. Look, this is the result of

finding a son-in-law."

"If I were to be someone's son-in-law, I would be too embarrassed to give this thing. You say how stingy this person is. The son-in-law that Lin's family hired also has a high monthly salary, right? Can't he buy a real gold if he can't afford that 10-carat ring?"

A burst of laughter attracted a lot of people's attention.

Owen Zhao, the head of Zhao's Group, came over and said, "An aluminium ring as a wedding ring? I'll have a good look at such an interesting thing. As a leading enterprise in Yinzhou, Lins Group is really extraordinary. President Lin, your husband can't afford a better ring. Why don't I buy you one for him? One million or ten million? Tell me."

As soon as Owen's voice fell, the people he brought with him also burst into laughter.

"Yes, President Zhao, buy her a ring. Do you want to have a midnight snack with President Zhao?"

Soon, the noise here attracted a lot of people's attention, and all the people in the banquet hall came over.

The wedding ring on Sylvia's right hand suddenly became a topic of discussion.

After all, the total assets of Lin's company had already passed ten billion. As president, Sylvia should not wear such a cheap thing even if it was a piece of ordinary jewellery, let alone a wedding ring.

Many people felt sorry for Sylvia. At the same time, they also felt sorry for Henry. Even if he was the son-in-law of the Family Lin, the Family Lin treated him well. Sylvia always took him wherever she went. If it were them, he would not only marry the president of the Family Lin, but also a woman of no status. With Sylvia's beauty,

he had to take care of her all the time.

Compared with Henry, Bing was so excellent that he bought a ring of more than three million yuan just after pursuing Jodie Cheng. Jodie didn't like it at all but she still put it on her index finger. She really didn't understand how Henry had the courage to give an aluminium ring.

Sylvia and Henry were sitting in the crowd, being pointed at by others. This feeling made Sylvia particularly uncomfortable. She never cared whether the ring Henry gave her was expensive or cheap. She liked it as long as it was given to her by Henry.

Sylvia also had a wedding ring. At that time, Nelson Lin had prepared it. Although it was not as exaggerated as ten carats, it was not as small as three carats. However, Sylvia never took it with her, because in her heart, the wedding ring had to be

meaningful. If there was no so-called meaning, diamonds were not as valuable as gold.

"Honey, let's go." Sylvia held Henry's hand generously. Even if today's bid hadn't been auctioned yet, she didn't care. It didn't matter. The key was that she didn't want to see Henry become the target of public criticism like this.

Hearing the sound of people around him, Henry didn't take it seriously at all. He let Sylvia hold his hand and walked out of the crowd.

Just as they were about to leave, there was a voice in the crowd.

"Get out of the way! Get out of the way, all of you! Hurry up!"

A woman in her thirties, wearing a pair of black-framed glasses, pushed the crowd away and walked up to Sylvia. Without

saying a word, she grabbed Sylvia's right hand and looked at it carefully. The woman's expression was particularly wonderful, from confusion to disbelief, and finally to shock.

Chapter 369

Sylvia felt extremely awkward to be caught by a woman like this. She wanted to pull her hand back, only to find that the other party grabbed her extremely tightly.

"It's real! It's incredible, it's incredible. How could this kind of thing be made into a ring?" The woman stared at Sylvia's hand. To be exact, it was the ring on Sylvia's hand, and she kept sighing.

The woman suddenly raised her head and looked at Sylvia. "Where did you get this ring?"

"My husband gave it to me." Sylvia looked at Henry.

At the same time, this woman also looked at Henry and kept nodding. "Great! Really great! Can this kind of thing be made into a ring? How much did you spend on this

technetium gold? Ten billion dollars? Twenty billion dollars?"

The words of this woman confused the people around her.

"Hey, Henry, what's wrong with you? Where did you find such an actress? Her acting is too frivolous, isn't it?" Bing sneered. "Is this ring worth more than 10 billion dollars? You're so funny!"

The woman with black-framed glasses turned around and glared at Bing. "If you don't understand, I don't blame you. Please don't mislead us here. You said that technetium gold was aluminium. Your ignorance should be laughed at!"

Bing smirked and said, "Don't pretend to be smart. I've never heard of it."

"Of course you haven't heard of it," the woman said matter-of-factly. "This kind of thing isn't something that everyone can

hear of!"

Bing's face darkened as he was scolded. Just as he was about to scold her, he heard a voice coming from the crowd.

"Professor Liu! Professor Liu!"

The voice came from outside the crowd and sounded very anxious.

"I'm here. Don't yell." The woman wearing black-framed glasses waved her hand.

The crowd was pushed away, and they saw a middle-aged man standing in front of the woman with an anxious face. "Professor Liu, you suddenly disappeared. You scared me to death!"

Seeing the middle-aged man, many onlookers welcomed Master Wong.

Master Wong was the one who brought the experts from the capital to choose the partners. Everyone was polite to him.

Master Wong waved his hand to the people around him and then said to the woman, "Professor Liu, these are all entrepreneurs from Yinzhou. You can talk to them and choose your partners."

Master Wong's words made Bing's face change. This woman was an expert from the capital? The super genius who claimed to be at the age of 30 and had PhDs?

Professor Liu ignored Master Wong and looked at the ring in Sylvia's hand again. "Can you show it to me?"

Sylvia didn't expect that this woman was an expert from the capital. Whether she could win the bid this time was up to others. After Professor Liu made this request, Sylvia took off the ring and handed it to her.

Professor Liu held the ring in her hand like a treasure and kept sighing. "It's really technetium gold! How generous it is to

make a ring from it! Wait! There are words on it? Is this engraved by your husband?"

Professor Liu widened his eyes and looked at Sylvia in shock.

Sylvia nodded and said, "Yes, he is not very romantic, so he could only engrave these five words."

Professor Liu shook her head. "If he isn't romantic, there is no romantic man in the world! He engraved words in technetium gold! In this world, your husband is the first person to do this kind of thing."

When the onlookers heard Professor Liu's words, they were all confused.

"Professor Liu, what exactly is this technetium gold you're talking about?"

"A rare metal," Professor Liu said with a heavy voice. "Look, the rare metal I mentioned doesn't refer to gold or some other metals. There is less than one cubic

metre of technetium gold in total in the whole world. Its value is unimaginable."

As soon as Professor Liu finished speaking, the crowd burst into an uproar. There was only one cubic metre in the world. How expensive was this? No wonder Professor Liu asked Henry just now. How much money did he spend on this ring? If it was really as rare as what Professor Liu had said, such a small piece of the ring was worth one billion dollars.

Bing's face was extremely ugly. He had just said loudly that this was the actor Henry had hired. He didn't expect that it was an expert from the capital. He had said that it was an aluminium ring, but in the end, there was less than one cubic meter of technetium gold in the world.

Professor Liu took the ring and said, "Technetium gold is the hardest metal known in the world. All countries want to

have one piece of it for research, but there is only so much of it in the world. Even if many countries want to own it, they can't do it. China once used rent one piece of it same size as this ring. One year's cost is one billion dollars."

Professor Liu's words shocked everyone once again. It was just a small piece for one billion dollars a year? This rent alone was equal to the total wealth of most people present!

All the people, including Sylvia, were stunned by this price.

Jodie's face was particularly ugly. She was just showing off her ten-carat diamond ring, worth more than three million yuan, but now she found that her diamond ring was not even as good as the ring on Sylvia's hand.

Professor Liu said again, "What I said is just the rent price. If you want to buy this

piece of technetium gold, unless there is a special channel, you can't buy it at all. This kind of metal, even if you use a laser, can't be completely cut. You need to grind it with a laser. The material and material resources consumed for grinding such a ring are simply unimaginable. The most important thing is that someone still engraved words on it!"

When Professor Liu saw engraved words, even she herself couldn't believe it. If she hadn't seen it with her own eyes, if someone told Professor Liu that one could engrave words on technetium gold, Professor Liu would think that the other side was crazy.

Even now, Professor Liu felt that she was crazy. She looked at Henry and said, "Can you tell me how you engraved the words on it?"

"It's very simple. Just grind it slowly."

Henry shrugged his shoulders.

Professor Liu listened to Henry's words and stared at him with her eyes. It took her a long time to spit out a word, "... awesome!"

Professor Liu's words completely refreshed the cognition of the people present. Those who had ridiculed Henry just now were so ashamed that they didn't even raise their heads and sneered at others with their ignorance. It was shameful to think about it.

Especially Bing and Jodie, as well as Owen, who had said that he was going to buy the diamond ring. At this moment, he only felt that his face turned blue and ugly to the extreme.

Sylvia blushed. She didn't expect that Henry's gift was so precious. At first, she thought it was just an ordinary aluminium ring. At this moment, she felt that she was

08:16 

the happiest woman in the world.

Chapter 370

Professor Liu was reluctant to give the ring made of technetium gold back to Sylvia.

Sylvia took the ring in her hand, but she didn't put it on for a long time.

"Why don't you wear it, dear?"

"This is a little too expensive." Sylvia looked at the ring in her hand. It was worth more than ten billion dollars, which was more expensive than the entire Lins Group!

Henry took the initiative to take the ring, grabbed Sylvia's tender hands, and put it on Sylvia's ring finger. "Honey, this is my gift for you. Don't care if it's expensive or not. You just need to wear it as an ordinary ring."

Sylvia looked at her ring finger and said, "That's what you say, but how can I take it

as an ordinary ring?"

"Haha, this is your problem." Henry gently tapped Sylvia's little head.

Sylvia reached out and touched the words on the surface of the ring, and her heart was full of sweetness.

Bing and his men quietly walked to the side and continued to stay here. It was just a shame.

Soon, they arrived at the theme of this dinner, which was to win the bid. Many companies took out their trump cards.

Since ancient times, every project with an official background had earned nothing but a lot of money. For this project, everyone had made a lot of effort.

However, the support that those small companies could provide was far from that of a large enterprise like Lins Group.

Sylvia promised that she could offer one billion yuan as a private research fund. All research laboratories and scientific research materials would be provided by Lins Group.

Lin's number of one billion caused ninety-nine percent of the people present to retreat.

One billion! Lins' plan this time was terrifyingly big.

Professor Liu nodded as she listened. She was very satisfied with the condition given by the Lins Group. This time, a large amount of money was needed to support scientific research. Of course, the more, the better.

Many people who came to bid thought in their hearts that this time, it was estimated that the Family Lin had it in the bag. In the end, how much could they make of this project at most? One billion? 1.2 billion? It

might even be less than one billion. Mrs Lin took great risks to invest one billion. If she did not make much money, she would lose a lot.

"This woman is really bold."

"If you let me to take charge of the Lins Group, I still wouldn't dare to say one billion yuan today."

Some people were discussing in private.

Sylvia looked at Professor Liu and said one billion yuan. She also thought about it for a long time. According to the professional assessment of Lin's professional team, this project was full of calculation, including raising the price of the surrounding land and the official subsidies. It was only 800 million yuan. One billion yuan was a big gamble.

This time, Sylvia not only wanted to make money, but more importantly, she wanted

to consolidate the name of the Lins Group. The appearance of the Zhao's Group had brought great pressure to the Lins Group. In this way, the prestige of the Lins Group would slowly disappear.

Sylvia was right. When she said the number of one billion, many people looked at her differently. The sudden rise of Zhao's company made most people feel that Lin's family would collapse at any time. But now, what Sylvia did told everyone that Lin's family would not collapse. There was still a gap between Zhao's family and Lin's!

Some people had even thought of the congratulatory words and were ready to congratulate Sylvia at any time. They wanted to congratulate her on winning this project.

"Our Zhao's Group is willing to invest two billion dollars." Owen Zhao's voice

suddenly sounded.

Two billion!

All the people present fixed their eyes on Owen at this moment. They were deliberately making trouble for Lins Group!

It would definitely be a loss to invest 2 billion yuan in this project!

Owen looked at Sylvia and looked at her provocatively.

The people in charge of the small companies felt the atmosphere between Owen and Sylvia. They were shocked. This was the battle between the big bosses. They had spent billions of dollars every time they fought. They just wanted to win.

Sylvia didn't look good. She didn't expect that Zhao Enterprise would actually invest two billion yuan. Even if the project was completed, they would lose one billion yuan. Was this one billion yuan used just to

suppress her?

Owen's way of doing this once again made everyone feel the rich funds of Zhao Enterprise.

"The funds are okay. About the research..." Master Wong glanced at Owen. This project not only needed funds but also needed professional talents to cooperate.

"In terms of research, our QZ Group will be responsible for it." Bing suddenly stood up. "Our QZ Group will collaborate with Zhao's Group and jointly take responsibility for this project."

After Bing finished speaking, he looked at Sylvia proudly.

This kind of thing caused an uproar among the people present.

In the beginning, everyone thought that the QZ Group and the Zhao Family, including the Chows' and the Lin's, would

fight to the death this time. But now they found that the Zhao and the QZ had reached an agreement that they wanted to squeeze the Lin's together!

If these two groups were really determined to suppress Lins Group, then Lins Group's building was in jeopardy.

Even Sylvia didn't expect that Zhao Enterprise and QZ would unite. This was completely a way of playing without thinking of consequences. She just wanted to make Lin Enterprises unable to survive.

Two billion yuan was absolutely too much for Sylvia now.

"President Lin, what should we do?" Cathy stood beside Sylvia and asked anxiously.

Sylvia shook her head and said, "Let it go. There's no point in fighting for it."

"Er..." Cathy's face was full of unwillingness.

Owen looked at the expression on Sylvia's face and said with a smile, "Sylvia, don't give up. How much is the ring on your hand? Why don't you ask your husband to invest more money? What do you think?"

Owen's action seemed normal, but in fact, it pushed Sylvia into a desperate situation. Whether Sylvia invested a billion yuan or the Zhao's invested the two billion yuan, the two groups were no longer relying on this project to make money, but to establish their prestige. Now, the effect of the establishment of the Zhao family had been achieved. If the Family Lin continued to invest more than two billion yuan, it would be difficult to play a role in establishing its prestige in the eyes of outsiders. After all, the suppression of the Zhao family was directly doubled. If the Family Lin wanted to continue, it would have to increase its funds by two billion yuan. Otherwise, it would not be effective at all.

But if the Family Lin really wanted to take over the project with 3 billion yuan, everyone would only think that the Family Lin was forcing themselves to do so. In order to establish their prestige, they had to invest 2 billion yuan more. This was a stupid thing.

It could be said that Owen's choice for the two billion yuan was just right, and it was not a lot.

Owen raised his eyebrows to Sylvia and said, "How about it, President Lin? I've doubled the price you offered. Do you dare to double my price? I, Owen Zhao, put it here. If you dare to double it, I dare to follow!"
